

TOWN OF LUNENBURG

ANNUAL REPORT FOR FISCAL YEAR 2019

IN MEMORIAM

Paul Joseph Doherty, 64, May 14, 2019

Paul was a fixture in the tri-city area as he currently served on the Lunenburg Zoning Board and the Leominster Housing Board. Paul had the self-proclaimed "gift of gab" and would strike up a conversation with anyone in ear shot and quickly endeared himself to complete strangers. Paul was a very kind and considerate soul who would take the time to help anyone in need and always find a solution to a problem no matter how complex. Paul will truly be missed by all that loved him and all that he loved and will be forever in his family's hearts and minds.

Helen D. "Denise" Galloway, 65, June 10, 2019

For over 23 years, Denise worked for the Lunenburg Public Schools. She worked in the library at Turkey Hill and was the administrative secretary at the former T.C. Passios and Lunenburg Primary. To many, Denise was the first person parents spoke with when enrolling their children in school. She will be remembered for her kind heart and the way she could reassure even the most nervous new students. She greeted everyone with a warm and welcoming smile. To all who knew and loved Denise, she will be deeply missed.

Catherine "Catie" Keefer, 40 June 14, 2019

Catie along with her sister owned and operated a daycare in Lunenburg for several years. She was a lifeguard and swim instructor at the Lunenburg Town Beach in the summer months. She was also very active in Lunenburg Youth Soccer for many years as a coach and a parent. Some of her favorite things were going to the ocean whenever possible, her lime green Jeep Wrangler, annual trips to Disney World and Gettysburg, PA. The most important people to her were her two sons, and her family.

Janice P. (Davies) Carrier, 75, September 9, 2019

Jan worked as the Administrative Assistant for the Conservation Commission. She retired from the position that she loved in December 2015. Jan loved her community and demonstrated that through her service to the same. Whether serving on building committees, the Cemetery Commission, the Historical Society, the Caucus Committee or any of several other groups, she always had something to give. She was a dedicated member and former secretary of the Lunenburg Turkey Hills Family Lions Club. She served as Lunenburg's Election Warden for over 45 years, and was usually the first face you would see in the lobby upon entering to cast your ballot. Jan enjoyed spending time out and about with friends and family. Her children and grandchildren meant the world to her.

Patrick Michael Barney, 41, October 5, 2019

Patrick was appointed as a Reserve Officer at the Lunenburg Police Department July 1, 2000 and became a full-time Officer on January 13, 2002. He was a Squad Leader when he graduated from the Massachusetts Police Corps. He always hoped that Lunenburg would initiate a canine force as he loved animals, especially his dachshund, Sable. After a critical incident in 2006, Pat developed PTSD and as a result retired from the Police Department on August 8, 2012. Patrick then lived between Massachusetts and Florida. Patrick had a joyous smile, infectious laugh and was always willing to help others. Even in his death, he donated his organs so that others could enjoy life.

LUNENBURG PROFILE

YEAR INCORPORATED- 1728

REGISTERED VOTERS-7870

FY'19 TAX RATE-\$18.68

OPEN TOWN MEETING GOVERNMENT- FIVE MEMBER BOARD OF SELECTMEN

ANNUAL TOWN MEETING- 1ST SATURDAY IN MAY

ANNUAL TOWN ELECTION- 3RD SATURDAY IN MAY

AREA- 26.63 SQUARE MILES

ROAD MILES- ABOUT 100

Lunenburg was settled in 1718 and incorporated in 1728. It occupies a land area of approximately 26.4 square miles. Lunenburg is located in north central Massachusetts approximately 43 miles from Boston. It is bordered on the west by the Town of Ashby and the City of Fitchburg, on the south by the Town of Lancaster and the City of Leominster, on the east by the Town of Shirley, and on the north by the Town of Townsend.

Local legislative decisions are made by an open town meeting consisting of all registered voters in the town. Subject to the legislative decisions made by town meeting, the affairs of the town are generally administered by a five member Board of Selectmen and a Town Manager. Local school affairs are administered by an elected seven member School Committee while local taxes are assessed by a three member Board of Assessors, all are appointed on an at-large basis for staggered three-year terms.

Lunenburg is a semi-rural community located in northern Worcester County. Three water bodies account for somewhat of a clustered approach to the town's historical development. Lake Whalom and the former Whalom Amusement Park delineated the Whalom District from the remainder of Lunenburg. This district was developed as a housing base for many factory workers working in the mills and factories of Leominster and Fitchburg. In many ways the characteristics of the Whalom District more closely reflect characteristics of these cities than of the rest of Lunenburg. The Hickory Hills area of town, around Hickory Hills Lake, was developed as a private community comprised largely of vacation cottages. The third body of water is Shirley Reservoir, a public water body also developed with mainly vacation cottages that have now been modified to year-round residences. Commercial and industrial development is permitted in several areas of town, primarily along the two major arteries (Routes 2A and 13), and the town's peripheries, due largely to the close proximity of Leominster's and Fitchburg's sewer and water systems. Although many farms and orchards had slowly developed into single family housing, farming continues on in Lunenburg.

ADMINISTRATION

REPORT OF THE TOWN MANAGER

Each year that I sit down to write this report I pour over the minutes of the previous year to recollect all of the achievements we were able to complete. Some may think the wheels of government turn slowly, but for those of us that have chosen local government as our careers and know the various steps and stakeholders involved to get things done, it is amazing all that we are able to accomplish. The calendar year of 2019 was no exception. The Town Manager and Board of Selectmen continue to work hard on serving the best interests of the Town and providing a high level of services while remaining fiscally responsible to the taxpayers. During 2019 there were many topics addressed and accomplishments to highlight:

- As part of the annual goal setting process, the Selectmen reviewed their goals from FY19 and formalized their goals for FY20. The goals the Board identified for FY2019 included identifying, defining, discussing, and finalizing the criteria to be used in determining the use and/or re-use of the Town Hall, Ritter, old Primary, Brooks House, and TC Passios and to propose at least one project to the 2020 Annual Town Meeting regarding the use and/or reuse of the old Primary School. The Board identified the criteria used in determining the use and/or re-use of the aforementioned buildings in the fall of 2019 and discussed the future use of the old Primary throughout the year and continued to narrow down the focus for the future use of this building into 2020.
- The Town Manager's goals included developing and implementing steps towards the redevelopment/reuse of 925 Massachusetts Avenue, implementation of a recycling contamination enforcement program, and planning/implementing accessibility improvements.
- There were multiple projects that addressed accessibility at various town facilities, town property, and public rights of way throughout the year. In January the Town Manager announced receipt of an ADA Project Grant from MA Office on Disability for \$7,500 for accessibility improvements to the Lane, Cowdrey, and Small Town Forest properties. Also in January the Veterans Service Office was relocated from the Eagle House to the Ritter Memorial Building to be more accessible for veterans as the previous office was located on a second floor without a handicap lift so the Veterans Officer was relocated to the Ritter Memorial Building lower level that has a lift. The Town Manager coordinated the use of Montachusett Technical students to renovate the second floor Town Hall restroom to become a handicapped accessible bathroom and this was started in February and completed by May. In March the Town Manager applied for and ultimately received a District Local Technical Assistance grant to update the Town's ADA Self-Evaluation and Transition Plan. The Town was one of three communities that participated in a Public Rights of Way study through our regional planning agency that used a consultant to review the town's sidewalks, ramps, and other ADA requirements. Around June the handicapped parking spot at Town Hall was moved from an uneven brick sidewalk to a concrete level spot, the chairlift door at Town Hall was fixed, and the uneven granite steps at the Ritter Memorial Building were repaired.

- In June the Town Manager applied for and received the Recycling IQ Kit Grant, which provided funding for educational materials and funds to hire Recycling Inspectors to do curbside checks of recycling bins in order to reduce the town's contamination rate. The nine week program targeted the areas in town with higher contamination rates and focused on educating the public on what materials can and cannot be recycled. At the conclusion of the program, the town's contamination rate was cut by twenty percent.
- The redevelopment and/or reuse of 925 Massachusetts Avenue, an old vacant gas station with potential environmental hazards, has been a property the Town has sought to clean-up for over a decade but due to the unknown environmental hazards have not taken the property for back taxes so that the onus of the potential clean-up costs was not borne by the Town. After much research and consultation with the State and legal counsel, we were able to gain an Administrative Search Warrant that gave the Town the ability to apply for grant funding to perform an environmental assessment and right to access the property for the inspection and sampling needed. In September the Court granted the Administrative Search Warrant and the Town Manager submitted a Brownfields Site Assessment Grant through Montachusett Regional Planning Agency for the costs of the environmental site assessment, which was approved. The environmental site assessment is expected to be complete by the summer of 2020 and the project will be eligible for clean-up costs through MassDevelopment.
- In the fall of 2019 the Town Manager worked with a consultant to apply for grant funding through the Municipal Vulnerability Preparedness (MVP) Program, which provides support for cities and towns to plan for climate change and implement key adaptation actions for resiliency. The planning grant applied for is a necessary step in order to apply for construction costs to implement projects that are identified during the planning phase. In 2020, the Town was notified we received this grant.
- After successfully applying for District Local Technical Assistance from our regional planning agency to create a business brochure and create a permitting guidebook, both were completed in January. The Business Brochure was created with assistance from the Lunenburg Business Association and Land Use Director in an effort to highlight the town's natural resources and increase awareness of these locations to residents who many not know where public access to trails and conservation lands are located. The Permitting Guidebooks was created to assist customers with projects of any type and scale to simplify how they can file permits. Another project that was applied for and received through our regional planning agency was for a Walkability and Parking Study. This study focused on traffic data, crash data, an inventory of bike and pedestrian infrastructure for the Main Street area and Whalom Lakefront area. The report was finalized in November and identified a number of recommendations to address improving the walkability and parking in both the Main Street and Whalom area.

- The Town Manager, DPW Director, and engineering firm WorldTech presented a proposal to the Selectmen for a Tier 3 Complete Streets application that the Board agreed to submit to MassDOT for Tier 3 funding totaling \$258,000 in September of 2019. This application, which included improvements to the Main Street area, Memorial Drive, and the Main Street/Oak Avenue intersection. The Town received notification it was awarded \$258,000 in January of 2020.
- The future of town facilities continued to be a theme in 2019. Each month a workshop was held with different stakeholders that would be affected by decisions relative to the future of the TC Passios, old Primary Building, Ritter Memorial, Town Hall, and the Brooks House. On January 15th the Selectmen had a joint meeting with the Architectural Preservation District Commission, Historical Commission, and Historical Society to discuss their concerns regarding the condition of the old Primary School and future of the building. At the conclusion of the meeting, Chairman Jamie Toale stated the goal of the Board was to ask town meeting for funding for detailed plans for the TC Passios so that an actual cost to move town offices there would be known. In February the Board met with the Conservation Commission, Open Space, and the Parks Commission to discuss the plan to use TC Passios for municipal office space, school central offices, and community space. In March the Board met with the Public Access Cable Committee and town employees to hear their input on consolidating town offices at the TC Passios building. In May the Board met with another group of stakeholders including the Council on Aging members, COA Director, Library Trustees, Library Director, and Teen Center personnel. In September the Board met with the Architectural Preservation District Committee to discuss the old Primary building and the Brooks House, in terms of future use and how this aligned with the regulations under the APDC Bylaw. In November the Board conducted a survey of potential uses for the old Primary School that was handed out at the Special Town Meeting and the town meeting also included a non-binding vote on the demolition of the old Primary School. The Board continues to discuss this goal and move forward on a potential re-use.
- On January 22nd our legislators, Senator Tran, Representative Benson and Representative Hay came before the board to announce the \$130,000 state earmark for abatement of asbestos at the Turkey Hill Elementary School.
- In March the Town partnered with the solar company Nexamp to promote their community solar program to Lunenburg residents for discounted electricity. The program was so successful it reached its cap and had a waiting list. Later in the year, Nexamp secured another solar location that enabled those on the waiting list to take advantage of these discounts.
- In March the Selectmen created the Land Acquisition Committee to examine and negotiate the purchase of land to be used for conservation and recreation purposes at 994 Northfield Road. Ultimately, the Committee was successful in negotiating a price of \$775,000, which was below the appraised value and secured \$500,000 in grant funds towards the purchase of land to be used for conservation and recreations purposes at 994 Northfield Road. Town meeting approved the purchase of land at the November 2019 Special Town Meeting.

- The Town Manager presented a balanced budget for Fiscal Year 2020 to the Finance Committee and Selectmen in mid-February. Part of the Town Manager's recommendation was to continue to fund the Other Post-Employment Benefits Trust Fund for the unfunded liability of retiree health insurance in the amount of \$150,000, continue funding the Special Purpose Stabilization Account for known large capital items in the amount of \$200,000, and fund the regular Stabilization fund in the amount of \$100,000. The FY2020 budget also included the hiring of an additional Full-Time Patrolman, addressed the need for increased Overtime costs for the Fire Department, a part-time Recreation Director, and Assistant Town Manager/HR Director. The Annual Town Meeting was held on Saturday, May 4th and approved a total budget for FY20 of \$38,058,164.30.
- This year was another incredible year for road projects in Lunenburg. Besides the continuation of the \$4M Pavement Management Plan on local roads, the Town was the recipient of a Small Bridge Grant that was originally applied for in June of 2017 in the amount of \$379,000 to reconstruct the Pleasant Street Bridge over Pearl Hill Brook. The project requires design work phases that must be approved by MassDOT as part of the process. The project is expected to be complete by the spring of 2022. The DPW also undertook culvert repairs on Northfield Road and Sunset Lane and repairs to the Townsend Harbor Bridge. The Summer Street Road Reconstruction project that was awarded in 2018 was substantially complete by the fall of 2019.
- The Town had begun the process of becoming a Dementia Friendly community in the latter half of 2018 and had a kick-off event in June of 2019. The Dementia Friendly Action group had a lot of success in a short amount of time and the initiatives they undertook were modeled by other communities.
- As part of the Town Manager's Goals for FY19, the Town Manager completed an Employee Handbook and Procurement Manual. The Employee Handbook codified the town's hiring process, personnel policies and practices and the Procurement Manual provided written procedures for town departments for proper procurement of supplies, services, and construction projects. The Board adopted a Reimbursement Policy. The Selectmen and the Town Manager made their annual appointments in June for FY 2020.
- In July, as part of an annual review of the Selectmen's Policies and Procedures, the Town Manager presented various updates to the Board's Manual including a revised Recycling Policy, Public Comment Policy, Chapter 61 Policy, among other minor revisions to other policies. The Board also adopted a new Social Media policy.
- In October the Town Manager, the School Superintendent, and the Land Use Director held a Symposium to discuss the historical growth patterns and projected future growth/development and how this would impact Town and School services and needs. Some of the patterns that were evident from the data was there would be a steady growth in the gaining population in Lunenburg, a rise in racial and ethnic diversity, the need for increased staffing and the need for additional space for added staff.

- The Town Manager presented a finalized Police Union agreement to the Board for a three year agreement in the fall that equated to a zero dollar impact to Fiscal Year 2020, mainly due to attrition in the Police Department during Fiscal Year 2020. The agreement included a 2.5% COLA for year one, 2% for year two, and 2% for year three and increased the educational incentive over three years. The costs for year two were estimated at \$81,000 and year three costs were estimated at \$74,000, with the total cost of the agreement to \$139,000.
- The Special Town Meeting in November included a number of articles such as amending the FY 2019 budget to capture additional tax growth, transferred available funds into the Special Purpose Stabilization account, the acquisition of property on Northfield Road for conservation and recreation purposes, by-laws changes, and two Home Rule petitions for additional liquor licenses.
- In December, the Board approved all the annual liquor licenses, common victualler, weekday entertainment, automatic amusement, jukebox, and motor vehicle licenses. Throughout the year, the Board reviewed Earth Removal permits, liquor license transfers, Special Event permit requests, flammable storage licenses, pole petitions, tollbooth requests, and held Dangerous Dog hearings.

As of writing this report, it has been three and a half years since I was appointed your Town Manager and it is a responsibility that I take very seriously. The residents of Lunenburg demonstrate the true meaning of community that I have witnessed in various acts, whether it be supporting our local businesses, non-profit groups raising funds for those in need, or words of gratitude for our public safety and public works departments. I have the privilege of working with many talented individuals that are committed to helping the residents and business owners of Lunenburg and are consistently looking for ways to better serve the public. The accomplishments noted above, among the numerous day-to-day responsibilities, could not happen without the cooperation of dedicated staff, appointed, and elected officials that make the wheels of town government turn. Thank you to my Executive Assistant, Elaine Peterson and Assistant Town Manager Julie Belliveau for all your hard work and keeping the office running smoothly. I would also like to thank the committee and board members, department heads and staff for the high level of service they provide to the residents of town. Specifically, I would like to express gratitude to the department heads that lead our various departments: James Marino, Police Chief; Patrick Sullivan, Fire Chief; Jack Rodriquenz, DPW Director; Karen Brochu, Town Accountant/Finance Director; Myleen Mallari, Treasurer/Collector; Louise Paquette, Assessors; Steve Malandrinos, IT Director; Adam Burney, Land Use Director; Sue Doherty, COA Director; Muir Haman, Library Director; Kathy Herrick, Town Clerk; and all their staff for their talent and working together to make our town run as efficiently as possible. Lastly, thank you to the residents and businesses that make Lunenburg a wonderful place to visit, work, and live.

Respectfully submitted,
 Heather R. Lemieux
 Town Manager

TOWN SERVICES

ARCHITECTURAL PRESERVATION DISTRICT COMMISSION

Officers Elected: Chair- Richard McGrath,
Vice-Chair Jim LaVeck,
Clerk– Cullen Dwyer

Member– Brian Corcoran

In 2019, the APDC inspected the Old Primary School and pursued ongoing efforts to preserve the structure. Through various meetings and letters, the Town Manager and Select Board were told that the building was in a process of Demolition by Neglect, that it was their responsibility to maintain the building, and that through inaction the town was in violation of the APD bylaw. Outside funding was sought to arrest the deterioration.

Negotiations with the Select Board raised the question of how buildings were determined to be in Demolition by Neglect, and if notices of violation were applied evenly. To address the issue, Vice-Chair LaVeck drafted a procedure to review the complete inventory of historic buildings in the APD on a semi-annual basis.

Neglect of the Brooks House was also a concern. By town meeting vote, the Town Manager was authorized to sell the structure and have it moved to some other location. As this resolution was contrary to the APDC's mission, various town entities were contacted to begin crafting an alternate solution that would preserve the building in its present location.

LaVeck had noted a type setting error when the APD bylaw was submitted to the State Attorney General's office for ratification.

The error omitted certain portions of the bylaw's text, including the definition of Demolition by Neglect. The Select Board assured the APDC that the error would not affect the application of the bylaw, while the Town Manager endeavored to correct the error.

Chairman McGrath led the effort to design and order new road signs to mark the APD, which will be installed by the Lunenburg DPW.

The APDC reviewed and approved several Certificates to Alter, including:

136 Leominster Road- replacement of siding and trim

876 Massachusetts Avenue- re-roof of barn

92 Leominster Road- re-roof of house

909 Massachusetts Avenue (Harley House)- renovation of porch and certain windows and doors.

An administrative review was also conducted for Dawn Marshall at 42 Main Street (Captain Jones House) for the construction of an apartment in the barn.

Cullen Dwyer, Clerk

Lunenburg APDC

BUILDING DEPARTMENT

The Building Department is located on the second floor of the Ritter Memorial Building located at 960 Massachusetts Avenue. The Building Department consists of the following personnel. Casey Burlingame serves as the Building Commissioner as well as the Zoning Officer. Lisa Normandin serves as the Administrative Assistant to the Building Department, as well as the Zoning Board of Appeals Administrative Assistant. Jack Biery serves as the Wiring Inspector. Gary Williams serves as the Plumbing Inspector and Gas Inspector. The purpose of the Building Department is to ensure State regulations and Codes are being met as well as local bylaws. This includes new construction, alterations, additions, remodels and annual inspections of certain public use groups such as restaurants, churches, bars, daycares, meeting halls, schools, and others.

Building Permits for fiscal year 2019 are as follows:

120 gas permits

122 plumbing permits

248 electrical permits

461 building permits, including driveway, mechanical, and fire suppression permits

951 total permits issued

The state of Massachusetts continues to follow a group of International Codes amended by each state. These codes cover a variety of building elements from mechanical systems, energy conservation, primary building practices, installation of fire suppression systems, and others. Currently we are in the 9th edition of 780 CMR, the Massachusetts State Building Code.

In addition to the Building Codes and Zoning Bylaws, the Building Department also assists the Town Clerk with Business Certificates. This is achieved by way of a "Form of Intent". This form is used to ensure local bylaws are met by the applicant. Once the form is completed by the Building Department, a Business Certificate can be applied for at the Town Clerk's office.

All applications for new work requiring permits are available online through the Town website. The Building Department continues to use ViewPoint online permitting. Paper applications are available at the Building Department office as well.

Casey J. Burlingame

Building Commissioner/Zoning Officer

CEMETERY COMMISSION

The Cemetery Commission and Superintendent Todd Holman met throughout the year to discuss cemetery business. Last year construction began on the new garage/storage facility by the students from Monty Tech's masonry classes and the carpentry class will resume construction in the spring of 2020.

The Commissioners would like to thank the following people and businesses whose help was invaluable during the year.

- Students and instructors Dick Demers and Jake Proctor for the block walls of the garage
- Mike McAllister of Concrete Works for the garage floor
- George Reichard for his generous donation of granite posts and signage for both Cemeteries
- The Lunenburg Memorial Fund and Lakeview Nurseries for donation and planting of 1 Colorado Blue Spruce in the North Cemetery
- Robert Ullo for his assistance in plowing snow from the entrance to South Cemetery
- Sgt. Steve Salavardos and inmates from the Worcester County Sheriff's Community Service Program for help in the spring and fall cleanup at both cemeteries
- Leominster Monument for their continued assistance whenever it is needed

The Cemetery Commission maintains an online mapping system for both North and South Cemeteries that can be found at www.burialsearch.com

Respectfully Submitted,

William Tyler, Chairman

Lorraine Mendoza, Vice-Chairman

Nancy Foss- Yasko, Clerk

CONSERVATION COMMISSION

The Town of Lunenburg Conservation Commission is a seven-member commission, appointed to 3-year terms by the Board of Selectmen, whose duties are codified under the Conservation Commission Act MGL chapter 40 § 8C. The Commission enforces the Massachusetts Wetland Protection Act MGL chapter 131 § 40 and Chapter 239 of the local bylaws for the protection of wetlands.

The year 2019 was as last year, one of a very busy and active agenda containing both public hearings and meetings for a wide range of projects from commercial development, subdivisions and small single family upkeep projects and larger scale industrial/commercial proposals along the Electric Avenue section of Lunenburg. The Conservation Commission worked to spell out goals of preparing to use the year 2020 to work on clarifying the land use policy to provide consistency with the original bylaw and to find those sections that may be now out of date and need to be modified. This effort is estimated to be completed by summer of 2020. The Conservation Commission completed revisions to the local wetland regulations which are now in effect and were presented to the Town Clerk for posting.

The Commission also held numerous inspections with the Commission Administrator on weekends prior to meetings to familiarize themselves with the upcoming proposals that would appear on their agenda. The Commission continues to work with the Town on familiarizing itself with the upcoming storm water mandates from the EPA and working towards compliance both by procedure and with any necessary codification as well as aiding with the community Notice of Intent to the EPA under the "MS4" regulations.

The Conservation Commission implemented its forest stewardship planning after receiving grants continuing the efforts outlined in last year's annual report. These stewardship plans, adding the Hollis Road property, is oriented for enhancing bird wildlife habitat in conjunction with the Mass Audubon Society as part of the DCR "Forestry for the Birds" and will aid the Commission in implementing environmental management plans which include timber stand management. The Commission retained Gary Gouldrup of New England Forestry Consultants, a noted forester with many years of experience working in Lunenburg and all of the adjacent towns/cities in this region serving those communities and private landowners. The Conservation Commission also held public recreational walks through its open space parcels and plans to continue to do so. The Commission has, and continues to hold public forums on the implementation of its open space policies and timber-stand management. As a result of some of the meetings and forums held, the Commission continues to apply for and receive funding from the Commonwealth to author stewardship plans for our Conservation Areas.

Copies of the current environmental stewardship plans are available on the Conservation Commission website at: <http://www.lunenburgma.gov/content/204/222/default.aspx>

This past year, the Commission successfully completed the collection of a single \$11,000 fine for wetland violations on one single property. Aside from the collection of the fine, the Commission ordered and oversaw the successful remediation of the wetland resource areas being restored to pre-alteration condition.

The Commission has also completed the successful implementation of the installation of handicap parking and handicap accessible trails at the Small Town Forest, Cowdrey and Lane Properties. The funding was provided by a grant from the Mass Office on Disability.

The Commission has also continued to work closely with Lake Shirley and Hickory Hills in the implementation of their management plans becoming actively involved in continuation of formulating updates designed to give a better picture of the overall health of the ecosystems and the various ways to ensure continued protection of these valuable resources.

The Commission thanks all the town agencies for a great year and looks forward to many more!

Respectfully Submitted,

Richard Bursch, Chair

Todd Dwyer, Vice-Chair

Bob Pease, Carl Luck, Jack Rabbitt, Kenneth Jones, Catie Childs

Matthew S. Marro, Conservation Administrator

COUNCIL ON AGING **FY19**

The mission of the Council on Aging is to advocate for the improved quality of life for all seniors through supportive services, programs and education. Councils on Aging were established under Massachusetts General Law Chapter 40, section 8B, to include setting policy for the administration of elder programs or services and to develop, coordinate and conduct such activities which advocate for elder issues.

The FY19 Council on Aging staff consisted of Susan Doherty, Director; Amanda Koeck, Administrative Assistant and Transportation; Pauline Roy, Outreach Coordinator; Sandra Ricci, Meal Site Coordinator; Judy Alario and Elsa Watson, Meal Site Assistants; Jim McGuigan, Paul Grunditz, and James Barrett, MART Van Drivers.

The Council on Aging Board is an eleven member board appointed to 3 year terms by the Lunenburg Board of Selectmen. The FY19 Council on Aging Board members were; Chairperson Pete Lincoln, Vice-Chairperson Jacquelyn Dwyer, Betty DiGiacomo, Sarah Grant, Brian Guenard, Deb Lincoln, Kevin McNally, Cheryl Moisan, Diane Nowd, Jane Rabbitt, and Judith Tarbell.

The Town budget alone does not support this senior center. Other sources of funding are the Eagle House Supporters Inc., a non-profit 501c3 group, Formula Grant funding from the Commonwealth of Massachusetts, and Montachusett Regional Transit Authority.

We are very lucky to have a large volunteer force at the Eagle House. In FY19 we had 57 volunteers who contributed 2,452.75 hours of their time to help us out by doing things such as driving for the meals on wheels program, program leaders, kitchen helpers, Memory Café, office help, library, and friendly visitors. We greatly appreciate their service.

The Eagle House offers a variety of programs, such as health and wellness, arts and crafts, intergenerational, bocce, shuffle board, cards and games, cultural, information and referral, Memory Café and social events both at the senior center and offsite.

There were approximately 978 people who utilized the senior center in FY19. Those 978 people compiled 28,764 units of duplicated service by participating in the programs listed above.

In FY19 the Council on Aging delivered 4,319 Meals on Wheels to 46 clients and provided 2,964 rides to 71 clients on our senior van.

We are very fortunate to have a Town Government that supports our center and understands the importance of supporting the Council on Aging to maintain quality services for our elders.

Special thanks go to our 501c3 fundraising group, Eagle House Supporters Inc. This group provides funding for new living room furniture, office/kitchen supplies, various programs & entertainment, garden upkeep and spring mulch at the Eagle House Senior Community Center. Also special thanks to all of our outside agencies for donating time and programming to our clients.

The Lunenburg Council on Aging newsletter lists current events and is available for you online at www.ourseniorcenter.com or you can pick up a copy at the Eagle House Senior Community Center, Town Hall, Library, Post Office, local churches and various businesses throughout the community.

DEPARTMENT OF PUBLIC WORKS

The Department of Public Works combines the resources of the Highway, Parks, Cemetery, Sewer, and Facilities divisions and Vehicle Maintenance services into one department organizing and scheduling personnel and equipment to best serve the residents of the community through the effective delivery of an extensive scope of services with a high degree of efficiency.

"The mission of the Department of Public Works is to protect, preserve, and improve the Town's infrastructure and related assets in a manner which meets and exceeds the current and future social and economic needs of the community, to contribute to a healthy, safe and quality environment for the Town's residents and visitors, and to provide a cost effective and environmentally sound means of disposing of solid waste and wastewater."

DEPARTMENT PHILOSOPHY

Honesty and integrity are absolutes. They characterize the only forum in which anything worthwhile can be accomplished.

Efficiency: Make every effort to proceed correctly the first time. It may take a bit longer but will not require repeated attempts.

Loyalty up and down the chain of command is essential to success.

Every employee is essential. Those at the top are support people. The real work is done by the men and women who drive the trucks, operate the equipment, turn the wrenches, and provide a seamless flow of paperwork.

DEPARTMENTAL OBJECTIVES

Public Works staff is either working or on call twenty-four hours a day, three hundred and sixty-five days a year, prepared to respond to any weather, infrastructure, roadway, or facility related emergency that may arise.

We strive to enhance the awareness of the value Public Works provides to our Town, and ensure others are aware of our contribution. This is not for an expectation of praise, but rather to make sure efforts are not dismissed as they merge into the fabric of our everyday expectation of service.

Major events, particularly in the form of devastating storms, over the past years have highlighted the fact that Public Works has a seat at the table and is a major player in emergency management as first responders. Town Officials, Police, and Fire acknowledge that Public Works is critical in order to facilitate the required services of others. We must continue to build on this awareness.

This department must reach out to the public we serve, continuing to make them aware of the fact that the common services they receive do not just happen, but rather are the efforts of a dedicated staff of individuals, service companies, and vendors. Safe roadways, wastewater control, solid waste collection and recycling operations, tree removal, storm water management, grounds maintenance, winter snow and ice removal, cemeteries and parks are necessary services supporting everyone in the community.

We will continue to engage the public in order to set reasonable expectations and gather support for annual budget requests, capital requests, and specific projects.

DEPARTMENTAL GOALS

- Continue to coordinate administrative directives with the activities of all public service departments and organizations within the DPW to improve service levels. Strive always for a higher level of efficiency.
- Coordinate with those who work daily in Town facilities to best prioritize capital improvements. DPW plays a major role in the enhancement of the work environment of all Town employees.
- Increase involvement with our insurance provider to make better use of available resources in an effort to obtain credits toward lessening premiums. Safety is our first concern.
- Set realistic expectations. Make clear through public education that due to limited resources, particularly in the area of personnel, the level of service provided by Public Works is not always optimal.
- Work diligently to establish and maintain a high level of courteous communication and interaction between members of all boards and commission.
- Establish a comprehensive evaluation of bridges and culverts, and prioritize by condition, use, and value a plan for rehabilitation

PAVEMENT MANAGEMENT

It had become a high priority goal of the Board of Selectmen as Road Commissioners, to achieve a pavement condition of 72%-75% town-wide. While state-supported Chapter 90 funds remain stagnant, the dedicated Pavement Management line in the operational budget has grown substantially. Additionally, with the infusion of funds facilitated by a four million dollar debt exclusion supported by residents, the Comprehensive Pavement Management Plan has been hugely successful providing smooth and safe transportation for our residents and all those travelling through our community.

The debt exclusion funding combined with state and operational funds has nearly tripled the total paving value of years past as we attack a nine million dollar backlog of repairs.

Time spent addressing potholes and other roadway deficiencies diminish exponentially as new paving increases. A clear benefit of the dollars expended. There is much work yet to do but expectations are high.

The Summer Street project burst into full development after many years of aggressive lobbying by this department, Town officials and members of our legislative branch. As of this writing, the ten million dollar rehabilitation of sub-surface utilities and total reconstruction of the roadway from Leominster to John Fitch Highway in Fitchburg is complete. This represents the single largest roadway project in the history of the Town of Lunenburg.

In addition, funding has been procured for the reconstruction of the Pleasant St. Bridge through the State's Small Bridge program. We have also been awarded a grant to enhance the "walkability" in town center by way of a successful application to the Complete Streets Design Committee and the Office of the Secretary of Transportation.

Acquiring supplemental funding allows the completion of projects that would otherwise not be viable due to the extraordinary expense.

FLEET MAINTENANCE

The DPW Maintenance Division is responsible for the repair and preventative maintenance to all Town vehicles and equipment. High performance police units, first responder Fire and Rescue apparatus, park, cemetery and school vehicles as well as over 30 pieces of highway-related machinery

are serviced by one lead mechanic supported by department personnel. Outsourcing of highly technical repairs has become more frequent and therefore more costly. Due to the volatile global market, the overall cost of fuel and petroleum-based products continues to be a moving target and therefore difficult to estimate annually.

Our vehicle maintenance software program continues to be a valuable tool. Each repair is logged by department and vehicle identification number and memorialized in a data bank. Every vehicle can be referenced for part numbers, required services, as well as repair costs over the life of the equipment. Preventative maintenance continues to be a most valuable component of the program. As Director, I have developed and submitted to Town Officials a vehicle replacement schedule based upon that created by the American Public Works Association in order to more clearly represent our capital needs.

FACILITIES MANAGEMENT

The following is a list of buildings and properties maintained by the DPW:

DPW Facility 520 Chase Road	Public Safety Complex
Park Bldg. Leominster Rd.	Town Hall
Town Beach	Town Common
Ritter Bldg.	Teen Center
Old Primary School	Veterans Park
The Eagle House	

All athletic fields/playgrounds excluding the school campus.

A facilities staff of one individual remains on-call 24 hours a day 365 days per year.

Collectively we attempt to keep buildings compliant with current codes to insure a safe, secure work environment. Any significant interruption of service within Town buildings carries the potential of disrupting or disabling necessary services provided to the community. The Facilities Director is a problem solver and technician with a wide range of experience encompassing all of the construction trades. Together with a stable of reliable professionals, we deliver services directly or oversee those functions provided by specialized subcontractors. Unfortunately, the creation of a capital replacement program and a definitive plan for all our buildings has fallen short of expectations. Years of neglect have created a significant backlog of necessary repairs and improvements and the process has become reactionary at best. The Building Reuse Committee reported clearly that asset management relative to our buildings requires a professionally prepared assessment and a long-range capital plan. To this end, our plan for 2021 is to continue with the contracted services of a Project Management Consultant to survey, quantify, project building needs and establish an annual cost. Additionally, we will revisit the Vertex Report and identify "envelope" tasks that if funded, would protect the structures from further exterior failure. Public Works continues its use of a building maintenance software program as a framework for day-to-day activities. Requests for service are acknowledged immediately, prioritized, and completed in a timely manner either in-house or by sub-contracted services. Those individuals requesting service are notified upon completion of the tasks and a history of the repair is filed electronically.

Until we as a town can achieve consensus in the form of a Town-wide plan, we will make little progress. For example, years have passed and still there is no clear path as to the future of the old Primary School. As caretakers it is difficult to create a definitive approach given the uncertainty of future use.

ENVIRONMENTAL

Storm Water

As a component of the aforementioned debt exclusion, approximately five hundred thousand dollars of the four million in total has been earmarked for storm drainage including but not limited to repair of the existing collection system, and new construction. We have already exceeded this amount and continue to perform necessary repairs to the town-wide drainage system.

Before roads are paved, sub surface drainage is surveyed and necessary repairs are addressed to avoid paving over problems. In the future new Federal and State storm water regulations will likely force the Town to become more proactive albeit with no additional identified source of funding.

At the conclusion of winter and again in the late fall, drainage structures in close proximity to open water are cleaned and inspected. Public Works maintains an aggressive schedule of street sweeping and catch basin cleaning, the front line of storm water management.

Waste Water

The DPW continues as the caretaker of the entire sewer system. Day to day maintenance of the overall wastewater system inclusive of 10 pump stations is outsourced to a specialty vendor but continues to be the responsibility of Public Works. Business management, inspections, and permitting, remain in-house and the responsibility of the DPW.

Tree Removal

Storm damage together with the natural attrition creates a backlog of tree felling and pruning that far exceeds the allotted budget. The Department is unable to fulfill each resident request and must prioritize work based upon the calculated degree of danger to residents and property. With the establishment of a Hazardous Tree Survey, a more efficient approach to defects has been established through prioritization. Sadly, the amount of work far exceeds the available revenue. Until there is a substantial infusion of funds, the DPW will act in a reactionary mode. All work aside from brush removal, chipping, and the felling of small diameter trees is outsourced due to the necessity of a bucket truck or crane and a licensed professional. Each spring DPW staff initiates the activity of removing and disposing of woody debris within the right-of-way together with a town-wide program of curbside mowing. An aggressive program by our energy provider in recent years has lessened the burden of the Town to remove those trees that may cause an interruption of electrical service to the community.

Landfill

The “capped” landfill off Young’s Road remains in compliance with the inspection protocol mandated by the Division of Environmental Protection. The site is monitored regularly for excessive methane gas as well as groundwater contamination.

The frequency of the testing, reduced through a special permit as a result of consistently favorable results, remained constant throughout the year. The landfill site including the perimeter fencing is inspected on a regular schedule by DPW personnel.

Adjacent to the “cap” is a storage area for catch basin materials and street sweepings both determined by the EPA to be hazardous waste. We are allowed to store these materials through the procurement of a (BUD) Beneficial Use Determination permit. The DEP requires yearly testing of these materials. Other communities must transport these tainted materials to an appropriate site at a substantial cost to the community.

On weekends during the fall and spring, DPW personnel oversee and manage the annual composting of brush, leaves and other organic debris providing a valuable service to our residents and our overall recycling program.

There has to date been no dedicated funding toward the organization or long-range remediation of this collection area. With public water and sewer at close proximity, this acreage has been proposed as a potential recreational area for the Town. As of yet this project has not gained traction.

Solid Waste

In the past, Public Works would have the responsibility to monitor, order, store, and distribute trash bags in order to facilitate the curbside collection of trash and recyclables by our current vendor, Casella Inc. *Pay as you throw* ... Recently we entered into an agreement allowing our “trash bag” supplier to coordinate the effort between supplier and vendor resulting in some mixed reviews. DPW remains the point of contact between residents and the vendor responsible for curbside pick-up.

Lake Shirley Dam

In the early 1990s with the structure in need of repair/rebuilding, the Lake Shirley Association turned over ownership of the dam to the Town. After completion of a total reconstruction, responsibilities for maintenance, monitoring, and record keeping was completed by a small number of volunteers from the Lake Association. In 2004-2005 custodianship of the dam, compliance with State dam regulations, the establishment of an operations manual as well as an emergency action plan was placed under the umbrella of the Department of Public Works. As with the storm water program and other EPA / DEP mandates compliance with current and future regulations is critical. We rely on the expertise and support of a professional consultant to assist with predetermined mandates. The most recent inspection resulted in a positive report and we remain in total compliance.

Winter Operations

Snow and ice present a major challenge. The safety of the public depends on the ability of the DPW to maintain our roadways at a high level of safety despite the severity or the duration of snow and icing events. To that end, we have developed a winter operations procedure based upon a detailed plan with a flexibility to accommodate the unpredictability of each storm. The expectation of immediate service is high and must be delivered to every part of town in a timely manner.

Departmental preparedness begins with successful implementation of the capital plan. Financial support is necessary to provide effective fleet rotation insuring minimal interruption of services due to breakdowns and repairs. In the fall, salt is delivered to the Chase Rd. facility. Lunenburg is in a consortium with 14 other communities in an effort to procure the lowest possible price. From late summer to early fall vehicle maintenance staff inspects and prepares the trucks, spreaders and plows for winter operations. During the construction season road crews address right-of-way issues, overhanging branches, and pavement defects in order to eliminate obstacles to snow removal. Each division within the DPW is involved in winter operations. Typically, DPW staff combines with up to 14 subcontractors to provide service.

Generally, it is not the amount of snow but the duration of the event, that determines the overall cost. For example, a fast moving snow storm of 6-8 inches will cost significantly less than a long duration freezing rain event even though the accumulation is much less. Historically, the department operates in a deficit due to a yearly allocation that is below the cost of an average winter.

It is a dedicated group of individuals who successfully challenge the worst Nature has to offer regardless of severity or duration.

“DPW workers are the original Storm Troopers”

PARKS

In conjunction with the three elected Park Commissioners, DPW staff oversees and maintains all parks and grounds exclusive of school property. While resources of the DPW are available as required, much of the Town-wide landscape maintenance is outsourced, inclusive of the playing fields, resulting in significant savings and increased efficiency over an in-house operation. Marshall Park accommodates the high school baseball and softball schedules, Little League and the Lunenburg Phillies. McNally and Fitzgerald Field provide for an active youth program as well. Commissioners have initiated a fee schedule at the fields and the Town Beach. Personnel are employees of the DPW. Wallis Park Playground is a hugely successful project due primarily to the tireless efforts of the neighborhood group. A state of the art facility now stands proudly in place of a previously run-down, abandoned lot. It is a jewel of the Whalom community. With the recent hire of a Park and Recreation Director, the future is looking bright!

CEMETERY

One Cemetery Division Superintendent, a DPW employee, handles the duties of the North and South cemeteries, maintaining the grounds, coordinating burials, and meeting regularly with the three members of the Cemetery Commission. The DPW supplies equipment and support staff for, on average, forty burials a year and general maintenance of the facilities as required by Town Charter.

*“Every Town Department is, in some manner, and at some time a client of the
Department of Public Works*

As always, I am deeply appreciative of the continued patience and support of our residents and fellow Town employees as we persevere.

As caretakers of the Town’s infrastructure, our goal is to preserve and enhance the resources of the Town of Lunenburg for future generations. To that end we strive to meet or exceed all expectations associated with the challenges of each of the divisions under the umbrella of public works.

FINANCE COMMITTEE REPORT

(This is a reprint of the message printed in the May 4, 2019 Annual Town Meeting warrant)

Fiscal Year 2020

The Town of Lunenburg goes through a budget process that brings together the Town Manager, department heads and citizens to discuss the financial condition of our Town and how to best manage changes in population and funding. In November, the Town Manager provided a target budget to department heads as a guide to develop their budget requests. After individual discussions with the department heads and listening to public comment during the budget presentations, the Town Manager developed a final recommended budget. Hard questions were thoughtfully talked through in pursuit of finding balance between ideal service and what can be funded at projected levels of taxes and new growth. The fiscal year 2020 budget recommendation is for a 3% increase over FY19. The budget would fund targeted additions in staff in response to the increased need for Town services resulting from increased population. It funds the capital plan and the Town's stabilization accounts. It meets all the financial policy requirements as set forth per Town Policy. The budget does not call for increases in debt; the Town would continue to pay down its debt through FY 2020 and beyond. We are pleased to report for the upcoming year Lunenburg remains fiscally healthy.

Revenue

Lunenburg's total revenues are projected to be \$43,133,920. The projection brings in an additional \$1,508,020 above what was collected last year. The estimated revenue breakdown for FY20 is:

	<u>Source</u>	<u>Amount</u>	<u>% of Total</u>
Tax Levy	\$27,953,184	65%	
State Aid	\$ 9,250,358	21%	
Local Receipts	\$ 3,010,153	7%	
Available Fund	\$ 2,920,225	7%	

The tax levy is projected to increase by \$904,568: the standard 2.5% increase over last year's tax base, projected new growth of \$375,000, and excludable debt. State Aid is projected to increase by 1.9%, although it still has not reached the robust levels seen in past years. The Town benefits from non-municipal revenues (e.g. grants, support groups, and donations). For example, the Library, Council on Aging, and Fire Department have received funding for operating and capital expenses in the past year from sources other than local taxes and state aid, thus keeping those expenses out of the budget. We are grateful for the efforts that all departments put into finding outside sources of funding to help the Town continue to move in a positive direction.

Expenses

Lunenburg's recommended expenditures are \$43,133,920. Out of this total the Omnibus Budget total is \$38,058,164, which is an increase of \$1,190,260 or a 3.2% increase. Other expenditure categories include Cherry Sheet Charges (\$1,215,303), Worcester Regional Retirement (\$1,354,353), capital articles (\$1,684,100), tax title (\$12,000), allowance for abatements (\$175,000), funding for stabilization accounts and OPEB (\$450,000), and other non-operating expenses (\$185,000). The total overall budget increases \$1,508,020, or a 3.6% increase.

As Lunenburg's population increases, the demand for services increases along with it. To prepare for this the Police Department had developed a ten-year staffing plan, so the increase of one officer this year is the first step. The Fire Department developed a four-year staffing plan to expand to paramedic-level services that is still on track, taking into account the two new hires from last year plus the training and overtime costs budgeted for this year. The Lunenburg Public School budget has been facing upward trends in enrollment. This year the recommended budget funds the school department at a 3% increase. It does not fund the entire amount recommended by the Superintendent. This year's increase follows a 6.7% increase in 2018 and 3% in 2019. Enrollment numbers, school choice in/out ratios, and potential state formula recalculations (particularly related to health costs and special education) will continue to have an impact on school budget recommendations in the future. Described below are expenses that represent a change in Lunenburg's departmental operations or significant line items.

Department	Purpose	Increase Amount
General Government	Assessors Software (current software sunseting)	\$13,000
General Government	Assistant Town Manager (Duties include HR/personnel director)	\$60,000
Library	2 additional hours/week for the Staff Librarian	\$1,185
Police	Additional FT Patrol Officer	\$80,000
Fire	Paramedic Training	\$21,000
Fire	Overtime	\$38,781
Radio Watch	Holiday coverage for Desk Officer	\$3,000
DPW	Pavement Management	\$50,000
DPW	Facilities	\$40,000
DPW	PT Recreational Director	\$20,000
DPW	Stormwater	\$60,000
Recycling program	Recycling Market Changes	\$62,000
Lunenburg Public Schools	Increased kindergarten and first grade enrollment	\$605,752
Health Insurance	Current Town and School Employees	Decreased 2.45%

The budget includes a capital plan which funds 10 projects recommended by the Capital Planning Committee. Some of the larger initiatives are the Engine 4 replacement (\$685,000), Turkey Hill Middle School Asbestos Abatement/Ceiling replacement (\$162,000), Fuel Tank replacement at DPW (\$220,000), and the Rescue 2 replacement (\$310,000). Smaller improvements include painting the Teen Center exterior (\$12,000) and the Wallis Park basketball court and fence (\$36,000). The entire capital plan for this year, \$1,684,100, would be funded in this budget without taking on new debt. Note that three capital improvements totaling \$1,119,000, from the Vertex study, related to building repairs for Ritter, TC Passios, and Brooks House are not funded by this budget.. In addition to operating expenses and capital projects the Town is funding line items that serve to provide a cushion for the Town's General Stabilization Fund (\$100,000, per Town's Financial Policy) and the Special Purpose Stabilization Fund for future large project capital needs (\$200,000), as well as continuing to increase the Other Post-Employment Benefits (OPEB) fund (\$150,000).

Conclusion -The Town of Lunenburg is in the fortunate position of being able to expand services and improve assets throughout while maintaining financial stability and security. This is reflected in the Town's continuing AA+ bond rating. However, a recent Debt and Liability assessment found that Lunenburg is in a weak debt position. This underscores the importance of not taking on new debt with the Fiscal 2020 budget and will be an important factor when looking ahead.

We want to thank the Town Manager, Town administration, and all the department heads for a productive budget season. It was not without challenges and many questions, but everyone demonstrated true passion for how they serve the Town and what they think the Town deserves. The Finance Committee is grateful for being a part of the process and looks forward to continuing to serve.

HISTORICAL COMMISSION

The Historical Commission held true to its mission and accomplished much in 2019.

The chance find of a gravestone that had been used as a walkway paver led to the Historical Society's research and rediscovery of the Arnold Litch Cemetery near Pleasant Street. The monument was restored and another unused gravestone from the burial plot was repurposed to mount a bronze plaque, bearing testimony to the site and the lives of those there buried.

Commissioner and professional mason Richard McGrath coordinated with the Historical Society and prepared new granite bases on which to reset the monuments. They have yet to be erected as the search continues for the exact location of the burial plot.

The 18th century Battles House at 68 Elm Street was slated for demolition to make way for the development of new homes. The Historical Commission invoked the demolition delay bylaw to seek alternatives. By some combination of pressure from the Commission, cooperation of the property owner, and good fortune, the house was sold intact with its 19th century barn to a new owner who apparently intends to restore or renovate the old house.

Several of the road signs marking the Lunenburg Historic District had gone missing over the years and plans were laid to order new signs to be installed by the DPW.

The weathervane that once sat atop Town Hall was missing for some time. Commissioner Bill Lakso researched the design of the old weathervane and commissioned a new one to be constructed. The new weathervane had yet to be installed at the close of the year.

With some regrets, the Commission approved the total demolition of the historic house at 822 New West Townsend Road. The owner had previously intended to restore the building but after stripping the interior discovered that decay and previous alterations had made the structure worthless. Recognizing the owner's predicament, the Commission approved the demolition application without delay.

Lunenburg continues to own historical buildings in the town center. The old Primary School and to a lesser extent, the Brooks House, are falling into disrepair. The Town has no immediate municipal use for these buildings, but voters at Town Meeting have been reluctant to sell them off. Seeing the buildings languish in limbo was a major motivation for Chair Lantry to begin planning for the adoption of the Community Preservation Act, which would generate funds for preservation and other community projects.

Lunenburg Public Library

H. Jackson Brown, Jr., reminds us “that the happiest people are not those getting more, but those giving more.” I see evidence of that every day in my colleagues at the library. It is a joy for all of us to work at the library and to see the burgeoning activity here: more than 80,000 items borrowed this past year, almost 70,000 visitors, and more than 8,000 people attending more than 400 programs this past year. Most afternoons you’ll find dozens of people doing homework, playing board or video games, researching, using the computers, and even hanging out—at the library!

I hope you’re not surprised that the library is about more than just books. Residents come to the library just to see a smiling face; community members and groups have meetings at the library; families come to story-time; a father and son eat dinner weekly in our cafe for time out of the house; teens and adults volunteer and gain job-like experience; jobseekers come for help on their job search; entire classes of fifth graders come to learn to use the library; people come for help answering a question, to borrow our telescope or electricity use monitor or ukulele; they use ebooks or audiobooks from home or their car; they attend an exercise program or listen to a lecture in the community room; some even watch library programs on the local access cable channel; and of course, many people come to see a movie or borrow and discuss a book.

There are new faces on staff at your library. Retirements and graduations mean that five people working at the library are new to their jobs in 2019—we only employ ten total—and the staff is happier than ever to serve our community. The infusion of youth in our staff combines perfectly with several experienced, long-tenured workers with vast amounts of institutional knowledge and dedication. As we move forward into this new era, we are focusing in particular on collaboration and communication. We collaborate amongst ourselves as a staff, we collaborate with other community organizations, and we collaborate with other town departments, all to better serve the community. We also recognize that one of our biggest opportunities is to better communicate to our community all of the services we offer. When someone in town has a challenge, we want them to first ask themselves, “Can the library help me with that?”

Our facilities also continue to be renewed. Our building is now more than 15 years old, a fact that surprises many people who enter it for the first time, and to retain that like-new character we must continue to renew it. We have to thank the generosity of the Friends of Lunenburg Public Library for their role in keeping the library in its gem-like condition. They contribute more than \$30,000 each year to library goals, including programming, maintenance, collections, and supplies. Without the support of the Friends, the library would be in a much more challenging position.

Growing from the successful 2018 renovation of the teen room—one of the key contributing factors that has led to an explosion of teens spending their weekday afternoons in the library—we’ve focused on creating a space for “tweens” as well. Coupled with a partnership with Turkey Hill Elementary School to bring fifth grade students to the library to learn to use our resources, we’ve seen an expanding number of library users from the 10-12 year old demographic this past year, too, especially in response to programs targeted specifically at this group.

Adult Services

The biggest highlight for 2019 in adult services has been finding the right person to join the staff to enable a continuation and expansion of recent success. Lydia Gravell, a librarian who grew up in this area, interned and did contract work at Fitchburg State and has a background in Technical Services, was hired in July of 2019, and despite the long search process, the library has come out stronger because she has joined us.

That staff addition and our new Library Assistant, Cheryl Stillman, mean that the library has been able to continue to expand the number and variety of programs we offer our adult community. Between July and December 2019 the library's adult services department hosted 29 programs with 460 attendees.

We continue to experiment with new programming ideas as we seek to keep the library innovative and exciting. One addition, the monthly Craft Lab, has proven to be a great success! In addition, other popular programs included a puzzle swap, music concerts, stitching group meetings, and a chair yoga series. In 2020 the adult services department seeks to continue building on the expectations for the library being known as an educational but entertaining place for everyone to broaden their horizons.

Adult Services Goals:

- To continue the library's history of providing innovative, educational and entertaining events for adults and people of all ages
- To improve library partnerships with our community through collaborative programming, and experiment with offsite library sponsored events
- To further expand the adult summer reading program
- To offer more robust reader's advisory services such as recommendation surveys, read-a-like displays, and book tasting events

Children's Services

Our community members have already discovered that the Lunenburg Public Library, in addition to being a valued part of our community, is an integral part of early childhood development. Attendance at weekly story times for children ages birth-5 remains strong. Our afterschool offerings for school-aged children include LPL Kids Book Club, which occurs monthly and the children are enjoying the lively book discussions, and related snacks. Enrollment in this group has increased 50% over last year! We also offer monthly Lego Club Challenges that are well attended by both girls and boys and encourages child/parent interaction and offers a STEM component.

Similarly, our monthly science, technology, engineering, art and math (*STEAM*) program also targets elementary aged children to encourage and excite these young learners. A strong knowledge base in these core subjects is one of the keys to a successful future, and this focus echoes school curriculum.

Our community outreach and support continue to benefit many area schools and groups. In addition to visits from the fifth graders of Turkey Hill Elementary School, we provide weekly story times for an active group of toddlers and families who are part of School Linked Services, preschoolers from the Early Learning Center and various local family day care groups.

Thanks to a gift from the endowment of the Friends of Lunenburg Public Library, we now have two early literacy computers with touch screen technology. Featuring games, storytelling programs, and other resources, they are an excellent resource for early learners to develop pre-reading and literacy skills.

Our annual Summer Reading Program is growing more popular every year. In 2019, we had 312 kids enrolled as active readers who eagerly collected beads as incentives for reading. The beads became necklaces which they proudly wore back to school in the fall to show their new teachers! We had 1,230 attendees for the 50 programs that we offered during the summer! We also hosted a summer meals program that supplied nutritional lunches to 322 kids throughout the summer. It doesn't get any busier at the library than summer reading time!

Some of us may remember our childhood library as a quiet place with lots of shushing. But today's youngsters have a totally different experience upon entering our library: they engage with books and magazines, with librarians, and with other kids. These opportunities give children a wonderful jumpstart to future literacy and social success!

With the vision that every child be familiar and comfortable with the local library and possess the skills to find their way around libraries, the Children's Services goals for 2020 are:

- To continue to develop opportunities via passive and active programs designed to encourage children to gain independence and confidence as they explore the many facets of our collection
- To provide children with open access to all digital resources and media and to ensure that we have the most up-to-date technology that we can afford for their use
- To continually evaluate, increase/update non-fiction collection to present an accurate, updated collection for children of all ages and to optimize shelving of this collection for ease of access

Teen Services

In FY19, the library offered 190 teen programs which were attended by 1,687 teens. During the summer 133 teens read 1,677 hours! Summer program participation ran strong with 255 tweens and teens attending 12 programs. One third of the summer programs were designed with Social Emotional Learning (SEL) objectives in mind. We found success with these programs, and will apply this framework to our future teen programming to improve its effectiveness.

2019 saw the introduction of new programs and the expansion of existing traditions. Every summer the library partners with the 4H Worcester Extension Office to provide a babysitting training class for tweens ages 11 and up, and in September, the library responded to a community need with a Babysitting Connection Program so that parents could meet with certified teen sitters to find the best match.

This year's new "Volunteer" program is a community service-based program offering teens the opportunity to earn community service hours, engaging in supportive activities, like creating cards for the Pink Revolution Breast Cancer Alliance Initiative and stitching for a cause with the library's Stitchcraft group.

The Dungeons and Dragons Club is another highlight, as it continues to grow and now has two distinct campaigns run by different groups. Sharing leadership responsibilities and rotating Dungeon Masters creates learning opportunities and skills-building and allows them to explore storytelling elements.

Improvements to the usability of the collection will continue with a diversity audit, evaluating the collection for inclusivity and representation, noting areas for improvement. This will generate data to be utilized in future collection development.

Teen Services Goals

- Provide an exciting, stimulating fiction collection for children of all ages to encourage a life-long love of reading

- Expand current partnerships, like those with the Lunenburg Boys and Girls Club and the Lunenburg Public Schools, and to cultivate additional community partnerships
- Streamline communication, especially on social media, to better educate target demographics about library services

Looking forward to FY2021

The entire staff of the Lunenburg Public Library is looking forward to seeing you at the library soon! Even if you don't want to borrow a book, there are many things that might interest you at the library. We are also hoping to embark on a strategic plan in the next year or so to help guide our work to best serve you. We hope that you will participate in that process, especially if you don't use the library. See you soon!

Respectfully submitted,

Muir Haman

Library Director

LUNENBURG PUBLIC ACCESS (PAC)

Mission: Develop, modernize, establish and operate the Town of Lunenburg's Public and Government (P&G) Access Channels to reflect what matters to Lunenburg

Public Access Cable Committee (PACC)

Steve Walker, Chair

Faith Beall, Vice Chair

Jeff Bajko, Secretary

Steve Archambault, Member

Pete Lincoln, Member

The Lunenburg Public Access Cable Committee (PACC) is responsible for the long-term plan to manage the Public Access Channels available to the Lunenburg community through Comcast, the town's only cable-service provider.

The overall strategy includes providing and improving equipment to acquire, record, broadcast and re-broadcast programming from both town functions and meetings, as well as programming from publicly available sources.

Programming

Channel 9 - Public

Public Access Cable (PAC) produced 63% of the local programming on Channel 9 in FY19, up 6% from 57% in FY18. The increase in local programming was largely due to additional videographers. Local programs included high school sports, band concerts and school events. The remaining 37% of programming was obtained through other media sources (Access Share) and online downloads (MassAccess and PEGMedia).

Several categories of local programming were provided on Channel 9, among the top were Informational (37%), Entertainment (27%) and Events (10%). As the top programming category, Informational provided subscribers with unique presentations and overviews that helped to familiarize them with local resources and information.

All locally produced programming is also accessible on the Public Access YouTube Channel and Facebook

<http://www.youtube.com/LunenburgAccess>

<https://www.facebook.com/Lunenburg-Public-Access-Cable>

Channel 8 - Government

Most content on the Government Channel (Ch8) is locally produced. In addition to several live weekly municipal meetings and re-broadcasts, other examples of government content are programs downloaded from MassAccess, including State Matters and other local government productions. All recorded Government meetings are accessible on the Public Access YouTube channel.

<http://www.youtube.com/LunenburgAccess>

A live feed from Channel 8 on PAC's YouTube Channel is accessible by going to :

<http://www.youtube.com/c/LunenburgAccess/live>

Town committees/departments are always encouraged to take advantage of PAC to improve information flow from town government to the community.

Capital Infusions

The renewal of the agreement between Comcast and the Town of Lunenburg commenced on March 1, 2018 and runs through February 2028. Part of the finalized agreement was a capital infusion to be broken up over three payments. The second of these payments was received in FY19 for \$42,500.

Studio and Equipment Upgrades

PAC has had studio space in the TC Passios school since 2013. We encourage the public to take advantage of the facilities and equipment offered.

The strategy for the PAC studio in the upcoming fiscal years includes acquiring new studio space as soon as municipal space becomes available. A new studio would provide a more permanent and comfortable environment for producing programming.

Upgrades in FY19 included the addition of 3 new SONY cameras and tripods for videographers and for loan. A large-scale monitor in the Town Hall Bilotta room was added for better presentation viewing by the audience. New office chairs in the control room and studio were purchased. The Town Hall audio system was adjusted for better performance during meetings with less feedback.

The community is encouraged to borrow PAC equipment or submit their own video for Channel 9 content.

Equipment upgrades accounted for 12% of the FY19 expenses (purchased under Line Item "Equipment/Maintenance and Supplies)."

Staff, Producers and Volunteers

In FY19, there was one full-time Manager and 7 part-time videographers, classified as Vendors (Budget Line Item: "Purchase of Services"). The Manager continues to administer the day-to-day operation of the organization, including all production and programming schedules, staff scheduling, equipment and services procurement, studio and inventory administration, advertising, and social media. Vendors (videographers) provided video recording of committee meetings and additional video assignments, as needed.

A technical contract consultant works with the PAC manager to provide technical and training assistance as needed. It is expected that he will remain working for PAC through FY20. However, PAC will be searching for a permanent part-time Production Technician to add to the staff by FY21. Of the 63% of locally produced shows on Ch 9, most were produced by public access staff. Our resident top producer, Pete Lincoln of "Talkin' Baseball," continued to create new programs for airing on Ch 9 through FY19. Other new programs include Knight's Roundtable and Community News. St. Boniface continued to produce a weekly Mass program, on-air now for over three years.

Much effort has gone into recruiting volunteers, with little response. Social media and newspapers have been used to promote volunteerism with little effect. PAC will continue to look for other ways to reach out to the community for volunteers.

Staff (Salaries, Health Insurance, Purchase of Services (videographers), Consultant) accounted for 79% of the FY19 expenses.

Financials

PAC received all of its income from Comcast in quarterly payments (received August, November, February and May). The overall payments received for FY19 were \$208,243.11. These payments were deposited to the PAC Revenue Fund, and the Operating Budget was set at \$272,000 for projected expenses and capital costs.

The starting balance in the Revenue Fund for PAC in FY19 was \$ 324,014.12 with a budgeted amount of \$272,000.

FY19 LINE ITEM EXPENSES

Line Item	Amount
Salaries	\$46,258.94
Purchase of Services	\$10,999.75
Consultant	\$1,280.00
Lease	\$6,000.00
Office Supplies	\$1,286.29
Advertising	\$255.00
Equipment/Maintenance	\$9,875.65
Insurance	\$7,260.24
New Equipment	\$0
TOTAL	\$83,215.87

FY19 Line Item Expenses by Percentage

FISCAL YEAR 2019 REVENUE V. EXPENSES

Starting Balance	\$324,014.12
Revenue	\$208,243.11
Subtotal	\$532,257.23
Expenses	\$83,215.87
Subtotal	\$449,041.36
Comcast Tech Fund (Undesignated Fund)	\$124,796.01
Total	\$573,837.37

Summary

FY19 was a good year for PAC. Local shows increased from FY18, offering the community more content to enjoy. Additional government meetings were added upon town request providing more informational programming to Channel 8. There was growth in PAC's YouTube channel subscribers, allowing residents to watch programs/meetings at their convenience. The viewership and support of the community as well as PAC's solid commitment to Lunenburg has lead to this success.

With the infusion of FY18, FY19 and FY20 capital from Comcast, PAC can now make necessary improvements. It will specifically allow for the addition of a third channel, Educational, to be added in FY20. This channel will focus on School Committee, school sports and events, as well as other imported educational programming. The funding will also help with the increase of administrative and equipment costs.

Going forward PAC will continue to focus on content as well as equipment and studio upgrades. A new state-of-the-art studio is essential in terms of providing the public with a media center that is a comfortable place to meet and produce programming. PAC has reserved funding for an eventual new studio, but is waiting for municipal space to become available.

In the meantime most local programs are produced outside the studio in "the field," or in venues around town.

With the help of several videographers PAC has been able to keep up with recording demand but is in need of volunteers. Volunteers are the "life blood" of media centers around the state and without that involvement PAC will not be able to grow at a desirable rate. Consider volunteering to help provide the necessary resources needed for PAC's continued success. We need you!

PAC's promise, as expressed in the mission statement sums it up best: "To Develop, modernize, establish and operate the Town of Lunenburg's Public and Government (P & G) Access Channels *to reflect what matters to Lunenburg.*"

SENIOR PROPERTY TAX WORK-OFF PROGRAM

CALENDAR YEAR JANUARY 1, 2019 – NOVEMBER 1, 2019

The Property Tax Work-Off Committee is a five member committee appointed by the Board of Selectmen.

2019 Committee Members:

Robert Hamel, Chairperson; Susan Doherty, Vice-Chairperson; Sheila Craigen, Clerk; Nancy Forest, Myleen Mallari

The Lunenburg Property Tax Work-Off Program offers income eligible senior citizens age 60+ an opportunity to have an abatement applied to their property tax bill. Participants worked in various town departments to earn the tax abatement doing general office, custodial, library shelving, Meals on Wheels, and kitchen assistance duties.

From January 1, 2019 to June 30, 2019 participants received \$10 for each hour worked to earn the \$1,000 abatement. At this time income eligibility for participants was \$40,000 for a one-person household and \$60,000 for a two-person household.

The Lunenburg Property Tax Work-Off committee voted at the March 27, 2019 meeting to increase income eligibility for participants of this program to \$50,000 for one person households and \$75,000 for two-person households.

Also voted at that meeting was an increase in the hourly wage from \$10 to \$12 per hour along with an increase to the abatement cap up to \$1,500. These increases became effective at the beginning of FY20 (July 1, 2019).

There were seven Lunenburg residents who participated from January 1, 2019 - November 1, 2019. These individuals as a whole, accumulated 837.25 hours which amounted to \$8,761.00 in abatements.

Eligibility Requirements:

- *Applicants must be 60 years of age or older
- *Own and occupy a home in Lunenburg as their primary residence for at least one year
- *Provide proof of income by submitting prior year income tax return information
- *Receive a property tax bill in their name or their spouse's name who is also 60 years of age or older
- *Meet the income guidelines of: one person household - \$50,000 / two person household - \$75,000
- *All new applicants are required to have a CORI background check and must re-apply and be accepted annually for participation in the program.

Earnings are exempt from state taxes only. Earnings are subject to federal and FICA tax withholdings and are also subject to OBRA if participants are not receiving a pension from either Worcester Regional Retirement or Massachusetts State Teachers Retirement.

Departments that participated between January 1, 2019 – November 1, 2019

- *Lunenburg Board of Health
- *Lunenburg Building Department/Zoning
- *Lunenburg Council on Aging
- *Lunenburg DPW/Sewer Departments
- *Lunenburg Public Library

SEWER COMMISSION – FY19

The five-member Sewer Commission was originally established at the Special Town Meeting on May 6, 2006. In May 2018 the Commission re-elected Joe Anderson as Chairman, Carl Luck as Vice-Chairman, and John Reynolds as Clerk. At the May 2019 election, John Reynolds and Carl Luck were re-elected to 3-year terms. On May 28, 2019, the Commission elected John Reynolds as Chairman, Joan Pease as Vice-Chairman and Ryan Stober as Clerk. In early July 2019, Joe Anderson resigned from the Commission as he was moving out of state for his job. The Commission thanks Joe for his service and leadership as Chairman.

The Sewer Commission bears the responsibility of overseeing the Sewer Enterprise Fund, planning for the future and developing and implementing rules, regulations and policies. Under the Town's Charter, responsibility for the day-to-day operation, care and maintenance of the sanitary sewers are under the supervision of the Town Manager who delegates the responsibility to manage and maintain the operational side of the system to the Department of Public Works Director Jack Rodriquez. The Town of Lunenburg does not operate a sewer treatment plant. Approximately 78% of Lunenburg sewer is discharged to the City of Leominster, and the other 22% is discharged to the City of Fitchburg.

The Sewer Commission has contracted with Small Water Systems Services (SWSS) for the operations and management of the ten pumping stations, emergency generators and sewer infrastructure since 2013. In FY19, we completed the 6th year with SWSS as our contractor for the supervision of the town's sewer system. The Commission developed a scope of services for a new O&M contract and put it out for bid in April 2019. Small Water Services (SWSS) won the bid and the Commission began negotiations with SWSS for the new contract effective 7/1/19.

There are currently 879 properties connected to the Lunenburg system and another 352 which have access to Town Sewer but are not yet connected. During FY19, 24 new accounts connected to Town Sewer. The Commission billed out \$835,329.23 in quarterly sewer bills, and had \$44,556 of prior year delinquencies added to the owners' property tax bills for non-payment. Five properties were assessed a privilege fee in FY19. Two properties assessed were residential. Two assessments were for 24-unit apartment buildings and one other property was a 3-unit condominium building. Privilege fees help to pay down the debt owed by the Town on the original sewer project.

Throughout FY19, the Commission continued to work with several different groups regarding their interest in sewer extensions, specifically at Lancaster Avenue, Upland Avenue and Chase Road. The Commission is always willing to discuss a potential sewer extension.

In FY19, the Commission worked on updates to the Grease Trap Regulations, Connection Charges Policy, Irrigation Meter Policy and Single Meter Policy. On October 30 and November 27, 2018, the Sewer Commission held public hearings to inform residents of the proposed changes. The Commission voted to accept the updated policies on November 27, 2019. For the new Irrigation Meter policy, the Commission investigated options for new updated wireless irrigation meters and worked with the Lunenburg Water District to select the new meter which can be read remotely by the Water District on their regular rounds. With the updated Irrigation Meter policy that was effective on August 1, 2019, irrigation meter customers will be charged an annual fee of \$50 for the cost to administer the program. The new policy will require residents with deduct meters to convert their unit to one compatible with the Neptune remote reader by July of 2020.

The Sewer Commission developed a scope of work for a maintenance plan for the sewer system. The contract was awarded to Wright Pierce and began in FY19. Wright Pierce will conduct an evaluation of the equipment at all pump stations, working with Small Water Systems to develop a written Maintenance Plan to insure the smooth operation of the system. The final plan will be presented in FY20.

In FY19, the Sewer Commission developed a scope of work for a Inflow/Infiltration (I/I) 3rd party review, to review the I/I work that has been done and in the past and make recommendations on moving forward in the future. The project was put out to bid and was awarded to Woodward & Curran with work to begin in FY20. The Commission is hopeful that this project will pinpoint the areas that are contributing to excess water entering the system for which the Town must pay Leominster & Fitchburg.

The Commission has continued with the annual permit program for the twenty food service establishments with grease traps and interceptors on town sewer. Throughout FY19, the Commission worked with multiple establishments in correcting their non-compliance. The “Rules & Regulations for Oil & Grease Traps/Interceptors for Food Establishments” continues to be a focus of the Commission as Fats, Oils and Grease (FOG) can negatively affect the smooth operation and maintenance costs of the sewer system. The Commission developed a FOG Audit inspection checklist and made plans to begin audits of food establishments. While the Grease Trap Regulation focuses on commercial and public disposal, individual homeowners can also contribute a significant amount of grease into the system which increases everyone’s costs. Whether on sewer or septic, grease should not be put down the drain.

In March 2019, the Commission voted to authorize a contract with Northern Data for bill print outsourcing to streamline the billing process, which has continually grown as more customers have been added to the sewer system. The Commission also voted to join the town’s Solar Credit Program in FY19 and anticipates saving on energy costs for running the pump stations in FY20.

At the May 2019 Town Meeting, the Commission put forward three articles which related to the FY20 budget and stabilization funds. For the standard budget article for FY20, \$675,427.86 was appropriated from Sewer Enterprise revenues and the sum of \$163,251.14 was appropriated from Retained Earnings for a total appropriation of \$ 838,679.00 to operate the Sewer Enterprise Fund for FY20. The amount of \$888,706.40 was approved to cover both the Enterprise Fund’s share of Town services and debt service on the sewer betterments or the total approved cost of \$1,727,385.40. The second article transferred monies to the Capital Reserve Stabilization Fund in the amount of \$27,521, approximately 3% of proposed revenues as the Commission had done for FY18. This fund is to be used to maintain and improve the operating efficiency of the system or cover large emergency expenditures. A main goal of the Sewer Commission continues to be maintaining a balanced budget every year without having to raise rates for our customers. This is the sixth year that the operating budget has been balanced without a rate increase to the users. The third warrant article was to transfer the sum of \$656.00 into the OPEB Sewer Trust Fund. All three articles passed at Town Meeting. It was determined in FY19 that any monies collected for the Sewer Bank (I/I fees) or Reserve Capacity Stabilization Funds would be transferred at the Special Town Meeting following the close of the fiscal year. A portion of the connection charges collected at the time of an application for a permit to connect goes into these accounts and targets resolving I/I issues and future capacity costs paid to the cities of Fitchburg and Leominster for increased capacities.

The Commission continued working in FY19 with Adam Costa (Town Counsel of Mead, Talerman and Costa for guidance in contract negotiations and clarification of regulations. The Commission would also like to thank Jack Rodriquez, DPW Director, for the seamless and smooth operation of the Sewer Division of the DPW. They would also like to acknowledge and thank the Lunenburg Water District for their partnership and good working relationship with the Sewer Division in providing valuable assistance with meter readings, ownership changes, and status updates.

Sewer Commission as of report submittal – February 2020:

Carl Luck, Acting Chair Mike Nault, Member

Dave MacDonald, Member John Reynolds, Member

Veteran Services 2019

During the year of 2019, there were 11 cases with an average monthly expenditure of \$7,000. The cases consisted of veterans, widows, and dependent children.

There was a funeral expenditure of \$4,000 for an indigent veteran who was interred in the Massachusetts Veterans Memorial Cemetery in Winchendon. I put in for \$544 reimbursement for flags put on Veterans graves.

The usage for services weekly is three plus veterans and family members seeking assistance in claims for disability, medical, acquiring military discharges and widow's assistance plus any services possibly available to them.

My office is located in the Ritter Memorial Building, 960 Massachusetts Avenue, in the lower level.

Office hours are Tuesdays from 10 a.m. to 12 Noon.

TJ Blausen

Veteran's Agent

PROTECTION OF PERSONS & PROPERTY

BOARD OF HEALTH

The Board of Health Office is located in the Ritter building on the corner of Massachusetts Avenue and Lancaster Avenue. Our office is on the upper level at the end of the hall on the right.

The Board of Health, with the assistance of its agent, the Nashoba Associated Boards of Health, continued its mission to maintain its focus on public health and safety issues during 2019, reviewing Title V Inspection Reports, building permits, septic and well permits, nuisance investigations, housing inspections, complaints and general public health related issues as well as resident concerns.

The Board of Health oversees the Septic System Repair Program which helps low to moderate income families replace failed septic systems or connect to public sewer. Anyone interested in finding out more about this program can contact the Board of Health office.

Homeland Security and Emergency Preparedness planning is ongoing. Meetings continue between our agents, other Town departments and regional entities to develop a plan for not only Lunenburg but with our partner towns in our region.

This year we processed applications for Septic Permit Lot Tests, permits for new construction, new wells, repairs or upgrades to septic systems and well permits. The Board continues its vigilance with regard to septic systems, wells, food service inspections, housing and nuisance complaints and its general mandate to protect the environment and groundwater of the Commonwealth.

The Board of Health provides other numerous services in cooperation with our Health Agents, the Nashoba Associated Boards of Health. In addition to our environmental services, numerous clinics are provided throughout the year to our residents. These clinics provide inoculations, including flu shots, blood pressure screenings, Well Oldster Clinics and dental screening. Fluoride treatment and dental checks of our youngsters in the School System are provided by the Nashoba dental staff.

The Town of Lunenburg participates in the Central Mass. Mosquito Control Project. Mosquito Control monitors the mosquito population in Lunenburg and advises of any potential diseases such as EEE and West Nile Virus and sprays frequently to control the population during the warmer times of the year. Residents who want to have their property sprayed can do so by emailing to: cmmcp@cmmcp.org, calling (508) 393-3055, completing a request on their webpage at: <http://www.cmmcp.org>, or calling the Board of Health office. This service is free of charge to residents.

With our Nashoba Nursing and Hospice partners we provide in home visits to residents recovering from illness and hospice care and counseling to those in need of this service.

Please contact our office in the Ritter Building for more information.

Please remember that our board members volunteer their time and efforts on behalf of you, the citizens of Lunenburg.

If you have something that you think we can help you with, we are at your service. Contact the Board of Health office at 582-4146 ext. 430.

NASHOBA ASSOCIATED BOARDS OF HEALTH

Nashoba Associated Boards of Health continues to serve the local Board of Health in meeting the challenges of environmental and public health needs in Lunenburg. In addition to the day to day public health work conducted for Lunenburg we also provide the following services:

- Maintaining Nashoba's internet website to provide information for the public. (See *nashoba.org*)
- Nashoba assisted with providing a flu clinic at the Library to practice emergency preparedness plans.
- Response to state mandated changes in regulations requiring more frequent beach sampling through sample collection, submittal for analysis, and follow-up when results were obtained.

We look forward to continuing our work with Lunenburg's Board of Health. Included in the day-to-day work of Nashoba in 2019 were the following:

- Through membership in the Association, Lunenburg benefited from the services of Nashoba staff including: Registered Sanitarians, Certified Health Officers, Registered Nurses, Nutritionists, Registered Physical & Occupational Therapists, Licensed Social Workers, Certified Home Health Aides, and Registered Dental Hygienists
- Provided health education programs in collaboration with the Lunenburg Council on Aging.
- Collaborated with Montachusett Home Care around elders at risk and other safety issues.
- Reviewed 107 Title 5 state mandated private Septic System Inspections for Lunenburg Board of Health. Received, reviewed, and filed these state mandated (but unfunded) Title 5 inspections. Corresponded with inspectors regarding deficiencies; referred deficient inspections to Lunenburg Board of Health for enforcement action

By the Lunenburg Board of Health's continued participation in the Association you can shape your future local public health programs and share in the benefits of quality service at a reasonable cost!

TOWN OF LUNENBURG

Environmental Health Department

Environmental Information Responses

Lunenburg Office (days).....80

The Nashoba sanitarian is generally scheduled to be available for the public twice a week on Monday and Wednesday mornings at the Lunenburg Board of Health Office. Other meetings occur informally.

This does not reflect the daily calls handled by the three Nashoba secretaries during daily business hours.

Food Service Licenses & Inspections.....31

Nashoba annually mails out and receives applications from both restaurants and retail food businesses. Licenses are renewed for existing facilities. Plans are submitted and reviewed prior to initial licensing. Most licensees are inspected at a minimum twice a year. Where deficiencies are found, a re-inspection is scheduled to insure compliance. When a complaint from the public is received an inspection is also conducted. During this inspection health factors of food handlers is also investigated, and where appropriate medical consultation and laboratory testing may be required.

Beach/Pool/Camp Inspections..... 20

Camps are inspected at least annually at opening for compliance with State Sanitary Code, Chapter IV, 105CMR430.00. Public swimming beaches are sampled for water quality weekly during the summer operation and more often if a problem is suspected. Semi-public pool are permitted and inspected

Housing & Nuisance Investigations.....11

Nashoba, as agent for the local Board of Health, inspects dwellings for conformance with State Sanitary Code, 105 CMR 410.00, issues orders for correction, and re-inspect for compliance. Similarly, complaints from residents concerning unsanitary conditions or pollution events are investigated.

Septic System Test Applications.....49

Applications from residents proposing to build or upgrade a septic system are accepted, a file created, and testing dates are coordinated with the applicants engineer.

Septic System Lot Tests.....125

Nashoba sanitarian witnesses soil evaluations, deep hole tests, and, usually on a separate date, percolation tests conducted by the applicant's engineer which serve as the basis of the design of the septic system.

Septic System Plan Applications.....38

Detailed plans created by engineers hired by residents proposing to build or upgrade a septic system are received, filed, and routed to the Nashoba sanitarian for review.

Septic System Plan Reviews38

Engineered plans are reviewed according to state code, Title 5, and local Board of Health regulations and review forms are created and sent to engineer for revision. Subsequent re-submittals by the engineer are also reviewed.

Septic System Permit Applications (new lots).....24

Septic System Permit Applications (upgrades)..... 20

Applicants' approved plan submittals and Board of Health requirements are incorporated into a permit to construct the septic system.

Septic System Construction Inspections.....14

Nashoba Sanitarian is called to construction site at various phases of construction to witness & verify that system is built according to plans.

Septic System Consultations.....6

During all phases of application, design, and construction the Nashoba Sanitarian is called upon for legal details and interpretation.

Well Permits.....11

Water Quality/Well Consultations.....38

Private wells are regulated solely by local Board of Health regulations, The Nashoba Sanitarian assist the Board of Health by reviewing well plans, securing well water samples, and interpreting water quality test results.

Nashoba Nursing Service & Hospice

Home Health

Nursing Visits 911

Nashoba's Certified Home Health Registered Nurses visits provide skilled services to patients in their home under physician's orders. These services include assessment of physical, psychological, and nutritional needs. Skills include teaching/supervision of medications, wound care, ostomy care, IV therapy on a 24 hour basis, catheter care, case management and referral to other services as needed.

Home Health Aide Visits 89

Nashoba's Certified Home Care Aides provide assistance with daily activities of daily living including bathing dressing, exercises and meal preparation.

Rehabilitative Therapy Visit..... 663

Nashoba Therapists provide skilled physical, occupational, speech, and dietary therapeutic interventions through assessment, treatment and education. Their integration of client, caregiver, and medical outcomes aims at attaining maximum functional dependence.

Medical Social Service Visits 3

Nashoba Social Workers provide short-term assistance to patients at home for counseling and referral to community resources.

Hospice Volunteer and Spiritual Care Visits.....17

Nashoba's Volunteers and Clergy provide patients with emotional and spiritual support, companionship and guidance.

Community Health Nursing

Nashoba's Community Health Nursing program provides an essential public health service to it member communities guided by the American Nurses Association (ANA) 16 Standards of Public Nursing Practice.

Our staff serves as a resource to the community, addressing questions and concerns from the public on a variety of health and safety issues (immunizations, head lice, chronic disease management, safe drug/sharps disposal etc.) in a variety of ways.

- We conduct regular well-being clinics for health assessment, screenings and education to all, especially the underserved and at-risk populations.
- We report and investigate communicable diseases to formulate and implement control guidelines and strategies that protect the health of individual and the community at large (mandated by the Massachusetts Department of Public Health).
- We make well-being visits to assess needs, coordinate appropriate care and services and provide case management as needed (health promotion).
- We provide public health education.
- We address psych-social issues that may impact general health and safety (i.e. hoarding).
- We are available to collaborate with all municipal staff to address public health nursing questions, work closely with Councils on Aging to assist elders in the communities and are available for consultation with school nurses caring for children and families. The nursing staff also works with the Sanitarian for your community, as needed, to address issues of unhealthy living conditions.

Listed below is summary of the activities of the Community Health Nursing program.

Nashoba conducted ten clinics and those clinics offered your citizens: blood pressure screening, flu shots and an opportunity to consult with the nurse to address questions.

Our staff conducted five health promotion/well-being/social worker visits in your communities; there were 84 direct observation therapy visits (monitoring a patient with TB) provided in addition to the health promotional visits.

We administered 71 flu shots through our annual clinics.

Nashoba reviewed, investigated and reported on the following cases of communicable diseases from your community. Though the daily reporting and investigating work is not always visible it is vital to protect the public from the spread of disease.

Investigated 97

Confirmed..... 57

Communicable Disease Number of Cases

Anaplasmosis	2	Arbovirus	1
Campylobacteriosis	2	Cyclosporiasis	1
Hepatitis C	3	Influenza	48

Dental Health Department

Examination, Cleaning & Fluoride - Grades K, 2 & 4

Nashoba's Registered Dental Hygienists operating out of the school nurse's office and records, provide these services to those children whose parents have given written consent.

Students Eligible..... 380

Students Participating.....162

Referred to Dentist.....7

Instruction - Grades K, 1 & 5

Nashoba's Registered Dental Hygienists also provide classroom instruction of cleaning and maintaining health teeth to all children in these grades.

Number of Programs.....11

FIRE DEPARTMENT

The Firefighters and Emergency Medical Technicians of the Lunenburg Fire Department are dedicated to providing the highest quality, most cost effective fire and emergency medical services to the citizens of the town of Lunenburg.

In 2019 your Fire Department responded to 1885 calls for service, broken down as follows:

Fires & Hazardous Conditions	420	Emergency Medical	949
Inspections	554	Other	26

Current Fire Department staffing is now 7 Career and 40-45 On Call Firefighters and Emergency Medical Technicians, plus 1 full-time Administrative Assistant/EMS Coordinator. The station is manned 7 days per week with 2 Firefighter/Emergency Medical Technicians, plus a 3rd Firefighter/EMT Monday-Friday from 8 am-4 pm. This coverage is a combination of full-time personnel in conjunction with 88 hours per week of per diem coverage. The per diem coverage is provided by our Call Firefighter/EMTs staffing the station at their hourly rate. Staffing the station with dual trained Fire/EMS personnel ensures that we are ready to respond to whatever emergency occurs.

Though we have achieved 24 hour coverage in the station, many EMS calls and nearly all fire calls still require more personnel than are on duty in the station. This means we still rely heavily on the dedication and commitment of our Call Firefighters and Emergency Medical Technicians. Our call personnel remain and will remain for the foreseeable future, a vital part of our emergency response. A new Call Firefighter/EMT must attend over 340 hours of initial training plus additional time in orientation and field training. Members qualifying to drive fire apparatus must complete an additional 65 hours of classroom and practical training. On average, it takes a new member one and a half to two years to fully complete this training.

The department continues to move towards the goal of providing our own Paramedic Level Ambulance Service. Though we currently operate two ambulances at the Advanced EMT Level, we must still rely on outside agencies to provide paramedic level care when needed. Firefighter Timothy Downey completed his paramedic training at the end of 2019 and is currently going through the state testing process. Firefighter Austin Flagg also began the training in September and will be completing it at the end of 2020. These two members, plus addition of three more firefighter/paramedics over the next 2-3 years will allow us to provide our own paramedic level care to the community.

In 2019, the Fire Prevention Division conducted 554 Inspections. This is in addition to multiple fire drills and public education initiatives. By law we are required to inspect smoke and carbon monoxide detector installations when a home is sold. We are also required to inspect all new oil burner and propane gas installations. Any business holding a liquor license is also required to be inspected for fire safety issues. In addition, all new construction projects must have their plans reviewed for proper fire protection, as well as ongoing inspections during the construction process.

Personnel also continue to provide fire safety education to not only children in our schools but adults as well. Other Fire Safety Initiatives undertaken during 2019 include:

- ⇒ Continuation of a Department of Fire Services Grant in the amount of \$6953 to assist with Fire Safety Education in both the schools and with senior citizens. This Grant provides funding for both materials and personnel to bring fire safety education to our most vulnerable populations. Highlights of activity through this grant include:
 - Educational programs in basic fire safety in Grades K-3, including use of the Regional Fire Safety Trailer.
 - Educational programs in conjunction with the Council on Aging. These included cooking and heating safety, a CPR Demonstration and Ice safety.
 - Training to certify personnel as Public Life Safety Educators. In 2019, Firefighter Austin Flag joined Captain James Ricci and Lt. Christos Lekaditis as the Department's Life Safety Educators.
- ⇒ Participation in the Senior Center's "Sand for Seniors" Program. This program provides buckets of walkway sand for senior citizens who were unable to obtain it for themselves in the winter months. In partnership with this program, Captain James Ricci delivers the sand to the residents and when possible, inspects their homes for smoke and carbon monoxide detectors. If the resident was lacking detectors, Capt. Ricci is able to install free detectors obtained through the Senior SAFE Grant.
- ⇒ It should be noted that each year, 50% of fatal fires are found to have nonfunctional or nonexistent smoke detectors.

During 2019, Call Firefighters Andrew Bolton and Olivia Hayes graduated from the Massachusetts Firefighting Academy's Call/Volunteer Training Program. This intensive 4-month program provides the basic skills firefighters need to operate in today's challenging environments. All newly hired Firefighters are required to complete this program within one year of hire.

Seven firefighters from Lunenburg continue to be members of the Fire District 8 Technical Rescue and Dive Teams. These regional teams respond to high risk and unusual rescue situations, such as Confined Space, Rescue from Heights, Building and Trench Collapse, Swift/Floodwater and Underwater Search and Recovery. In conjunction with these Teams, Lunenburg operates both a Water Rescue Unit and a Collapse/Trench Rescue Trailer.

Apparatus replacement continues to move forward. The new Rescue 2, a 2019 Ford F550/Horton Ambulance was received in late 2019 and is now in service as our primary ambulance. Rescue 1 has been rotated to Backup/2nd Ambulance. The replacement for our 31-year-old ladder truck experienced a delay in construction and is now due to arrive in April of 2020. This unit is expected to serve the town for 25+ years. The replacement for Engine 4 has been ordered and is due to arrive in the summer of 2020. This unit is expected to serve the town for 20+ years. The next anticipated major apparatus purchases are not until 2026 (Rescue 1) and 2028 (Squad 3)

In conclusion, I would like to thank the members of the Lunenburg Fire Department for their outstanding commitment to the Town. Their enthusiasm, professionalism and dedication continue to impress me every day. I would also like to thank the other department heads, boards and commissions for their continuing help. Most people do not realize the level of interdepartmental cooperation that occurs in the daily course of town business. My thanks also go out to the citizens of Lunenburg for their ongoing support of public safety. It is that support that allows us to continue providing the high level of service you have come to expect from us.

Newly Appointed

Full Time: Officer Kam Munroe, Officer Ramon Cabrera, Officer Anthony Cappucci

Reserve Intermittent: Officer Bob Diconza (Full Time Retired) Officer Amanda Moore,
Officer Brian Watson

With Much Appreciation

Officer Robert Diconza

Bob Diconza began his distinguished career in Law Enforcement as an Auxiliary Police Officer with the Fitchburg Police Department in 1984. He served as a Deputy Sheriff with the Worcester County Sheriff's office from 1987 to 1997 where he served as an Equestrian Officer. Bob was also appointed as a Lunenburg Police Reserve Officer in 1988 during his evolution with the Sheriff's office... In 1997 Bob left the police department and Sheriff's office to take a position as a full time law enforcement officer in the City of Myrtle Beach South Carolina. His commission as a reserve officer was reinstated when he returned to Massachusetts in 2002 and in 2004 Bob was appointed as a full time officer. During his time as a full time officer Bob was involved in many aspects of policing serving for many years as the Traffic Enforcement officer. Bob retired from full time policing in 2019, but elected to stay on as a Reserve Officer to help with the staffing shortage. We have been extremely honored to work with Bob and grateful that he has elected to stay with us on a part time basis.

Reserve Officer Stan Barney (Lieutenant Retired)

Stan Barney began his distinguished career in Law Enforcement as a Reserve officer with the Lunenburg Police Department in 1975. In 1977 Stan was appointed as a full time officer and attended the Massachusetts State Police Academy. In 1983 Stan left to take a job with the Massachusetts Society for the Prevention of Cruelty to Animals, (MSPCA), as an enforcement officer. During that time Stan stayed on as a Reserve officer and returned as a full time officer in 1996. He was later promoted to Sergeant and then Acting Lieutenant. Stan retired in 2013 but also elected to stay on as a Reserve officer to help with the staffing shortage. In 2019 Stan decided to retire completely giving up his commission as a Reserve officer. We were grateful that Stan stayed with us as long as he did and we have always been extremely honored to serve with Stan. We thank Lieutenant Stan Barney for all his years of exceptional service and wish him the best of luck and the most enjoyment with his retirement.

About the Police Department

The Police Department is in operation 24 hours a day, 7 days a week. The department is staffed with the Chief of Police supported by the Public Safety Coordinator, and one Administrative Lieutenant. Three Sergeants/Shift commanders, one of the sergeants presently assigned to K-9/Traffic enforcement, eight Patrol Officers, three Student Officers, and eight Reserve Intermittent Patrol Officers make up the patrol unit. Supporting the patrol unit is the Criminal Investigation Unit headed by a Detective Sergeant. Within the C.I.U. is the School Resource Officer who is also assigned to Community Outreach and who is accompanied by Hank the therapy dog. The Lieutenant and Public Safety Coordinator are on duty Monday through Friday between the hours of 7AM and 3PM. Office hours for the Chief of Police are 8AM to 4PM Monday through Friday.

The Animal Control Officer responds to domestic animal calls on a 24 hour ,7 day per week basis. This year 356 Animal calls were logged. The public is reminded to report any animal related complaints to the Regional Call Center at (978) 582-4531. **For emergencies, dial 911.** More information can be found on the Animal Control Web site at lunenburgma.gov.

Dogs must be licensed by April 1st annually. Dogs must have a current Rabies certificate to qualify for licensing. This can be done at the Clerk's office in Town Hall, 17 Main Street Lunenburg, MA 01462. Unspayed Female/Unaltered Male \$20 fee. Spayed Female/Altered Male \$5 fee. Late Fee: \$25

The front desk is open Monday thru Friday from 7AM to 7PM. Emergency, Non-emergency and 911 calls are routed through Nashoba Valley Regional Dispatch District, (NVRDD).

For all emergencies, dial 911. For general calls, please call (978) 582-4531.

Applications for Firearms Licensing can be found on the Police Department Website at

lunenburgma.gov. Contact (978) 582-4531 for an appointment.

The State of the Police Department

The Police responded to 21,816 calls for service this year, a 12.5% increase over last year; responded to 295 motor vehicle accidents, investigated 1220 incidents, 22 Field Interviews, conducted radar patrol 1840 times, wrote 2580 motor vehicle citations, arrested 161 people, summonsed 319, and placed 8 people in protective custody. The K-9 was deployed 27 times the CEMLEC Swat Officer called into service and completed training evolutions on 21 occasions and the Drug Task force was activated 56 times. The School Resource officer utilized "Hank," the comfort dog on 612 occasions within the school district for emotional support and many other initiatives such as, "read with a dog." Hank was also deployed to a number of funerals for emotional support as well, and to the Domestic Violence Round table, Cub Scout visits and the Senior Center just to name a few. In 2019, staff assignments had to be increased 197 times to effectively meet service demands.

The day shift desk officer answered 3056 calls and took 4666 lobby inquiries and complaints in 2019. The day shift desk officer wrote 82 incident reports in 2019. This year the day shift desk watch officer was responsible for conducting suicide watch and assisting with the court processing of 83 detainees; either taken into custody overnight or during the day shift. The day shift desk officer processed 322 Firearms Licenses, a 109% increase over the previous year, 12 Non FID related fingerprints, and registered 15 sex offenders. The 3 pm to 7 pm desk watch officers assisted in the processing of 55 detainees while providing suicide watch and numerous other services including providing support for the patrol staff.

Calls for service which will continue to rise, are affected by not only growth in our community, but the surrounding communities as well. Traffic too will continually increase and will have a direct effect on the amount of traffic accidents the police will have to investigate. Environmental factors also play a role in the motor vehicle accident picture. Incidents and arrests amounts are affected by social and economic factors.

I again emphasize the important of keeping with current growth trends. Growth invariably plays a major role in police calls for service, arrests, incidents and motor vehicle accidents. The demands for police services will continue to rise and the police department will have to grow in kind.

Calls for service have increased by 12.5% over last year. Incidents have increased by 16.7%. *Incidents are cases that do not necessarily result in an Arrest, but require a report and investigation.* Arrests are up by 33.7%, with motor vehicle accidents decreasing by 12.4%.

Group A crimes against Persons has declined by 17% this year. These crimes include; Rape, Statutory Rape, Aggravated Assault, Simple Assault, Intimidation, Kidnapping/Abduction.

Group A crimes against Property has also fallen by 17% this year. Crime against Property include; Burglary/Breaking & Entering, Larceny, Shoplifting, motor vehicle theft, Forgery, Fraud, stolen property, destruction of property, vandalism.

Group A crimes against Society have increased by 14%. Crimes against Society include; Drug crimes, Pornography/Obscene Material, Weapons law violations.

Group B crimes have increased by 22% this year. Group B crimes include; Bad checks, Disorderly conduct, Driving under the influence, Drunkenness, Family nonviolent offenses, Liquor Law Violations, Trespassing, and all other offenses.

Lunenburg is a safe community to live in thanks in large part to citizen input. Reporting crime as soon as it's discovered is key to the safety of a Town such as ours. The Police cannot provide effective protection without the citizen involvement. I encourage every citizen to report crime as it occurs, without hesitation, as a timely response is vital to the successfully outcome of any police investigation.

"See something, say something."

Thank you again this year for allowing me the privilege to manage your Police Department. The necessary funding to support my request to bring police staffing to a level that will keep up with the demands of growth has been overwhelming. I ask you to please continue to support our initiatives. The police department endeavors to deliver the service the public expects and is entitled to.

Respectfully Submitted

Chief James P. Marino

PLANNING

CAPITAL PLANNING REPORT

Fiscal Year 2020

The Capital Planning Committee has presented the Fiscal Year 2020 plan to the Town Manager as required by Charter. The Committee has recommended the following items be included in the FY2020 Capital Plan.

Priority #	CIP#	Dept.	Project Name	Category	FY2020 Projected
1	FD18-01	Fire	Vital Sign Airway Monitors	Equipment	15,000.00
2	PD17-01-A	Police	Police Vehicle, 1 marked	Vehicle	68,000.00
3	PD17-01-B	Police	Police Vehicle, 1 unmarked replacement	Vehicle	48,000.00
4	FD16-15	Fire	Engine 4 Replacement (1995)	Vehicle	685,000.00
5	LPS19-01	Schools	PRI/THES Wifi Upgrade	Equipment	19,600.00
6	GG19-01	Town Clerk	Voting Machines	Equipment	26,500.00
7	LPS16-19-B	Schools	THMS, Asbestos Abatement/ Ceiling Replacement	Facilities	162,000.00
8	FM17-10B	DPW	Fuel Tanks at DPW	Facilities	220,000.00
9	PD18-02	Police	Patrol Rifles and Shotguns	Equipment	16,000.00
10	GG19-02	Planning	Master Plan	Planning	50,000.00
11	FD17-02	Fire	Rescue 2, Replacement 19R2 (2008)	Vehicle	310,000.00
12	FM16-15	DPW	Teen Center, Paint Exterior	Facilities	12,000.00
13	FM19-01	DPW	Parks- Wallis Park Bball Court and Fence	Facilities	36,000.00
14	FM16-01	DPW	PSB, Bldg Automation System	Facilities	16,000.00
			Total Capital Plan		1,684,100.00

Capital Planning Committee

Damon McQuaid, BOS Representative, Chairman

Heather Sroka, School Committee Representative , Vice-Chair

Caroline Griffis, Member at Large, Clerk

John Henshaw, Finance Committee Representative

Matthew Allison, Planning Board Representative

PLANNING BOARD

Fourteen (14) ANR plans (land division plans not requiring approval under the Subdivision Control Law, but still requiring Board endorsement) were approved.

Two large-scale solar fields were approved for construction. 5.8 MW at 994 Northfield Road; this solar field will contain a public foot path easement to allow public access to conservation land on the northerly portion. The other approval was for 2.3 MW at 190 Electric Avenue.

Tri Town Landing on Youngs Road has yet to begin construction on Building #5, which will consist of 70 units of rental senior housing. Approval was given for nine subdivisions off Howard Street entitled Aro Estates. There will be a total of 122 houses built with construction being phased over a reasonable period of time to avoid overburdening the Town facilities and services all at once. As part of the approval the developer has agreed to donate approximately 40 acres of land to the Town for conservation purposes. Included as part of this donation will be a roadway extension within the subdivision(s) to provide public access to the boundary of the Town Forest.

Construction continues on Massachusetts Avenue for an office and garage for the Lunenburg Water District. The Board also approved the construction and operation of a retail motor fuel outlet and convenience store with a drive-thru at 400 Electric Avenue.

Various businesses asked for, and were approved for waiver requests from the site plan/special permit approval process. One of those businesses was Dick's Market Garden which received approval for construction of a new barn at 554 Lancaster Avenue for indoor washing and prepping vegetables for storage. This process had previously taken place outdoors.

Through MRPC's District Local Technical Assistance Program a Residential & Commercial Permitting Guidebook was finalized. This Guidebook will facilitate permitting by providing easy-to-follow procedures that outline the permit review process for homeowners, property and business owners, developers, brokers and contractors.

Under the Town's Capital Plan, the Town voted to approve \$50,000 for FY 2020 for the Board to begin updating the 2002 Master Plan. The Master Plan is a policy document which outlines the community's vision for the future.

In spring the Board identified economic development as an important topic to be addressed in the near future. To address this, the Planning Board began working to create an Economic Development Committee (EDC). This group would be composed of a combination of Town Officials, residents and business owners charged with providing advice, and guidance on the state of the business community in Lunenburg and ways that Town Government can support and sustain the local economy.

At May 2019 Annual Town Meeting a Zoning Bylaw to regulate Recreational Adult Use Marijuana was passed. This Bylaw allows for no more than two (2) retail locations in the Town of Lunenburg. Retail locations are permitted in the Commercial and Office Park/Industrial Zoning Districts, as long as they are 250 feet away from Residential Zoning Districts and/or residential uses. The remaining types of Marijuana Establishments are permitted **ONLY** in the Office Park/Industrial District and must be located 500 feet from Residential Zoning Districts and/or residential uses.

David Prokowiew stepped down from the Board; Kenneth Chenis finished out his term. Rhonda Lisio and Paula Bertram joined the Board.

The Planning Office is located in the Ritter Memorial Building, 960 Massachusetts Avenue and can be reached at 978-582-4147 ext. 5. Various forms are available online at <https://lunenburgma.gov/> on the Planning Board's homepage. The Zoning Map, Code of the Town of Lunenburg, MA (which contains the Protective {Zoning} Bylaws), Rules and Regulations Governing the Subdivision of Land, Rules & Regulations for Site Plan Approval & Special Permits, and Permitting Guidebook are available online. The Board continues to work on updating the Zoning portion of the Code.

Matthew Allison, Chair	Gregory Bittner, Clerk	Rhonda Lisio, Member
Tanner Cole, Vice Chair	Paula Bertram, Member	Adam R. Burney, Land Use Director

AD HOC OPEN SPACE ADVISORY COMMITTEE TO THE PLANNING BOARD

The Open Space Committee's efforts in FY'20 revolved around updating the Town's expired Open Space and Recreation Plan, building on the work done in the prior year. The Plan was drafted in accordance with Massachusetts Executive Office of Energy and Environmental Affairs, Division of Conservation Services' (DCS) guidelines and submitted for their review in January of 2019. The Plan received conditional approval by the State in June of 2019, and the committee focused its energies on completing the required edits to finalize the Plan. The final revised Plan will be submitted to DCS for review and, once approved, will make the town eligible for DCS-administered grant programs through 2026.

Working with a diverse group of other boards, the Open Space Committee participated in the Land Acquisition Committee that reviewed, negotiated, and ultimately brought the Saliba property acquisition before Special Town Meeting in November of 2019. The acquisition, which will add approximately 318 acres of land for town conservation and recreation uses, was approved unanimously at town meeting. The Committee continues to support that effort to date.

Respectfully submitted,

Brandon Kibbe, Chairman

ZONING BOARD OF APPEALS

The Zoning Board of Appeals heard several petitions during calendar year 2019. There were several applicants seeking special permits, special permits for dimensional variations and two applications for variances.

The Zoning Board meetings are held on the second and fourth Wednesdays of the month at Town Hall at 7:00 PM on an “as needed” basis.

The Zoning Board consists of the following members: Alfred Gravelle, Chairman, James Besarkarski, Vice Chairman, Members: Hans Wentrup, David Blatt and Associate member Patrick Callahan. Lisa Normandin serves as the Administrative Assistant to the Zoning Board.

We were saddened by the sudden death of our friend and Board member Paul Doherty. Paul served on the Zoning Board.

The functions of your Zoning Board of Appeals as required by statutes are as follows:

- ◇ To hear and decide applications for Variances from Town’s Protective By-Laws as authorized in the By-laws.
- ◇ To hear and decide applications for Special Permits as authorized in the Town’s Protective By-laws.
- ◇ To hear and decide appeals in accordance with Chapter 40A, Section 8 of the Massachusetts General Laws, as amended, from any person aggrieved by reason of his or her inability to obtain a permit or enforcement action from the Administrative Officer or Board in the Town, the Regional Planning Agency, abutting City or Town or other Administrative Official.
- ◇ To act upon application for comprehensive permits in accordance with Massachusetts General Laws, Chapter 40B. The Zoning Board of Appeals reviews requests for comprehensive permits submitted to the Board under Chapter 40B by developers who wish to create affordable housing. These requests can, by law, circumvent local zoning ordinances.

The office is located in the Ritter Memorial Building at 960 Massachusetts Avenue.

Business hours are 8:00 AM to 4:00 PM, Monday and Wednesday and 8:00 AM to 6:00 PM Tuesday and Thursday, closed Friday.

If you need any assistance from the Zoning Board of Appeals, please contact us at 978-582-4146 X 421 during regular business hours.

Zoning Board applications are available in the office and online at www.Lunenburgonline.gov.

EDUCATION

LUNENBURG PUBLIC SCHOOLS

SUPERINTENDENT'S MESSAGE

Dr. Kathleen Burnham

It is a pleasure for me to present my annual report for the Lunenburg Public Schools. This report reflects the progress and good work of newly established teams in the district. It also outlines the strategic objectives that will address district needs and realize the potential for the district I am proud to lead. One of the greatest challenges we face as a community is growing need and limited revenue. I want to acknowledge and express my gratitude for a collaborative approach to projecting and planning for current and future needs with the Town Manager, Heather Lemieux, and all the Town department heads. I appreciate the effort on the part of the School Committee, Board of Selectmen, and Finance Committee to strengthen communication and work collaboratively to problem-solve in order to meet the educational needs of the children of Lunenburg.

Because Lunenburg values education, we have two beautiful, modern facilities for teaching and learning; Lunenburg Middle-High School and Lunenburg Primary School. Turkey Hill Elementary School is now fifty years old and we know that the community will have to determine the future of this building in the next few years. A modern facility is but one factor in providing students with a quality education. Rigorous programming designed to meet the academic, behavioral, social and emotional needs of all of our students is foundational to a quality learning experience. It is also essential for the cultivation of a culture of safety, inclusivity, caring, and learning in our schools. At the heart of a quality learning experience is the connection between teacher and student; student-centered teachers who have the knowledge and skills requisite for effective instructional practice; a well-designed curriculum; materials to implement that curriculum; and quality data to assess and monitor student learning. Seamless integration of instructional technology to create engaging lessons, provide differentiated instruction and assessment, and facilitate analysis of achievement data to monitor the growth and support the success of all of our students is also essential.

In October 2019, the School Committee approved the Strategy for Continuous Improvement which was developed to address the findings of my entry process last year. The Strategy is designed to meet our

Mission:

The Mission of the Lunenburg Public Schools is to provide all students with the skills, confidence, and passion for life-long learning so that they may find their own paths to successful careers, active citizenship, and rewarding lives.

and Vision:

The Lunenburg Public Schools is committed to becoming a leader in education by focusing on its values of attending to the personal well-being of its students, providing high-quality curricula and student-centered instruction for deeper learning at all levels, and promoting the development of attributes and skills necessary for continuous learning for all.

The Strategy for Continuous Improvement is a living document which will be reviewed annually and adjusted as needed. The Strategic Objectives for the next three to five years are:

Transforming Teaching and Learning: To ensure teaching and learning are student-centered and inclusive by: (1) establishing effective teams of educational leaders to accomplish the essential work for transforming practice, and (2) hiring and developing excellent educators who are continually learning and adapting practice to meet the needs of all students. (DSP Goals: 1, 2, 3, 5, {4, 7})

Cultivating Climate & Culture: To create a culture that values data use and fosters continuous learning in a climate that is safe, caring, inclusive and reflective of our core values. (*District Strategic Plan Goals 1, 6*)

Communication & Operations: To improve operational efficiencies, including communication, in order to increase the organization's capacity to execute the district's mission and vision. (*District Strategic Plan Goal 8*)

Equity, Access, Achievement & Opportunity for All Students: To ensure all students are provided equal access to a high-quality education, that is collaborative, interactive, and relevant with an appropriate level of support and challenge so that they can become well-rounded, resilient, confident, and capable young adults adequately prepared for future challenges. (*District Strategic Plan Goals 1, 6*)

To cultivate district-wide leadership in key areas identified in the Strategy for Continuous Improvement, the Behavioral Health Advisory Council, Elementary Literacy Team, and Professional Development Committee were created in 2018-2019. In 2019-2020, we added a District Advisory Council and Equity Advisory Council. We expanded the District Leadership Team to include Food Service and Health Service, and created an Instructional Leadership Team focused on improving teaching and learning.

In August 2019, the Instructional Leadership Team participated in a data workshop. With guidance from an instructional data consultant, the Team engaged in an analysis of the 2019 MCAS data as a team. We know we must continue to focus on curricular and instructional supports in order to increase the achievement and growth of our High Needs subgroup. Through the analysis, writing emerged as an area for additional focus at all grades. All principals worked with staff to include Student Learning Goals or Professional Practice Goals in writing in the Educator Evaluation Plans. The Team also reviewed the Entry Report of Findings and student survey results and determined that behavioral health (social emotional learning) was another key area in which our educators should focus their Professional Practice Goals.

"One looks back with appreciation to the brilliant teachers, but with gratitude to those who touched our human feelings. The curriculum is so much necessary raw material, but warmth is the vital element for the growing plant and for the soul of the child." ~ Carl Jung

As evidence of progress on our objectives, we have been revising and implementing our K-12 social studies and history curriculum to align with the new Massachusetts History and Social Science Curriculum Framework; providing professional development in literacy at Turkey Hill Elementary School and Lunenburg Primary School. Lunenburg Primary School is participating in the second year of a Department of Elementary and Secondary Education (DESE) literacy grant. At Lunenburg Primary School we have continued with professional development in behavioral interventions and supports. The LHS staff are engaging in the NEASC accreditation process and have done much curriculum alignment as part of that process. The Behavioral Health Advisory Council and Wellness Committee have conducted student surveys and screenings at LMHS. This data helps us identify general student social and emotional needs and identify students who need intervention or supports. We have made improvements to our before and after school programs in order to provide additional learning experiences.

Perhaps the most impactful work of this past year were two professional development conference days created by the Lunenburg Professional Development Committee. The team organized a phenomenal full-day professional development day in September 2019 dedicated to behavioral health. All members of our school community were invited to attend, including teachers, paraprofessionals, food service, secretaries, custodians, and bus drivers.

We also invited educators from neighboring districts to join us. In November 2019, the Lunenburg Professional Development Committee collaborated with North Middlesex Regional School District to provide a second phenomenal full-day professional development day held at North Middlesex Regional High School. The Lunenburg Professional Development Committee is excited to plan a regional professional development conference in November 2020 and serve as a host campus.

The chart below shows the Accountability of the district and schools following the 2019 Spring MCAS. Lunenburg Middle School and Lunenburg High School are performing in the top third percentile. The district needs to dedicate resources K-5 to support behavioral health needs, curriculum alignment, implementation of more effective instructional practices, and implementation of academic and behavioral intervention and supports in order to improve performance at Turkey Hill Elementary School. Districtwide we need to examine how to shift curriculum and instruction practices to realize stronger performance of our High Needs student subgroup.

2019 Accountability Summary				
	Classification	Progress Toward Improvement Targets All Students	Progress Toward Improvement Targets High Needs	Accountability Percentile
District	Not Requiring Assistance or Intervention	55%- Substantial progress	46%- Moderate progress	-
THES	Not Requiring Assistance or Intervention	44%- Moderate progress	28%- Moderate progress	33
LMS	Not Requiring Assistance or Intervention	45%- Moderate progress	34%- Moderate progress	67
LHS	Not Requiring Assistance or Intervention	69%- Substantial progress	64%- Substantial progress	68

Under the Department of Elementary and Secondary Education's accountability system, annual performance determinations for districts and schools are calculated using Indicators: English language arts (ELA), Mathematics, and Science achievement; ELA and Mathematics mean student growth percentile (SGP); four-year cohort graduation rate, extended engagement rate, annual dropout rate; student progress towards attaining English language proficiency; chronic absenteeism, and percentage of 11th & 12th graders completing advanced coursework.

Indicators are weighted. Substantial weight for achievement, growth, English language proficiency, and graduation rate indicators is required by federal law. Federal law also requires that these indicators combined should have much greater weight than the additional indicators. Under the accountability system, the weighting of achievement and growth is based on ratios instead of percentages, maintaining the achievement to growth ratio of 3 to 1.

Lastly, one of the greatest privileges as Superintendent is to honor a hard-working student with the Superintendent's Award. Every year the selection process is difficult as we have many hard-working, high-performing, community service oriented students. The recipient of the 2019 Superintendent's Award is Breda Page-Violette. Breda is the President of National Honor Society and the recipient of the

Martin Luther King Jr. Young Leadership Award. She is a WPI Math Meet Scholarship Winner and three-time League All Star and 2018 Outdoor District Champion in Varsity Track & Field. Breda embodies her favorite quote from Plato, “Good actions give strengths to ourselves and inspire good actions in others.”

District enrollment of Lunenburg students has steadily increased within the past four years. This is due in part to the number of rental properties that have been built in town. Town birth records also indicate increases.

Grade Level	Lunenburg Resident Students	School Choice Students	Total
PK	47	0	47

****Enrollment figures reflect removal of school choice and out of district students**

Lunenburg Public School Facilities

2019-2020

The focus of school maintenance for FY20 continues on preventative maintenance on heating and ventilation systems and energy conservation measures. The focus of repairs has been on Turkey Hill Elementary School with minor improvements such as switch replacement, painting, and other minor items.

Security Upgrades

The district applied for a Safer Schools and Community Grant in April 2019 and was awarded \$55,500 for 32 additional security cameras. The project was bid with Johnson Controls Security Solutions being awarded the work at \$45,286.70. Work began in November 2019 and is expected to be complete by January 2020. The number of additional cameras by school was Lunenburg Middle High School, 14, Turkey Hill Elementary School, 10, Lunenburg Primary School, 8. Additional memory is being planned for the remainder of the grant funds.

Water Testing

In the second year of widespread water testing for lead and copper in the drinking water at all schools, in June 2019 lead was detected in a number of sources at Turkey Hill and Passios Elementary School. The source of the lead is believed to be solder from joining copper pipes. A number of high copper readings at Lunenburg Primary School suggest that the water district's corrosion control program needed to be reviewed. The water district has recommended that the pH level of the water needs to be raised. The teaching staff, parents and students have been made aware of the need to flush water sources at the start of the school day. Follow-up testing will occur at all schools in June 2020.

Energy Savings

The LED lighting conversion for Turkey Hill was completed in April 2019 with \$36,233 in Green Community grant funds which paid \$14,347.53 for materials and \$21,855.47 to Duoba Electrical Contracting to install. The Green Community grant was supplemented by \$1719 from the school budget and the remainder of \$14,500 from a Unitil Corporation energy rebate.

Capital Program

The FY20 capital program continued to fund additional asbestos abatement at Turkey Hill Elementary School. In July 2019 Air Quality Experts, for \$154,704.29, removed spray-on fireproofing above the ceiling on the south stairway and the second floor hallway of the classroom wing. This project included removal of the splined ceiling and the floor tiles in those areas. Turkey Hill Elementary School is expected to continue to have additional asbestos removal in the coming year with three first floor classrooms still to be abated. A request for \$123,500 for FY21 was submitted into the town's capital planning process to abate rooms 102, 113 and 114. The school department also requested funds to begin air conditioning design for the Lunenburg Primary School classroom wing and the Turkey Hill administration area. Three split air conditioning systems would be added to cover the main office, guidance suite and nurse's office in July 2020 at an estimated cost of \$28,000 if approved.

Respectfully submitted,

John Londa
Director of Facilities and Grounds.

Technology Department
2019-2020

Technology touches all our lives every day at the Lunenburg Public Schools. It is our aim in IT to serve our students, faculty and staff proactively, so that the tools used to facilitate learning function seamlessly and responsively when needed. From checking email, to accessing class information, to connecting and collaborating with students and colleagues near and far, faculty, staff, and IT are working together to help redefine what is possible for our students, so they can redefine what's possible for the world. Our annual report highlights the IT team, as well as our ongoing efforts to improve the technology experience for students, faculty and staff.

The IT Team

Our team continues to learn and grow each year as we improve our infrastructure and explore innovations in education technology.

Steve Malandrinos – Information Technology Director

Six years working for the Town and Schools
Previously an engineer at Cisco Systems, IT Director for the Town of Belchertown, MA and
Belchertown Public Schools

Daniel Nadareski – Network Administrator

- Retired Police Officer from the Albany, NY police force with over 24 years on the job
Prior experience includes computer crime and forensics, network administration, video security system administration, and IP phone system administration

Nicholas Scoggins – School Technology Coordinator

- Received Associate and Bachelor of Science degrees from ITT Technical Institute
Served 5 years as Security System Administrator at Greater Lawrence Technical School

Jordan Pochini – Tech Support Specialist

- Graduated from Fitchburg State University with a degree in Computer Science
Prior experience includes both individual contributor and management roles in retail environments

Each year we continue to increase our device-to-student ratio, putting technology directly into the hands of more and more students. This year, we have a ratio of about one device for every 1.4 student's districtwide, while just a few years ago that number was closer to one device for every four students.

Our ultimate goal remains to provide the tools necessary for faculty, staff, and students alike to facilitate the learning process in a secure, highly-available, high-performing environment, and to always just 'make IT work'.

Respectfully Submitted,

Steve Malandrinos, IT Director

Special Services Department
FY19 (data taken from 2018-2019 school year)

From the March 1, 2019 report (SIMS Report 5-Enrollment Statistics – District Summary), there are 263 students with disabilities receiving special education or related services in Lunenburg (last year there were 266). This represents 15.8% of our total student population of 1,662 students (it was 16.2% last year). The state average from the 2018-19 Selected Populations Report (District) is 18.1%. From the March 1, 2019 report (SIMS Report 7-SPED Enrollment Statistics – District Summary), the total number of students receiving services outside the district was 12 (last year was 14). Of the 12 students, 4 are placed in Collaborative Placements, 5 are in Day Placements and 3 are in Residential Placements. Our Advanced Community Experience Program (ACE), which serves students ages 18-22 years old, had 6 students enrolled last year. Additionally, from the March 1, 2019 report, 138 students identified with a disability received accommodations via 504 plans in Lunenburg (last two years were 118 and 103).

This year as a district, our overall Accountability and Assistance Level is NOT REQUIRING ASSISTANCE OR INTERVENTION with the Primary School (Insufficient data), Turkey Hill Elementary School (Not requiring assistance or intervention), Lunenburg Middle School (Not requiring assistance or intervention), Lunenburg High School (Not requiring assistance or intervention) and the Advanced Community Experience Program (Insufficient data).

The 2019 Official Accountability Report classifies “High Needs” students in Lunenburg as “Moderate progress towards targets” in their overall progress toward improvement targets. Participation rates in MCAS this year were as follows: High Needs = 99%, Econ. Disadvantaged = 99%, EL and Former EL = 100%, and Students w/disabilities = 100%. This data can be found at the DESE website:

<http://profiles.doe.mass.edu/accountability/report/district.aspx?linkid=30&orgcode=01620000&orgtypecode=5&>

Other data collected throughout the year is also important to consider when looking at the whole Special Services Department. DESE requires us to collect data for certain Indicators they are targeting each year. For our Indicators, the following information is available below and also can be found at: http://profiles.doe.mass.edu/gis/sped_map.aspx?orgcode=01620000&

Indicator 1 – Graduation Rate. For the 2017-2018 school year, the state target for Students with IEPs was 88% (was 86.0% last year). Lunenburg’s rate was 62.5% (was 94.1% last year) and the overall state rate was 72.2% (was 72.7% last year) for Students with IEPs.

Indicator 2 – Dropout Rate. For the 2017-2018 school year, the state target for Students with IEPs was 2.1% (was 2.4% last year). Lunenburg rate for Students with IEPs was 2.0% (it was 2.0% last year) and the overall state rate was 2.5% (was 2.5% last year).

Indicator 3C – Proficiency Rate for Students with IEPs on MCAS. For the 2018 MCAS, Lunenburg Students with Disabilities SS ratings were as follows:

Grade 3 – Reading:	Lunenburg = 483.1	State = 485.7
Grade 3 – Mathematics:	Lunenburg = 473.6	State = 481.8
Grade 4 – Reading:	Lunenburg = 474.8	State = 483.6
Grade 4 – Mathematics:	Lunenburg = 475.6	State = 479.2

Grade 5 – ELA:	Lunenburg = 479.5	State = 484.4
Grade 5 – Mathematics:	Lunenburg = 482.0	State = 480.9
Grade 6 – ELA:	Lunenburg = 477.5	State = 479.6
Grade 6 – Mathematics:	Lunenburg = 479.0	State = 479.0
Grade 7 – ELA:	Lunenburg = 475.2	State = 475.2
Grade 7 – Mathematics:	Lunenburg = 476.9	State = 476.5
Grade 8 – ELA:	Lunenburg = 480.7	State = 475.9
Grade 8 – Mathematics:	Lunenburg = 484.4	State = 477.8

For the 2018 MCAS, Lunenburg Students with Disabilities CPI ratings were as follows:

Grade 5 Science/Tech/Eng:	Lunenburg = 57.6	State = 57.6
Grade 8 Science/Tech/Eng:	Lunenburg = 63.2	State = 47.1
Grade 10 – ELA:	Lunenburg = 93.2	State = 88.6
Grade 10 – Mathematics:	Lunenburg = 68.2	State = 70.5
All Grades – Sci/Tech/Eng:	Lunenburg = 62.2	State = 58.7

Indicator 4 – Suspension (more than 10 days)/Expulsion for Students with IEPs. For Lunenburg, our rate was 0% (last year it was .0%). The state rate was .6%. Additionally, Indicator 4B records significant discrepancies with the Suspension/Expulsion rates by race or ethnicity. In 2018, Lunenburg was not found to have any significant discrepancies due to these factors.

Indicator 5 - Educational Environments for Students Aged 6-21 with IEPs. For 2017-2018, the state's rates are as follows: for Full Inclusion of students = 64.3%, Partial Inclusion = 15.2%, Substantially Separate Placements = 13.5%, and for Separate Schools/Residential Facilities/Homebound/Hospitals = 6.9%. In Lunenburg, our percentages are as follows: Full Inclusion = 69.4%, Partial = 12.9%, Substantially Separate = 8.1% and Separate schools, Residential, etc.= 9.7%.

Indicator 6 – Educational Environments for Students Aged 3-5 with IEPs. The 2017-2018 state rates showed the percent of students receiving a majority of their special education and related services in a Full Inclusion early childhood program was 54.4%, in a Partial Inclusion Program was 19.2%, a Substantially Separate Placement (special education class, separate school, or residential facility) was 16.8%, and students not attending an early childhood program but receiving only a related service (e.g. speech, OT, PT) was 9.6%. In Lunenburg, our early childhood Full Inclusion rate was 43.5%, our Partial Inclusion rate was 26.1%, Substantially Separate rate was 17.4%, and Related Services was 13.0%.

Indicator 7 – Early Childhood Outcomes. Districts participate in Indicator 7 data collection as part of a 4 year cycle in which they report exit data on children for whom they have collected entry level data; exit may occur at any time during the subsequent three year period as the children leave the preschool program. Lunenburg did not have a cohort completion year in 2017-2018.

Indicator 8 – Parent Involvement. This indicator measures the % of parents with a child receiving special education who report that school facilitated parent involvement as a means of improving services and results for students with IEPs. For 2017-2018 the state target was 86%. Lunenburg's rate was 91.3% and the state's rate was 82.9% (from information collected in the spring of 2017).

Indicator 9 & 10 - Both of these Indicators deal with Disproportionality in Special Education and in Special Education Categories. In Lunenburg, the state determined that there was no disproportionality found in either case.

Indicator 11 – Initial Evaluation Timelines. This indicator measures the % of children with parental consent to evaluate, who were evaluated within the State established timeline. Data is reported for all initial evaluations initiated in October, November, and December of the reporting year. Lunenburg was rated 90% in compliance and the state average for this Indicator was 100%.

Indicator 12 – Early Childhood Transition. This indicator measures the % of children referred by Part C, found eligible for special education services, and who have an IEP developed and implemented by their third birthdays. The state target for this indicator is 100% and Lunenburg is noted as “Suppressed”. Data is suppressed if the number of students referred by Part C and found eligible for special education services is fewer than 10.

Indicator 13 – Secondary Transition. In all years, the state target for Secondary Transition is 100%. This indicator measures the % of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition services needs. Lunenburg was last reviewed in this area in 2017-2018 and was 83.3% in compliance.

Indicator 14 – Post-School Outcomes for Students with IEPs. This indicator measures the % of students with IEPs who exited high school during the 2016-2017 school year and self-reported post-school engagement in education or employment one year after leaving high school. Engagement is defined through three measurements:

- Measurement A: Enrolled in higher education within one year of leaving high school.
- Measurement B: Enrolled in higher education or competitively employed within one year of leaving high school.
- Measurement C: Enrolled in higher education, or in some other postsecondary education or training program; or competitively employed, or in some other employment within one year of leaving high school.

Measurements are cumulative with Measurement C reflecting the total number of exiters engaged in a post-secondary activity one year after leaving high school. For the 2017-2018 school year, state targets for the three measurements of Post-School Outcomes are Measurement A: 53%; Measurement B: 88%; and Measurement C: 95%. Lunenburg rates are as follows (from reporting year 2014-15): Measurement A = 50%, Measurement B = 75%, and Measurement C = 75%.

The Parent Advisory Council Supporting All Learners (PACSAL) continues to be an active support group for parents, teachers and administration. All parents and community members can join the group, which currently consists of parents of students receiving Title I services and parents of students with disabilities. Meetings are typically held the first Friday of each month, 11:00 AM, in the Planning Room at the Middle School. The Executive Board is made up of Chairperson Kelly Harvey. Several events and presentations were organized by the PACSAL for both parents and teachers in Lunenburg this year.

For more information, go to: <https://sites.google.com/a/lunenburgschools.net/lps/special-services/pacsal?authuser=0>

In addition to the district PACSAL, Lunenburg also participates in a Regional SEPAC group. They meet periodically throughout the year and can be found (and followed for more information) on Facebook at "Regional SEPAC – Central MA"

In conclusion, the Lunenburg Public Schools continues to provide a variety of special needs services to meet the varying needs of our students in the least restrictive environment. We have an experienced, hard working staff that works together with parents to provide these varied services. Our parents are equal partners in our efforts to develop challenging and focused educational programs for children. We remain committed to the Lunenburg Public Schools mission, "The mission of the Lunenburg Public Schools is to provide all students with the skills, confidence, and passion for life-long learning so that they may find their own paths to successful careers, active citizenship, and rewarding lives." This is a total community effort and we encourage ALL Lunenburg residents to join with us to create positive experiences and futures for our children.

For additional information, please visit our website at: <https://sites.google.com/a/lunenburgschools.net/lps/special-services>, or contact Julianna Hanscom, Director of Special Services, Special Services Office, 1025 Massachusetts Ave, (978) 582-4100, ext. 305.

Lunenburg School Lunch Program

Lunenburg School Food Service welcomes Zach Welton to our team. Zach is a Lunenburg High alumni, Class of 2019.

We started a breakfast pilot in the Middle School on March 25, 2019 and continued through to the end of the school year. This pilot confirmed the need for breakfast in school and we were able to expand breakfast to all of our students at the start of school year 2019-2020. There is a link between breakfast and learning; students experience an improved learning environment. When breakfast is available at school students have improved attendance, decreased tardiness and discipline referrals.

Breakfast is available Monday through Friday including early release days. Participation continues to grow. Please check out our webpage located at www.lunenburgschools.net/school-lunchfood-services for details regarding our breakfast and lunch program along with information from the National School Lunch Program. Meal benefits are an ongoing process and you can fill out an application at any time. The federal government requires a new application each school year. Free and Reduced meal applications can be found on our website page listed above.

We are happy to have catered the boys' and girls' Varsity and JV soccer banquet again this fall. What a pleasure it is to see the student athletes and their families in this setting. Thank you to Angela Ashton, Dennis Mannon and the Soccer Boosters for supporting our program while celebrating theirs. Check out the catering menu on our webpage and let us cater your next event.

Respectfully Submitted,

Nadine Lorenzen
Food Service Director

Lunenburg Primary School

The Lunenburg Primary School is an early childhood education center for students in preschool to second grade. Our students range from three years old to eight years old. Our school community is made up of students, teachers, parents and support staff working together to maintain a learning environment that focuses on the academic and social emotional needs of the whole child.

The October 1, 2019 student enrollment reported to the Department of Elementary and Secondary Education was 421 students. Currently, our Preschool program services 45 three and four year old students. We have six Kindergarten classes servicing 123 students. Class sizes in our Kindergartens are at 20-21 students. This year we have six first grade classrooms servicing 147 students with class sizes ranging between 23-25. Five second grade classrooms have 119 students with class sizes averaging at 24 students.

Our professional development has centered on literacy instruction and Social Emotional Learning this year. In early October we received notification from Governor Charles D. Baker that the school was awarded a FY20 Early Grades Literacy grant of \$37,705. This grant funded teacher participation in an extensive professional development opportunity that included three statewide literacy institutes and follow-up regional meetings. Along with a consultant who works with teachers to provide clear, specific examples of how the early literacy aligns with our goals and supports the staff in a coaching model. We explored the development of writing in young children (birth-9); the role language plays in literacy; and the content of the Massachusetts ELA/Literacy Framework Standards for Language. Teachers discussed strategies to engage early grades students in writing, and thinking about the content they are learning in order to write with purpose and reason. The grant team shared information with grade level teams throughout the year. Our second grade team has worked with Mary Canner from Teachers21 and they have focused on implementing, Lucy Calkins: Units for Study for teaching reading, this Readers' Workshop model helps teachers provide their students with instruction, opportunities for practice, and concrete doable goals to help them meet and exceed any set of high standards. The main goal of this design is to prepare students for any reading and writing task they will face and to turn kids into life-long, confident readers and writers who display agency and independence.

Our staff works to maintain a school culture which is positive, inclusive, and supportive. In September and November all of the Primary staff participated in two full days of professional development on Positive Behavior Intervention and Supports (PBIS). Positive Behavioral Interventions and Supports (PBIS) is an evidence-based three-tiered framework for improving and integrating all of the data, systems, and practices affecting student outcomes every day. The system supports all students through a multi-tiered framework and this year's focus was the Universal Tier (Tier 1). We have worked with Maureen Gilman of Seaside Educational Consultants to develop universal school-wide positive expectations that are practiced throughout our school community. We have worked on establishing and teaching the school wide expectations along with having a continuum of encouraging expected behavior and discouraging problem behaviors. This system is aligning nicely with The Anchors of Emotional Intelligence, a whole-school/district-wide approach to teaching social emotional learning which the staff has been trained in and is using to help students recognize, understand, describe, communicate and regulate their emotions.

The Primary School is a Title One school and we have continued our tiered instructional system to insure that all students have the services they need to be successful. Common assessments are completed in the fall, winter, and spring for all children in grades K-2 in the areas of reading, writing, and math. These common assessments serve to monitor the effectiveness of teacher instruction and the progress of students. Struggling students are identified for additional support in Reading, Math, Speech, Occupational and Physical Therapy.

Lunenburg Primary School (cont.)

The Primary School Council meets each month to discuss school related concerns. Serving as an advisory group to the principal, the council is charged with reviewing the school building budget and developing the school improvement plan.

Members of the Council for the 2019-2020 school year are:

Principal:	Christina Guertin
Assistant Principal	Chad Adams
Teachers:	Vicky Barbier, Christa Palma, and Kirsten Snape
Parents:	Tiffany Tavares (Co-chair), Laura Kelly and Beth Graham
Community Representative:	Debra Chapdelaine
School Committee Rep:	Brian Lehtinen

I was excited to be given the opportunity to serve as the principal at the Lunenburg Primary School this year. I am coming to Lunenburg with twenty-six years of experience in Grades PK-Grade 6 and have been in the leadership role for the last nineteen years. Engaging on a daily basis with the youngest learners in our school district enlightens me every day. I look forward to supporting this community as we work together to educate our youngest schoolchildren.

The faculty and staff are honored and proud of the work we do with children. We are committed to the personal well-being of our students as we improve learning opportunities and promote a life-long desire for knowledge in each of them.

For more information about the work that we do at the Lunenburg Primary School please visit our website: <https://sites.google.com/a/lunenburgschools.net/primary/>

Turkey Hill Elementary School

Our fourth year as Turkey Hill Elementary has gotten off to a strong start. There are currently 364 students, with 120 third graders, 124 fourth graders, and 120 fifth graders. The average homeroom size is 24. Our MCAS data from the spring of 2019 indicates we are meeting or exceeding expectations above state averages in the following areas: Grade 3 Math at 55%, and Grade 5 Science at 50%. There are teaching teams of 2 as well as self-contained classrooms at each grade. Special area classes include art, music, PE, library, technology, and computer skills.

Teachers are engaging in a variety of trainings. 4th and 5th grade teachers have received professional development in Calkins Units of Study, Reader's Workshop and 3rd grade teachers in Writer's Workshop.

Math teachers have participated in trainings for IXL math and using Cuisenaire rods for number sense. A full day of professional development in November was dedicated to behavioral health. In December, a number of us visited a charter school in Cambridge with laudatory MCAS scores and others went to Framingham State for a math conference.

We are offering many after school activities for students this winter. About 100 students signed up for a variety of goings-on including cooking: they've experimented with graham cracker art and ice-cream in a bag; winter wonderland: sledding and snowman creations on the hill behind LMHS; crafts: sock puppets; science: fake boogers, baking soda and vinegar explosions, and bouncy balls; drama club and chess. We had the Girls on the Run program in the fall with 18 participants, coached by two third grade teachers.

Fifth graders spent a week in Beckett, MA enjoying the Nature's Classroom program. The Bridges program introduced students to several senior citizen volunteers who came in to share their life experiences and learn about the younger generation. The six week program culminated in a walking field trip to the Eagle House in December. Grade 5 teachers lead regular walking field trips to the public library every month so students can become good community members with the responsibility of borrowing and returning library books.

In June the students attended a Worcester Bravehearts baseball game at Hanover Park and enjoyed the activities for Baseball in Education Day. We finished the year with our first "completion ceremony" for fifth grade students to celebrate the end of their elementary years.

The TIGER performances from Plymouth State University provided a program to Grades 3 and 4 in December about how to be a good friend and how to speak up for others. This was underwritten by a generous grant from the Maki Foundation. Fourth graders will welcome the Boston Museum of Science out in the spring to learn about vibrations and how changes in their frequency and amplitude result in different kinds of sound. Third graders took a trip to Monty Tech for a performance of The Nutcracker.

Turkey Hill Elementary School (cont.)

\$6100 was again raised during our annual Penny Wars event to support funding for a Chromebook cart and 17 Chromebooks. The PTO generously provided mini grants for teachers and administrators; those funds will be used to purchase a variety of items including a subscription to Brainpop, classroom library titles, sensory tools and a presentation by Rob Surette and his Amazing Hero Art. The Lunenburg Lions Club provided scholarships for Nature's Classroom and regularly provides food donations for students at Extended Day. We appreciate the support from our Box Top collectors and counters, Hannaford Helps supporters, Community Reader day volunteers, parents (both those who support their children at home as well as those who donate hours to school), our Veterans Day and Memorial Day guests and guest speakers.

Our Kylee's Kare Kit pilot has expanded to include students from both the Primary school and the middle school. We held a fundraiser in March, a Walk-Jog-athon that raised about \$5000 in donations and covers our participation in the program. We provide over 50 students in need weekend bags of food, including winter and spring break and summer vacation. Many staff members from THES and the Primary School volunteer on Friday evenings to prepare over 400 bags for Lunenburg and Leominster students.

We continued a band program for grade five students. There are over 30 students who participate and learn their instruments in sectionals and as part of a full band twice weekly. They demonstrate their progress during two yearly performances. All three grades have a general music class once a week and 3rd graders are introduced to instruments through recorder instruction. All students also have the opportunity to participate in an after school music program to learn piano, guitar, etc.

As an elementary school we understand that our mission extends far beyond the academic. We model, teach and promote the CARES qualities of civility, achievement, respect, effort, and sportsmanship. We provide explicit instruction in coping strategies, self-regulation skills, and calming techniques. New students and staff who join us throughout the year are welcomed on our hallway bulletin board. We use age appropriate picture books at each grade to introduce students to diverse cultures and expand their understanding of the world. We teach responsible digital citizenship in an era where soon they will be inundated with social media. We celebrate the positive role models that exist in our school community with student-of-the-month acknowledgements and Golden Turkey acknowledgements for staff. We encourage children to "Show What They Know" at MCAS time, which demands their best effort. The mission of providing students with the skills, confidence and passion for life-long learning begins during these years, and we collaborate with parents and families to set them on the path to successful careers, active citizenship, and rewarding lives.

Lunenburg Middle School

Lunenburg Middle School provides a rigorous academic curriculum as well as strong programs that support students' social and emotional growth. These programs ensure that each child becomes a self-motivated, creative, lifelong learners in a safe, stimulating environment that encourages diversity and open honest communication. The dedicated and accomplished staff of professionals within the school embraces the philosophy of educating the whole child academically, socially, and emotionally. This philosophy is a means by which all students become positive community members that possess the skills to be successful in high school and beyond.

Lunenburg Middle School is in its fourth year as a co-located middle-high school serving grades six through eight in a beautiful facility. Effective, student centered middle schools embrace interdisciplinary teams of teachers that enable teachers to work with smaller groups of students. Smaller groups of students allow teachers to learn and engage students in their preferred learning style, making them more confident and successful.

Our effective middle school model is student centered and provides opportunities to explore a variety of different interests and talents through special area and enrichment classes and extracurricular activities. One of our goals is for students to discover something they are passionate about and want to continue exploring as they move through high school and beyond. We will continue to seek out opportunities for students that foster critical thinking and problem solving skills that prepare them for high school and beyond or what their passion may lead them to.

% of Students scoring in the meeting or exceeding expectations range Spring 2018 MCAS

In reviewing the results of the 2019 Spring MCAS tests, our percentage of students scoring in the

<u>GRADE</u>	<u>SUBJECT</u>	<u>LMS</u>	<u>STATE</u>	<u>DIFF</u>	<u>SGP</u>
6	ELA	56%	53%	+3	60
6	Math	65%	52%	+13	58.9
7	ELA	47%	48%	-1	48.5
7	Math	63%	48%	+15	52.6
8	ELA	66%	52%	+14	52.5
8	Math	64%	46%	+18	53.1
8	Sci and Tech/Eng	69%	48 %	+ 21	N/A

meeting or exceeding expectations range remains strong and above the state average in 6 of the 7 tested areas in the middle school. In 5 of the 7 tested areas of MCAS, Lunenburg Middle school is double digit percentiles above the state average. The Department of Elementary and Secondary Education provides an accountability rating for all schools and districts in the state based upon next generation MCAS testing.

Lunenburg Middle School (cont.)

Lunenburg Middle School accountability rating for 2019 is designated as *not requiring intervention, partially meeting goals*. When compared to similar schools in Massachusetts that test similar grade levels, Lunenburg Middle School falls in the 67% percentile, top third in the state. As you can see, our scores in grade eight Science Technology and Engineering are 20 % higher than the state average.

Although we are proud of our students' performance, we continue to analyze data in our monthly results faculty meetings designed to improve our instruction for all students. Our faculty has identified areas of improvement based upon the data and implemented strategies to improve their instructional practices that will help students succeed.

We continue to utilize intervention and power blocks during the school day to meet the needs of each individual student. These blocks of instructional time that have been built into our master schedule to allow teachers time to work with students at their own individual skill level. The philosophy is to challenge students who are high academic achievers as well as strengthen skills for students who have identified weaknesses. Teachers are able to work with students in a small group to answer individual questions or provide more individualized support. We design this support model to allow students to feel more confident, thus, perform better in the classroom. We will continue to refine our intervention block times to best meet the needs of our students. One option for students during this intervention block is the use of our web-based program called IXL. IXL allows students to work at their own skill level, build confidence and moved forward with work that is aligned with the state standards. IXL allows teachers a tool for true differentiation for every student allowing them to work and grow at their own pace and level.

Lunenburg Middle School continues to offer enrichment blocks for all students. Enrichment classes provide students a block of time in which they receive instruction in the areas of developmental health and guidance. Students also receive instruction in physical education, art, and music classes that allows them to explore their strengths and talents. Students also have the opportunity to sign up for and participate in band and chorus during this block. This enrichment block is in addition to the traditional special area classes students receive, and this block offers students additional physical movement throughout the day, additional opportunities for hands on activities and more exposure to the arts, library and technology throughout the school day.

We make a positive impact on the students we serve by offering a variety of different programs developed to promote social and emotional growth, self-awareness, and community service. We will continue to utilize Developmental Design program to deliver our social emotional curriculum. Students meet with teachers in small groups to teach social responsibility and problem solving, as well as developing empathy and promoting positive self-esteem and strong teacher/student relationships. Our social emotional programs have been developed to allow students to showcase their talents and abilities, grow and improve as individuals, and promote community outreach for the younger generation.

We also provide students the opportunity to direct their own learning with a program called Genius Hour. Genius Hour fosters a passion for learning back into the curriculum by having students facilitate their own learning based on their interests.

Lunenburg Middle School continues to provide high quality educational services and supports that ensure student success and promote a passion for lifelong learning. The key components to our success is our talented faculty committed to making a positive impact on students, our parents and community who support our teaching and learning, and most of all, our students who inspire us through their commitment to learning. Together we continue to make the difference in the lives of students.

Lunenburg High School

Lunenburg High School has been busy with academic and social activity in 2019-2020. Teachers have provided our students with rigorous coursework and hold our students to high standards. Our students meet these challenges through collaboration, self-advocacy, and strong work ethic. All students in grades 9-12 have been issued a Chromebook and there are wireless capabilities throughout the building. Numerous teachers are using Google Classroom, the interactive projectors, and voice-lift capabilities. Our students are fortunate to be in a building that can meet the needs of the 21st century learner.

During the fall sports season, our students practiced and competed on our fields and artificial turf field. The youth sports teams in the community were scheduled on the fields, as well. During the fall season, most of our fields were being used from 3:00 pm to 8:00 pm.

The winter season has been very busy, as well. The gym and weight room are being used for a large portion of the afternoon and evening by our basketball teams, indoor track and field teams, and students and community members in the Adult Education Program. Additionally, we have athletics teams practicing and competing at: Wallace Civic Center, The Groton School, Nashoba Valley Ski Area, and at Fitchburg High School. Our actors and actresses have been rehearsing since January for the Competitive Class Plays.

NEASC ACCREDITATION

Lunenburg High School is currently going through the accreditation process. Lunenburg High School is currently working on the five priority areas and the graduate profile for the NEASC school growth plan. The five Priority Growth Areas are: Curriculum Maps, Professional Growth/Development, School Civic Engagement, Instructional Practices, and Emergency Response Procedures. The five areas we are currently working on to produce a report for our NEASC accreditation. The final accreditation visit will be conducted in March and will look at how well we are making progress on our growth plan.

SCHOOL/COMMUNITY PARTNERSHIPS

Throughout the year, Lunenburg High School students are involved in a multitude of fundraising and collection endeavors. In the fall, a canned goods drive was held. This was run by NHS and it was a competition with Oakmont to see who could raise the most canned goods for charity. Oakmont won the competition by a narrow margin and both schools helped contribute a lot of non-perishable foods to local food banks. Around the holiday season, advisories, LEA, STUCO, NHS and numerous other agencies collected items for the Lunenburg Gift Card Mart Drive.

A Senior English class called community service learning is a class in which students are tasked with researching and identifying needs in the community and then forming an action plan to address the needs. For example, we have students working on: careers that do not require college level degrees. This is to help students make a career choice that does not require a college degree.

LHS has held or will be holding presentations for parents/guardians on the following topics:

- Planning for High School (grade 8)
- Early College Planning (grades 9-10)
- Post-Secondary Education Planning (grade 11)
- College Application Process (grade 12)
- Financing your Education/Financial Aid (grades 8-12)

LHS hosted 40 college admissions counselors in the school counseling office to visit with LHS students. In addition, we held one “Decision Day” with Fitchburg State University.

MCAS RESULTS

We are pleased to announce that Lunenburg High School is recognized by the Department of Elementary and Secondary Education as a Level 1 school. As a Level 1 school, we continue to be among the highest performing schools in the Commonwealth. School percentiles (1-99) indicate how a school is performing overall compared to other schools that serve the same or similar grades. Our school's percentile is ranked in the 69th percentile. We are very proud of the work that our students and teachers have done to prepare for the MCAS test. While we are recognized as a high performing school, we understand this is only one measure used to show student growth and that there is constantly room for improvement.

Lunenburg High School - 2019 MCAS Results (Grade 10)

We are extremely proud of our students and teachers for their continued improvement, and we will work

Subject Test	Exceeding Expectations / Meeting Expectations	State Average (EE/ME)
ELA	78%	61%
Math	71%	58%
Subject Test	Advanced / Proficient	State Average (Adv/Pro)
Science/Technology	84%	73%

to move all students to the level of meeting expectations and proficiency as measured by MCAS and our goal of college and career readiness as they move through our curriculum.

We were also very pleased to learn that 25 seniors at Lunenburg High School received the state’s John and Abigail Adams Scholarship this year. The scholarship is available to students whose MCAS performance puts them at the top 25 percent of their district. To be eligible, students must either score Advanced on one exam and Proficient on the other, or Advanced on both the English and Math exams.

HOMEcoming, ATHLETICS AND EXTRACURRICULAR ACTIVITIES

Homecoming was once again a great town-wide celebration, culminating with a beautiful parade complete with floats representing all four high school classes. Many of our sports teams qualified for tournament and district play. The Lunenburg High School Marching Band participated in three competitions in the fall. The LHS Mock Trial Team is working hard and in full swing. Jazz Band and the Math team represented LHS in numerous competitions; the 54th annual Competitive Class Plays will be a delight to watch, and the Music & Art Expo as well as the Senior Showcase are scheduled for the spring.

COMMUNITY BUILDING

National Honor Society successfully supported the “Gift Card Drive” during the holidays, helping to provide joy to needy children and families in conjunction with local agencies. The World Hunger Task Force will be raising money through Penny Wars this spring. The money will be donated toward the fight against hunger.

CURRICULUM

The staff at Lunenburg High School focused their professional development activities in 2019-2020 working on social & emotional health, vertical teaming, rubrics, the graduate profile, and technology. A large focus of professional development has been on the NEASC Accreditation process.

Respectfully Submitted,

2019 ANNUAL REPORT

MONTACHUSETT
REGIONAL VOCATIONAL
TECHNICAL SCHOOL

MONTACHUSETT REGIONAL VOCATIONAL TECHNICAL SCHOOL
1050 Westminster Street, Fitchburg, MA 01420

WWW.MONTYTECH.NET

Each year I look forward to the development of the Annual Report, as a means to reflect on the achievements and accomplishments celebrated by students and staff at Monty Tech. The 2018-2019 school year was a remarkable one, as our school saw the opening of an all-new training facility, renovated instructional space and state-of-the-art equipment added to three vocational areas, students earning more industry-recognized credentials than ever before, and new partnerships with area colleges and universities. It was a year to remember.

Students who attend Monty Tech have chosen a high school experience unlike any other. While completing all of the same high school requirements of students enrolled in a traditional, comprehensive high school, our students are also learning a valuable trade – skills they will carry with them for a lifetime. These vocational skills may provide opportunities for our graduates to work their way through college; they may open the door to new, related career pathways, or they may be the foundation for a lifelong career. The education and training they receive at Monty Tech will open doors and allow them to choose a college and/or career pathway that will define their future.

Monty Tech academic programs continue to serve students at all levels well. This year, students completed the Next Generation MCAS, and earned commendable passing rates: English Language Arts 99%, Mathematics 97%, and Biology 99%. Monty Tech students exceeded the state averages in all 3 subjects. In addition, great strides were made in our relatively new Advanced Placement programs, with more than 60% of test takers earning a score of 3 or better. Finally, an all-new science program was fully integrated in FY19 – Biomedical Sciences. This rigorous sequence of courses was met with enthusiasm from students and staff, so plans to expand this Project Lead the Way programming are underway. Our talented academic faculty continue to refine curriculum, incorporate new instructional strategies, and challenge every student to reach new levels, and we couldn't be prouder of the results.

And while we are certainly proud of our academic and vocational training programs, a Monty Tech experience would not be complete without participating in meaningful community service. Last year we were honored to once again host the Wreaths Across America Convoy with a remembrance ceremony as it made its way down to Arlington National Cemetery. As the convoy left the school parking lot and hundreds of American flags waved, I was reminded once again of the value of a Monty Tech education. For a moment, our students were taken out of the classrooms and shops and asked to think about what this convoy meant, where it was heading and how they were a small part of the ceremony. They were asked to consider service, and through the waves and cheers it was clear that Monty Tech students knew and understood the meaning behind that experience. It's not often that high school students are asked to stop and think about others and how they might contribute to another person's well-being. But at Monty Tech, our students are not only familiar with the concept, they are committed to community service. Whether it is building a carriage house for the NEADS program, designing and building dugouts for area Little League programs, or ensuring handicap accessibility in dated town offices, our staff and students are proud to serve.

While students and instructors across the school continue to demonstrate creativity, innovation, and leadership, school leaders continue to keep an eye on emerging trends in vocational education. As we prepare these talented students to make important life choices, we are reminded that in the end, the choice is theirs to make: college or career or both. It is our job to support their aspirations and to educate and train them to achieve at the highest possible level. On behalf of our talented educators and administrators, who remain focused on delivering the highest quality academic and vocational-technical education possible, I am delighted to present the District's 2018-2019 annual report to you, providing a snapshot of the wonderful experiences happening on a day-to-day basis here at MontyTech.

Respectfully submitted,

A handwritten signature in cursive script that reads "Sheila M. Harrity". The signature is written in dark ink and is positioned above the printed name of the Superintendent-Director.

Sheila M. Harrity, Ed.D., Superintendent-Director

Our Mission

Every student will graduate from Montachusett Regional Vocational Technical School with the skills, knowledge, and abilities to be a productive and effective member of an ever-changing society.

Our District

Montachusett Regional Technical Vocational School is a four-year career and technical high school serving the member towns of:

Ashburnham	Harvard	Princeton
Ashby	Holden	Royalston
Athol	Hubbardston	Sterling
Barre	Lunenburg	Templeton
Fitchburg	Petersham	Westminster
Gardner	Phillipston	Winchendon

Leadership

The leadership team at Montachusett Regional Vocational Technical School is comprised of ten talented administrators whose varied educational backgrounds, professional experiences, and areas of expertise contribute to the success of the school. Working collaboratively, and under the direction of the Superintendent and Principal, the team has transformed the school into one of the most sought-after high schools in North Central Massachusetts.

Sheila M. Harrity, Superintendent-Director

Tom Browne, Principal

Dayana Carlson, Assistant Principal

Tammy Crockett, Business Manager

Christina Favreau, Director of Academic Programs

Jim Hachey, Director of Vocational Programs

Enrollment

2018-2019 Student Enrollment

On June 1, 2019, student enrollment at Monty Tech included 1,398 students in grades nine through twelve, representing each of the district's eighteen sending communities. Each class of students is comprised of a relatively equal balance of male vs. female students, and each student attending Monty Tech has elected to do so, prepared to explore an interest in one of the school's twenty-one rigorous vocational-technical programs. While the school currently offers only five programs non-traditional for male students, and twelve programs non-traditional for female students, we are proud to have a student population that is well- balanced by gender and a variety of academic interests and achievements.

Throughout 2018-2019, Monty Tech offered a variety of opportunities for students, parents and community members to learn about and visit the school.

In October 2018, approximately 450 district eighth graders participated in the annual “Tour Day” event. Students toured our twenty-one vocational-technical areas and learned about the school’s challenging academic offerings and exciting athletic and extracurricular programs.

Career Awareness Night offered interested students the opportunity to return in the evening with their family members to further explore the facilities and speak with staff members.

The Vocational Interest Program (V.I.P.) offers area seventh and eighth grade students the chance to visit Monty Tech after school and participate in hands on learning experiences across a variety of vocational-technical areas. The program continued to attract a large number of students during the 2018-2019 school year, serving approximately 700 area students.

Class of 2019 Awards

Members of the Class of 2019 were awarded approximately \$200,000 in scholarships, tools, and equipment. The Monty Tech Foundation generously provided \$36,000 in scholarships to graduating seniors, ranging in amounts of \$500 to \$2,000. The Foundation also awarded \$3,250 to the Practical Nursing graduates. Once again, local and state organizations, as well as generous individuals, continue to recognize the ability and potential of Monty Tech graduates in the form of financial donations. The School Committee, administration, faculty, and graduates are grateful for this support.

Articulation Agreements with local colleges also play an important role in helping reduce the cost of higher education. Qualified Monty Tech students are eligible to receive college credits through a number of articulation agreements with public and private colleges across the country.

Approximately 38% of the graduating class of 2019 reported plans to enroll at a 4-year college/university upon graduation. By earning college credits while still in high school, these students will save both time and money as they pursue advanced educational programs.

Financial Report

In an effort to develop a cost-effective budget for the fiscal year 2018-2019, a great deal of effort was put forth by the School Committee, administration, and staff.

The final fiscal year 2018-2019 Educational Plan totaled \$27,756,374 which represents a 3.2% increase over the 2017-2018 Educational Plan. The District's FY19 budget only exceeds the minimum spending required by Massachusetts General Law Chapter 70 by \$135,947 or .6%.

The District was audited in November 2019 as part of the yearly financial audit by the accounting firm of Melanson, Heath and Co. from Greenfield, MA and has received a very good report.

Grants and Contracts

Monty Tech continues to pursue grant funding on an annual basis. These funds help provide many educational and social services to the student population. For fiscal year 2019, state and federal grant sources provided the school with \$945,083. Programs funded by these grants include: Essential Health Services, Social Intervention and Mediation, Improving Teacher Quality, Special Education Services and Program Improvement, Title I Support, Perkins Occupational Education, and Marine Corp Junior Reserve Officer Training. The District also received more than \$465,000 in competitive grants, including a Skills Capital Grant for \$385,000 to purchase equipment for new hospital beds, EKG machines and an Anatomage Table to benefit the Health Occupations and Practical Nursing programs as well as new diagnostic certification tools to benefit the Automotive Technology program. The District also received \$80,000 in funds to increase school safety. Using these allocation and competitive funds, the school was able to purchase a variety of instructional technology, equipment, and supplies to enhance the learning experience.

Academic Achievement

During the spring of 2019, students at Montachusett Regional Vocational Technical School continued to demonstrate high academic achievement, earning commendable scores on the MCAS in English Language Arts, Mathematics, and Biology. This year, students completed the Next Generation MCAS - a computer-based test that is designed to give students a clear signal on whether they are on track for college and career readiness. The new standards are more rigorous than the standards for the Legacy MCAS. Monty Tech's passing rate on the English Language Arts was 99%, Mathematics 97%, Biology 99%. Monty Tech students exceeded the state averages in all 3 subjects. With regard to our Accountability status, Monty Tech has made "Substantial Progress Toward Meeting our Targets."

Monty Tech is committed to providing students with rigorous STEM learning opportunities, and so in recent years, the curriculum has been expanded to include Advanced Placement Programs (two English courses, two mathematics courses, two science courses, and one computer science course) and teachers have participated in meaningful, high-quality professional development which has enabled us to successfully implement two Project Lead the Way biomedical courses.

The school is in its 7th year of administering Advanced Placement exams and students enrolled in AP courses continue to improve their performance. In the spring of 2019, 68 out of 111 students (61%) earned qualifying scores –the highest number we've ever had. Of these students 79 out of 146 (54%) earned qualifying scores –the highest number we've ever had.

This year, more than half of the students who tested in the following subjects received qualifying scores: AP Computer Science Principles, AP Literature & Composition, AP Environmental Science, and AP Language & Composition.

The AP subject with the highest number of students with qualifying scores was AP Literature & Composition. It was also the AP subject with the most test takers with 31 students taking this exam. Students enrolled in AP Language & Composition, AP Environmental Science, and AP Computer Principles earned the highest (mean) average this year, compared to any prior year.

	Spring 2015 (SY14-15)	Spring 2016 (SY15-16)	Spring 2017 (SY16-17)	Spring 2018 (SY17-18)	Spring 2019 (SY18-19)
MT AP Courses	3	5	6	7	7
MT AP Student Enrollment	99	188	151	135	157
Students with Qualifying Scores	47 (53%)	39 (27%)	53 (44%)	46 (48%)	68 (61%)
AP Test Takers	89	145	120	95	111
Total # of Qualifying Exams	53 (46%)	44 (24%)	65 (44%)	58 (43%)	79 (54%)
Total # of AP Exams	116	187	148	134	146

Vocational Projects in the District Communities

Unlike students in traditional, comprehensive high schools, students at Monty Tech are asked to put their education into practice on a daily basis. Students across the twenty-one different vocational-technical education programs are building homes, reconstructing damaged properties, repairing service vehicles, making walkways more accessible, and performing countless community services.

The 2018-2019 school year was a busy one for our vocational educators, as each trade aimed to provide practical, hands-on learning experiences for our students, while helping to improve each of the eighteen member communities.

Auto Body Collision Repair Technology: The Monty Tech Auto Body shop benefited from new instructional equipment this year. A new silicon bronze MIG welder was added to the program, so that students continue to be trained in the industry's latest technologies. The shop floor was coated with a new epoxy flooring, and a new lift was installed and relocated to replace the old lift, updating and enhancing the instructional space. Three new Vacuum sanders were installed to keep the dust in the shop down, and four new shop benches were installed. In addition to the 80+ community service projects completed last year, students and instructors painted a sign for Hubbardston Council on Aging, as well as one of Monty Tech's vans. All Seniors received their EPA 6 H Certificate, I-Car Pro Level 1 in Refinishing and Non-Structural Repair Certification, and a SEM Plastic Repair Certificate. Six Seniors and two Juniors earned co-op placements, and one Senior traveled to Louisville, KY, competing in the SkillsUSA national competition in June 2018. A 2017 graduate of the program traveled to Russia to compete in the SkillsUSA World competition, where he placed an impressive 14th. (Total student enrollment: 63)

Automotive Technology: As in past years, the Monty Tech Automotive Technology program continues to service a variety of vehicles. Over 400 vehicles were serviced and repaired during the 2018-2019 school year, including vehicles brought in by faculty, staff, public, school and students. Students performed repairs that will prepare them for the workplace, such as timing belts, electronic diagnostics, intake manifold gaskets, brake work and various other technical repairs. The program was awarded approximately \$200,000 from the FY20 Massachusetts Capital Skills grant program, and will use those funds to provide a more comprehensive electrical and electronics training curriculum. Two Snap-On NC3 certification programs have been added, including digital multimeters and scan tool application. Nine students earned co-op placements throughout the school year, which is a testament to the strength of the program. The Monty Tech Automotive Technology program continues to be the area's premier workforce pipeline for automotive dealerships and businesses.

For those students who plan to pursue advanced training, we have updated articulation agreements with 3 colleges/universities, as well as the 15 community colleges across Massachusetts. Over the last few years, our students have received more than \$28,000 in scholarships to attend University of Northwestern Ohio, and in 2018-2019, a Junior placed 1st in the UNOH nationwide scholarship testing, earning a \$5,000 scholarship. (Total student enrollment: 60)

Business Technology: Monty Tech's Business Technology program continues to benefit from a unique partnership with Workers Credit Union. The opportunity to participate in teller training and financial literacy workshops has been met with great enthusiasm from students, who completed 9 modules and earned a financial literacy certificate. As a member of the Massachusetts Schools Bank Association through the Federal Reserve Bank of Boston, Monty Tech students are able to compete in the Banking Bowl and Marketing Competitions. Workers Credit Union has also purchased a conference table, 6 chairs, and 2 new white boards to support the program. Instructors, in collaboration with their post-secondary colleagues, continue to refine and develop new articulation agreements. These agreements with Mount Wachusett Community College and Keene State College, will provide qualified students with college credits at no cost to the student. Students are eligible to receive 24 credits from Mount Wachusett Community College and 12 credits from Keene State. Opportunities to demonstrate customer service, cash handling, and accounting skills are ever-present as the Business Technology students successfully operate an in-house retail location, The Gear House School Store, and the Monty Tech Greenhouse. Eleven Seniors and four Juniors were out on co-op placements during the 2018-2019 school year. (Total student enrollment: 80)

Cabinetmaking: Students and instructors in the school's Cabinetmaking program continue to spent time during the 2018-2019 school year manufacturing, assembling and installing maple benches for the Veterinary Science training center. Sophomore students crafted 400 pine beverage caddy's for the 2019 Superintendent's Dinner. Using reclaimed maple trees cut from the site of the new science wing, Cabinetmaking students fabricated furniture for Mount Wachusett Community College. Students and instructors also completed projects throughout the school and surrounding communities, to include: work tables and cabinet storage units for Graphic Communications, a large quilt display cabinet and storage for the Ashby Public Library, and custom built oak cabinets for CAD/Drafting & Design. To support a recent graduate who now attends WPI, students cut out multiple pieces on the CNC, which will be used in a solar decathlon project in Morocco. A total of 18 students (11 seniors and 7 juniors) earned co-op placements; making this the highest number of students out on Co-op in the program's history. (Total student enrollment: 66)

CAD/Drafting & Design: The Monty Tech CAD/Drafting & Design program is increasingly busy each year with outside projects, completing miscellaneous signs and banners for community sports events, craft fairs, and non-profit events. Students also played an instrumental role in 2019 Superintendent's Dinner, designing the layout and décor for this annual fundraising event, and ended the year by designing and installing signage throughout the building for the 2019 graduation exercises. A total of four students (one junior and three seniors) were on Co-op placements, working and learning in area businesses. Four students advanced to the SkillsUSA States competition, representing the program well. With funds awarded from the FY20 Skills Capital Grant, instructors created an all-new instructional space. The new fabrication lab includes equipment to support lessons in 3D printing, 3D scanning, Injection Molding, CNC work and laser cutting. Over the course of the 2018-2019 school year, CAD/Drafting & Design students achieved over 100 industry-recognized certifications in AutoCAD, Inventor, Revit, and Solidworks. 2018-2019 was the most successful year for certifications due to the introduction of SolidProfessor, an online curriculum that was made possible by Perkins grant funding. (Total student enrollment: 58)

Cosmetology: The Monty Tech Cosmetology program students and instructors provided numerous community services, including basic manicures to the residents at Heywood Wakefield Commons. Seniors and Juniors volunteered to be elves for the Wreaths Across America convoy celebration, where they did face painting, braids, and nail polish applications.

The Freshman and Sophomore teachers have implemented Schoology this year, which will benefit both staff and students as they transition to Junior and Senior years. The Junior class held four fundraising events, donating \$2,300.00 to the Ava Roy Assistance Fund and raising funds so that they could travel to New York's International Hair show. Finally, for the third consecutive year, every senior successfully passed the Massachusetts Cosmetology State Boards, earning licenses to practice. (Total student enrollment: 87)

Culinary Arts: Monty Tech Culinary Arts students and instructors are always busy with the daily operation of the Mountain Room Restaurant, which is open for lunch from 11:30 am to 1:00 pm Monday through Friday. In addition to operating a full-service restaurant and bakery, serving 90-120 patrons daily, culinary students showcase their talents throughout the year, providing outstanding service at events that include the following: two Program Advisory Committee dinner meetings, four Monty Tech Foundation breakfasts, Monty Tech's Retirees holiday luncheon, a graduation reception, the Women in Technology event, Principal and Counselors' Day, the Monty Tech homecoming dance, MAVA meetings, all School Committee meetings and sub-committee meetings, the Gardner AARP luncheon and the MHCC volunteer luncheon. Community service opportunities for students are always a highlight, and this year our students prepared meals for Our Father's House (Fitchburg), and NEADS (Princeton) events. Students and instructors also prepared and donated pastry and baked goods to the House of Peace and Education in Gardner. The program's greatest undertaking is always the Annual Superintendent's Dinner scholarship fundraiser, during which students work side-by-side with some of the area's finest chefs, preparing a six-course dinner with extensive hors d'oeuvres for more than three hundred guests. Culinary Arts students value industry-recognized credentials, and were proud to earn Allergen Awareness and ServSafe Certifications. Senior students also competed in the SkillsUSA Meal Ready to eat challenge at the Framingham Armory. (Total student enrollment: 95)

Dental Assisting: A critical component of the Monty Tech Dental Assisting curriculum is the preparation for the Dental Assisting National Board certification exams. In 2018-2019, every sophomore passed the DANB Infection Control exam, and every senior passed the DANB Radiology exam. All Seniors exposed 2 full mouth series on patients at their externship sites to meet the new requirements for the state. Two Seniors earned co-op placements, while the remaining 13 students participated in affiliation/externship experiences in area dental clinics and offices. Students and instructors welcomed Community Health Connections, a school-based dental hygiene program, and provided dental services to more than 60 students in need. Students were given valuable hands-on experience, assisting the staff from CHC during each dental procedure performed. Sophomore students provided dental education to students at Winchendon Memorial Elementary School and Meetinghouse Elementary School in Westminster, while four juniors assisted with the Kid Seal Program at Quinsigamond Community College. A new vacuum pump, which can be used by all four dental chairs, was purchased, as well as all new CPR manikins with feedback devices. (Total student enrollment: 61)

Early Childhood Education: Students and instructors in the Monty Tech Early Childhood Education program are committed to community service activities, and the 2018-2019 school year was no exception. In addition to studying early education and care concepts, students worked collaboratively to raise funds for Lucy's Love Bus, an agency that provides grants for children with cancer that are not covered by health insurance, as well as as SkillsUSA Change for Children. They provided gifts for children at Cleghorn Neighborhood Center, and organized a "Diaper Drive" for the Gardner VNA Diaper Pantry, which resulted in more than 1,200 diapers being collected and delivered to this important community service agency. Twelve outstanding program graduates earned their CDA (Child Development Associate) credential. The Monty Tech Child Care Center continues to operate at full capacity, providing meaningful hands-on learning opportunities for all students in the Early Childhood Education program. (Total student enrollment: 60)

Electrical: Throughout 2018-2019, students and instructors in the Electrical program wired numerous machines, equipment, computers, and lights throughout Monty Tech. Students and instructors successfully completed wiring equipment in the HVAC shop including six new welding stations, four new boilers, numerous outside condenser units, and all associated controls, as well as the school's new Automation, Robotics, and Mechatronics (ARM) Lab. With the completion of this new instructional space, instructors have written new curriculum, and are rolling out lessons in PLC (programmable logic controller) programming and associated wiring. This added element will increase the employability of Electrical students and graduates. The teacher station was also remodeled to improve shop tool use and organization, bringing the most utilized tools together. Nine seniors and four juniors earned Co-op placements. (Total student enrollment: 83)

Engineering Technology: The Engineering Technology program at Monty Tech is a rigorous program, infused with nationally certified curriculum provided by Project Lead the Way, and countless hands-on learning opportunities that provide students with opportunities to demonstrate creativity, make connections with prior learning, and earn college credits. In addition, all freshmen completed the OSHA 10-hour General Industry training. Three Seniors earned Co-op placements. New technology was added to the training program, including a Xerox Versalink C7020 multifunction color printer, three Amatrol table top mechatronics learning systems with pegasus robot, one Fanuc LR Mate 200ID/4S robot, one Festo MPS 203 Mechatronics system, and one StratasysF270 3D printer. (Total student enrollment: 51)

Graphic Communications: Throughout the 2018-2019 school year, the students in Monty Tech's Graphic Communications shop produced numerous projects for our district cities and towns, and a variety of non-profit organizations in the district. In total, students successfully produced approximately 400 orders, saving cities, towns and non-profit organizations more than \$200,000. The program welcomed 22 freshmen students into a shop that was recently remodeled, and enhanced with new technology to include a printmaster press, a perfect binding machine, dye sublimation and all new Xerox copiers for our copy center. Three motivated students pursued and earned Co-op placements. Of the 21 talented seniors who graduated from the Graphic Communication program, 14 were accepted into colleges/universities and 8 chose to enter the workforce in related careers. (Total student enrollment: 86)

Health Occupations: The Health Occupations program at Monty Tech continues to educate a large number of students, providing a rigorous education grounded in current medical knowledge and practice. A unique collaboration with Mount Wachusett Community College enables Senior students to participate in an Emergency Medical Technician training program, earning eight college credits at no cost; 13 Seniors completed the EMT Course in 2018-2019. In addition, 12 seniors earned co-op placements, and 17 seniors received their National Clinical Medical Assistant certificate. Every junior enrolled in the Health Occupations program earned CPR certification; 24 juniors received their nursing assistant certificate, as well as a certificate in "A Habilitation Training Curriculum" from the Alzheimer's Association. Students and instructors are particularly invested in community service, and as a result, students hand-made veteran's day cards and sent them to the Bedford VA Hospital, bought gifts and clothing for the Fitchburg Community Christmas party, hosted an American Red Cross Blood drive, and held a "Baby Shower" benefiting Battered Women's Resources, Inc. (Total student enrollment: 106)

House Carpentry: Monty Tech's House Carpentry program supported a number of community organizations during the 2018-2019 school year, by building and installing two walls in Graphic Communications, stripping and re-roofing a section of the roof at Princeton Town Hall, building a carriage house for NEADS in Princeton, building a lean-to roof at Hubbardston DPW to cover sand and salt, rebuilding the ceiling in the weight room in the gym, and expanding the bathroom at the Lunenburg Town Hall. Students also handcrafted countless Adirondack chairs for charitable donations.

A total of ten students (nine seniors and one junior) earned co-op placements throughout the school year, while all sophomore students successfully completed the OSHA 10-hour Construction training, which enables the students to work on outside projects and qualifies them for the school's popular co-op program in their junior year of study. (Total student enrollment: 63)

HVAC & Property Maintenance: Students and instructors in the HVAC & Property Maintenance program were awarded grant money to develop an oil burner technician training program, in partnership with Monty Tech's Continuing Education Department. Students completed a beneficial shop remodel, installing new oil burner training modules to be used by both day and evening students. New boiler and furnace lab space was completed, providing students with additional "hands-on" learning experiences while remaining in shop. The tool crib was also reconfigured, and a new shop position was created, Service & Parts Manager, to reflect the requirements in the industry. Students working as the shop managers are tasked with keeping accurate records of all material being used in shop and recording them on a shared google document. New welding stations are up and running, an effort made possible by the school's Electrical, Welding, and the Auto Body Collision shops. Electrical wired everything including the state of the art variable speed exhaust fan. Welding built the benches and installed the exhaust hood, and Auto Body painted the work stations. The outside rack for the air conditioners is now complete and being used, and three new stations for furnaces, air conditioning split systems and the new oil supply tank are securely maintained in that space. Students earned National EPA Certification for refrigerant recovery, and a total of ten students (six seniors and four juniors) were placed in area businesses through the school's popular co-op program. (Total student enrollment: 60)

Information Technology: The Information Technology program continues to offer students more industry-recognized certificates than any other program at Monty Tech. It is an accomplishment our instructors are so proud of, as these certifications affirm the technical skill proficiency needed for so many entry-level careers in networking and information technology. All Freshmen completed the OSHA 10-hour General Industry training and VEX Robot Certification. All Sophomores passed the IC3 Certificate Exam for basic computer hardware, software, and internet knowledge and skills, as well as the Test-out PC Pro Certificate exam, the Cisco IT Essential course for computer repair and maintenance, and the Introduction to Networking course. One sophomore, one junior, and one Senior passed the COMPTIA A+ exam. All Juniors sat for the CIW Advanced HTML5 & CSS3 Certification exams in June, in addition to the Cyber Security Operations Final Exam. Seniors completed the Python Programming course and participated in the AP Computer Science Principles course, which resulted in nine students earning qualifying scores. Four students earned co-op placements, applying their technical skills in area businesses. In total, more than 400 hours of community tech support were completed, which involved hardware and software troubleshooting on desktops, laptops, printers, and mobile devices. (Total student enrollment: 41)

Machine Technology: Throughout the 2018-2019 school year, instructors were able to train Machine Technology students in precision measurement, and granted more than 300 certifications to students accordingly. All new CNC and new cutter technology was used, and a new print reading curriculum was introduced. All freshmen received their OSHA 10-hour general industry certification, while all seniors and six juniors earned co-op placements, working and learning in area machine shops. Machine Technology students and instructors also completed a number of outside projects, which included engraving school plaques, and assisting Athol High School with teaching and certifying students in NC3 Precision Measuring Instruments. (Total student enrollment: 45)

Masonry: The talents of Monty Tech Masonry students are on display throughout the district, as projects that were completed this year to include: installation of a concrete walk for the LUK Organization, stone veneer inside the offices at NEADS, stone veneer and paver sidewalk at the garage at Monty Tech, repairing a marble floor in the mausoleum at Fitchburg's Forest Hill Cemetery, repair of stone steps at the gazebo on Fitchburg's Upper Common, installation of a handicap ramp at Saima Park, as well as several projects around the school. Students continued to maintain the OSHA silica standard, in a program that operates in compliance with trade regulations. The Masonry program also benefitted from new equipment, dust free saws and grinders.

Five seniors and two juniors earned co-op placements, and continued to refine their skills working with business partners through the school's co-op program. (Total student enrollment: 61)

Plumbing: The 2018-2019 school year saw 19 freshmen enter the Plumbing trade at Monty Tech., all of whom successfully completed OSHA 10-hour General Industry safety training, while the sophomores completed OSHA 10-hour Construction Training. Seniors earned the Mega-Press certification, while the sophomores attended training in PEX Piping Systems at the Viega training facility in Nashua, NH. Students and instructors worked at the Bresnahan Scout & Community Center in Ashburnham, installing sinks in the kitchen area, and finishing a bathroom. A bathroom was also remodeled for the Town of Lunenburg, making that space ADA compliant for those attended important town meetings. Students and staff spent time in Winchendon, installing water filters at Memorial, and replacing water coolers at Murdock, Memorial and Toy Town Elementary. A bathtub was replaced with a shower stall & grab bars for the Gardner Habitat for Humanities house, to aid a homeowner with disabilities. Compressed air service lines were installed in the school's new ARM lab, and countless maintenance issues were attended to throughout the building. Eight seniors and one junior participated in the co-op program. One Senior received the 2019 Vocational Tech Plumbing All Star Award given by the Plumbing, Heating, and Cooling Contractors Association of Massachusetts, while another was recognized by the Central Mass Plumbing & Gas Inspectors Association – awards that will help these talented graduates as they pursue advanced training in the field. (Total student enrollment: 71)

Veterinary Science: 2018-2019 marked a very special year for the school's newest vocational training program, veterinary Science. Students and instructors were moved in to the new training center, taking every advantage the new 7,500 sq. ft. state-of-the-art facility could provide. After another successful exploratory program, 22 students were accepted into the program and are proud to be Monty Tech's 2nd class of Veterinary Science students. All freshmen completed the OSHA 10-hour healthcare training, and spent the second semester engaged in introductory animal science lessons, as well as a number of valuable field trips to support the new curriculum, with trips to: UMASS Amherst to study Equine Reproduction Medicine, and Lilac Hedge Farm and Jordan's Dairy to observe agricultural production facilities in Massachusetts. Sophomores worked through some very challenging curriculum, covering units in client services, hospital management, anatomy, pathology and laboratory procedures. They visited Flying High Farm in Lunenburg to work with horses and complete the program's large animal requirements, and also toured Idexx laboratories in North Grafton, MA to observe all aspects of clinical pathology. All sophomores gained certification in Fear Free Handling, an industry recognized achievement which will open doors for them throughout the area. (Total student enrollment: 44)

Welding/Metal Fabrication: The 2018-2019 school year brought new equipment - a 4 ft Squaring Shear - to the students in the school's Welding/Metal Fabrication program. Numerous projects were completed by talented students, including more than fifty requests for individual projects from community members residing in the school's sending district. All freshmen students successfully completed the OSHA 10-hour General Industry training, and instructors implemented new online curriculum for the Junior related theory class. Seniors competed in the Notch Mechanical pipe welding competition, and eight upperclassmen (four seniors and four juniors) were placed in area shops, working and learning from trade professionals who support the school's co-op program. (Total student enrollment: 57)

Co-operative Education and Student Placement

The Cooperative Education Program is an extension of the student's technical education that combines classroom instruction with on-the-job-training. The Co-op Program provides students with an opportunity to further develop academic, technical and employability skills in an industry work environment. All students are eligible to participate in Co-op Program, provided they satisfy state and school grade, attendance and performance requirements. All Co-op students have completed the OSHA recognized Career Safe online health and safety course.

The Cooperative Education Program is beneficial for both student and employer. For the student, it is a chance to gain on-the-job training that improves both their technical and employability skills. Additionally, making industry connections enhances post-graduate employment opportunities. The Co-op Program allows students to earn while they learn.

Employer benefits include addressing workforce needs in an efficient manner. Co-op students provide a pool of temporary and potential full-time employees who are already trained, thus reducing employment training costs. Co-op work hours may be tailored to suit the needs of partnering employers. During the 2018-2019 school year, approximately 22.4% of qualified students (juniors and seniors) earned Co-op placements, working, learning and applying their technical skills related in area businesses.

Student Support Services

During the 2018-2019 school year, Montachusett Regional Vocational Technical School District provided special services to approximately three hundred students – measuring progress of over two hundred students on Individual Education Plans (IEPs) and just under one hundred students adhering to individualized Section 504 plans. While the Student Support Services (SSS) Department encompasses special education, the department provides support and is available to all Monty Tech students.

The department includes a full-time nursing staff that administers medications, performs state-mandated health screening exams, and provides when necessary, health information to the special education team for a student's IEP meeting. The department benefits from a full-time school social worker that participates in departmental meetings and assists students who have needs concerning finances, family issues, homelessness, maternity, health issues, and proper food and clothing. The school is also fortunate to have on staff a full-time psychologist, whose role it is to evaluate all students referred for an initial evaluation or who require a three-year re-evaluation. In addition, we have a full-time speech language pathologist, who is available to assist students with disabilities, assess these students and consult with teachers. Our students also have access to the services of a full-time adjustment counselor and part-time school psychologist. All of these individuals are available for scheduled counseling sessions, mental health emergency treatment, medical/mental health re-entry and transition support services, as well as crisis intervention.

The school's Director of Student Support Services oversees the District's Special Education Program, which is reviewed annually in May, in accordance with regulatory requirements. The comprehensive review and evaluation are done in collaboration with the Parent Advisory Council, and the results of the evaluation are used to improve the special education procedures and programs in place at Montachusett Regional Vocational Technical School.

Technology

The 2018-2019 school year marked the end of the first 3-year lease for the school's popular 1:1 Chromebook initiative. Students and instructors have expanded access to instruction through the use of this important technology. To support this effort, the District's Technology Department spent countless hours during the school year upgrading the network to include new switches, wireless access points, fiber lines, and firewall. Department personnel upgraded the learning experience for students, reconfiguring the Engineering Technology shop with all new HP Z stations and eight Z book laptops, and installing ten new SMART boards throughout the school. To complement the Google classroom experience, the Monty Tech Technology Department added Schoology to the list of its many resources and supports for instructors. The District's Instructional Technologist and four academic instructors attended the annual Schoology Conference, with the goal of identifying new solutions, technologies, and best practices that will enhance the school's technology-driven approach to education.

To support these expanded technology needs, Monty Tech successfully completed a number of necessary infrastructure upgrades, using federal e-rate dollars totaling \$116,511. The school's external bandwidth speeds have been increased to 2.5 GB and internal bandwidth to 10GB to better ensure continued connectivity and speeds appropriate with a high-use learning community.

Marine Corps JROTC

The Monty Tech Marine Corps Junior Reserve Officer Training Corps (MCJROTC) had a productive 2018-2019 school year. The Cadet Corps stood a formal Inspector General inspection and achieved a "Mission Ready" grade, and due to outstanding performance throughout the year, Monty Tech's Marine Corps Junior Reserve Officers' Training Corps program was designated as a Marine Corps Honor School. Selection for the Marine Corps Honor School means that the school's Marine Corps JROTC program was in the top 15% of the 68 other programs in Region 1. Region 1 includes schools from the mid-Atlantic and Northeast U.S. The selection is based on several criteria including:

- *Inspector General's inspection results*
- *Number of cadets in the program*
- *Number of community service hours conducted*
- *Number of public affairs events attended by cadets*
- *Number of academic awards presented to cadets*
- *Participation in drill team competitions, marksmanship competitions, physical fitness competitions, and field trips that support the growth and development of the cadet*

Because of this distinction, Monty Tech MJROTC instructors are allowed to nominate up to six cadets to each of the three service academies — U.S. Naval Academy, U.S. Military Academy and U.S. Air Force Academy. This is the 8th time the program has earned this distinction since 2007.

The Monty Tech JROTC Cadet Corps was honored to once again host the Wreaths Across America Convoy with a remembrance ceremony as it made its way down to Arlington National Cemetery.

The Cyber Security Team received national recognition by securing a place to compete in the Air Force Association's National Cyber Security Competition held in Baltimore, MD, for the ninth consecutive year. The competition field began with over 1900 hundred teams battling for just 13 seats, and Monty Tech placed 5th in the highly competitive field in the all service division.

The 2018-2019 Corps of Cadets completed over 9,600 hours of community service, conducting a major food drive with United Way, completing a 10 mile March A Thon that raised \$21,000 in support of NEADS, and spending five weekends working with the local Salvation Army helping to raise over \$21,000 for needy families. The Monty Tech Cadet Corps provided 31 Color Guards for local civic and veteran ceremonies, and supported 19 community service projects throughout North Central Massachusetts. Through civic engagement and veteran affiliation, our Cadets received more than \$180,000 dollars in scholarships.

Student Athletics

The Monty Tech athletic program was proud to provide meaningful extracurricular activities to more than 500 students during the 2018 – 2019 school year, participating on our freshmen, junior varsity, or varsity teams. Fourteen teams competed in the fall 2018, thirteen during the winter season and 11 representing the school in the spring of 2019.

The varsity football team showed some improvement on the season, ending with a record of 3-8 and an eye toward the future. The Varsity Boys Soccer team finished the regular season with an 11 – 5 – 2 record, led by Rubelsi Moran who had 22 goals and 8 assists on the season. The young JV Boys team was 4 – 5 – 2, and looks to have a promising future. The Varsity Girls Soccer team finished at 7 – 9 – 2 missing the playoffs by only one win. The JV Girls Soccer team was 9 – 4 – 1 and will help the varsity in the future years. The Varsity Field Hockey team was 8 – 10, while the JV Field Hockey team finished with a 4 – 4 – 1 record, with all freshmen and sophomores on the roster. The Varsity Golf team struggled a bit, but finished with a 4 – 8 - 1 record. The JV golf players continued to work on their game and participated in some JV tournaments and some official matches. The Varsity Girls Volleyball team finished at 4 – 16, while the JV Girls were 8 – 7. The Varsity Boys Cross Country team was 8 – 1, finishing an impressive 2nd place in the Colonial Athletic League. Unfortunately, the Girls Cross country program could not recruit enough girls to compete as a team, but the two female seniors competed with the boys throughout the season.

The Boys Varsity Basketball team finished with a 5 – 15 record; the JV team finished with a record of 7 – 11 and looks forward to sending some talented players to the Varsity team next year. The Varsity Girls Basketball team had the best campaign in school history, finishing with an impressive 17 – 3 record and winning the Colonial Athletic League Championship. They continued the season, winning the State Vocational Tournament, beating Bay Path, 65 – 37 and Blackstone Valley Tech 51 – 40 in the Championship game. They won three straight games in the Central Mass Division IV tournament over Quaboag, 64 – 59, Douglas, 62 – 35 and Blackstone Valley Tech 61 – 44, and defeated Maynard in the Finals, winning the first District Championship for girls basketball 56-49. They moved on to the State Tournament where they played Hopkins Academy in the Semi-Finals, losing 55 – 48. Two seniors, Erica Regan and Emily St. Thomas each reached 1000 points for their career in early February. Emily now holds the school record for points. The JV Girls also enjoyed a strong season, finishing 15 – 3, and hope to see some strong players advance to the Varsity level next year. The Wrestling team competed in a number of tournaments, where standout athlete Isiac Paulino won 40 matches; as a freshman he is well on his way to 100 career wins. The Boys Indoor Track and Field team was 3 – 5 and the Girls team 0 -8 as they look to improve for the spring season. The Varsity Boys Ice Hockey team was 6 – 10 – 4, and the Girls Ice Hockey team continues to improve each year, graduating only 2 players and expecting at least five to return.

Due to poor field conditions the baseball teams have been unable to play their home games at Monty Tech, but have continued to represent the District well. The Varsity Baseball team was 9 – 11, qualifying for the post season tournament by winning the CAL Small School division. They lost to Uxbridge 3 -0 in a hard fought game. The JV team finished the season with a record of 5 – 7 and the Freshmen with a record of 2 – 5. The Varsity Softball team continues to excel, finishing 2nd in the Colonial Athletic League with a record of 14 – 6 in the regular season, and winning the first two games in the Districts to advance to the District Semi-Finals. The talented team beat AMSA, 12 – 6 and Narragansett 10 – 6 before losing to Millbury 12 - 2. The JV Girls Softball team was also impressive, finishing 9 – 4 on the season, and should provide some talented players to future teams. Boys Varsity Lacrosse finished with a 5 – 13 record and the JV played hard throughout the season. The Varsity Girls Lacrosse team was 7 – 12, an improvement over last year and finished 3rd in the Colonial Athletic league, while the JV team finished with an outstanding record of 14 - 3. The Boys and Girls Track & Field teams both saw an increase in participation, and finished strong with records of 4 – 5 (boys) and 4 – 9 (girls).

Congratulations to the Outstanding Male and Female athletes for 2018-2019, Connor Dandy and Cassie Skinner.

Monty Tech School of Continuing Education

The Monty Tech School of Continuing Education continues to update and add courses that emphasize a commitment to excellence by offering affordable, quality, and enjoyable educational experiences. For the Fall of 2018, Monty Tech offered 130 classes with 980 registrations and during the Spring 2019 semester; there were 102 post-graduate and continuing studies courses, with 793 registrations.

The program is on track to support the North Central Massachusetts workforce readiness pipeline with an increase in career and licensure courses. The students earn industry-recognized credentials, and participate in externships to support the hands-on learning component. We continue to increase our small business partnerships, and the number and quality of personal enrichment classes – sewing, knitting, acrylic painting and glass fusing, to name a few. Catalog distribution has more than doubled, from 80,000 to 170,000 copies, and the relatively new online registration feature continues to add value to our students and instructors.

In Spring 2019, we offered an all-new Oil Burner Technician certification prep course. Students in the newly established the 120- hour program trained on new boilers and burners, and upon completion earned the opportunity to sit for the oil burner technician state licensing exam. This course provides our community members with a high quality, affordable entry into a viable career pathway. We have also added an EPA 608 certification course to benefit students in the HVAC industry.

Our medical course offerings now include Pharmacy Technician, Certified Medical Billing and Coding, EKG, Phlebotomy, Certified Nurse Aide, Patient Care Tech, and Medical Terminology.

The continued success and sustainability of an adult education program is based on hiring quality instructors and meeting the needs of the community and supporting workforce development. Our goals in the coming year include identifying additional training opportunities to meet the needs of the regional workforce, provide affordable and meaningful training opportunities to our nontraditional student population, and expanding programming to include off-site, daytime training opportunities across the region.

Practical Nursing Program

The Monty Tech Practical Nursing Program is designed to prepare graduates to practice safely and ethically in a caring manner for patients who are experiencing common variations in health status in diverse health care settings.

On June 27, 2019 a graduating class of 28 students completed the Practical Nursing Program and entered the nursing profession. The class achieved a pass rate of 96%, with 27 of the 28 graduates passing the NCLEX-PN exam (National Council Licensure Examination for Practical Nurses). One graduate will pursue the examination in the coming months.

All of the 2019 graduates are currently employed in the health care profession throughout Massachusetts, and many are working within the eighteen cities and towns of the Monty Tech school district as Licensed Practical Nurses in various health care settings, such as long-term care, sub-acute care, mental health/ substance abuse facilities, physician's offices and correctional medicine.

The Monty Tech Practical Nursing Program continues to strengthen the “LPN to BSN (Bachelor of Science in Nursing) Bridge” relationship with Fitchburg State University. Several 2019 graduates are pursuing seats in the LPN to BSN program at FSU and will be continuing their education to the Bachelors in Nursing. Many class applicants cited their attraction to Monty Tech as the opportunity to complete a ten-month accelerated program and then bridge to Fitchburg State University. In the 5-year history of the Bridge Program, all of Monty Tech’s Practical Nursing graduates reaching graduation at FSU have passed their RNNCLEX exam.

Monty Tech Practical Nursing students are now completing patient scenarios in the Sim Lab on a weekly basis in Terms 2, 3, and 4. The Faculty Sim team has implemented National League of Nursing (NLN) patient scenarios and authored several others consistent with our curriculum frameworks, and have also utilized the Sim lab setting to instruct students in developing nursing skills that they may not be experiencing in the clinical setting.

Instructors have successfully developed and implemented a library of scenarios reflecting INASCAL Standards (International Association for Clinical Simulation and Learning).

In Maternity Sim Lab Boot Camp, students utilize the new simulation models to imitate the birthing process, from obstetric office visits through labor and common post-partum complications. Well newborn care is also taught. Student feedback has been positive regarding these new maternity scenarios, stating it better prepares them for an unexpected outcome during a delivery. This expanded content also better prepares students for NACE (Nursing Acceleration Challenge Exam) success at FSU.

Substance abuse and the mental health setting job opportunities have increased with more funding being provided to combat the opiate crisis. Having a clinical rotation at AdCare Hospital in Worcester, and performing simulation scenarios involving substance abuse clients, has better prepared our graduates to work in a substance abuse clinical setting, as well.

We are expecting an accreditation visit from the Massachusetts Board of Registration in Nursing this year. Our goals include stabilization of faculty positions, securing a certified Simulation Instructor, and pursuance of ACEN (Accreditation Commission for Education in Nursing) or other accreditation status to more accurately reflect the changing environment of nursing education.

Looking Ahead

While the Montachusett Regional Vocational Technical School District educational community is certainly proud of the achievements of our talented students, faculty, and staff, we continue to have an eye toward the future, always committed to improving our vocational and academic programming, strengthening key partnerships, and maintaining facilities that contribute to student success and achievement. As we look ahead, there are a number of programs and initiatives that we expect will have a positive impact on our school and students for years to come.

Expand Health Occupations program to include vital diagnostics: Monty Tech was awarded a generous \$385,000 Skills Capital Grant, a portion of which will benefit the staff and students of the Health Occupations program. To better prepare our graduates for a variety of careers in the health sector, the school will purchase new diagnostic equipment to train students in the proper procedures for testing for cholesterol, blood sugar, lead, lung volume, and more. In addition, the program will receive state-of-the-art virtual dissection technology, bringing lessons in anatomy and physiology to new heights. This equipment, provided by Anatomage and most often found on college campuses, is expected to engage students and bring a deeper level of knowledge and understanding to students as they explore the human body and its complex systems.

Celebrate the completion of an all-new Automotive Technology simulation lab: The \$385,000 Skills Capital Grant award will also fund an all-new Automotive Technology simulation lab, which will include the latest technology in trainers and simulators aligned with NATEF standards. At Monty Tech, students are presented with countless opportunities to earn industry-recognized credentials. These certifications are not only a testament to the skills they have developed while enrolled at Monty Tech, but also will ensure our graduates are more employable upon graduation. To that end, the Monty Tech Automotive Technology instructors have proposed adding NC3 Automotive Diagnostic Certifications to the program. In partnership with Snap On Tools, Monty Tech will now present students with a more sophisticated technical training program and opportunities to earn all-new diagnostic credentials, validating their experience and ability to diagnose and service today's computer-controlled vehicles. In addition, the program will also receive new automotive lifts, floor jacks, engine stands, chargers and an air table, to ensure students are trained on equipment that will prepare them for careers in the automotive industry.

Roll out affordable veterinary care services in the school's new veterinary clinic: A project more than 7 years in the making, the Monty Tech Veterinary Clinic is now open, providing affordable veterinary care to pets across the region. The rollout of services continues throughout the 2019-2020 school year, with routine wellness care visits, affordable medications and vaccinations, diagnostic services, primary care surgical services, stable urgent care, compassionate end of life care, and dentistry.

Monty Tech is proud to offer veterinary care services to families with valid EBT cards (food stamps) residing in the Monty Tech District. The 7,500 sq. ft. clinic also houses a grooming salon, preparing students for yet another high-demand animal care occupation. There are no eligibility requirements to receive services in the Grooming Salon.

The Monty Tech School Committee

The Montachusett Regional Vocational Technical School District Committee is comprised of twenty-two dedicated individuals, whose expertise proves invaluable in advising the district's operations, policies, and procedures. Our students continue to benefit from the broad scope of their experiences and varying perspectives, and we are thankful to the following members of the 2018-2019 School Committee for their outstanding service.

Brian J. Walker, Fitchburg

TOWN CLERK

TOWN MEETING EXCERPTS:

ANNUAL TOWN MEETING

MAY 4, 2019

The Moderator called the Annual Town Meeting to order at 9:05 a.m. in the Lunenburg Middle High School auditorium, 1079 Massachusetts Avenue and declared that the warrant was properly served. We pledged allegiance to the flag, the Moderator thanked all elected and appointed officials and recognized Mr. McQuaid who led us in thanking retiring Selectman Jamie Toale for his service to the Town. Robert Bowen named Deputy Assistant Moderator by the Moderator, several announcements were made including ground rules for proceeding with the meeting and at 9:17 a.m. action was taken on Article 1.

ARTICLE 1. To see if the Town will vote to hear and/or accept the regular written reports of the Town Officers and Committees; or take any other action relative thereto. (Submitted by Board of Selectmen) (Board of Selectmen recommends approval, Finance Committee – no recommendation) **Article 1 was PASSED OVER. Already accepted the regular written reports of the Town Officers and Committees.**

ARTICLE 2. To see if the Town will vote to amend the general by-laws of Town to establish and authorize revolving funds for use by certain town departments, boards, committees, agencies or officers under Massachusetts general Laws Chapter 44, Section 53E ½, by deleting the Table in Section 135-8.D and substituting the following Table therefor; or take any other action relative thereto. (Submitted by Town Manager) (Board of Selectmen recommends approval, Finance Committee – no recommendation) **VOTED UNANIMOUSLY as follows:**

Revolving Fund	Department, Board, Committee, Agency or Officer Authorized to Spend from the Fund	Fees, Charges or Other Receipts Credited to the Fund	Program or Activity Expenses Payable from Fund	Restrictions or Conditions on Expenses Payable from Fund	Fiscal Years
Ambulance Billing	Fire Department	5% of ambulance services and 100% of Advanced Life Support services	Payments to Third Party Billing Company and Advanced Life Support companies	None	Fiscal Year 2019 and subsequent years
Timber Rights	Conservation Commission	Proceeds of Timber Rights	Acquisition/Improvement of Conservation Land and associated costs	None	Fiscal Year 2019 and subsequent years
School Custodial Special Details	School Committee	Charges/Fees for Outside Details	Payment of Special Details for Outside Functions	None	Fiscal Year 2019 and subsequent years
Green Thumb	School Committee	Sales of Items from Green Thumb Program	Expenses related to the Operation of the Green Thumb Program	None	Fiscal Year 2019 and subsequent years
Library Revolving	Library Trustees	Library Fines, Penalties, Donations & Bequests	Purchase of Library and Information Materials, Document Information, and Electronic Data Delivery	None	Fiscal Year 2019 and subsequent years

8. Per G.L. c. 94G, § 3(a)(2), marijuana researcher , as defined by G.L. c. 94G, § 1, are prohibited within the Town of Lunenburg but expressly excluding Medical Marijuana Treatment Centers. Said prohibition shall be effective only upon passage by the voters at a regular or special Town election.

4.1O(6) "Marijuana Researcher Facility" an entity licensed to cultivate, purchase, or otherwise acquire marijuana for the purpose of conducting research regarding marijuana products. (Board of Selectmen and Finance Committee do not recommend approval) **Article 31 was DEFEATED.**

ARTICLE 32. To see if the Town will vote to accept G.L. c. 64N, § 3 to impose an excise tax on the retail sales of marijuana for adult use at the rate of 3 percent of the total sales price received by marijuana retailers as a consideration of the sale of marijuana or marijuana products; or take any other action relative thereto. (Submitted by the Board of Selectmen) (Board of Selectmen and Finance Committee recommend approval) **VOTED**

ARTICLE 33. To see if the Town will vote to amend the Code of Lunenburg, Section 250-5.6, which is a Section of the Protective Bylaw, entitled "Cluster development," by adding the following, new Subsection F thereto:

F. Anti-segmentation. No development or series of developments shall be segmented or phased, nor shall any contiguous parcels in single or common ownership as of or subsequent to the date of adoption hereof be conveyed or otherwise transferred, so as to avoid compliance with, defer or curtail the applicability or requirement(s) of this bylaw. It is not the form of ownership but control that determines single or common ownership hereunder, which shall expressly include ownership by affiliated or related persons and/or entities such as, but not limited to, business organizations in the same or similar ownership and joint tenancies, tenancies in common or trusts with a commonality of legal or equitable interest(s) therein;

or take any action relative thereto. (Submitted by the Planning Board) (Board of Selectmen no recommendation, Finance Committee – no Direct Financial Impact) **VOTED UNANIMOUSLY**

ARTICLE 34. To see if the Town will vote to acquire by gift an approximately 0.79 acre parcel of land situated on Whalom Road, together with any improvement(s) thereon, being shown as "Parcel A" on a plan of land entitled "Plan of Land in Lunenburg and Leominster, MA Prepared for Whalom Road, LLC, August 17, 2016, Whitman & Bingham Associates, LLC," as recorded with the Worcester Northern District Registry of Deeds in Plan Book 508, Page 1, for general municipal purposes, under the care, custody and control of the Parks Commission; or take any other action relative thereto. (Submitted by Zoning Board of Appeals) (Board of Selectmen and Park do not recommend approval, Finance Committee – no recommendation) **Article 34 was DEFEATED.**

ARTICLE 35. To see if the Town will vote to authorize the Board of Selectmen to petition the General Court for the enactment of special legislation revising the Charter of the Town of Lunenburg, adopted at the Town Election in 1999 and filed in the Office of the Archivist of the Commonwealth as provided in Section 12 of Chapter 43B of the General Laws, as amended by the Town on May 3, 2008 and enacted by the Senate and House of Representatives of the General Court on October 8, 2009, generally as follows:

- (i) by substituting the phrase "select board" for the phrase "board of selectmen," throughout said Charter;
- (ii) by substituting days for months and years, throughout said Charter;
- (iii) by replacing the short title "Lunenburg Home Rule Charter" with "Charter of the Town of Lunenburg," in Section 1-2;

- (iv) by adding a definition for the term “day” or days,” in Section 1-7;
 - (v) by redefining the term “quorum,” also in Section 1-7;
 - (vi) by adding the phrase “Finance Committee” to the title of Section 2-3(c), which defines its powers and duties;
 - (vii) by stating in Section 2-7(b) that either written or electronic copies of proposed warrant articles may be provided to the chairperson of the finance committee;
 - (viii) by substituting the phrase “building commissioner” for the phrase “building inspector,” in Sections 3-2(d) and 4-2(c);
 - (ix) by replacing the term “affirm” with “ratify” as it relates to the ratification of certain appointments, in Sections 3-2(d), 3-10(c) and 3-14(c);
 - (x) by replacing the term “elect” with “appoint” as it relates to the school committee’s appointment of a superintendent of schools, in Section 3-3(b)(1);
 - (xi) by stating in Section 3-5(b) that certain matters are the board of cemetery commissioners’ “sole” responsibility;
 - (xii) by excepting the school department from the town manager’s administration of personnel, in Section 4-2(e);
 - (xiii) by extending the town manager’s authority to negotiate contract with employees to “bargaining units subject to ratification by the select board,” in Section 4-2(l);
 - (xiv) by deleting references to certain Chapters of the General Laws, in Sections 4-2(m) and 5-3(d)(5);
 - (xv) by stating in Section 5-3(a) that the director of municipal finance may be either the town manager or his or her appointee;
 - (xvi) by requiring in Section 6-3 that the town manager’s budget summary be mailed with the warrant to households with registered voters”;
 - (xvii) by changing “affect” to “effect” in Section 6-4, i.e. a grammatical correction;
 - (xviii) by adding a new Section 6-5(d) requiring that the proposed operating budget “identify all other available sources of funding”;
 - (xix) by making certain clarifications to the requirements in Section 7-8(b) that multiple-member bodies post agendas of their meetings and act on items not included thereon only in emergency circumstances;
 - (xx) by substituting the term “minutes” for the term “journal” in Section 7-8(c);
 - (xxi) by clarifying and modifying the process for the filling of vacancies in the membership of an appointed, multiple-member body, in Section 7-8(f);
 - (xxii) by stating that the notice of vacancy required by Section 7-10 does not apply to those on multiple-member bodies; and
 - (xxiii) by making such other changes to the Charter as are consistent with or required by the above modifications thereto, as shown in the report hereinafter referenced;
- and to further authorize the Charter Review Committee to submit to the General Court for enactment as the revised Charter of the Town of Lunenburg the proposed legislation contained in the 2019 final report of the Charter Review Committee, effecting the foregoing changes, copies

of which have been placed on file in the offices of the Town Clerk and Board of Selectmen, at Town Hall, and made available for public distribution at said offices of the Town Clerk and Board of Selectmen, at the main circulation desk of the Lunenburg Public Library and on the Town website forthwith following said filing; and to further authorize the Charter Review Committee to consult with the members of the General Court and to approve such changes or alterations to the draft text of the special legislation as may be required or suggested by the General Court, if any; or take any action relative thereto. (Submitted by the Charter Review Committee) (Board of Selectmen recommend approval, Finance Committee – no recommendation, no direct financial impact) **VOTED UNANIMOUSLY**

ARTICLE 36. To see if the Town will vote to authorize the Board of Selectmen to petition the General Court for the enactment of special legislation revising the Charter of the Town of Lunenburg, adopted at the Town Election in 1999 and filed in the Office of the Archivist of the Commonwealth as provided in Section 12 of Chapter 43B of the General Laws, as amended by the Town on May 3, 2008 and enacted by the Senate and House of Representatives of the General Court on October 8, 2009, generally as follows:

- (i) by requiring in Section 2-3(b) that the members of the finance committee be residents registered to vote in town;
- (ii) by updating Sections 3-2(d) and 4-2(c) with the names of certain town offices either appointed by the town manager subject to select board ratification or for which candidates are recommended by the town manager to the select board;
- (iii) by modifying and replacing in its entirety Section 3-7(b), governing the powers and duties of the board of trustees of the public library;
- (iv) by increasing the membership of the board of park commissioners from three (3) to five (5), in Section 3-9(a);
- (v) by stating that the town manager will be responsible for supervision, evaluation and personnel actions related to the positions of planning director and sewer business manager, in Sections 3-10(c) and 3-14(c), respectively;
- (vi) by stating in Section 4-1 that the town manager screening committee shall submit “name(s),” not a “list,” of qualified candidates to the select board in the event of a vacancy;
- (vii) by updating due process and procedures afforded the town manager preceding removal or suspension, in Section 4-5(b);
- (viii) by adding a new Section 7-11 relative to the enforcement of Charter provisions and the town general by-laws; and
- (ix) by making such other changes to the Charter as are consistent with or required by the above modifications thereto, as shown in the report hereinafter referenced;

and to further authorize the Charter Review Committee to submit to the General Court for enactment as the revised Charter of the Town of Lunenburg the proposed legislation contained in the 2019 final report of the Charter Review Committee, effecting the foregoing changes, copies of which have been placed on file in the offices of the Town Clerk and Board of Selectmen, at Town Hall, and made available for public distribution at said offices of the Town Clerk and Board of Selectmen, at the main circulation desk of the Lunenburg Public Library and on the Town website forthwith following said filing; and to further authorize the

Charter Review Committee to consult with the members of the General Court and to approve such changes or alterations to the draft text of the special legislation as may be required or suggested by the General Court, if any; or take any action relative thereto. (Submitted by the Charter Review Committee) (Board of Selectmen recommend approval, Finance Committee – no recommendation, no direct financial impact) **VOTED UNANIMOUSLY**

ARTICLE 37. To see if the Town will vote to authorize the Board of Selectmen to negotiate and enter into a payments in lieu of tax agreement (“PILOT”) pursuant to the provisions of M.G.L. Chapter 59, Section 38H (b), and Chapter 164, Section 1, or any other enabling authority, between the Town and Borrego Solar, Inc. or its successors or assigns, for personal property attributable to solar photovoltaic facilities to be installed and operated in the Town of Lunenburg on land located at 190 Electric Avenue and as shown on Assessor’s Map 77, Parcel 14 for a term of 20 years and on such terms and conditions and for such consideration as the Board of Selectmen deems appropriate and further to authorize the Board of Selectmen to take such action as may be necessary to carry out the vote taken hereunder; or take any other action relative thereto. (Submitted by the Board of Selectmen) (Board of Selectmen recommend approval, Finance Committee – no recommendation, no direct financial impact) **VOTED**

ARTICLE 38. To see if the Town will vote to amend the Zoning Map by rezoning portions of the land located at 131 Leominster Shirley Road from Residence B District to Commercial District so the entire lot is in the Commercial District so the entire lot is in the Commercial District portions of 151 Leominster Shirley Road from Commercial District to Office Park and Industrial District so the entire lot is in the Office Park and Industrial District, and portions of 181 Leominster Shirley Road from Residence B District to Office Park and Industrial District so the entire lot is in the Office Park and Industrial District, as shown on a plan on file at the office of the Town Clerk, Board of Selectmen, and Planning Board; or take any other action relative thereto. (Citizen’s Petition) (Planning Board recommend approval) (No recommendations from Board of Selectmen or Finance Committee) **VOTED UNANIMOUSLY**

ARTICLE 39. To see if the Town will vote to grant the Lunenburg Historical Society, Inc. an easement to continue its 53-year use of a certain tract of land, described as follows: Beginning at the southeasterly corner of property of the Lunenburg Historical Society, Inc. on the westerly side of School Street, south 72° 09’ 30” east approximately 79.5 feet to the westerly side of School Street at land to be retained by the inhabitants of Lunenburg, thence north 10° 55” east approximately 145 feet to the point of beginning, *intersection with land of the Lunenburg Historical Society, Inc.*, consisting of approximately 0.25 acre, with exact angles and distances to be confirmed by survey; or take any other action relative thereto. (Citizen’s Petition) (Board of Selectmen and Finance Committee recommend approval) **VOTED UNANIMOUSLY (with amendment in italics) to grant the Lunenburg Historical Society, Inc. an easement to continue its 53-year use of a certain tract of land, described as follows: Beginning at the southeasterly corner of property of the Lunenburg Historical Society, Inc. on the westerly side of School Street, south 72° 09’ 30” east approximately 79.5 feet to the westerly side of School Street at land to be retained by the inhabitants of Lunenburg, thence north 10° 55” east approximately 145 feet to the point of intersection with land of the Lunenburg Historical Society, Inc., consisting of approximately 0.25 acre, with exact angles and distances to be confirmed by survey.**

ARTICLE 40. To see whether the Town will vote to amend its zoning bylaw by adding Section 240 4.1. J (7) "Exhibition and Workshops: Any outdoor or indoor farming or artistic performance or exhibition, including but not limited to, music, plays and staged readings, poetry, dance, farming and art fairs and exhibitions, or any lectures, talks, trainings or workshops on educational topics including but not limited to farming, health, nature, or art;" and by adding to Lunenburg Code Section 250 4.1.G (Use table) the corresponding use" 4.1J (7) Exhibition and Workshops" to be allowed in all districts pursuant to an entertainment license or Sunday entertainment license by the Board of Selectmen, or act anything thereon. (Citizen's Petition) (Board of Selectmen and Finance Committee deferred recommendation) (Planning Board did not recommend approval) **Article 40 was PASSED OVER.**

ARTICLE 41. To see whether the Town will vote to adopt a bylaw as follows:

Special Event Permit Guidelines

Welcome and Instructions The Town of Lunenburg is proud of the strong sense of community that exists amongst its residents. To further this sense of community the Town is happy to welcome special events from athletic events to concerts to community festivals. The goal of the Town of Lunenburg is to ensure that these events are safe and successful, while minimizing the impact on our residents and businesses. The following instructions are intended to assist applicants in planning and preparing to carry out their special event.

Accordingly, the Selectmen shall be authorized to grant permits for special events, as defined in this bylaw, subject to the rules and regulations governing special events set forth herein.

Guidelines for Special Events

A **Special Event** is any private event/activity held on public property or an event open to the general public held on private property that involves or affects, directly or incidentally, the ordinary use of parks, playgrounds, fields, public buildings, streets and rights-of-way and/or sidewalks. Special events may include, but are not necessarily limited to, athletic tournaments, concerts, fairs, festivals, holiday celebrations, parades, road or bicycle races, trainings workshops. Properties may hold multiple Special Events, with a maximum of 6 events per private property, in a calendar year given that the appropriate permits, approvals and inspections are in place. Events beyond 6 not permitted without reference to zoning in the district.

Individuals or organizations wishing to hold Special Events on public or private property must obtain a Special Event Permit from the Town of Lunenburg. Special Event Permit Applications must be filed a minimum of sixty (60) days prior to the event, failure to do so may result in the denial of application.

Exemptions: The following events are exempt from Special Event Permitting:

- Town Events held on Town property
- Events held in conjunction with the Lunenburg Public Schools or the Lunenburg Public Library
- Events held by Private Membership Organizations where only members and guests are invited

Permit Posting: Special Event Permits should be posted at greeting areas or main entrances at events.

Event organizers and managers are reminded that they may be asked by Town staff to show proof of the permit during the event.

Timing: Events are prohibited from conducting activities after 22:00 and before 07:00. Loudspeakers, amplified music, bullhorn or public address systems during events are strictly regulated and must be part of the permit.

Special Events may span multiple days and include on-site camping (as permitted by the Board of Health) but shall not exceed 4 days. No more than Three (3) multiple day events may be approved per calendar year per private property.

Alcohol / drug Use: Alcohol is prohibited in all Town of Lunenburg public property, including buildings, parks, playgrounds, fields, etc. Any event on private property may provide alcohol for a fee, provided that there is strict compliance with the Town of Lunenburg policy regarding such (Town of Lunenburg Board of Selectmen Policies and Procedures, as amended). No Bring Your Own Bottle (BYOB) Permits may be issued for Special Events. Private events that serve alcohol for free or allow participants to provide their own alcohol shall not be subject to this provision.

Recreational use of drugs shall be prohibited at any permitted Special Event that takes place on Town of Lunenburg property. This shall be deemed to include marijuana.

Restrooms/Trash/Cleanup: The Town of Lunenburg may require event organizers to provide temporary toilet facilities. Temporary toilet facilities must be cleaned daily or as necessary per the Lunenburg Board of Health. Trash must be disposed of in approved containers. Trash pickup and disposal is to be performed as required by the Board of Health. The applicant must clean the right-of-way or public property of all rubbish and debris, returning it to its pre-event condition at the conclusion of the event. If the applicant fails to clean up debris and trash within the specified period, cleanup will be arranged by the Town and charged to the applicant.

Traffic & Parking: Parking is permitted in designated areas only. The event organizer will be responsible for providing a parking plan to the Lunenburg Police Department for their approval. Parking may not interfere with event entrances or emergency access.

Traffic and Parking Plans shall not violate Chapter 332 of the Code of Lunenburg.

Signs: Signs are permitted, though approval may be required by the Building Inspector. No signs may be affixed to trees, buildings or street furniture.

Smoking: Smoking is not permitted in any public facility, on school grounds or on recreational parks, fields or playgrounds.

Fireworks: fireworks are not permitted within the Town of Lunenburg without proper licensing.

Tents: Large Function Tents over 2500 sq. feet require an inspection or permit from the Town of Lunenburg Board of Health, Building and Fire Departments. Such structures require a flame resistant certificate issues by an acceptable testing laboratory and site plan indicating a

fire lane accessing the tent(s) or trailer(s), a fire extinguisher on- site and acknowledgement that no smoking, fireworks, or open flames will be permitted in the tent(s).

Security/Traffic Control: Events may require the hiring of police officers to provide for security and/or traffic control.

BUFFER ZONE: All Special Events shall take place no less than one hundred feet (100') from an abutting residential property. Upon submission of a written request supported by documentation the Board of Selectmen may reduce this distance at their discretion under reasonable circumstances.

First Aid/Medical: Events may require provisions for first aid and medical personnel. Arrangements should be with a private service for the event. The Fire Department can provide a list of contacts.

ACCESSABILITY: Any Special Event permitted through the Town of Lunenburg shall be accessible to all persons who may attend. This includes the provision of accessible parking spaces, paths, restroom facilities and any other reasonable accommodations that may be required.

EVENT LAYOUT: All Special Event Applications shall include an Event Layout Plan that includes:

Site Access

Parking Areas

Restroom Facilities

Required Buffer Zone

Location of any abutting houses

Food Service Area (if applicable)

Sleeping Accommodations (if available)

Wetlands on the property (if applicable)

First Aid Station (if applicable)

Alcohol Serving Areas (if applicable)

Location of Stage or Entertainment (if applicable)

Route of Race (if applicable)

Any Additional Event Features not listed.

Insurance: At the discretion of the Board of Selectmen, all applicants must provide a certificate of insurance. Terms of insurance may be set by the Board of Selectmen in scope and financial amount at their discretion or set at the minimum amount of \$1,000,000 for commercial general liability as a precondition for obtaining permits. The Certificate of Insurance must include all coverage deemed necessary for the event, as specified by the Town of Lunenburg and Town Counsel, including indemnification and hold harmless clause. The Certificate of Insurance must name the Town of Lunenburg as an additional insured on applicable policies. This Certificate and verification of Workers Compensation Coverage must be submitted to the Town Manager's Office no later than ten (10) business days prior to the date of the event. Final Special Event Permits will not be issued without submission of a Certificate of Insurance reflecting the necessary Workers Compensation Coverage to comply with State Law.

Additional Permitting and Cost Requirements: Depending upon the Special Event, additional permits may be required by the Town of Lunenburg Departments. These may include, but are not limited to, permits for temporary food, food preparation, campground, athletic field use, merchandise sales, etc. The organizers of the event are responsible for obtaining any additional permits or licenses as determined by representatives of each Town Department before the issuance of the Special Event Permit.

Modification: The Board of Selectmen may at their discretion based on the specifics of the applying event forgo any permit requirement in these guidelines.

Enforcement: Town of Lunenburg Police, Fire or other staff so designated by the Town Manager, may request that a resident, event employee, or participant leave any park or public facility for violation of the rules and regulations.

Special Event Permit Process:

Filing of Special Event Permit Application & Supporting Material with Board of Selectmen

Distribution of Material to Relevant Departments for Review

Meeting of Relevant Departments to discuss event coordination

Submission of Comments from Town Staff to BOS.

BOS Public Hearing on Special Event Permit

Vote on Special Event and Permit Issuance

(Citizen's Petition) (Board of Selectmen and Finance Committee deferred recommendation)

Article 41 was PASSED OVER.

ARTICLE 42. This petition seeks to change the special permit granting authority in Section 4.13 (Solar Energy Systems) of the protective bylaws of the Town of Lunenburg. Under the current bylaw, the Planning Board grants special permits when it comes to photovoltaic installations. I am seeking to change the language so that the Zoning Board is the granting authority.

I am proposing the following changes to §250-4.13. Solar energy systems:

- §250-4.13 D. (1). Purpose (b) - "The special permit granting authority for these purposes shall be the Zoning Board of Appeals".
- §250-4.13 D. (3). Siting by special permit- "more than 20 acres in any district by special permit issued by the Zoning Board of Appeals;....".
- §250-4.13 D. (3). (a) Standards - "In granting the special permit, the Zoning Board of Appeals shall find.....".
- §250-4.13 D. (3). (b) Conditions- "The Zoning Board of Appeals may impose.....".
- §250-4.13 D. (7). (a) Setbacks and buffer strips - ".....and the Zoning Board of Appeals finds...".
- §250-4.13 D. (8). (a) Required documents - ".....The Zoning Board of Appeals may waive.....".
- §250-4.13 D. (11). Abandonment and removal - ".....written consent of the Zoning Board of Appeals may waive...". "The owner or operator shall notify the Zoning Board of Appeals by certified mail..." "Landscaping may be left upon approval of the Zoning Board of Appeals.....".

(Citizen's Petition) (Board of Selectmen did not recommend approval 3-1) (Finance Committee deferred recommendation) (Planning Board did not recommend approval) **Article 42 was DEFEATED.**

ARTICLE 43.

To see if the Town of Lunenburg would vote at Town meeting to move the sewer boundary on proposed Lot 7 back to 400' so new house could tie into the sewer main in Prospect St. This Lot 7 is presently shown on a draft plan Drawn by Whitman & Bingham Asso. dated March 21st 2019. The reason we can't tie into sewer now is that it is going to be a reduced Frontage Lot and to get the 175' at the Front of the Lot it pushes the house back out of the existing sewer boundary. This lot is currently owned by Amy Whitcomb Ricciuti & Charles B. Whitcomb. (Citizens Petition) **Article 43 PASSED OVER. (Petitioner withdrew petition after the warrant closed.)**

Town Meeting adjourned at 7:45 PM

**SPECIAL TOWN MEETING
NOVEMBER 12, 2019**

The Special Town Meeting was called to order by the Moderator at 7:00 P.M. in the Lunenburg Middle High School Auditorium, 1079 Massachusetts Avenue; it was declared that the warrant was properly served and that a quorum was present, the rules of procedure were laid out and we pledged allegiance to the flag. At 7:06 P.M. action was taken on Article 1.

ARTICLE 1. To see if the Town will vote to raise and appropriate, borrow, or transfer from available funds, all sums of money necessary to amend the amounts voted for the Town's FY 2020 Budget, under Article 7 of the May 4, 2019 Town Meeting; or take any other action relative thereto. (Submitted by the Town Manager) Board of Selectmen and Finance Committee recommend approval. **VOTED UNANIMOUSLY to transfer to line #1/Principal – Loans the sum of \$571.00; transfer to line #3/Interest – Temporary Loans the sum of \$19,994.48; transfer from line #2/Interest – Loans the sum of \$15,377.00; and transfer from line #28/Assessor's Administration the sum of \$12,000.00; for a total reduction of \$6,811.52 in the amount raised and appropriated for the Town's FY 2020 Budget under Article 7 of the May 4, 2019 Annual Town Meeting.**

ARTICLE 2. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money to the Special Purpose Stabilization Fund; or take any other action relative thereto. (Submitted by the Town Manager) Board of Selectmen and Finance Committee recommend approval. **VOTED UNANIMOUSLY to raise and appropriate the sum of \$88,222. to the Special Purpose Stabilization Fund.**

ARTICLE 3. To see if the Town will vote to raise and appropriate or transfer from available funds, all sums of money necessary to amend the amounts voted under Article 12 of the May 4, 2019 Town Meeting for the Sewer Enterprise Fund; or take any other action relative thereto. (Submitted by the Sewer Commission) Board of Selectmen and Finance Committee recommend approval. **VOTED UNANIMOUSLY to transfer \$9,993. from the Sewer Reserve Capacity Stabilization Fund and to reduce the appropriation from Sewer Anticipated Receipts by \$9,993., to amend the amounts voted to operate the Sewer Enterprise Fund under Article 12 of the May 4, 2019 Annual Town Meeting.**

ARTICLE 4. To see if the Town will vote to transfer from available funds the sum of \$7,513.66 into the Reserve Capacity Stabilization Fund; or take any other action relative thereto. (Submitted by the Sewer Commission) Board of Selectmen and Finance Committee recommend approval. **VOTED UNANIMOUSLY to transfer from Sewer Enterprise Retained Earnings the sum of \$7,513.66 to the Reserve Capacity Stabilization Fund.**

ARTICLE 5. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money to fund the first year of the FY 20, FY 21 and FY 22 Police Officers Collective Bargaining Agreement dated July 1, 2019 – June 30, 2022 with IBPO Local 353, AFL-CIO; or take any action relative thereto. (Submitted by the Town Manager) **Article 5 was PASSED OVER**

ARTICLE 6. To see if the Town will vote to authorize the Board of Selectmen to acquire, by gift, purchase, eminent domain or otherwise, that certain property, determined to be unique, owned by John E. Saliba and David G. Saliba, being the remaining land of said owners as described in a deed recorded at the Worcester North District Registry of Deeds at Book 4630, Page 224, the northern portion thereof (approximately 259.31 acres, including approximately 21,740 square feet in Fitchburg, at 994 Northfield Road Rear, Lunenburg Assessor Parcel ID 037-0015-00 and Fitchburg Assessor Parcel ID S31-12-A and S31-12-D) to be acquired by the Town under the provisions of Massachusetts General Laws, Chapter 40, Section 8C, as it may hereafter be amended, and other Massachusetts statutes relating to conservation, to be under the care, custody and control of the Conservation Commission for conservation and passive recreation purposes, and the southern portion thereof (approximately 58.75 acres at 961 Northfield Road S, Lunenburg Assessor Parcel ID 037-0009-00) to be acquired by the Town under the provisions of Massachusetts General Laws, Chapter 45, Section 3, as it may hereafter be amended, and other Massachusetts statutes relating to recreation, to be under the care, custody and control of the Parks Commission for recreation and parks purposes; and to raise and appropriate, borrow, or transfer from available funds a sum of \$782,000 for said purpose, including the payment of all costs incidental or relative thereto; provided, however, that the acquisition of said property shall be contingent upon the Town being awarded the maximum eligible grant amounts under the Commonwealth of Massachusetts' Local Acquisitions for Natural Diversity (LAND) and Parkland Acquisitions and Renovations for Communities (PARC) Grant Programs; that the amount borrowed will be reduced by any grant funding received towards the property acquisition; and that the Board of Selectmen be authorized to enter into all agreements and execute any and all instruments as may be necessary on behalf of said Town to affect the aforesaid acquisition; or take any other action relative thereto. (Submitted by the Land Acquisition Committee) Board of Selectmen and Finance Committee recommend approval.

VOTED (2/3rds DECLARED) to authorize the Board of Selectmen to acquire, by purchase, eminent domain or otherwise, that certain property, determined to be unique, owned by John E. Saliba and David G. Saliba, being the remaining land of said owners as described in a deed recorded at the Worcester North District Registry of Deeds at Book 4630, Page 224, the northern portion thereof (approximately 259.31 acres, including

approximately 21,740 square feet in Fitchburg, at 994 Northfield Road Rear, Lunenburg Assessor Parcel ID 037-0015-00 and Fitchburg Assessor Parcel ID S31-12-A and S31-12-D, meaning and intending to include a parcel of land shown as "Parcel 'A'" on a plan of land recorded at said Registry Plan Book 514 Plan 14, said parcel to be annexed thereto)) to be acquired by the Town under the provisions of Massachusetts General Laws, Chapter 40, Section 8C, as it may hereafter be amended, and other Massachusetts statutes relating to conservation, to be under the care, custody and control of the Conservation Commission for conservation and passive recreation purposes, and the southern portion thereof (approximately 58.75 acres at 961 Northfield Road S, Lunenburg Assessor Parcel ID 037-0009-00, meaning and intending to include a parcel of land shown as "Parcel 'B'" on a plan of land recorded at said Registry Plan Book 512 Plan 8, said parcel to be annexed thereto) to be acquired by the Town under the provisions of Massachusetts General Laws, Chapter 45, Section 3, as it may hereafter be amended, and other Massachusetts statutes relating to recreation, to be under the care, custody and control of the Parks Commission for recreation and parks purposes; and to raise and appropriate, borrow, or transfer from available funds a sum of \$782,000 for said purpose, including the payment of all costs incidental or relative thereto; provided, however, that the acquisition of said property shall be contingent upon the Town being awarded the maximum eligible grant amounts under the Commonwealth of Massachusetts' Local Acquisitions for Natural Diversity (LAND) and Parkland Acquisitions and Renovations for Communities (PARC) Grant Programs; that the amount borrowed will be reduced by any grant funding received towards the property acquisition; and that the Board of Selectmen be authorized to enter into all agreements and execute any and all instruments as may be necessary on behalf of said Town to affect the aforesaid acquisition.

ARTICLE 7. To see if the Town will vote to acquire by gift that certain property, determined to be unique, known as and numbered 842 Chase Road Rear, more specifically identified in the Assessor's records as Parcel 013-0001, and being further described in a deed recorded with the Worcester North District Registry of Deeds at Book 3611, Page 145, said property consisting of 23 acres, more or less; such property to be held in the care, custody and control of the Conservation Commission for conservation purposes, no appropriation being required therefor; or take any other action relative thereto. (Submitted by the Conservation Commission) Board of Selectmen and Finance Committee recommend approval. **VOTED UNANIMOUSLY to acquire by gift that certain property, determined to be unique, known as and numbered 842 Chase Road Rear, more specifically identified in the Assessor's records as Parcel 013-0001, and being further described in a deed recorded with the Worcester North District Registry of Deeds at Book 3611, Page 145, said property consisting of 23 acres, more or less; such property to be held in the care, custody and control of the Conservation Commission for conservation purposes, no appropriation being required therefor.**

ARTICLE 8. To see if the Town will vote to amend the Sewer Service Area Map by adding 189 Cross Road to the Lunenburg Sewer Service Area and Sewer Service Zone (parcel ID 112-58); or take any other action relative thereto. (Submitted by the Sewer Commission) Board of Selectmen recommends approval, Finance Committee No Direct Financial Impact. **VOTED to amend the Sewer Service Area Map by adding 189 Cross Road to the Lunenburg Sewer Service Area and Sewer Service Zone (parcel ID 112-58).**

ARTICLE 9. To see if the Town will vote to amend the Code of Lunenburg, Chapter 70 entitled "Salary Administration Plan" as follows: the position of Life Guard to be changed from a Grade 1 to a Grade 3; the position of Public Access Production Assistant to be added and assigned Grade 9; the position of Recreation Director to be added and assigned Grade 9; the position of Building Commissioner be changed from a Grade 14 to a Grade 16; the position of COA Director be changed from a Grade 11 to a Grade 14; and the position of Assistant Town Manager/HR Director to be added and assigned Grade 16; or take any other action relative thereto. (Submitted by the Personnel Committee) Board of Selectmen and Finance Committee recommend approval. **VOTED (with amendments) to amend the Code of Lunenburg, Chapter 70 entitled "Salary Administration Plan" as follows: the position of Life Guard to be changed from a Grade 1 to a Grade 34; the position of Public Access Production Assistant to be added and assigned Grade 9; the position of Recreation Director to be added and assigned Grade 9; the position of Building Commissioner be changed from a Grade 14 to a Grade 16; the position of COA Director be changed from a Grade 11 to a Grade 1314; and the position of Assistant Town Manager/HR Director to be added and assigned Grade 16.**

ARTICLE 10. To see if the Town will vote to amend the Code of Lunenburg, Chapter 81 entitled "Town Meetings" as follows: by deleting from §81.3, entitled "Closing of warrant," the sentence: "All requests for the insertion of subjects in the warrant for the Annual Town Meeting shall be submitted on or before 4:00 p.m. on the 42nd day before the date of the Annual Town Meeting"; and substituting the following sentence therefor: "All requests for the insertion of subjects in the warrant for the Annual Town Meeting shall be submitted on or before 4:00 p.m. on the 47th day before the date of commencement of the Annual Town Meeting"; or take any other action relative thereto (Submitted by the Board of Selectmen) Board of Selectmen recommends approval, Finance Committee No Financial Impact. **VOTED to amend the Code of Lunenburg, Chapter 81 entitled "Town Meetings" as follows: by deleting from §81.3, entitled "Closing of warrant," the sentence: "All requests for the insertion of subjects in the warrant for the Annual Town Meeting shall be submitted on or before 4:00 p.m. on the 42nd day before the date of the Annual Town Meeting"; and substituting the following sentence therefor: "All requests for the insertion of subjects in the warrant for the Annual Town Meeting shall be submitted on or before 4:00 p.m. on the 47th day before the date of commencement of the Annual Town Meeting"**

ARTICLE 11. To see if the Town will vote to amend the Code of Lunenburg, by deleting in its entirety Chapter 140 Article I, entitled "Excavations and Earth Removal," and substituting the language below therefor; or take any other action relative thereto. (Submitted by the Planning Board) **Article 11 was DEFEATED to see if the Town will vote to amend the Code of Lunenburg, by deleting in its entirety Chapter 140 Article I, entitled "Excavations and Earth Removal," and substituting the language below therefor; or take any other action relative thereto.**

§ 140-1 **Purpose.**

The purpose of this article and associated regulations is to regulate earth removal operations and land filling operations for the protection of human health, public safety, welfare, and the Town's natural resources in the Town of Lunenburg. Further, the provisions of this article are intended to protect abutting property owners from dust, washouts, noise, ponds, and other hazardous land conditions that could potentially be created by poorly managed earth removal and/or filling operations.

§ 140-2 **Definitions.**

As used in this bylaw, the following terms shall have the meanings indicated:

ABUTTERS The owners of property within 300 feet of the perimeter of the subject property.

APPLICANT The owner of land from which earth will be removed or fill to be placed, or the person of lawful standing in the stead of such owner. Any person, company, or agent standing instead of the actual property owner must have the owner's written permission to do so.

BOARD The Planning Board of the Town of Lunenburg, which shall act as the permit granting authority (PGA).

EARTH This term shall include soil, loam, sand, gravel, clay, peat, rock, or other earth material in solid form.

EARTH REMOVAL OPERATION Any commercial mining, stripping, quarrying, filling, digging or blasting of earth originating from the Town of Lunenburg and its transportation into or out of the Town of Lunenburg.

EROSION The process by which the ground surface is worn by forces such as wind, running water, ice, abrasion, gravity, transportation or by artificial means.

FILLING OF LAND The import and use of earth materials on any parcel of land within the Town of Lunenburg.

GRAVEL Loose fragments of rock or coarse aggregate resulting from natural disintegration and abrasion of rock or processing of weakly bound conglomerate.

LOAM OR TOPSOIL A soil consisting of a friable mixture of varying proportions of clay, sand, silt, and organic matter.

PGA The permit granting authority, which will be the Planning Board for the purposes of this article.

PROCESSING The sorting or separation of earth materials into distinct categories based on particle size or type usually through the use of a screening process, not including stone crushing.

PROPOSED FILL MATERIAL Any geologic, man-made, recycled or processed material including in its entirety or as a proportion containing clay, rock, sand, gravel, peat and sediment. Material meeting the federal and/or state definition of solid or hazardous waste or as toxic, infectious, radioactive, corrosive, or reactive material is specifically excluded.

SILT Loose sedimentary material with rock particles usually less than 1/16 mm or less in diameter based on the Wentworth scale of measurement.

SITE A distinct portion of one or more contiguous lots, under the same or different ownerships, on which an earth removal and/or fill operation is conducted, or is proposed to be conducted, under the permit.

SLOPE An area that is more or less steep, as measured by the vertical rise over the horizontal distance, expressed as a percentage or ratio. For example, a rise of one foot over three horizontal feet is a slope of 33% and is expressed as a ratio of 3:1 slope.

STONE CRUSHING The mechanical operation which creates smaller-sized stones or stone products from larger-sized stones, boulders or particles typically using a crushing plant or similar machinery.

§ 140-3 Applicability.

A. All earth removal and earth filling operations in the Town shall provide the following information, in writing, to the Building Inspector within six months of the effective date of this article:

- (1) The map and parcel number of the subject property;
- (2) An estimate of the amount of material left to be removed (if earth removal);
- (3) An estimate of the amount of fill material remaining to be placed (if fill);
- (4) An estimate of the anticipated annual volume of activity;
- (5) A description of completed and planned reclamation of the property;
- (6) The date the operation began; and
- (7) The anticipated date of completion or cessation of the operations.

B. Except as provided in § 140-4 or 140-5, a permit shall be required for any of the following activities:

- (1) Earth removal that involves 500 cubic yards or more of material per calendar year (January through December).

(2) The filling of land that involves 500 cubic yards or more of material per calendar year (January through December), provided that it involves either:

(a) The disturbance of two or more acres of land; or

(b) The filling of land in excess of 18 inches in depth above the existing grade.

C. An earth removal or filling operation that does not exceed any of the above thresholds shall not require a permit but is subject to the following requirements (unless otherwise agreed to, in writing, by the abutting property owner):

(1) The operation shall not encroach closer than 10 feet to a property line; and

(2) No greater than a 1:1 slope shall exist between the operation and the ten-foot buffer.

§ 140-4 Exemptions.

The following earth removal or fill operations are exempted from the requirement to obtain a permit under this article:

A. Earth removal or the placement of fill associated with the installation of septic systems, which shall be governed by the Commonwealth of Massachusetts Environmental Code (Title 5, 310 CMR 15.000).

B. Earth removal or the placement of fill associated with the installation of foundations for new buildings and/or building additions, which shall be governed by MGL c. 143 and the Commonwealth of Massachusetts Building Code (780 CMR).

C. Earth removal or the placement of fill proposed for land falling within the Town's Floodplain Protection District, which shall be governed by §§ 250-4.8 of the Lunenburg Zoning Bylaw and require a special permit from the Planning Board.

D. Earth removal or the placement of fill proposed for land falling within the Town's Wetland Protection Bylaw and associated buffer zones, which shall be governed by the Wetlands Chapter within the Town's General Bylaws (Chapter 239), which is administered by the Conservation Commission, and the Massachusetts Wetlands Protection Act.

E. Earth removal or the placement of fill that involves less than 500 cubic yards.

F. Earth removal or the placement of fill, where the operation occurs entirely within an individual parcel and where a Town-accepted public way is not used for the transportation of the material.

G. Earth removal or the placement of fill within the right-of-way for a new subdivision road that has been approved by the Planning Board or Zoning Board where there is already a bond in place with the Town to ensure performance.

The aforementioned items that are exempted provided that they don't exceed any of the following thresholds:

i. the earth removal and/or fill operation is limited to no more than three contiguous lots and does not exceed a total area of six acres, and

ii. the operation is not conducted, maintained, and/or left in a condition so as to alter the natural drainage flow beyond the property; or to cause dust, silt, soil, or other materials to be deposited on adjacent properties; or to otherwise cause nuisances, hazards, or other objectionable conditions detrimental to health, safety, or property values in adjacent areas.

iii. the excavation is not active for a period of time greater than is reasonable for the activity being conducted.

iv. Any earth removal or fill is limited to the necessary scope of the project.

The PGA shall, upon petition by an abutter or by any Town Official or Town Board, review an operation that would be exempt from the permit requirement pursuant to this § 140-4 and may determine that, because of the nature and scope of the earth removal or fill operation, a permit is nonetheless required.

§ 140-5 Continuation of Existing soil removal operations.

A. An existing operation that had been issued a permit by the Board of Selectmen under the Earth Removal Bylaw that was in effect prior to the effective date of this Bylaw may continue to operate according to the terms of such permit, which shall hereafter be enforceable by the PGA pursuant to this article.

B. An existing earth removal and/or fill operation that was not required to obtain a permit under the prior Earth Removal Bylaw, but which exceeds the thresholds specified in § 140-3B of this article, may continue to operate without being required to apply for or obtain a permit for a period of three years from the effective date of this article, provided that the owner or operator of said operation submits to the Building Inspector the information required in § 140-3A within six months of the effective date of this article.

C. The right of an existing operation to operate pursuant to § 140-5A under a permit previously issued by the Board of Selectmen, or to operate without a permit pursuant to § 140-5B, shall expire if the operation is discontinued. An operation shall be deemed to have been discontinued if no earth removal or fill activity occurs at the site for a period of 12 consecutive months.

§ 140-6 Permit criteria for earth removal and fill operations.

A. Permits for earth removal and/or fill operations shall be granted by the PGA only upon its written determination that the proposed use shall not cause substantial detriment to the neighborhood, or the Town, taking into account the characteristics of the site and the proposal in relation to the site and surrounding environment.

In addition to any specific factors that may be set forth elsewhere in this article and its associated regulations adopted pursuant to § 140-8, such determination shall include consideration of each of the following:

- (1) Social, economic, or community needs which are served by the proposal;
- (2) Traffic flow and safety, including loading and unloading;
- (3) Neighborhood character;
- (4) Impacts on the natural environment; and
- (5) Potential fiscal impact, including impact on Town services, tax base and property values.

B. Determination for each of the five criteria shall be set forth in the permit decision as findings of fact.

§ 140-7 General limitations.

A. No permit shall be issued for the removal of earth or the placement of fill in any location if such an operation:

- (1) Will endanger the public safety, public health or constitute a nuisance.
- (2) Will produce noise, dust, or other noxious effects observable at the lot lines of the property in amounts objectionable or detrimental to the normal use of adjacent properties.
- (3) Will result in the transportation of materials in such manner as to cause traffic congestion, dust, spillage, noise, or other nuisances or hazards, particularly on residential streets.
- (4) Will result in the transportation over ways which will be unduly injured thereby.
- (5) Will result in a change of topography and cover which will be disadvantageous to the most appropriate final use of the land or to the use of lands adjacent to the site.
- (6) Will cause irreparable harm to or loss of important wildlife, wildlife habitat or rare plant species indigenous to the area.
- (7) Will result in stormwater damaging abutting properties.

B. Applicants are encouraged to submit a written statement regarding how each of the previous items will be addressed and/or mitigated.

§ 140-8 Regulations.

The PGA may adopt and periodically amend rules and regulations for the implementation of this article, by majority vote. Such rules and regulations may set forth performance standards for earth removal and fill operations, impose filing and consultant fees, define additional terms not inconsistent with the article, and establish administrative procedures. Failure by the PGA to adopt such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this article.

§ 140-9 Permit procedures.

A. Any person wishing to obtain a permit to remove from or place earth material on a property in the Town, or to use any public way within the Town for transporting such material, shall file a completed application for a permit together with any required

supporting data and maps with the PGA and the filing fee, as established in the regulations of the PGA.

B. Any permit issued is nontransferable and shall automatically expire upon completion of the earth removal or fill project for which it was issued or at such time as may be specified in said permit. In no case shall a permit be issued initially for a period longer than three years. A permit may be renewed for up to two years or lesser time as determined by the PGA after evidence is presented that all conditions of the expiring permit have been complied with and the work has been performed in good faith. There is no limit on the number of permit renewals an applicant can apply for. A public hearing may be required by the PGA, at its discretion, for renewal of permits.

§ 140-10 Public hearing.

A. Once a complete permit application is filed with the PGA, the PGA shall set a date for a public hearing and so notify the applicant. Notice of the hearing shall be published by the PGA, at the applicant's expense, in a newspaper of general circulation in each of two successive weeks, the first publication being not less than 14 days before the day of said hearing. Notice of the hearing shall be given to all owners of real estate abutting upon the land specified in the permit application or lying within 300 feet of the subject parcel, all as appearing on the most recent tax list. The PGA will arrange for the publication and transmission of the notice of the hearing to the abutters, and the costs will be billed to the applicant. Final approval for the permit shall not be made until all hearing fees have been paid in full.

B. The PGA's final action, rendered in writing, shall consist of either:

- 1) Approval of the site plan based upon determination that the proposed plan will constitute a suitable development and is in compliance with the standards set forth in this Bylaw; or
- 2) Disapproval of the site plan based upon a determination that the proposed plan does not meet the standards set forth in this Bylaw; or
- 3) Approval of the site plan subject to any condition, modification or restriction required by the Planning Board which will ensure that the project meets the standards set forth in this Bylaw.

§ 140-11 Bond or security.

The Board may require suitable bond or other security adequate to assure compliance with any of the provisions of this bylaw.

§ 140-12 Enforcement; violations and penalties.

A. The PGA or its authorized agent shall enforce this article, its regulations, and the requirements and conditions of permits issued thereunder and may pursue civil and criminal remedies for violations of the same.

B. The Building Inspector is authorized to conduct inspections on behalf of the PGA. To the extent permitted by law, or if authorized by the owner, operator, or other person in control of the site, the Building Inspector or other agent of the PGA may enter on the site to conduct inspections.

C. The Building Inspector or other authorized agent of the PGA may issue such orders as are deemed necessary to stop violations and ensure compliance with this article, its regulations, and permits, including an order to cease and desist operations. Such orders may be issued by certified mail, return receipt requested, or by delivery, to the property owner, permit holder, or person responsible for operations at the site.

D. The PGA may seek injunctive relief to restrain violations or to compel abatement or remediation of violations.

E. Any person who violates any provision of this article or regulations, permits, and orders issued thereunder may be punished by a fine of not more than \$300 per offense. Each day that such violation occurs or continues shall constitute a separate offense.

F. As an alternative to a criminal fine, the Town may utilize the noncriminal disposition procedures of MGL c. 40, § 21D, in which case the Building Inspector shall be the enforcing person. The penalty for the first offense shall be \$100. The penalty for the second offense shall be \$200. The penalty for the third and subsequent offenses shall be \$300.

G. If the violator holds a permit issued under this article, the PGA may revoke the permit after a public hearing, at which point all operations shall cease until such time as the necessary measures are taken to assure compliance with this article and a new permit is issued.

§ 140-13 Severability.

The provisions of this article are severable, and the invalidity of any section, subdivision, paragraph, or other part of this article shall not affect the validity or effectiveness of the remainder of the article.

ARTICLE 12. To see if the Town will vote to accept as a public or town way, under the provisions of Massachusetts General Laws Chapter 82, as amendment, that certain roadway known as Butterfly Lane, as shown on plans on file in the Board of Selectmen and Town Clerk's Office entitled "Butterfly Lane As-built Street Plan of Land in Lunenburg, Mass, prepared for Mike Crowley, dated August 16, 2019 and being plan 14-L-876 by Whitman & Bingham Associates, LLC," and "Butterfly Lane Acceptance Plan of Land in Lunenburg, Mass, prepared for Mike Crowley, dated August 16, 2019 and being plan 14-L-876 by Whitman & Bingham Associates, LLC"; and to authorize the Board of Selectmen to accept for nominal consideration a deed of a fee interest therein, said roadway having been determined to be unique, to be used for municipal purposes consistent with those uses to which other public ways in the Town are customarily put; or take any other action relative thereto. (Submitted by the Board of Selectmen) Board of Selectmen and Finance Committee recommend approval. **VOTED to accept as a public or town way, under the provisions of Massachusetts General Laws Chapter 82, as amended, that certain roadway known as Butterfly Lane, as shown on plans on file in the Board of Selectmen and Town Clerk's Office entitled "Butterfly Lane As-built Street Plan of Land in Lunenburg, Mass, prepared for Mike Crowley, dated August 16, 2019 and being plan 14-L-876 by Whitman & Bingham Associates, LLC," and "Butterfly Lane Acceptance Plan of Land in Lunenburg, Mass, prepared for Mike Crowley, dated August 16, 2019 and being plan 14-L-876 by Whitman & Bingham Associates, LLC"; and to authorize the Board of Selectmen to accept for nominal consideration a deed of fee interest therein, said roadway having been determined to be unique, to be used for municipal**

purposes consistent with those uses to which other public ways in the Town are customarily put.

ARTICLE 13. To see if the Town will vote to support the demolition of the old Primary School located at 30 School Street, which vote shall be a non-binding resolution meant to provide guidance to the Board of Selectmen; or take any other action relative thereto. (Submitted by the Board of Selectmen) Board of Selectmen and Finance Committee No Recommendation. **VOTED to support the demolition of the old Primary School located at 30 School Street, which vote shall be a non-binding resolution meant to provide guidance to the Board of Selectmen.**

ARTICLE 14. To see if the Town will vote to file a Home Rule Petition with the General Court for a special law authorizing the Town to grant an additional license for the sale of wines and malt beverages not to be drunk on the premises to Lanni Orchards. (Submitted by Board of Selectmen) Board of Selectmen recommend approval and Finance Committee recommends disapproval. **VOTED to file a Home Rule Petition with the General Court for a special law authorizing the Town to grant an additional license for the sale of wines and malt beverages not to be drunk on the premises to Lanni Orchards. The proposed Special Act would read as follows:**

The proposed Special Act would read as follows:

AN ACT AUTHORIZING THE TOWN OF LUNENBURG TO GRANT AN ADDITIONAL LICENSE FOR THE SALE OF WINES AND MALT BEVERAGES NOT TO BE DRUNK ON THE PREMISES TO LANNI ORCHARDS

SECTION 1. (a) Notwithstanding section 17 of chapter 138 of the General Laws, the licensing authority of the town of Lunenburg may grant 1 additional license for the sale of wines and malt beverages not to be drunk on the premises pursuant to section 15 of said chapter 138 to Lanni Orchards, located at 294 Chase Road. The license shall be subject to all of said chapter 138 except said section 17.

(b) The licensing authority of the town of Lunenburg shall not approve the transfer of the license granted pursuant to this act to any other location but it may grant a license to a new applicant at the same location if the applicant files with the licensing authority a letter from the department of revenue and a letter from the department of unemployment assistance indicating that the license is in good standing with those departments and that all applicable taxes, fees and contributions have been paid.

(c) If a license granted pursuant to this act is cancelled, revoked or no longer in use at the location of original issuance, it shall be returned physically, with all of the legal rights, privileges and restrictions pertaining thereto, to the licensing authority and the licensing authority may then grant the license to a new applicant at the same location under the same conditions as specified in this act.

SECTION 2. This act shall take effect upon its passage.

ARTICLE 15. To see if the Town will vote to file a Home Rule Petition with the General Court for a special law authorizing the Town to grant an additional license for the sale of wines and malt beverages not to be drunk on the premises, in addition to that authorized by the Home Rule Petition referenced in the preceding Article 14. (Submitted by Board of Selectmen) Board of Selectmen recommends approval and Finance Committee recommends disapproval. **VOTED to file a Home Rule Petition with the General Court for a special law authorizing the Town to grant an additional license for the sale of wines and malt beverages not to be drunk on the premises, in addition to that authorized by the Home Rule Petition referenced in the preceding Article 14. The proposed Special Act would read as follows:**

AN ACT AUTHORIZING THE TOWN OF LUNENBURG TO GRANT AN ADDITIONAL LICENSE FOR THE SALE OF WINES AND MALT BEVERAGES NOT TO BE DRUNK ON THE PREMISES

SECTION 1. (a) Notwithstanding section 17 of chapter 138 of the General Laws, the licensing authority of the town of Lunenburg may grant 1 additional license for the sale of wines and malt beverages not to be drunk on the premises pursuant to section 15 of said chapter 138. The license shall be subject to all of said chapter 138 except said section 17.

(b) The licensing authority of the town of Lunenburg may approve the transfer of the license granted pursuant to this act to another location if the applicant files with the licensing authority a letter from the department of revenue and a letter from the department of unemployment assistance indicating that the license is in good standing with those departments and that all applicable taxes, fees and contributions have been paid.

(c) If a license granted pursuant to this act is cancelled, revoked or no longer in use at the location of original issuance, it shall be returned physically, with all of the legal rights, privileges and restrictions pertaining thereto, to the licensing authority and the licensing authority may then grant the license to a new applicant at any location as may be determined by the licensing authority under the same conditions as specified in this act.

SECTION 2. This act shall take effect upon its passage.

Meeting adjourned at 10:45 PM.
