

TOWN OF LUNENBURG
ANNUAL REPORT FOR FISCAL YEAR 2023

IN MEMORIAM

Stanley Barney passed away on July 12, 2023. Stan was born to the late Wilbur Walker Barney and Therese Annette (LaChance) Barney on August 14, 1950.

Stan is survived by his loving wife Suzanne (Anderson) Barney, daughter Stephanie Barney and her partner Alyssa Sharpe, sister Marie Barney, brother Michael G. Barney and wife Janice, nephew Michael R. Barney and his fiancée Jillian Doucette, and several nieces, nephews, cousins and extended family. A son, Patrick M. Barney, predeceased him in 2019.

Stan was blessed with a circle of lifelong friends, many of whom were at his side at the time of his passing.

In his lifetime, Stan was involved in a wide range of activities: working at the family business (Barney's Restaurant and Dairy Bar), caring for animals, gardening, woodworking, and serving as captain of the Blue Knights Football Team (#61!). He was an avid Boston sports fan, and was a Celtics season ticket holder for many years. An avid gardener, Stan maintained beautiful flower and vegetable gardens. He gave away most of the produce and flowers he grew, including pumpkins, jars of pickles he made with his mother and sister, and fresh cut flowers. He loved the outdoors and even built his own lumber mill at his residence. Stan loved fishing and snowmobiling with his friends. Stan was a life member of the Eastwood Club.

A 1968 graduate of Lunenburg High School, Stan attended Merrimack College and graduated from Fitchburg State University. He married the former Suzanne Anderson of Great Barrington Massachusetts on October 6, 1973. Devoted to the Town of Lunenburg, Stan served for 38 years on the Lunenburg Police Department, moving through the ranks to Sargent in 2000 and finally Lieutenant in 2013. He cherished serving the community as a police officer along with his son. Stan was also a lifetime member of the Lunenburg Police Relief Association, serving as its President in 1984. He also served several terms as a Cemetery Commissioner for the Town of Lunenburg, overseeing the maintenance and care of town cemetery grounds.

Stan was also employed by the law enforcement division of the Massachusetts Society for the Prevention of Cruelty to Animals from 1986 to 1991, serving throughout 40 cities and towns. Devoted to animal rescue, Stan built a barn/stable at his Lunenburg residence and provided a safe residence for rescued horses, including draft horses and Clydesdales.

LUNENBURG PROFILE

YEAR INCORPORATED-1728

REGISTERED VOTERS– 9,041

FY'23 TAX RATE- \$14.62

OPEN TOWN GOVERNMENT– 5 MEMBER SELECT BOARD

ANNUAL TOWN ELECTION– 3RD SATURDAY IN MAY

ANNUAL TOWN MEETING– 1ST SATURDAY IN MAY

TOTAL AREA– 26.63 MILES

Lunenburg was settled in 1718 and incorporated in 1728. It occupies a land area of approximately 26.4 square miles. Lunenburg is located in north central Massachusetts approximately 43 miles from Boston. It is bordered on the west by the Town of Ashby and the City of Fitchburg, on the south by the Town of Lancaster and the City of Leominster, on the east by the Town of Shirley and on the north by the Town of Townsend.

Local legislative decisions are made by an open town meeting consisting of all registered voters in the town. Subject to the legislative decisions made by town meeting, the affairs of the town are generally administered by an elected five member Select Board and a Town Manager. Local school affairs are administered by an elected seven member School Committee while local taxes are assessed by an elected three member Board of Assessors.

Lunenburg is a semi-rural community located in northern Worcester County. Lake Whalom and the former Whalom Amusement Park delineated the Whalom District from the remainder of Lunenburg. This district was developed as a housing base for many factory workers working in the mills and factories of Leominster and Fitchburg. In many ways the characteristics of the Whalom District closely reflect characteristics of these cities more than of the rest of Lunenburg. The Hickory Hills Lake area was developed as a private community comprised largely of vacation cottages. Shirley Reservoir is a public water body also developed with mainly vacation cottages that have now been modified to year-round residences.

Commercial and industrial development is permitted in several areas of town, primarily along the two major arteries (Routes 2A and 13) and the town's peripheries, due largely to the close proximity of Leominster's and Fitchburg's sewer and water systems. Although many farms and orchards had slowly developed into single family housing, farming continues on in Lunenburg. In 2013 the Annual Town Meeting voted to establish an Agricultural Commission to represent, preserve and enhance farming in the community and to administer the "Right to Farm" bylaw,

The 2015 Lunenburg Town Meeting established the Architectural Preservation District ("District") bylaw to regulate construction, demolition or renovation of existing "Contributing Property" structures as defined by the bylaw within an established bounded district. The bylaw was introduced at Town Meeting along with the Village District Bylaw, which created an overlay zoning district to encourage mixed-use commercial and residential development. While the Village District Bylaw encourages the economic vitalization of downtown Lunenburg, the Architectural Preservation District Bylaw ensures that it will not come at the expense of the town's historical character and integrity.

ADMINISTRATION

REPORT OF THE TOWN MANAGER

FY23

It is my honor to submit the annual report on the activities of the Office of the Town Manager during Fiscal Year 2023. There was a substantial amount of progress during Fiscal Year 2023, yet the year proved to be a continuation of the effects of the pandemic and a mid-year tax assessment crisis that affected lakefront property owners occurred that impacted the capacity to do more during Fiscal Year 2023. Since 2020, the Town has struggled with staffing levels in various departments, including attracting and retaining employees. The Town Manager and Assistant Town Manager have worked on various ways to address staffing, including recruitment strategies and employee engagement. An interim valuation adjustment through the Assessors triggered hundreds of abatement applications to be filed and the effects were widespread. In the aftermath of the increases in lakefront valuations, certain processes and corrective actions have been undertaken by the Select Board, Town Manager and Board of Assessors that will prevent a similar occurrence from happening again.

Below I would like to highlight the topics that were addressed during Fiscal Year 2023 and the accomplishments within the Office of the Town Manager:

- In July of 2022, as part of the annual goal setting process, the Selectmen reviewed the and voted to accept the Town Manager's annual goals for FY23. The Town Manager's goals for FY 2023 included continuing to take the necessary steps towards the redevelopment/reuse of 925 Massachusetts Avenue, enhancement of long term planning in the areas of capital assets, staffing and infrastructure, and focusing on employee recruitment, recognition, and retention. A majority of the action items related to these three goals were completed.
- In regards to 925 Massachusetts Avenue, the Town Manager continued to work Joe McLaughlin of BETA Group, MassDEP, the EPA and MassDevelopment about possible cleanup funding. In FY 2023 the EPA paid for removal of the fuel tanks and canopy as part of the Targeted Brownfields Assessment funding. The Town Manager also applied for funding through MassDevelopment's Real Estate Technical Assistance funding to create conceptual plans, perform market analysis, and develop a Request for Proposals in order to dispose of the property. As it related to one of the action items under the Town Manager's annual goals for road and bridge planning, the DPW Director worked with BETA Group to update the Town's five year pavement management plan and identified the costs of creating a similar plan for bridges and culverts, that would be undertaken in FY24.
- In July 2022, the Select Board set their goals for the upcoming year: they amended their FY22 goal/work on the old Primary School at 30 School Street, work with the Town Manager and Finance Director to establish a means-tested senior citizen property tax exemption or abatement, and lastly to review and update Select Board related by-laws and policies.
- The Town Manager reported to the Board in July that the \$500,000 Small Bridge Grant that she worked with the DPW Director and engineering firm on submitting was awarded to the Town for the Flat Hill Culvert project. This funding was needed to supplement the Town's local appropriation of funds, due to the estimated construction costs for the project.
- The Town Manager worked with town counsel and Until to finalize the Purchase & Sale and License Agreement in order to purchase the streetlights from Until. This was a necessary step as well before going out to bid to convert the streetlights to LED.

In August of 2022 the Town Manager notified the Board that the Town was awarded the \$187,140 for the competitive Green Communities Grant she submitted, which included \$172,140 for the conversion of the streetlights to LED.

- As previously mentioned, Fiscal Year 2023 proved to be another difficult year for retaining staff and filling vacancies. The pandemic created opportunities for employees to move to new careers and made it more difficult to attract and retain employees. In addition to this, the Town identified that wages needed a market adjustment to attract candidates that ultimately would need to be addressed through the Salary Administration Plan Bylaw for non-union employees and collective bargaining agreements for union positions. The Assistant Town Manager/HR Director, who is responsible for advertising vacancies and working with the relevant departments to bring on new employees was constantly reviewing applications, interviewing, and trying to fill vacancies throughout the year. The following are a list of positions that were filled, either due to vacancies or creation of a new position, during FY 2023: Police Officers (3), Reserve Police Officer, Facilities Director (2), Conservation Administrator, Public Access Videographer, Public Safety Desk Officer, Civilian Traffic Members, IT Administrative Assistant (new position), Recreation Director, Tax Collector Principal Clerk (2), Alternate Electrical Inspector, Heavy Equipment Operators (4), Public Access Production Technician (new position), Building Commissioner, Planning Board Administrative Assistant, Seasonal Beach Staff, part-time Police Administrative Assistant, Conservation Administrative Assistant (2), and Meal Site Manager.
- The Town Manager, the Assistant Town Manager, and the relevant staff worked together on putting a variety of projects out to bid in FY 2023, including the DPW Road Materials Bid, the Hollis Road Window Replacement, Master Planning Consulting Services, Wetland & Professional Land Surveyor Services for Marshall Park, 30 School Street Hazardous Materials Abatement and Demolition, Cell Tower Lease for Town Hall, the Page Street Culvert Construction, Auditing and Consulting Services for the LED Streetlights project, the Removal of Solid Waste Materials at the Woodruff Property (no bids received), Town Hall Building Envelope Repairs (all bids rejected), Tax Assessment Services (to handle all the inspections related to tax abatement applications), Real Property Data Collection Services, Five Year Assessing Revaluation Services, Roadway Maintenance for Fog Sealing, Public Safety Carport Project (rejected all bids), Guardrail Repairs, and the Senior Center ADA Outdoor Patio.
- The Town Manager had a Fraud Risk Assessment performed that was partially paid for with a MIIA Flex Grant and \$7,800 for a Recycling Dividends Grant that helped fund the Trash & Recycling Coordinator position.
- Over the course of the fiscal year the Board discussed evaluation criteria and development of a process to review and commit the \$3.5M in ARPA (American Rescue Plan Act) funding through the Coronavirus State and Local Fiscal Recovery *Funds* program.

By the end of the fiscal year the Board had committed funds for the Public Safety Building Security Camera System (\$81,054), funds for tax assessment services and related investigation (\$150,000), funds to purchase a new ambulance (\$506,000), two large DPW trucks (\$480,000), funding for the Marshall Park project (\$1,000,000), funding for consulting services for ARPA reporting (\$60,000), funding for an LPS Athletic Field Study (\$50,000), and supplemental funding for the five year revaluation (\$30,000).

- The Special Town Meeting in November 2022 included a number of articles such as amending the FY23 budget, payment of prior year bills, funding for the first year of the collective bargaining agreement with the Police Union, amending the Sewer Enterprise budget, transfer available funds to the Sewer Capital Reserve Stabilization Fund, funding for engineering for Marshall Park, amending the Salary Administration Plan Bylaw to add certain positions, acceptance of MGL Ch. 32 sec. 4(2)(b), an article from the Planning Board, an article from the APDC to amend the bylaw, an article to override the denial of the certificate to alter the Ritter Building by the APDC, an article to amend the bylaw on capital appropriations, and two citizen petition articles.
- In December, the Board approved all the annual liquor licenses, common victualler, weekday entertainment, automatic amusement, jukebox, and motor vehicle licenses. Throughout the year, the Board reviews Earth Removal permits, liquor license transfers, flammable storage licenses, pole petitions, toll-booth requests, and First Right of Refusal Requests for Chapter 61 properties.
- In January of 2023 the Town Manager presented her preliminary FY23 budget priorities. Her recommendation was to address staffing needs conservatively due to the projected revenues and non-discretionary costs. This would mean pausing the 10-year staffing plan for the Police Department due to the impact that year 2 of the Police Union Collective Bargaining Agreement would have on the budget. The 5-year Fire/EMS plan to get to a full time Paramedic Level Service was realized in FY23, so there were no plans to add staff to the Fire Department in FY24. Other priorities included additional IT equipment, cemetery improvements, constructing a small kennel at the Public Safety Building, hazardous tree removal, additional funding for ADA public rights of way improvements, drainage improvements, and additional funding for library programming. At that point in time health insurance costs were estimated to be an 8.5% increase, the retirement assessment would be increasing by 13%, and other insurances would be increasing by 5%.
- In January the Town Manager presented the Preliminary Capital Plan for FY24 for the funding of 6 projects totaling \$1,360,500 and a 10 year look ahead at projected capital needs. The capital plan was modified to include an additional 6 projects prior to town meeting, as the Select Board decided to fund three of the projects using ARPA funds. The final plan included 12 projects for a grand total of \$2,025,010 (including \$986,000 from ARPA funding).

- At the January 10th meeting, a large number of residents around Lake Shirley, Hickory Hills, and Lake Whalom attended the Select Board meeting to speak during public comment about their 3rd and 4th quarter tax bills increasing significantly. Many residents voiced that their property valuations increased more than 50%. On January 17th the Select Board held a special meeting at the Middle/High School Auditorium and hundreds attended. The meeting was scheduled to allow the public to ask questions to the Board, Principal Assessor, and Board of Assessors. Ultimately the Select Board voted to conduct an investigation into the effects that the pandemic had on property values in 2021, the corresponding impact on the FY 2023 tax assessments, and the process by which the Town conducted property valuations and distributed tax assessments to residents. The Chairman of the Board led the investigation, with the assistance of the Vice-Chairman, and in coordination and collaboration with the Town Manager. The following six months of the fiscal year were significantly impacted by the large increase in lake property valuations, including the need to hire an outside consulting firm to conduct the over 400 property inspections that resulted in \$1,317,690 in abatements that were issued in the fourth quarter of FY23. The consultant issued a report to the Board of Assessors in FY23, and reported that the Principal Assessor found that two-thirds of the sales that occurred in calendar year 2021 had an ASR (Assessment to Sale Ratio) of .40, indicating that a major adjustment was needed in order to bring values in line with the Department of Revenue guidelines (.90-1.10). When the Principal Assessor made this interim year adjustment, it created an increase in land values in some cases of around 135%. The consultant recommended creating a new adjustment factor that addressed that not every lakefront property is the same, including “Good, Average, Below Average”. The Board of Assessors endorsed this recommendation and this determined the revised valuation and the abatements issued.
- The Town Manager presented a balanced budget for Fiscal Year 2024 to the Finance Committee and Selectmen in February. Part of the Town Manager’s recommendation was to continue to fund the Other Post-Employment Benefits Trust Fund for the unfunded liability of retiree health insurance in the amount of \$282,855, an additional \$50,000 towards Pavement Management, fund the regular Stabilization fund in the amount of \$100,000, \$250,000 towards the Special Purpose Stabilization Fund, and use \$1,500,000 in free cash towards the Overlay account to fund the “worst case scenario” for FY23 property tax abatements. The FY2024 budget also included the hiring of a part time COA Outreach Assistant and increase in hours for different positions including the Assistant Town Manager, the COA Outreach Coordinator, Treasurer/Collector, and funding for recreational programming salaries. The budget also included a \$40,000 increase for Solid Waste/Recycling Program, a decrease of \$979,710 in maturing interest and debt payments, 2.5% increase for Lunenburg Public Schools and a 12% increase for the Montachusett Technical School Assessment. Health Insurance rates increased by 6.2% for active employee plans and \$271,000 from the Health Insurance Stabilization Fund was used to offset the health insurance costs. The total omnibus budget for FY24 that was approved in May was \$42,584,048.

- In March of 2023 Select Board member Todd Dwyer submitted his resignation due to his moving out of town. The Board did not hold a special election to fill the vacancy.
- In April of 2023 Powers and Sullivan presented the results of the FY 2022 Annual Audit and presented that the Town had addressed any prior year comments.
- In May, following the annual election, the Board reorganized and voted Michael-Ray Jeffreys as the Chair, Lou Franco as Vice Chair and the newest member of the Board Caesar Nuzzolo as Clerk. Renee Emkey was elected at the May 2023 Annual Town Election as well.
- The Selectmen and the Town Manager made their annual appointments in June for FY 2024.
- In FY 2022, the Town had submitted a certificate to alter for the Ritter Building that included the replacement of all the windows with historic looking windows to become more energy efficient and install an ADA compliant ramp to the entrance of the building and the APDC denied the application. The Facilities Director Chris Ruth and hired architect worked on resubmitting a Certificate to Alter with the APDC for this project during FY 2023. Ultimately, this project would be approved by the APDC early in FY 2024.

Seven and a half years has passed since I was appointed your Town Manager and I am thankful for the many residents I have met, work with on various committees, and represent on a daily basis overseeing the operations of the Town.

I have the privilege of working with many talented individuals that are committed to helping the residents and business owners of Lunenburg and are consistently looking for ways to better serve the public. The accomplishments noted above, among the numerous day-to-day responsibilities, could not happen without the cooperation of dedicated staff, appointed, and elected officials that make the wheels of town government turn. My Executive Assistant Elaine Peterson retired in March of 2024 and I am thankful for her service to the town and keeping our office running smoothly. Annie Aubrey has stepped into the Executive Assistant position and is already doing a great job. Thank you to the Assistant Town Manager Julie Belliveau for juggling the multitude of projects that require to be put out to bid, as well all her HR Director duties that include trying to fill the many positions this past year. I would also like to thank the committee and board members, department heads and staff for the high level of service they provide to the residents of town. Specifically, I would like to express gratitude to the current and former department heads that led our various departments in Fiscal Year 2023: Thomas Gammel, Police Chief; Patrick Sullivan, Fire Chief; Bill Bernard, DPW Director; Karen Brochu, Interim Town Accountant/Finance Director; Ezequiel Ayala, current Town Accountant/Finance Director; Myleen Mallari, Treasurer/Collector; Rena Swezey, Interim Principal Assessor; Lynda McQuade, current Principal Assessor; Adam Burney, former Land Use Director; Richard Harris, Interim Land Use Director; Sue Doherty, COA Director; Muir Haman, Library Director; Kathy Herrick, Town Clerk; Chris Ruth, Facilities Director; Jo Toale, Public Access Manager;

and all their staff for their talent and working together to make our town run as efficiently as possible. Lastly, thank you to the residents and businesses that make Lunenburg a wonderful place to visit, work, and live.

Respectfully submitted,

Heather R. Lemieux

Heather R. Lemieux
Town Manager

BOARD OF ASSESSORS

The Mission Statement of the Board of Assessors is to accurately determine the value of all Real and Personal Property within the Town of Lunenburg, as outlined in Massachusetts General Law Chapter 59. The assessed value in every community in the Commonwealth must reflect fair market value as of January 1 prior to the start of any given fiscal year.

The Assessors are also responsible for the administration of all property tax data records. It maintains accurate parcel ownership data based on recorded property transactions at the Worcester North Registry of Deeds. The Assessors process and administer auto excise as well as personal real estate tax exemptions for the Senior and Surviving Spouse, Blind, and Disabled Veterans.

The Board of Assessors is elected and consists of three members. Each Assessor must complete a required DOR Training (Course 101, Assessment Administration: Law, Procedures, and Valuation for assessing board members). In the Town of Lunenburg, the Assessor's office staff consists of a full time Principal Assessor and a full time Assessors Clerk.

The last 18 months have been tumultuous for the Board of Assessors.

There has been a 100% turnover of the Board of Assessors' membership. 1 new Member was elected in May 2023, while 2 new Members were appointed to fill vacant slots until May 2024. The Principal Assessor resigned and was replaced with an Interim Lead Assessor. After a lengthy search process, a full time Lead Assessor has been identified and will start late March 2024. The Town has issued a historic number of Property Tax abatements in FY 2023. We handled a 30 x increase in Abatement applications (440 vs 14). The overwhelming **majority** of the abatements were settled in a timely fashion.

FY 2024 is a state-mandated 5-Year Revaluation for the every property in Lunenburg. The Property Tax abatement effort led to an unprecedented delay in completing that revaluation and determining the tax rate for FY 2024. This resulted in a delay in distribution of the final FY 2024 tax bills. Because of the unusual and significant work load, two outside agencies, Vision Government Solutions, Inc. and Municipal Financial Services (MFS), have been engaged to provide assessment personnel for the abatement process and DOR filings for the 5-year Revaluation.

The Assessor Operations continue be resource-constrained. Currently, we only have 1 Interim Lead Assessor, and are temporarily short the Assessor Clerk. In the MFS report on the FY2023 Abatement process, it was recommended that Lunenburg add a part time person to help perform the normal Assessor Office work load. This included site inspections, office coverage, data analytics and records maintenance. Currently, the resource constraint is being partially addressed by the external contractors previously mentioned.

The Board of Assessors is committed to restoring the trust of Lunenburg tax-payers. We hope to accomplish this through improving transparency, better out-reach, and enhancing visibility and access.

We have begun this by scheduling all meetings during evenings (with both PACC coverage and Zoom access), so everyone can participate more easily. We created a Data Collection Manual for use during the 5-year Revaluation. We are also putting the finishing touches on a guide for "How to Read Your Vision Property Card", that will be available in hard-copy and via the internet.

To be more inclusive of Lunenburg’s tax-payers, we are planning to create an ad hoc, Citizens’ Advisory Committee to help us determine to best way to answer citizens questions, prioritize initiatives, data analysis and generally hold the Board’s collective feet to the fire. The Board of Assessors has developed a Property Tax orientation for use at the Senior Center to explain the options that are available to reduce the tax burden for our Senior Citizens.

We are improving visibility and access by embarking on a redesign of the Website. This will include the resources mentioned above, as well as Frequently Asked Questions. Other information will include analytics and explanations provided by the Massachusetts DOR/ Division of Local Services, Massachusetts Association of Assessing Officers, and UMass among others.

TOWN SERVICES

BUILDING DEPARTMENT

The Town of Lunenburg Building Department is Located in the Ritter Memorial Building located at 960 Massachusetts Avenue. The Building Department works to efficiently, effectively, and consistently ensure a safe, sustainable, and vibrant community through effective oversight of construction and development activities by enforcing the Massachusetts state Building, Plumbing, Gas, and Electrical Codes, The Architectural Access Board Regulations, and Lunenburg's Zoning Bylaw and Town Code. The Building Department also plays a critical role in assisting business through the process of obtaining permits and ensuring compliance with all relevant codes and regulations. A commitment to being accessible, responsive and to providing a high level of customer service empowers us to be a partner the community, property owners, businesses, contractors, and developers can rely on when needed. The Building Department maintains this commitment by:

- Ensuring the public has consistent access to effective and courteous assistance in obtaining information, permits or approvals related to construction, building or zoning regulations and providing clear information about regulations, permitting requirements and associated fees.
- Maintaining a consistent level of communication by responding to all inquiries and applications in a timely manner.
- Enforcing building codes, regulations, local codes, and safety standards to guarantee the safety of occupants and the community.
- Improving and optimizing the permitting process to facilitate efficient and timely approvals for construction projects while maintaining thorough and consistent review procedures.
- Utilizing technology to streamline internal processes, enhance data management, and provide better online services for applicants and property owners.
- Regularly reviewing and assessing departmental processes and policies, seeking opportunities for improvement, efficiency, and effectiveness in serving the community.
- Coordinating with other departments to ensure a streamlined approach to permitting and enforcement as needed.
- Receiving and evaluating feedback from the public and other interested parties, and implementing changes as needed to ensure the department goals are being met.

CEMETERY COMMISSION

The Cemetery Commission and DPW Director, William Bernard met throughout the year to discuss cemetery business. Projects that were unfolded and being reviewed this year include the surveying of the open field at North Cemetery; projects with the existing historical walls that surround North Cemetery; historical and Veterans grave- sites that need care and repositioning. Review of diagrams of healthy trees that will be kept in place around the grave-sites for future burials. The Cemetery Commission looks forward in the upcoming months to begin discussing the project with the DPW and Engineering Firm to expand for burials, well into the future at the North Cemetery.

The Cemetery Commission is looking toward a long-term solution for the boundary of the North Cemetery along Holman Street.

The Commissioners would like to thank the following people and businesses whose help was acknowledged and appreciated throughout the year.

The Cemetery Commission appreciated the efforts from the DPW Director, William Bernard, and Cemetery Superintendent, Todd Holman who works toward maintaining the Lunenburg Cemeteries.

Alexis Dimond and Danielle Peterson for the dedication and hard work they put in early in the year, maintaining the Lunenburg Cemeteries.

Robert Ullo for his assistance in plowing snow away from the entrance to South Cemetery.

Dave Passios for his volunteer efforts and dedication in keeping the well pumps in excellent working order.

Leominster Monument Co. for their continued assistance whenever it is needed.

Dillis and Roy for their Engineering knowledge and completing the survey for future grave-sites within the North Cemetery.

Lakeview Landscaping with continued professional advice and contract services.

Mrs. Helen Balcom for her services in planting, maintaining, and watering the flowers that decorate the entrances to both cemeteries.

The Cemetery Commission maintains an online mapping system for both cemeteries that can be found at www.burialsearch.com

Nancy-Foss Yasko, Chair

David Dorren, Vice Chair and Clerk

CONSERVATION COMMISSION

The Town of Lunenburg Conservation Commission is a seven-member commission, each appointed to 3-year terms by the Select Board, whose duties are codified under the Conservation Commission Act MGL chapter 40 s 8C. The Commission enforces the Massachusetts Wetland Protection Act MGL chapter 131 s 40 and Chapter 239 of the local bylaws for the protection of wetlands. The Commission also manages, and controls town owned lands retained for conservation and passive recreation use.

During 2023 the commission had a very busy and active agenda of public hearings for a wide range of projects from commercial development, subdivisions and small single family upkeep projects and larger scale industrial/commercial proposals.

The Commission also held many inspections with the Commission Administrator on weekends prior to meetings to familiarize themselves with the upcoming proposals on the agenda. The Commission continues to work with the town on familiarizing itself with the continually changing storm water mandates from the EPA and working towards compliance both by procedure and with any necessary codification as well as aiding with the community implementations the "MS4" regulations.

The Conservation Commission continues to implement forest stewardship plans developed using grants as outlined in the last three annual reports. The upcoming management effort will be concentrated on the Rayno property on Northfield Road. The Hollis Road property stewardship plan is oriented toward enhancing bird wildlife habitat with the Mass Audubon Society as part of the DCR "Forestry for the Birds" program. The funding from the sale of harvested timber provides the seed money to make it possible for the Commission to apply for grants to maintain and improve Lunenburg's conservation lands. In 2023, the Conservation Commission was the beneficiary of the Shawn H. Kelley Estate which will further support ongoing maintenance and improvements.

The Pollinator Habitat portion of the Hollis Rd property provides for a diversity of native flowers throughout the growing season. The Habitat promotes insect egg laying and nesting sites for pollinators. The Habitat provides food sources for birds and numerous insects including native bees and butterflies. This unique "Hidden Gem" helps control soil erosion and oxygenates our air.

The Commission has made significant progress on "You Are Here" trail map signs at trail heads and trail intersections to expand the safe use of Lunenburg's existing trail network. In April of 2023, Conservation partnered with Parks to coordinate a month of Earth Day events across Lunenburg. The joint project improved 13 properties and brought 361 man-hours of improvements to Lunenburg. In June of 2023, the Conservation Commission was awarded a MassTrails grant for funding planning of parking areas in Table Rock and Rayno Conservation Area, and improved access to the Harold Harley Wildlife Viewing Platform in the Cowdrey Conservation Area. The Lunenburg Snow Riders continue to support the maintenance and improvement of the trail system on Lunenburg's conservation lands. As part of their Recreational Trails grant award from 2022, the Snow Riders recently completed the Lane Conservation Area trail improvement project with aid from Baer Construction, Dan Deleo Plumbing, Gatsby Grounds, M. Proctor Masonry, and the assistance of 17 volunteers, including numerous volunteer tractors. The Commission would like to express our gratitude for all the hard-working volunteers that work so enthusiastically in maintaining and improving Lunenburg's conservation lands!

The Commission has also continued to work closely with Lake Shirley and Hickory Hills on their lake management plans. These plans set goals and action items designed to give a better picture of the overall health of the lakes and define various strategies to ensure continued protection of these valuable resources.

During the year 2023, there were changes of personnel along creating staffing shortages. In July, Conservation Administrator Anna Petrie resigned. Approximately May, Conservation Administrative Assistant, Rebecca Manley resigned. In July, Ashleigh Denio was hired to backfill Rebecca. In October, the Land Manager, Adam Burney resigned. Adam was the front-line management support for the Conservation Commission staff and had been providing direction to the interim Conservation Administrator. There have been several interim administrators hired to bridge the gap in support since Anna's departure. There has also been an interim clerical resource provided to mitigate the backlog in Meeting Minutes. There is still a backlog of Conservation Administrator actions, and in some cases significant delays in the issuance of documentation, examples: Certificates of Compliance, Orders of Conditions, Administrative Determinations, etc.

The Commission thanks all the town agencies for a great year and look forward to many more!

Respectfully Submitted,

Mary Wilson, Chair

Chris St. Germain

Jenny Pewtherer

COUNCIL ON AGING

The mission of the Council on Aging is to advocate for the improved quality of life for all seniors through supportive services, programs, and education. Councils on Aging were established under Massachusetts General Law Chapter 40, section 8B, to include setting policy for the administration of elder programs or services and to develop, coordinate, and conduct such activities which advocate for elder issues.

The FY23 Council on Aging staff consisted of Susan Doherty, Director; Amanda Koeck, Administrative Assistant and Transportation; Pauline Roy, Outreach Coordinator; Pamela Myllykangas, Meal Site Coordinator; Sandra Ricci, Asst. Meal Site Coordinator; Elsa Watson and Ann Penney, Meal Site Assistants; Jim McGuigan, David Gallagher, Michele Beauvais, & Kimberly Moore, MART Van Drivers.

The Council on Aging Board is an eleven-member board appointed to 3-year terms by the Lunenburg Select Board. The FY23 Council on Aging Board members were Chairperson Deb Lincoln, Vice-Chairperson Jane Rabbitt, Barbara Brown, Betty DiGiacomo, Pete Lincoln, Cheryl Moisan, Diane Nowd, John Penti, Susan O'Sullivan, Judith Tarbell & Jacquelyn Dwyer.

The Town budget alone does not support this senior center. Other sources of funding are the Eagle House Supporters Inc., a non-profit 501c3 group, Formula Grant funding from the Commonwealth of Massachusetts, and Montachusett Regional Transit Authority.

In FY23 the Eagle House Senior Community Center rebranded its name to the Lunenburg Adult Activity Center. The change has encouraged all person's age 50+ to visit the center and participate in programming. Construction began on a new ADA compatible patio/recreation/pavilion area at the center in June 2023. Funding was obtained through a \$100,000 State Earmark, \$100,000 in town capital funding, \$7500 Community Foundation Grant, and approximately \$63,099 in donations to the Council on Aging Gift Fund. The construction was 95% completed in October 2023 and a grand opening was held on October 11, 2023.

We are incredibly lucky to have a large volunteer force at the Council on Aging. In FY23 we had fifty-six volunteers who contributed 1604 hours of their time to help us out by doing things, such as driving for the meals on wheels program, program leaders, kitchen helpers, Memory Café, office help, library, Discovery Center navigators, and friendly visitors/phone calls. We greatly appreciate their service.

In FY23 we offered a variety of programs including Meals on Wheels, congregate lunches and breakfast programs, transportation, health and wellness, arts and crafts, bocce, cards, and games, cultural, Veterans Breakfast, movies, Historical Society presentations, information and referral, Memory Café, health insurance counseling, and social events both at the senior center and offsite to people age 50+.

There were approximately 1124 people who utilized the senior center in FY23. Those 1124 people compiled 25,387 units of duplicated service by participating in the programs listed above.

The Lunenburg Council on Aging newsletter lists current events and is available for you online at www.mycommunityonline.com, or you can pick up a copy at the Lunenburg Adult Activity Center, Town Hall, Library, Post Office, local churches, and various businesses throughout the community.

We are truly fortunate to have a Town Government that supports our center and understands the importance of supporting the Council on Aging to maintain quality services for our residents as they age.

Special thanks go to our 501c3 fundraising group, Eagle House Supporters Inc. This group provides funding for new living room furniture, office/kitchen supplies, various programs & entertainment, and garden upkeep at the Eagle House Senior Community Center. Also special thanks to all our outside agencies, especially the Lunenburg Police and Fire Departments, for their support of programming for our clients.

I want to thank the staff and volunteers at the Lunenburg Adult Activity Center for their caring and dedication to our clients. Moving forward, the Lunenburg Council on Aging remains committed to bringing new and innovative programming for those aged 50+ in our community while maintaining long lasting relationships with those who we serve now and in the future.

Respectfully Submitted
Susan Doherty, Director
Lunenburg Council on Aging

CULTURAL COUNCIL

The mission of the Lunenburg Cultural Council is to nurture and promote a diverse range of artistic and cultural programs for the benefit of Lunenburg and surrounding communities. These include: programs that support science and nature education, performing arts, and townwide cultural enrichment. We accomplish this through annual allocation of state grants for local projects and by producing cultural events using locally-raised funds. We are committed to nurturing our artistic community through supporting events that are diverse, accessible, collaborative, and fun for Lunenburg residents and visitors of all ages with priority given to in-person, live events.

The Lunenburg Cultural Council, with grants from the Massachusetts Cultural Council, funded twenty-two art, cultural, music, and science programs for the benefit of Lunenburg residents and members of the surrounding community in 2023.

Some of the programs funded include: Clear Path for Veterans New England, Discovery Museum, Fitchburg Art Museum's Regional Art Show, the Lunenburg Public Library, MUSIC Dance.edu, Nashoba Symphonic Band, N. Worcester County Symphony Orchestra & School of Music, Cannon Theatre, Sizer Foundation, Special Needs Advocacy Network, StageWorks, Virginia Thurston Healing Garden, Winchendon Music Festival, Winchendon Winds, Worcester Chamber Music Society, and individual artists who brought programs to our community.

In addition to grant allocations, the Lunenburg Cultural Council sponsored drawing and pastel workshops with local artist Jill Pottle at the Lunenburg Public Library.

We worked to increase visibility and awareness of both our town's council and the availability of funding through the Massachusetts Cultural Council, for artistic and cultural programs. In 2023 the council created post cards to distribute throughout Lunenburg and the immediate area and posters for events. Our hope is to encourage new grant applicants to apply with innovative, varied program proposals for upcoming grant cycles, open each year from September 1st to mid-October, as well as inform the community of the support available for local artists.

In 2023, under the guidance of former council member, Dr. Robin Chandler, with support from the Town Selectboard and a grant from ARPA, the Lunenburg Cultural Council began a partnership with Lunenburg schools to pilot a program to bring artists into the schools. This program solicits professional artists to participate in a one-day residency at Lunenburg High School to share their knowledge and skills with participating students. The first two artists were Rob Gibbs (Problak), a visual mural artist from Boston, and Elizabeth James-Perry, an Aquinnah Wampanoag artist from Massachusetts.

Problak was named one of Boston's Most Influential People in 2022. His strong commitment to creativity and youth education was the basis for his Lunenburg residency. He has created such murals as the Dewey Square Mural on the Rose Kennedy Greenway in Boston as well as others in major cities. He recently finished 'Breathe Life V', part of his Breathe Life series, on one wall of the Boston Medical Center.

Award winning Native artist and 2023 NEA Heritage Fellow, Elizabeth James-Perry, was the second artist to work with Lunenburg High School students in 2023. Her exquisite beading and wampum shell-carving jewelry, along with her advocacy for growing the plants that allows local pollinators and butterflies to thrive is deeply rooted in her heritage where milkweed stems are still used in fine weaving. Her newest work is a Sea Turtle Mound garden created with Native students at Amhurst College.

The Lunenburg Cultural Council is looking forward to providing more programming, and increasing community involvement in the arts in 2024.

DEPARTMENT OF PUBLIC WORKS

The Department of Public Works is comprised of the Highway, Cemetery, Sewer, and Vehicle Maintenance Divisions. The Department maintains roads, bridges, sewer infrastructure, and provides services essential to the welfare and quality of life for the citizens of Lunenburg. The staff consists of one Director, one Executive Assistant (shared with the Facilities Department), one Highway Superintendent, 5 Heavy Equipment Operators, one Mechanic, one Cemetery Superintendent, two Seasonal Cemetery Laborers, one Sewer Business Manager, and one Assistant to the Sewer Business Manager.

Departmental Mission:

The mission of the Department of Public Works is to provide high quality, cost effective, efficient, and safe services to protect, preserve and improve the Town's roadway infrastructure and related assets in a manner which meets and enhances the current and future social and economic needs of the community; to contribute to a healthy, safe and quality environment for the Town's citizens and visitors; and to provide environmentally sound means of solid waste and wastewater disposal.

Departmental Goals and Objectives

- Be prepared to respond to any weather, roadway infrastructure, or accident-related emergency that may arise on a twenty-four hour per day, three hundred and sixty-five day per year basis.
- Maintain and enhance a highly qualified and dedicated staff of public works professionals.
- Provide preventative maintenance in a proactive manner to reduce reactive maintenance as follows:
 - Maintain and update the sewer system and associated pumping stations.
 - Maintain and repair roadways in accordance with the 2022 pavement management plan.
 - Maintain and repair sidewalks in accordance with the 2020 PROW ADA Transition plan.
 - Increase the number of roadsides mowed by developing a roadside maintenance plan.
 - Increase the number of catch basin and stormwater structures cleaned and the number of miles of roadways swept per the June 2020 Operations and Maintenance Plan prepared by Comprehensive Environmental, Inc.
 - Establish a comprehensive evaluation of bridges and culverts, and prioritize by condition, use, and plans for rehabilitation.
- Increase training offered by our insurance provider to obtain credits to lessen premiums.
- Identify new sources (Federal, State, and other grants) of funding to supplement the operational budget.
- Continue to maintain a high level of courteous communication and productive interaction between members of boards and commissions as well as Town residents.
- Strive to modernize the operations of the Department by obtaining and using the most up to date equipment and methods, including asset management.

Highway Division

The highway division provided daily maintenance and repairs of roads, drainage, signs, trees, roadsides, sewers, and more. They assisted all other Departments as requested and responded to emergencies 24 hours per day as needed. The DPW Director reviewed and approved applications for permits for Road Openings, Street Improvements, Trench Safety, Sewer Connections, and Sewer Extensions. He reviewed applications for driveway installations, site plans, stormwater BMP's, building demolition, and sign installations for DPW related issues.

DEPARTMENT OF PUBLIC WORKS

Pavement Management

The Town first developed a Pavement Management Plan in 2009. This plan was updated in 2015 and defined a yearly paving plan through Fiscal Year 2023 and included a \$4,000,000 voter authorized debt exclusion. The goal of the plan was to achieve an overall town wide Road Surface Rating of 72-75 out of 100. In July of 2022 the DPW contracted with BETA Group, Inc to have them provide a new pavement management plan as the current plan was ending and the debt exclusion funding had been exhausted. BETA Group surveyed our roads using LIDAR and reported an overall Road Surface Rating of 84.75. The Project Manager for BETA Group commented “it is one of the highest scores I’ve seen in New England over the past 12 years that I’ve been doing this”. The DPW is proud to have successfully administered the plan and anticipates carrying out the newly developed plan in a similar manner.

The following roads were paved with hot mix asphalt this year:

Prospect Street	West Townsend Road	Upland Avenue	Cross Street
-----------------	--------------------	---------------	--------------

Fog Seal was applied to the following roads this year:

Beachview Road	Cove Road	Cove Terrace	Crescent Road
Crescent Terrace	Horizon Island Road	Island Road	Peninsula Drive
Sandy Cove Road	South Row Road	Wildwood Road	Williams Drive

Fog seal is a type of pavement preservation treatment applied to an existing asphalt pavement surface to preserve its functional and structural integrity and delay a more costly rehabilitation treatment in the future. Fog seal penetrates up to 3/8 inch into asphalt pavement surfaces, softening the asphalt binder as it goes. This improves cohesion and slows cracking, reducing the loss of fines and aggregates. It is a simple, low-cost spray application which extends road life by up to 3 years.

Storm Water

Staying in compliance with our EPA NPDES MS4 Permit continues to remain an important function of the DPW. Along with the Storm Water Task Force, Land Use Director, and our Storm Water Consultant the DPW works to meet the obligations of the permit and required reporting each year. The DPW provides maintenance and care of the Town’s storm water management systems. This includes, but is not limited to catch basin cleaning, street sweeping, pipe jetting, replacing pipes, and swale cleaning. The Department responds to calls for clogged catch basins and culverts to help control ponding and flooding. Storm water related issues continue to rise.

Tree Removal

A Tree Risk Management Inventory of almost 1,200 trees on the roads in Lunenburg was completed in 2015. The inventory prioritizes the removal and/or pruning of the trees. However, storm damage and natural attrition creates a backlog of tree work that exceeds the Department’s allotted budget for tree removal. The Department strives to fulfill each resident’s request for tree work but must prioritize work based upon the determined degree of danger to person and property and location. The DPW continued to act in a reactionary manner as needs arose. All tree work other than brush removal, chipping, and the removal of small diameter trees will continue to be outsourced due to the lack of a bucket truck or crane and a licensed tree professional. Each spring and after storms, the DPW staff remove and dispose of woody debris within the Town’s right-of-way. An aggressive program by Unitil in recent years has lessened the burden of the Town by removing those trees that may cause an interruption of electrical service to the community. The DPW appreciates and thanks Unitil for their responsiveness in removing hazardous trees when asked to do so.

Roadside Vegetation Maintenance

The DPW staff responded to many requests to cut and clear overgrown vegetation from roadsides. This work was done using lawn mowers, saws, and other hand tools as the existing roadside mower was disabled. A new utility tractor with a boom rotary mower attachment (22-foot horizontal reach and 19.5-foot vertical reach) was ordered in September of 2022 and arrived in December of 2023. The DPW is developing a town-wide program of selective curbside mowing and vegetation clearing using the new tractor and boom mower that will significantly enhance our roadside vegetation maintenance program.

DEPARTMENT OF PUBLIC WORKS

Landfill

The closed and capped landfill off Youngs Road is inspected by a consultant semiannually and remains in compliance with the requirements of the Massachusetts Division of Environmental Protection (DEP). Gas monitoring and ground-water contamination sampling and testing is conducted by a consultant. The landfill site including the perimeter fencing is inspected on a regular schedule by DPW personnel.

Adjacent to the closed landfill is a storage area for catch basin materials and street sweepings both determined to be hazardous waste by the EPA. The DEP has issued a Beneficial Use Determination (BUD) permit which allows the storage of these materials. A consultant performs the yearly testing of these materials.

On seven Saturdays in the fall and the spring, DPW personnel oversee and manage Yard Waste Days. Residents may drop off brush, leaves, and other organic materials for composting.

Solid Waste

Solid waste (trash) is collected curbside weekly under the Pay as You Throw (PAYT) program by our vendor E.L. Harvey & Sons, Inc. Recyclable materials are also collected curbside weekly by Harvey. Pay as You Throw bags may be purchased at Hannaford Supermarket, Smokestack Roasters, Maki Building Center, Honey Farms, Jaxx Country Variety, Lunenburg Gulf, and Baker's Whalom Variety. Residents may call Harvey to arrange the pickup of bulky items for a fee. The DPW remains the point of contact between residents and Harvey. Residents may dispose of household hazardous wastes for a fee at the Devens Regional Household Hazardous Waste Collection Center on the published dates and times.

Lake Shirley Dam

In the early 1990's, with the structure in need of repair, The Lake Shirley Association turned over ownership of the dam to the Town. After the completion of the total reconstruction of the dam, the responsibility for the maintenance, monitoring, and record keeping were completed by a small number of volunteers from the Lake Association. Compliance with State dam regulations, the establishment of an operations manual as well as an emergency action plan was placed under the umbrella of the Department of Public Works in 2004-2005. The dam is inspected by a professional engineer licensed in Massachusetts. The most recent inspection resulted in a positive report, and we remain in compliance with regulations.

Winter Operations

The DPW was prepared for and responded to all snow and ice weather events with the goal of providing a high level of service in a timely manner while at the same time trying to minimize costs. Lunenburg joins with 17 other towns in a cooperative bid to obtain the best possible pricing for rock salt. However, the price of rock salt continues to steadily increase every year. The DPW maintains a small fleet of snow removal equipment (trucks, plows, spreaders, loader, backhoe, and sidewalk plow). The fleet is supplemented with vendors as needed. Due to breakdowns of the Town's aged fleet of large dump trucks, more vendors were needed; thus, adding to costs. Four new snow fighter trucks (large trucks with a salt spreader, front plow, and wing plow) have been ordered and are expected to be available in Fiscal Year 2025.

The clearing of snow and ice from roadways is a critical operation of the DPW as it is a matter of public safety.

The Town and its residents are fortunate to have a dedicated group of DPW personnel and private vendors who tirelessly and successfully challenge the worst Nature has to offer regardless of the severity or duration of a storm. *"DPW workers are the original Storm Troopers."*

Cemetery

The maintenance of the Town's cemeteries was performed by the Cemetery Division Superintendent, and two seasonal cemetery laborers. The DPW thanks the Massachusetts Department of Corrections for providing crews for the fall clean-up. The Superintendent coordinates burials with families and funeral homes and meets regularly with the three-member Cemetery Commission. The Highway Division provides equipment and staff for maintenance and burials, which on average is forty per year. The DPW thanks Beaulac Brothers Landscaping and Tree Service, Lakeview Landscaping, Dillis and Roy Civil Design Group, Leominster Monument, Helen Balcom, Robert Ullo, and David Passios for their service to the cemeteries this year.

DEPARTMENT OF PUBLIC WORKS

Wastewater

The DPW is responsible for the day-to-day operation and maintenance of the wastewater collection system. A specialty vendor (CTE) is contracted to maintain, repair, and respond to emergencies at the 10 sewer pump stations. The longtime Sewer Business Manager, Barbara Lefebvre, retired. Thank you, Barbara, for your dedicated service to the Town of Lunenburg. Paula Bertram, the Assistant Sewer Business Manager, was promoted to Sewer Business Manager. The Sewer Business Manager manages the administrative functions of the Sewer Division including billing, customer service, permitting and budgets. The Sewer Business Manager and DPW Director worked closely with the Sewer Commission to ensure sewer rules, regulations, and policies are followed and to assure the future long-term operation of the wastewater collection system.

Fleet Maintenance

The DPW Mechanic is responsible for the preventative maintenance and repair of all Town vehicles. The vehicles include over 30 pieces of highway construction equipment, high performance police vehicles, Fire and Rescue first responder apparatus, mowers and more. Highly technical repairs and repairs that cannot be completed in-house are outsourced to specialty vendors as needed. A fleet maintenance software program continues to be a valuable tool as each repair is logged by vehicle identification number and stored in a comprehensive database and required services, repair costs over the life of the equipment, and part numbers are easily obtained.

In conclusion, I truly appreciate the support I continue to receive from the Selectboard, Town Manager, Department Heads, Staff, Commissioners, and the Residents of Lunenburg. Working together we can continue to maintain and improve our roadways and related infrastructure to exceed the current and future social and economic needs of the community and to preserve a healthy, safe, and quality environment for the Town's citizens and visitors. Lastly, I thank my staff for the hard work and dedication to high quality work they display every day that often goes unseen and unrecognized.

Respectfully,

William Bernard

DPW Director

FINANCE COMMITTEE REPORT

Fiscal Year 2023

Annual Town Meeting is an important event for community members to come together and vote on warrant articles that directly impact how we manage our town. Amongst these articles is the FY23 budget, capital plan, authorizations for various enterprise and revolving funds, and appropriations relating to stabilization funds and reserves. Throughout the year the Town Manager and department heads carefully review expenses and have thoughtful conversations about how to best serve and manage the town. While developing the budget they considered funding, contracts, and mandates, as well as what the community wants and needs to thrive. The Town Manager formulated a recommended budget, which she presented to the Finance Committee on February 17th. Over six subsequent Finance Committee meetings, department heads presented overviews and plans relating to their budgets and capital requests. A Public Hearing was held on March 31st, as required by the Town Charter, and the Finance Committee voted on recommendations pertaining to financially relevant articles.

Armed with all the information gathered during this process, the Finance Committee recommends approval of the Town Manager's omnibus budget, as outlined in this warrant.

Overall, our financial condition is good. Revenues are stable, aided by strong collections, increases in state aid, new growth, and a variety of federal and state grants that the town has secured. On the expense side, while not meeting every need outlined by the department heads, this budget does begin to address several emerging and previously unmet needs. The total in requested expenditures is \$49,953,531.76. While we are pleased with our current fiscal standing, we do face challenges ahead; especially with regard to a number of our municipal buildings, which we outline in more detail below.

Notably, our certified free cash this year is \$2,666,962, which is substantially higher than in previous years, a temporary benefit resulting from appropriations that were not fully expended in FY21 as a result of COVID-related restrictions and impacts. Town fiscal policy directs portions of free cash to accounts such as stabilization, the OPEB allocation (a fund to pay for future retiree benefits), and the capital plan.

Accordingly, this year's recommended capital plan (funded by free cash, tax revenues, and unspent capital appropriations from previous years) is \$2,162,849. It is an unprecedented investment of available funds (without incurring any additional debt) into the capital infrastructure that supports our town. As of the printing of this warrant, the Finance Committee is seeking to answer a few specific questions pertaining to the capital plan. We will have a recommendation on the capital plan, Article 6, at Town Meeting on May 7.

Other notable items:

- For FY23, the proposed appropriation for education is \$23,397,371, 56.2%% of the Town's total budget, and a 3.78% increase over last year. This includes our Monty Tech assessment at \$1,054,376, which is a 20.4% increase for FY23, mainly due to an increase in enrollment from 83 to 94 students. Additionally, the town budget includes \$1,207,421 in School Retiree Health Insurance. Fortunately, this year the town benefited from an \$898,610 increase in Chapter 70 aid, which more than offsets the \$673,617 increase in the Lunenburg School District budget.

While our Chapter 70 increase was welcome news, the increase was partly a result of formula changes that recognized more low-income students at a higher tier of funding. Our vulnerable populations are of top concern for all of our department leaders.

An area of concern for the Finance Committee are several personnel positions that the School District is funding through ESSER 2 and ESSER 3 federal grants. These grants, totaling \$1,939,868 will expire in FY24. Many of these positions are addressing acute health, academic, and social/emotional needs that have arisen from COVID-19. Over the next two years the School Committee will need to determine what positions we need to maintain, and how to fund them.,

- This year's budget supports an increase of \$53,443 for the library budget to support the addition of two part-time personnel and additional expenses. This increase will enable the library to extend its operating hours to include opening on Fridays.
- This year's budget continues to support long-term staffing and investment programs that we committed to in previous years, including an additional full-time firefighter and police officer. We are again increasing road pavement management funding by \$50,000. We are also contributing \$450,000 to the special-purpose stabilization fund, which should give us the option to pay cash for ambulance and fire truck replacements in coming years, as opposed to borrowing or using free cash.

- This year's budget includes a 4.71% increase in IT spending, for a total of \$316,022.89. In addition, the Lunenburg School District has budgeted \$330,514 for technology-related administration and educational expenses. In late FY21, the town began the process of transferring the function of IT strategy and leadership to a private firm, which works in close consultation with town and school department leadership. Following a comprehensive review, an upgrade of networking and cloud services has commenced, which will continue into FY23. Additionally, the town is instituting rotational upgrades of computers and peripherals throughout our operations. The town website will also get regular upgrades. These programs are drastically improving the quality and reliability of our IT infrastructure and improving our security posture. The Finance Committee was pleased with the 'out-of-the-box' thinking and interdepartmental cooperation. We have encouraged all departments to find similar synergies and opportunities for collaboration and cost sharing.
- As we have highlighted in previous years, Lunenburg's debt ratio has been identified by an independent credit-rating agency as the sole reason that we are unable to achieve the highest-available bond rating. The good news is that our total debt and our debt service are declining. Our Excludable Debt Service to Levy Ratio is 9.18%, nearly 2% below the 11% cap. Our Net Regular Debt Service to Levy Ratio is 1.22% in FY 23, well-below the 4% cap in our fiscal policy. Our debt service will continue to decline over the next two years as bonds for the Public Safety Building, Primary School, and Library come off the debt schedule. However, this bit of good news could be temporary. There are several projects currently under discussion, which if acted upon and funded by borrowing, could exceed our debt limits in coming years. The Municipal Building Design Committee will likely have recommendations in coming months pertaining to Town Hall, Ritter, and the TC Passios building. The Select Board is considering re-development of the old Primary School property at 30 School Street. The Parks Commission is formulating a master plan for Marshall Park and is investigating issues with the Town Beach building. And the Lunenburg School District anticipates a renovation or replacement of Turkey Hill Elementary School within the next ten years.
- The warrant includes two articles that, if approved as presented, will make progress in addressing the old Primary School property at 30 School Street. Article 6, the capital plan, appropriates \$371,000 for hazardous materials abatement. Article 19 appropriates \$450,000 for the demolition of the building and engineering plans for the property's redevelopment into a municipal park.
- During FY22, the town received \$3,507,971 from the federal government resulting from The American Rescue Plan Act (ARPA). These funds are not accounted for in the FY23 budget. Recent guidance from the U.S. Treasury gives municipal executives (in our case the Select Board) fairly wide latitude for appropriating these funds. The Select Board will soon be gathering opinions and ideas pertaining to how we should use these funds. Potentially, some of this money could be used to offset costs relating to some of the projects mentioned above.

Lunenburg's overall good fiscal condition is the result of adherence to conservative fiscal policy recommended by the Town Manager, enacted by the Select Board, and enabled by Town Meeting appropriations. There is no doubt that we will face new challenges in the coming years. In addition to some of the concerns outlined above, inflation is a looming headwind that will likely drive-up labor, capital, and materials costs. We believe that the investments we are making today will give us greater flexibility and capacity to address future challenges.

The Finance Committee thanks Town Manager Heather Lemieux and Finance Director, Karen Brochu for their tireless dedication and leadership throughout the year, and especially during budget season. We also thank our department heads and all of our municipal and school employees for their exemplary service to the citizens of Lunenburg and stewardship of our town.

Lunenburg Public Library

"To build an effective community, everyone must realize that their community is bigger than them."

— Idowu Koyenikan

On most afternoons, you can enter our Lunenburg Public Library and see dozens of students, families, adults, and retirees enjoying the welcoming atmosphere. A library is an ideal location to witness and participate in connection. Libraries house myriad ideas in its books, movies, and music. Library events entertain, educate, and inspire. Leading thousands of active community members to come and go through the doors.

More than 65,000 visitors came to the library during Fiscal Year 2023. From the vantage of our entryway it is a convenient inference for visitors to realize why the library is so successful at its mission:

Lunenburg Public Library welcomes all and serves residents of the Lunenburg area as a hub for the community, enriching our lives through its collections, programs, services, facility, and people.

The friendly face of the librarian standing at our front desk greets all who enter. That welcoming stance stands as analog for the efforts of both the staff and the library trustees to build a safe, inclusive, and welcoming environment here at 1023 Massachusetts Avenue. Those efforts have succeeded in centering the library in the hearts and lives of so many residents.

One important step in this effort during FY23 was the addition of two part-time positions. Those two positions enabled the library, in September of 2022, to open between 2 and 6pm on Fridays for the first time. Almost immediately, this time became some of the most popular hours to visit the library.

Friday has also become a very popular time for families to visit the library, too. Afternoon and evening hours seem very conducive to working adults.

Most Fridays, you will find dozens of teens at the library, perhaps making more noise than you would hope. There is no homework help on Fridays, yet these students come to the library. Some come to work on their studies, others to play video games, borrow materials, or await a ride. Others bring snacks or whole meals, and some volunteer to help library staff as they prepare for programs. A crowd also arrives in the evening to attend monthly video game night.

Our Pocket Pollinator Garden near the front entrance has also brightened the library grounds with blooms, insect activity, and even more educational opportunities. Thanks to many, many volunteers, especially the leading forces of Robin Venezia and Lydia Henshaw, this garden will offer blooms from Spring to Fall and support the many native species vital to our local ecosystem. The garden layout was created following ecological design principles, and throughout the process the library offered programs which enable attendees to learn those concepts and then utilize those same principles at home. During April, as part of the Parks Department's celebration of Earth Day, we offered volunteer opportunities, so that individuals could learn and practice the skills and concepts needed to repeat the process on their own, while they helped put in the garden.

Volunteers also helped put in three new trees on library property. One Tulip Tree will provide shade near our patio area, and two American Redbud trees were planted on either side of the front entrance to help support native species in memory of John Henshaw, longtime library supporter.

Lunenburg Public Library

In addition to the new gardens at the front of the library, we have also begun the process of reinvigorating the Proctor Memorial Garden in the rear of the library. This space has been so important over the years, bringing a meditative, calm sitting area. During the years after the pandemic, we began hosting more programs in the patio area to help encourage foot traffic to this space. The patio is particularly supportive of storytime events, and when the weather cooperates, all involved enjoy using this outside space for library programs.

As a final highlight of our FY23, the library has achieved the award of a nearly \$13,000 Library Services and Technology Act Grant to support STEM learning in the community. This grant is a high point in the recent stewardship of the library trustees and their vision of the library as a community hub. The strategic planning process led to eligibility for this grant, and after the staff created an innovative approach to deliver STEM education to all ages, the funding arrived during FY23. The library has initiated regular STEM programming for children, trained staff to incorporate more STEM learning opportunities in their regular programming, and constructed a number of innovative and fun circulating kits to help teach STEM concepts at home and in classrooms across the community. The final few months of the grant stretch into FY24 and promise to deliver some of the most exciting and engaging programs funded by the grant.

Adult Services Notes

- Programming attendance has grown steadily from previous years and continues to expand into new areas of interest for the community. This year, the library hosted 196 programs and meetings for adult patrons, with 1,111 attendees for all events combined. Highlights of programs for FY23 include:
 - ◊ An increase in popularity for the quarterly puzzle swap events, which averaged 50-60 attendees and 350-400 puzzles at each swap event.
- An expectation from patrons for free music concerts at the library, as our six music concerts averaged an attendance of 28 people throughout the year.
 - ◊ This success has led to a successful partnership with North End Subaru, who will partially sponsor monthly concerts at the library and enable us to book more concerts than ever before.
- The successful launch of our first library sponsored book club since the pandemic. The “100 Books Bucket List” Book Club started in November 2022 and meets on the first Tuesday morning of every month.
- We partnered with several community organizations to assist in our programming initiatives as well. Some of these partners include:
 - ◊ The Lunenburg Adult Activity Center, Northeast Organic Farming Association, The Burncoat Center for Arts and Wellness, Edward Jones Financial, Leominster Credit Union, Blue Cross and Blue Shield of Massachusetts, and New England Botanic Garden at Tower Hill.

Adult Service Goals for FY24 & Beyond

1. Continue to meet, and exceed, community expectations for music programs, an identified point of interest, through growth in sponsorships, bookings, and attendance at future concerts.
2. Prioritize booking more programs with local Lunenburg residents who can share their experiences, skills, or stories with the community at the library, building on our reputation as a community center.
3. Explore additional ways to fund events through grants or sponsorships so we can continue expanding our programming in diverse and innovative ways.

Lunenburg Public Library

Children's Services Notes

- The award of a Library Services & Technology Act (LSTA) Direct Grant for FY23 created tangible and important results. This grant funded STEM Learning for all ages. We developed circulating STEM kits for patrons to check out for use in their own homes or for teachers to use in their classrooms. In FY23, we hosted 11 STEM programs with grant funding!
- Our Summer Reading Program 2022 engaged with 221 registered participants who logged 1,450 hours of reading. Our popular Beanstack reading platform helped 87 children log more than 64,000 minutes of reading. During June, July, and August, we offered 57 programs for children and families with 1,240 attendees.
- In response to local readers' needs, we added a new book format to our shelves, a product called "Vox Books." These are printed books that incorporate an audio device, so that readers can listen to a recording while they read the book. Our current collection of 60 books has already been borrowed more than 350 times!
- We offered two new book clubs: Book in a Bag for 1st and 2nd Graders and Popcorn and A Book for 3rd and 4th graders. These are first time book club experiences for early readers. Participants take home kits which include a book, a book review form, some activity sheets, a craft, and a treat!
- We hosted 7 programs for our "Tweens" (kids 11+). These programs included a series of cooking programs sponsored by Hannaford, a metal working class, a watercolor class, and a mosaic tiles art class.
- Our Preschoolers' Annual Halloween Parade involved 75 children and family members dressed in their Halloween costumes and paraded around town to visit many town and school offices as well as the seniors at the Senior Center. Family Craft Night on the evening of the tree lighting brought 90 people to the library to make an ornament! And our Polar Express Story Time Event was attended by 50 participants.

Children's Service Goals for FY24 & Beyond

Encourage children and families to use the library from an early age with a welcoming environment, passive and active programs, and a stimulating collection of resources.

Continue to provide programs with a focus toward engaging students in grades 4-6.

Provide additional STEM programs and circulating STEM kits for children ages 5-11.

Strengthen Community outreach with THES and Lunenburg Primary Schools.

Provide diverse support for learning styles with additional literacy platforms such as VOX books.

Young Adult Services Notes:

- The Young Adult Librarian began to label the YA fiction collection with genres to enable better access. The goal of this project is to better facilitate readers finding new titles they will enjoy.
- As the numbers of teen visitors increases, more drop-in style programs have been successful. These programs are usually organized around a craft activity, including making buttons, leaf catchers, coloring, Perler beading, tile mosaics, and more!

Lunenburg Public Library

- One of the patterns of use for the Teen Room this year has been characterized as “Hang out, Mess Around, Geek Out” as visitors engage in interaction and communication rather than focusing on using library materials or concentrating on homework.
- We also introduced several book discussion groups. First Bites Book Group offers readers the chance to start a new book together, and (Not So Young) Adult Book Club is aimed at adult readers of YA fiction. Both have drawn a loyal group of attendees.

YA Services Goals for FY24& Beyond

Translate the increase in teen library visitors into attendance at Young Adult programs.

Advocate for the need to renovate and expand the Teen Room.

Find new ways to collaborate and reach out with community partners to serve teen populations.

Looking forward to FY24

The future for the Lunenburg Public Library looks bright. We hope to secure funding for expanding the Teen Room, and for continuing to invigorate the Proctor Memorial Garden. We also plan to apply for another LSTA grant that will help us continue to bring the community together and increase civic engagement. Furthermore, with a staff person dedicated to outreach, we also anticipate an increased impact for underserved populations. The staff and trustees of the Library strive to make the facility a gem to be proud of and to provide resources and services that can benefit anyone and everyone in town, and we are excited to continue to support our wonderful community!

Respectfully submitted,

Muir Haman

Director, Lunenburg Public Library

LUNENBURG PUBLIC ACCESS (PAC)

FY23

Mission: Establish, develop, modernize, and operate the Town of Lunenburg's Public, Government, and Educational (PEG) Access Channels to reflect Lunenburg

Public Access Cable Committee (PACC)

Steve Walker, Chair

Faith Beall, Vice Chair

Steve Archambault, Secretary

Pete Lincoln, Member

Paul Sarapas, Member

The Lunenburg Public Access Cable Committee (PACC) is responsible for the long-term plan to manage the Public Access Channels available to the Lunenburg community through Comcast, the town's only cable-service provider.

The overall strategy includes providing and improving equipment to acquire, record, broadcast and re-broadcast programming. Original content is also conceived and produced by PAC. Town events/meetings and school activities, as well as outside sources of programming, are all provided to increase the viewer's knowledge of what is happening around town.

Programming

CH8 – Government

Most content on the Government Channel (Ch8) is locally broadcasted meetings. In addition to several live weekly municipal meetings and re-broadcasts, other government programs downloaded from MassAccess MMX (massaccess.telvue.com), include Massachusetts State Agency PSAs and programs of a political nature. There was a sharp increase in local government Zoom meetings being recorded and uploaded to our government and YouTube channels, including Sewer Committee, Municipal Building Design Committee and Architectural Preservation District Commission.

This increase in FY23 of Government programming resulted in more committee and event recording requests. The additional programming allowed residents to view meetings they normally wouldn't see. Also, additional programs from other access stations were added, including the Kushmeric Connection and Cronin's Corner from Fitchburg Public Access.

More Government meeting availability has created easy access to a greater number of board and committee meetings for the community.

CH9 - Public

Public Access Cable (PAC) produced 72% of the local programming on Ch9 in FY23, up 7% from FY22. The total number of Public (Ch9) programs, both local and AccessShare (outside resources), increased from 82 in FY22 to 109 programs in FY23 resulting in an increase of overall programs of 33%.

The 79 local programs included high school sports, band concerts, school events and featured projects. The remaining 30 (28%) programs were obtained through shared media sources.

Several categories of local programming were aired on Ch9. Among the top programs were Informational 32%, Sports 22% and Entertainment 18%, making up the majority 72% of Ch9 programming (see chart below).

Two of the top three program categories, Informational and Events (47%) provided viewers with presentations and overviews that helped to familiarize them with resources and information, as well as current events happening around town. There was a significant increase in high school sports from 9% in FY22 to 22% in FY23.

Locally produced programs and government meetings are available on the LunenburgAccess YouTube Channel. <http://www.youtube.com/LunenburgAccess>

Links to the YouTube channel for local Ch9 programs can be found on Lunenburg Public Access' Facebook Page <https://www.facebook.com/Lunenburg-Public-Access-Cable>

CH22 – Educational

In May of FY20, PAC added an Educational Channel, Comcast Channel 22. The additional channel has allowed PAC to feature local educational content to viewers in addition to the bi-monthly School Committee meetings. Many programs are shared between Channel 9 (Public) and Channel 22. As of FY23, most of the channel's content remains to be LHS sports and school events as well as downloaded resources, such as "Off the Shelf" and "Norfolk Knitting."

PAC continues to work toward content growth on all channels.

As a member of the MassAccess organization, PAC is given access to the Telvue Connect (massaccess.telvue.com) (MMX) database for

sharing productions of both state and nationwide programming. Many shows downloaded and aired on Channel 9 and Ch22 are sourced from this outlet, including "Democracy NOW", "Addressing Loneliness", and "State Author Talks. "

In FY20, PAC began sharing their own locally produced programs with the MassAccess content database MMX. The results were outstanding! In FY23, Lunenburg's "Talkin' Baseball" episodes were, and continue to be, downloaded by over 70 media centers around the country. "Lunenburg Storytime – The Books We Love" was downloaded by over 80 public access stations and our "Movie Talk" was added at the end of FY23. Most stations that downloaded our programs are in Massachusetts but reach as far as California. We are delighted to showcase programs to the community while using the database to add to PAC content.

In addition to MassAccess Telvue downloads, PAC also receives local programs from nearby access stations that air on Ch9, including "Barbara and You", "Chess Chat" and "Wicked Good Food."

PAC Manager, staff and committee members regularly attend MassAccess conferences and Meet & Greets to develop relationships and resources with other media centers.

ARPA FUNDS

In FY23, the Town of Lunenburg received ARPA funding. PAC presented an outline of potential spending to the Select Board, to be awarded a portion of the available funding. The PAC request was in three parts: Videographer, Broadcast and Studio. The Videographer section included the purchase of products such as audio recorders and portable lighting to better equip the videographers. Improvement of the Bilotta room audio was the intent of the Broadcast section with a focus on new hall speakers. And, the Studio part targeted significant improvements to the current studio, including audio and broadcast equipment, as well as set furniture. PAC's proposal for ARA funding was approved for over \$50,000, the full amount requested.

Studio and Equipment

PAC has had studio space in the TC Passios school since 2013. We encourage the public to take advantage of the facilities and equipment offered for creative productions. The PAC manager also supports various town departments in the use of public access' resources for their communication needs.

In FY23 PAC made an investment in 3 new MacBook Pros and editing software totaling almost \$15,000. There was a need to replace the old laptops, as they were obsolete. With the addition of new computers videographers could efficiently produce quality content in the studio. Two HP laptops were also purchased for administrative and production use.

New camera transmitters were also bought to increase camera usage for multi-camera productions. PAC already had 2 available transmitters, however the demand for higher quality content necessitated the need for more cameras. These transmitters have proven useful in the LHS auditorium for large Town Meetings, where PAC uses 4 cameras to record. Two of the 4 transmitters are used for the inputs that broadcast the presentations and voting results.

A large air conditioning unit was purchased and installed in the studio to keep equipment and work environment cool during high temperature conditions.

Staff

In FY23, there was one full-time Manager, 5 part-time videographer employees and a part-time Bulletin Administrator. There were openings for 2 part-time videographers and a Production Technician.

The PAC Manager administers the day-to-day operation of the organization, including all production and programming schedules, staff scheduling, equipment and services procurement, studio and inventory administration, advertising, social media and equipment and system troubleshooting. Videographers provide video recording of committee meetings and additional local video assignments and projects.

A new videographer was hired to assist with recording but left prior to the end of the fiscal year. The remaining videographers managed the recordings of meetings, events, shows and sports. One videographer created a monthly show that he manages and produces. PAC was still searching to fill 2 videographer positions in FY23.

PAC continued to interview for a part-time Production Technician to add to the staff. After several months of searching, a Production Technician was finally hired from within the organization at the end of FY23. This role, reporting to the Manager, was to provide technical assistance for production and studio support. The team relies on the Production Technician to oversee and assist with troubleshooting issues that arise. He also advises on new equipment and supervises set up and administration of large productions.

PAC is always looking for producers. If a community member has a special skill or interest, PAC will help make the show happen. Our studio and staff are equipped to assist new producers in video production.

Financials

PAC receives its income from Comcast in quarterly payments (received August, November, February and May) and monthly interest payments deposited into the Enterprise Fund. The overall revenue received for FY23 from Comcast was \$203,773 an increase from the previous year’s \$199,956.37 (2 % over FY22). The budget starting balance was set at \$211,515 for FY23 projected expenses and capital costs.

FY23 REVENUE vs EXPENSES

Revenue (from Comcast)	\$203,773.00
Enterprise Fund Interest	\$13,611.49
Subtotal	\$217,384.49
Expenses	\$163,236.09
Balance	\$54,148.40

FY23 LINE ITEMS AS A PERCENTAGE

Line Item	Expenses	% of Expense
Salaries	\$55,727.18	34.14%
Purchase of Services	\$1,403.50	0.86%
Consultant	\$360.00	0.22%
Lease	\$6,000.00	3.68%
Office Supls	\$0.00	0.00%
Advertising	\$0.00	0.00%
Equip/Maint	\$9,765.73	5.98%
New Equip	\$15,205.50	9.32%
Videographers	\$26,209.55	16.06%
Indirect Costs	\$47,808.00	29.29%
Vendor Expenses	\$756.63	0.46%
Total	\$163,236.09	100.00%

Summary

FY23 was an outstanding year for PAC. Both local programming and the overall quantity of programs increased. The temporary addition of a videographer helped to boost content, while we continued to improve and grow current offerings. PAC services to the community improved through the addition government zoom meeting coverage and improvements in video production through updated editing equipment.

Staffing was below current needs, as PAC searched to fill 2 videographer and a Production Technician position. There was no progress in finding the much-needed videographers. However, a Production Technician was hired at the end of FY23. With the new Production Technician, videographers were given both the technical and on-hand support they required. Fortunately, even with limited staff resources, the current videographers continued to step up to fill in the gaps. They covered numerous meetings and events including more LHS sports. In fact, sport coverage was a leading category on Channel 9 with 24 games in FY23, an increase of 242% over FY22. PAC has kept up with the demand for recording despite the level of staffing.

With the introduction of ARPA, PAC was able to prioritize and map out how best to use available funding for FY24. With the approval of the PAC Committee, the focus was in 3 parts; to equip the Studio, Videographers and Town Hall. A plan was devised at the end of FY23 to best fulfill equipment needs in each category.

Overall, PAC experienced tremendous growth in FY23. From additional affiliates on MMX downloading PAC program content, to a marked increase in total programs offered. A new show, "Movie Talk," was added, as well as many new downloaded programs from other sources. The government Channel 8 has seen a spike in state programs and additional Zoom meetings.

PAC produced local programs on Channel 9 ran the gamut from town events to department PSAs. There is programming content for everyone in the family. PAC will continue to increase programming as new videographers are added, and new producers come forward. PAC is always looking for new producers to utilize the outstanding staff and studio.

Won't you join us as a producer or volunteer?

PAC's supportive staff offers production assistance, making it easy to produce your own show. Our community is thriving with talented and creative individuals – now is your time to shine! If producing doesn't appeal to you, then consider "behind the camera" options. Become a volunteer. Volunteers are the "life blood" of media centers around the state, and without that involvement PAC will not be able to grow. Consider volunteering to help provide the necessary resources needed for PAC's continued success.

We need you!

Jo Toale, Manager jtoale@lunenburgma.gov 617-763-3018

SEWER COMMISSION – FY23

The Sewer Commission bears the responsibility of overseeing the Sewer Enterprise Fund, planning for the future, and developing and implementing rules, regulations, and policies. Under the Town's Charter, responsibility for the day-to-day operation, care and maintenance of the sanitary sewers are under the supervision of the Town Manager who delegates the responsibility to manage and maintain the operational side of the system to the Department of Public Works' Director. The Town of Lunenburg does not operate a sewer treatment plant. Approximately 87% of Lunenburg sewer is discharged to the City of Leominster, and the other 13% is discharged to the City of Fitchburg.

In FY23, the following members served on the Sewer Commission: John Reynolds-Chair, Brett Ramsden-Vice Chair, Mike Deveikis-Clerk and Members Dave MacDonald and Mike Nault. The Commission continued to meet virtually via Zoom for all meetings.

There are currently 1212 properties connected to the Lunenburg system and another 284 which have access to Town Sewer but are not yet connected. During FY23, 6 new accounts connected to Town Sewer. The Commission billed out \$1,058,041 in quarterly sewer bills and had \$33,257 of prior year delinquencies added to the owners' property tax bills for non-payment.

In FY23, Sewer Business Manager Barb Lefebvre announced her retirement after 15 years of service in the Sewer Department and 6 years in the Assessor's office. The Commission thanks Barb for her dedicated work in running the office, budgeting, and giving guidance to the Commissioners throughout the years. Assistant manager, Paula Bertram, took over as Sewer Business Manager in March 2023.

During FY23, CTE (Chad Empey) continued to provide excellent service for the Operation & Maintenance of the Sewer Stations and completed the 3rd year of their contract. The Commission approved funds for upgrades to the pump stations, to replace cranes, block heaters, dialers, seals, and replacement pumps. These upgrades are important to keep the stations running smoothly. A Request for Proposals also went out for a new O&M contract for the pump stations.

DPW Director, Bill Bernard and Paula Bertram, Business Manager, worked with the Commission to carry out the Maintenance Plan for the pump stations, setting up jetting for 20% of the lines each year and overseeing the operation and maintenance of the pump stations. The Commission worked on a proposal for possible ARPA funds of \$300K for upgrades to the pump stations and \$200K for repairs to 84 manholes. Also, a similar proposal was sent for state earmark funds.

A proposed 40B project on Howard Street, seeking expansion of sewer outside of the Sewer Service Area, was discussed multiple times during FY23. An extensive list of concerns was sent to the ZBA, stating the estimated costs and impacts to the system if the project proceeds. The Commission also met several times with the developer, Kevin O'Brien, and maintained that the expansion of the Sewer Service Area requires a vote by residents at a Town Meeting.

The Commission continued the annual permit program for the 16 Food Service Establishments with grease traps and interceptors on Town Sewer. FY23 Annual Permit renewals will have no fee for establishments in compliance. Those who are not in compliance will pay \$350 for internal traps and \$650 for external trap renewals.

The "Rules & Regulations for Oil & Grease Traps/Interceptors for Food Establishments" continues to be a focus of the Commission as Fats, Oils and Grease (FOG) can negatively affect the smooth operation and maintenance costs of the sewer system. While the Grease Trap Regulation focuses on commercial and public disposal, individual homeowners can also contribute a significant amount of grease into the system which increases everyone's costs. Whether on sewer or septic, grease should not be put down the drain.

SEWER COMMISSION – FY23

In FY23, a sub-committee of the Commission began negotiations of the Leominster Inter-Municipal Agreement, which expires in June 2024.

At the 5/6/23 Town Meeting, the Commission put forward 3 articles, 2 of which related to the FY23 budget and stabilization funds. For the standard budget article for FY24, \$891,891.85 was appropriated from Sewer Enterprise revenues, \$9,900 was transferred from the Inflow/Infiltration fund, \$35,000 from the Sewer Capital Reserve Stabilization fund, \$20,962.40 from the Sewer Reserve Capacity Stabilization fund and the sum of \$382,096.70 was appropriated from Retained Earnings for a total appropriation of \$1,339,850.95 to operate the Sewer Enterprise Fund for FY23. The amount of \$746,348.15 was approved to cover both the Enterprise Fund's share of Town services and debt service on the sewer betterments. The second article transferred monies to the Capital Reserve Stabilization Fund in the amount of \$36,621.37. This fund is to be used to maintain and improve the operating efficiency of the system or cover large emergency expenditures. The third warrant article was to transfer the sum of \$1,000.00 into the OPEB Sewer Trust Fund. All three articles passed at Town Meeting.

The Town Caucus was held on 3/27/23 and Brett Ramsden was nominated for another 3-year term. Mike Deveikis chose not to run again, which left an opening on the Commission. The Town Election was held on 5/20/23 and Brett won a new term.

In FY23, the Commission continued working with Adam Costa, (Town Counsel), of Mead, Talerman and Costa, and thanks him for his guidance in clarification of regulations and contract negotiations. They also continued working with Flow Assessment to maintain and ensure the accuracy of the flow meters that measure usage going to Fitchburg and Leominster.

Sewer Commission as of report submittal (Feb 2024):

John Reynolds, Chair

Brett Ramsden, Vice-Chair

Dave MacDonald, Member

Mike Nault, Member

Mike Mackin, Member

Veterans Services Office Annual Report 2023 The Commonwealth of Massachusetts has the most comprehensive system of assistance offered to Veterans, their families and surviving spouses in all of the United States. Every city or town in Massachusetts, in accordance with chapter 115 of the Massachusetts General Laws, must have available to its citizens a Veterans' Services Officer (VSO), either full- or part-time, as determined by the community population, in order to serve the needs of its Veterans. Lunenburg has a part-time VSO at the Ritter Building at 960 Massachusetts Ave. The Office hours are Thursdays from 8:00 AM thru 1:00 PM.

Veterans, families, or widows who qualify can be provided monthly financial assistance (Chapter 115 Benefits), which are reimbursements for specific living expenses such as heating fuel, medical care, and pharmaceutical co-payments. With the VSO's approval, the Town of Lunenburg provides the financial assistance, but then the town is reimbursed by the state's Department of Veterans' Services (DVS). It is the function of the Veterans' Services Office to identify qualifying members of the community and assist with enrollment into the DVS program. Additionally, certain Veterans and/or widows may also be eligible for federal benefits from the Veterans Administration (VA). Only Massachusetts offers both of these services to every community.

During Fiscal Year 2023 (July 2022- June 2023), Lunenburg is serving an average of 10 recipients (Veterans, Families, or Widows) per month on Chapter 115. Lunenburg paid out \$71,041.50 in benefits, or an average of \$5,920.13 per recipient per month. Lunenburg was reimbursed \$53,281.16 by DVS, which is typically 75% of what was given as assistance, the maximum allowable share. There are a couple of services that the Town is reimbursed 100%

Some examples of Veterans' Service Office assistance services include:

- Enrollment in chapter 115, State Veterans benefits
- Assistance obtaining military service records or replacement medals/decorations
- Tuition waivers at Massachusetts state colleges
- Housing assistance, including Veterans Shelters and Veterans Homes
- Payments of "Welcome Home" bonuses for deployed Veterans
- Assistance obtaining certain Massachusetts automobile and motorcycle license plates
- Employment assistance

The Veterans' Service Office also provides information, advice, and assistance to any citizen interested in learning about their qualifications for federal benefits, such as:

- VA disability payments and property tax exemptions
- Tax-exempt annuities for parents or spouses of those killed in Action or those who are declared 100% disabled from service-connected conditions.
- VA pensions, Aid and Attendance assistance, and death benefits
- VA medical care for both physical and mental needs
- Vocational and Educational opportunities (the GI Bill)
- VA Loans
- Burial Assistance and Grave Markers (Veterans or Civilian cemeteries)

Michelle Durkee

Veteran's Service Agent

PROTECTION OF PERSONS & PROPERTY

BOARD OF HEALTH

The Board of Health Office is located in the Ritter Building on the corner of Mass. Ave and Lancaster Ave. Our office is on the upper level at the end of the hall on the right. We can be reached at 978-345-4146, extension 430.

The Board of Health, with the assistance of its Agent, the Nashoba Associated Boards of Health, continued its mission to maintain its focus on public health and safety issues during 2022, reviewing Title V Inspection Reports, building permits, septic and well permits, nuisance investigations, housing inspections, complaints and general public health related issues as well as resident concerns.

In addition, our local Board continued to be tasked with responding to the emerging COVID-19 pandemic. The Board of Health assisted residents and businesses in understanding ever-changing guidance and compliance with those orders. We continued to conduct compliance checks and responded to complaints. As the pandemic continued, our office assisted residents and businesses in understanding testing, quarantine and necessary compliance. Through Nashoba Associated Boards of Health, regional Covid Vaccine Clinics were held. Wash hands frequently, wear a mask, and keep six feet rule.

Homeland Security and Emergency Preparedness planning is ongoing. Meetings continue between our agents, other Town Departments and regional entities to develop a plan for not only Lunenburg but with our partner towns in our region.

This year, we processed applications for Septic Permit Lot Tests, permits for new construction, new wells, repairs or upgrades to septic systems, well permits and food service permits. The Board continues its vigilance with regard to septic systems, wells, food service inspections, housing and nuisance complaints and its general mandate to protect the environment and groundwater of the Commonwealth.

The Board of Health provides numerous other services in cooperation with our Health Agents, the Nashoba Associated Boards of Health. In addition to our environmental services, nursing services is provided to our resident. This year, clinics provided our residents with inoculations for Flu as well as Senior well adult clinics.

The Town of Lunenburg participates in the Central Mass. Mosquito Control Project. Mosquito Control monitors the mosquito population in Lunenburg and advises of any potential diseases such as EEE and West Nile Virus and sprays frequently to control the population during the warmer times of the year. Residents who want to have their property sprayed can do so by emailing to: cmmcp@cmmcp.org, calling (508) 393-3055, completing a request on their webpage at: <http://www.cmmcp.org>, or calling the Board of Health office. This service is free of charge to residents.

With our Nashoba Nursing and Hospice partners we provide in home visits to ill residents recovering from illness and Hospice care and counseling to those in need of this service.

Please contact our office in the Ritter Building for more information.

Please remember that our Board Members volunteer their time and efforts on behalf of you, the Citizens of Lunenburg. If you have something that you think we can help you with, we are at your service. Contact the Board office at 582-4146 ext. 430.

NASHOBA ASSOCIATED BOARDS OF HEALTH

Nashoba Associated Boards of Health continues to serve the Lunenburg Board of Health in meeting the challenges of environmental and public health needs in your community. As the pandemic specific requirements and guidance were eased, and the State of Emergency ended in June, we have provided assistance to your Board's return to pre-pandemic public health activities.

- The agency staff informed, educated and stayed current with the COVID-19 information from the Department of Public Health to help residents in your community navigate the changes.
- Our public health nursing staff were still providing contact tracing and outreach in your communities (including regional COVID-19 vaccination clinics), while reaching out to Councils on Aging to establish well adult clinics and conduct regular fall flu clinics.
- Our VNA continued their home health activities in your community.
- As a recipient of a Public Health Excellence Grant, we have brought on staff to increase our presence in food service establishments and provide improved communication, and public health education to the Nashoba District..

We look forward to continuing our work with **Lunenburg's Board of Health** to meet the public health, environmental and nursing needs of your community.

Environmental Health Department- The Nashoba Sanitarian serving your community is always available at our Ayer office and has regular hours in the Town Hall to serve residents and work with your Town Hall staff.

Food Service Licensing and Inspections

39

This office licenses, inspects, responds to complaints and conducts follow up on concerns in licensed operations. Some of the inspections done this year were in response to COVID complaints.

Recreational Permitting and Inspections

54

This office licenses, inspects and responds to complaints regarding recreational camps for children, bathing, beaching and public and semi-pools. We sample bathing beaches weekly, providing the results to community partners to ensure swimming only occurs at the public and semi-public beach which meet State regulations.

Housing & Nuisance Investigation

17

This office inspects dwelling units for compliance with the State Sanitary Code upon compliant and prior to occupancy. We issue orders to affect corrective actions, re-inspect and initiate legal action if necessary. Similarly, complaints from residents concerning unsanitary conditions or pollution are investigated.

Title 5 related work – On-site Sewage Disposal

We received 50 applications for soil testing (testing necessary for the design of a sewage disposal systems) and witnessed 147 tests performed (perc tests and soil evaluation holes).

We received 54 applications for sewage disposal systems and reviewed 91 plans for new and replacement systems.

Our office prepared 58 sewage disposal system permits for the Board’s review and approval: 32 for new construction and 26 for the replacement of failed systems.

We conducted 150 inspections during the construction of sewage disposal systems.

We reviewed 78 Title 5 inspection reports and we were available to provide consultation to your residents on matter relating to sewage disposal systems.

Private Well related services

Private wells are regulated by local regulation and we issued 20 well permits for new and replacement private water supply wells.

We review water quality and quantity reports and interpret the results for residents.

Rabies Clinics – Animals Immunized (Due to COVID-19, clinics were limited in 2022)

Nashoba Nursing Service & Hospice

Nashoba’s Certified Home Health Registered Nurses visit and provide skilled services to patients in their home under physician’s orders. These services include assessment of physical, psychological, and nutritional needs. Skills include teaching/supervision of medications, wound care, ostomy care, IV therapy on a 24-hour basis, catheter care, case management and referral to other services as needed.

Nashoba’s Certified Home Care Aides provide assistance with daily activities of daily living including bathing dressing, exercises and meal preparation.

Nashoba Therapists provide skilled physical, occupational, speech, and dietary therapeutic interventions through assessment, treatment and education. Their integration of client, caregiver, and medical outcomes aims at attaining maximum functional dependence.

Nursing Visits

670

Home Health Aide Visits

61

Rehabilitative Therapy Visits

643

Community Health Nursing

Nashoba’s Community Health Nursing program provides an essential public health service to its member communities guided by the American Nurses Association (ANA) 16 Standards of Public Nursing Practice.

- Working with MDPH and other local boards of health to identify and manage clusters of disease/exposures in the District.
- Contact tracing for our member communities and teaching about the processes of Isolation and Quarantine. Teaching risk reduction, infection control measures and disease management.
- Serving as a resource for individuals and businesses interpreting the everchanging information on the disease and the State’s response to the pandemic.
- Working with school nurses and childcare providers in the District to provide information, offer advice and support and assist with contact tracing in the schools and daycare centers as needed.
- Collaboration with all municipal staff, including Councils on Aging, to address questions about COVID-19 (and other diseases), exposures and actions which may be necessary to address these exposures.

Communicable Disease Number of Cases:

Babesiosis.....	1
Campylobacteriosis.....	2
Group A Streptococcus	1
Human Granulocytic Anaplasmosis	4
Influenza.....	150
SARS-CoV-2 (COVID-19)	976

The Nashoba nursing staff provided monitoring and guidance to travelers and residents testing positive for TB infection (not contagious) **119** throughout the district this calendar year, and have also been managing **2** active TB cases in the District since Spring/Summer 2022 and continue to date. The towns in the Nashoba District fall into a **LOW RISK TB** category (as defined by MDPH).

In addition to the mandated disease surveillance and reporting, our staff serves as a resource to the community, addressing questions and concerns from the public on a variety of health and safety issues (immunizations, head lice, chronic disease management, safe drug/sharps disposal etc.) in a variety of ways including:

- Monthly well adult clinics have been & continue to be offered throughout the district. Nashoba nursing staff conducted **159** total clinics this year, including **10** clinics in Lunenburg. Clinics provide the opportunity for residents to meet with the nurse for blood pressure checks, blood sugar screening, general health counselling, resource information and referrals as needed. Districtwide flu clinics are held in the fall.
- Nashoba conducted seasonal flu clinics in each community to make vaccinations available to everyone, including homebound residents. We administered **2130** flu shots to community members, including **98** Lunenburg residents.
- We conducted regionalized COVID-19 vaccine clinics the first quarter of the year until the public demand/interest in the vaccine waned. In an effort to increase vaccine accessibility, clinics were also held at local food pantries, shelters, churches, schools, businesses, etc. A total of **509** district community members were vaccinated for COVID-19 in the 2022 calendar year.
- The nurses are available for & have made home visits to make general assessments, assist with coordinating care and services, provide support/teaching and make referrals to other local community resources.
- Nashoba has offered community outreach and educational programs covering topics such as disease prevention, chronic disease management, emergency preparedness, mental health awareness, and overall wellness.
- Nashoba staff attend and regularly participate in collaborative meetings, trainings and conferences to keep current with the latest developments in local public health.
- Nashoba staff facilitated several meetings with key stakeholder groups to promote partnership, encourage strong regional communication, and foster working relationships. This has helped to identify common goals and guide future public health initiatives and outreach.

Community Health- Communications and Public Health Education Summary

The Public Health Educator/Communications Specialist (PHE/CS) role has evolved since its inception in Sept 2021 to best support the needs of the District . In the past year, the PHE/CS has been communicating timely and relevant public health information to towns and stakeholders, and providing educational opportunities across the District with a social determinants of health (SDOH) lens. This work has included:

- Developing educational programs and presentations both independently and collaboratively with the PH nursing team- Harm reduction, emergency preparedness, etc.
- Providing education and advocacy related to treatment and de-stigmatization of substance use disorder
- Maintaining up-to-date distribution lists, communicating within the district via channels such as quarterly newsletters, regular email updates, etc. pertaining to public health news, information and events such as flu and rabies clinics. Exploring ways to diversify communication methods to reach as many community members as possible.
- Building and maintaining relationships with stakeholders through meetings and attending community events to represent NABH
- Serving as a resource for community members with public health related questions across a broad range of topics; developing a robust, in-depth Resources page for the website (which is currently being finalized)
- Attending trainings with an emphasis on health equity and public health service regionalization. MDPH has prioritized these areas because research has shown they have the biggest impact on health outcomes for the broadest range of people.
- PHE/CS has utilized an SDOH lens to identify health inequities that most impact the NABH region to focus efforts and collaborate with community partners to lessen these gaps.
- Developing educational and communications materials for district and individual towns by request including print, electronic, presentation, and TV/news media materials
- Maintaining and improving upon NABH website to keep info relevant and accessible. Maintaining agency social media to reach more people in district with current, relevant and seasonal public health information.
- Organizing events to facilitate the exchange of information such as a Spring Wellness Festival and first regional in formal local board of health gathering

FIRE DEPARTMENT

The Firefighters and Emergency Medical Technicians of the Lunenburg Fire Department are dedicated to providing the highest quality, most cost effective fire and emergency medical services to the citizens of the town of Lunenburg.

In 2023, your Fire Department responded to 2033 calls for service, broken down as follows:

Fires, Alarms & Hazardous Conditions	356	Emergency Medical	1193
Inspections	366	Other	18

This represents a 7% increase in emergency calls for service over 2023, mostly in Emergency Medical calls.

The Department consists of 10 Career and 30-35 On Call/Per Diem Firefighters and Emergency Medical Technicians, plus a full time Administrative Assistant/EMS Coordinator. Three Firefighter/EMT or Paramedics are on duty 24/7 at the Station. This coverage is provided by a combination of our Career Staff and Per Diem Firefighters. Staffing the Station with dual trained Fire/EMS personnel ensures that we are ready to respond to whatever emergency occurs. As many calls require more personnel than are on duty, we continue to rely heavily on the dedication and commitment of our On Call Firefighters and Emergency Medical Technicians.

After five years of preparation, the Department Ambulances began operating at the Paramedic Level on January 1, 2023. This allows us to provide advanced lifesaving care at the local level, and no longer rely on other agencies for assistance. The Department now has six Full Time and seven On Call/Per diem Firefighter/Paramedics. Paramedic training is more than two thousand hours and requires anywhere from 9-18 months of college level classroom education, clinical time, and field internships to obtain certification. The Department continues to train our newly hired full-time staff to this level with Firefighter Jennie Smith completing her training in September. Achieving Paramedic Level service, along with 24/7 coverage in the Station are the most significant advancements to the Department in the last 50 years,

Lieutenant Christos Lekaditis and Firefighter Carl Gamberdella make up the Department's Fire Prevention Division and in 2023 conducted 366 Inspections. This is in addition to multiple fire drills and public education initiatives. By law, we are required to inspect Smoke and Carbon Monoxide Detector installations when a home is sold. We are also required to inspect all new oil burners and propane gas installations. Any business holding a liquor license also requires a yearly inspection for fire safety issues. In addition, all new construction projects must have their plans reviewed for proper fire protection, as well as ongoing inspections during the construction process. Other Fire Safety Initiatives undertaken during 2023 include:

- Continuation of a Department of Fire Services Grant in the amount of \$6953 to assist with Fire Safety Education in both the schools and with Senior Citizens. This Grant provides funding for both materials and personnel to bring fire safety education to our most vulnerable populations. Firefighter Olivia Hayes serves as our Coordinator for this program.
- Participation in the Senior Center's "Sand for Seniors" Program. This program provides buckets of walkway sand for Senior Citizens who were unable to obtain it for themselves in the winter months. In partnership with this program, Firefighter Olivia Hayes delivers the sand to the residents and when possible, inspects their homes for Smoke and Carbon Monoxide Detectors. If the resident was lacking detectors, Firefighter Hayes can install free detectors obtained through the Senior SAFE Grant.

It should be noted that each year, 50% of fatal fires are found to have nonfunctional or nonexistent smoke detectors.

Fire Prevention has become increasingly complex as codes change and new technologies appear. To keep pace, both Inspectors hold certifications with the State as Fire Prevention Officers- Level 1 or 2. In addition two other members have also completed the Level one training and other staff have completed the Basic Level training.

FIRE DEPARTMENT

Eight Firefighters from Lunenburg continue to be members of the Fire District 8 Technical Rescue and Dive Teams. These regional teams respond to high risk and specialized rescue situations, such as Confined Space, Rescue from Heights, Building and Trench Collapse, Swift/Floodwater and Underwater Search and Recovery. In conjunction with these Teams, Lunenburg operates both a Water Rescue Unit and a Collapse/Trench Rescue Trailer.

Our Apparatus fleet is currently in very good condition, with two pumpers and the Ladder truck all under 10 years old. Our Rescue Pumper, Squad 3 remains in good condition though it is nearing the end of its projected life span. This unit is scheduled for Replacement in FY'27. This unit is a dual-purpose Pumper and Rescue Unit, carrying the Jaws of Life, High Pressure Air Bags, and other specialized rescue tools.

The Ambulances are experiencing increased wear and tear as we see not only more calls for service, but longer transport times to more distant hospitals and critical care facilities. 30 years ago, we had four hospitals within a 10–15-minute transport time. Today there are two. In addition, many cardiac and trauma patients require definitive treatment in specialty facilities. This often requires transport to Worcester or occasionally even Boston. Given lengthy delays in obtaining new units, a replacement for Rescue 1, our 2014 ambulance was ordered in March of 2023. Delivery is not anticipated until early 2025.

Replacement of our outdated Forest Fire protective clothing with a dual-purpose type of clothing that is suitable for both brush fires and motor vehicle/technical rescue situations was completed. This project was funded through a State Grant for Safety Equipment. Though supply chain issues slowed the process, the equipment finally arrived in Spring of 2023. Several hundred feet of hose and some outdated nozzles were also replaced through a State Grant in 2023. A Grant to replace several power saws and some portable radios was applied for in late 2023 and is anticipated for early 2024.

Captain James Ricci retired in March of 2023 after 32 years of Career and Call service to the Town. Jim served as our Fire Prevention Officer for 17 years and was well known for his conscientious and down-to-earth approach to code enforcement. Jim was instrumental in developing the “Sand for Seniors” program in conjunction with the Eagle House Staff. He was also awarded the “Norman Knight Excellence in Community Service Award” in 2014 for his fire prevention and community education work. While Jim’s retirement left big shoes to fill, we are fortunate that he has chosen to continue to serve the Town as an On Call Firefighter/EMT.

In conclusion, I would like to thank the members of the Lunenburg Fire Department for their outstanding commitment to the Town. Their enthusiasm, professionalism and dedication continue to impress me every day. In addition, I would like to express my gratitude to the members of the Department who have helped make the Paramedic Program a reality. From those who helped develop policies and those who helped procure equipment, to those members who endured the challenges of Paramedic training. Your efforts have helped bring about a massive improvement in service to our residents. My thanks also to the Town Manager for her unwavering support for this vital project.

I would also like to thank the other department heads, boards, and commissions for their continuing help. The level of interdepartmental cooperation that occurs in the daily course of town business is invisible to many people, but it is critical to all operations. Finally, my thanks also go out to the citizens of Lunenburg for their ongoing support of public safety. Such support allows us to continue providing the high level of service you have come to expect from us.

2023 Police Department Town Report

Mission Statement:

We, the members of the Lunenburg Police Department, strive to provide the highest quality of police services to our community members and visitors alike. We believe in Community Policing, and all of the benefits that are realized from this concept. We will strive to maintain the strong partnerships that have been developed with our community, and continuously look for ways improve that relationship. We will strive to deliver police services in a fair and impartial manner, consistent with all applicable laws, while respecting all individual rights. We will use innovative and modern ideas and techniques to solve crimes, apprehend criminal offenders, and help resolve quality of life issues.

Values:

- We are committed to ensuring that all of our actions reflect the utmost integrity, and honesty.
- We are committed to respecting individual rights, human dignity, and the values of all members of the community and members of the Lunenburg Police Department.
- We are a proactive and problem solving agency.
- We strive to serve our citizens in a professional manner with compassion, respect, and empathy.
- We are committed to providing the highest quality of police services to our community.
- We recognize the value of our employees, and recognize they are our most valued resource. We will strive to provide our employees with the necessary resources, training, and career development to enhance their professionalism.
- We recognize that the wellbeing of our employees is the upmost importance. We will strive to provide the necessary assistance to assure our employees enjoy a long and satisfying career.

Department Personnel:

Administration

Chief Thomas L. Gammel
Lt. Jeffrey M. Thibodeau
Public Safety Coordinator Amanda Moore
Public Safety Desk Clerk Kennedy Jackson

Patrol Bureau

Day Shift

Sgt. Joshua Tocci (K9-Jerry)
Off. Jonathan Broc
Off. Jack Wagner
Off. Gage Russell
Off. Kamerin Munroe

Evening Shift

Sgt. Sean Connery
Off. Anthony Cappucci
Off. Matthew Pingitore
Off. Paul Theodoulou

Night Shift

Sgt. Sean W. Zrate
Off. Jesse Reed
Off. Deven O'Brien
Off. George Tibbetts

Split Shift

Sgt. John Morreale
Off. Jeffrey Hill

Traffic Bureau

Off. Jacob LaChance

Investigative Bureau

Detective Joshua Mathieu

Community Policing Bureau

SRO/Community Outreach: Off. Bradley McNamara (Comfort Dog, Hank)

Reserve Police Officers

Off. Robert DaCosta
Off. Benjamin Campbell
Off. Paul Duquette
Off. Joel Ortega

In Memoriam:

Lt. Stanley “Stan” Barney

August 14, 1950 – July 12, 2023

Lt. Barney served the community of Lunenburg for 38 years starting as a reserve police in 1975, a Patrol Officer in 1977, a Sergeant in 2000 and retiring at the rank of Lieutenant in 2013.

Lt. Barney was an active member of the Department and the Lunenburg Police Relief Association after his retirement. He was committed to volunteering to numerous community activities and was always there to help anyone in need.

Lt. Barney is greatly missed by the past and present members of Lunenburg Police Department.

Department Review:

It is an honor to again provide the Lunenburg Police Department's Annual report as the Chief of Police. In 2023, the Department continued to face challenges associated with the economy, population growth, and increased traffic within the community. A nationwide trend of recruiting and retaining Police Officers continue to have an effect on our Department, but it appears that we have stabilized in this area. Although faced with these challenges, the Department remains committed to being pro-active, and strives to make the Community safe for all.

Sgt. Sean Connery retired in July after over 30 years of service. Sgt. Connery will remain on the Department as a Reserve Officer. We wish Sgt. Connery the best of luck, good health, and a long and prosperous retirement.

Off. Matthew Pingitore accepted a position with the Massachusetts State Police in February of 2023. We thank Matthew for his service to the Town and wish him the best of luck with MSP.

K9 Update:

K9 Jerry officially retired in July of 2023. K9 Jerry is enjoying retirement in the care of Sgt. Tocci. We thank K9 Jerry for his service to the Town. He was the first official K9 for the Department and he served us very well.

Upon the retirement of K9 Jerry, the K9 Handler position was re-assigned. Off. Wagner was selected as the new K9 Handler and was tasked with researching and finding a new K9 for the Department. After an extensive search Off. Wagner located a German Shorthaired Pointer, who is named Cody, to be the next K9. K9 Cody began training at the beginning of summer and graduated in November of 2023. K9 Cody is currently in service and works a split day/eve shift with Off. Wagner. Be sure to say hi to them if you see them around Town.

Promotion:

In December of 2023, Off. Paul Theodoulou was promoted to Sergeant. Sgt. Theodoulou is assigned to the split eve/overnight shift. Sgt. Theodoulou is currently the Department's Defensive Tactics/Use of Force instructor, is a Crisis Intervention Team trained officer, as well as a field training officer. Sgt. Theodoulou brings a wealth of knowledge and experience and will be a valuable asset as a supervisor.

Achievement:

In the fall of 2023, Det. Mathieu was inducted into the Westfield State University Athletic Hall of Fame for his accomplishments as a football player for the University. Det. Mathieu was one of just 11 All-Americans in the history of the Owls program, he set four school records and was a four-time all-conference selection.

New Hires:

In June of 2023, Off. Micheal McCormack was hired as a full-time officer. Off. McCormack comes to us by way of Essex, VT, where he was a Sergeant with the Winooski Police Department in Winooski, VT. He is a graduate of Essex High School and holds an Associate Degree of Science in Criminal Justice graduating in 2013 from the Community College of Vermont. Off. McCormack graduated from the Vermont Police Academy in 2017 as well as Vermont's part time academy in 2016. Off. McCormack completed the Drug Enforcement Administration (DEA) task force training in 2021 which led him to be assigned to the Drug Task Force in South Burlington, VT.

In November of 2023, Recruit Off. Jenna Morse was hired as a full-time officer. Recruit Off. Morse is currently in the Basic Recruit Officer Class in Boylston, with an anticipated graduation date in May of 2024. Recruit Off. Morse was a lifelong resident of Lunenburg, graduating from Lunenburg High School in 2020, and is currently enrolled in the Criminal Justice program at Fitchburg State University (FSU). Recruit Off. Morse was a former Step Intern with us from Lunenburg High School, and was also an intern with us during her Junior year at FSU.

Accreditation:

On October 4, 2023, the Department became fully accredited and received an award for Certificate of Accreditation through the Massachusetts Police Accreditation Commission (MPAC). The Department is recognized as a best practice organization. Accreditation is a coveted award that symbolizes professionalism, excellence, and competence.

Through the tireless work of Sgt. Morreale, and the cooperation and collaboration with members of our Department, we were able to complete the full accreditation process. The Department was recognized and received the MPAC award on October 4, 2023, at the Commission's award ceremony held at the Marlborough Country Club.

Program Updates:

The Co-Response Model approach to mental health type of calls is moving forward. We were able to partner with Lancaster Police Department and Open Sky Community Services to bring the program to reality. The Town has initially funded the program through the Opioid Relief Settlement. The Department will be seeking a grant through DMH to fully fund the program.

Community Policing:

Members of the Department actively participate in Community Policing Events throughout the year. Some of the events include RAD and radKIDS, Coffee with the Chief, and Comfort Dog Hank making various appearances throughout the year.

Our goal is to continue to provide community-based services/events in 2024. We are working with the Parks and Recreation Department to bring additional programs to the community such as radKIDS, and Youth Police

Academy Program during the summer and school vacation week(s). We are also planning a Citizen's Police Academy for the fall of 2024.

2023 Statistical Information:

The overall goal of the Lunenburg Police Department is a reduction of crime, assure quality of life issues are addressed, and provide a safe community to live, work and visit. The Department evaluates effectiveness, in part, by statistical information that is generated through the Records Management System.

The following statistical information is to provide some insight into our officers' activity for 2023.

Activity

Calls for Service	23,040
Arrests Total	322
Arrests Custody	107
Arrests Summons	212
Protective Custody	1
Motor Vehicle Accidents (MVA) Total	259
MVA w/Injury	53
MVA w/o Injury	174
MVA Hit & Run	32
Motor Vehicle Stops	3,059
Citations Civil (fines)	50
Citations Warnings	852
Citations Criminal Offenses	123
MV Arrests	41
OUI	25
Radar Operations	3,541
Domestic Violence Related Incidents	55
Arrests/Summons	28
Restraining Orders (RO)	51
RO Violations	16
Animal Control Calls for Service	256
Dog Bites	8
Kennel Inspections	18
Barn Inspections	41
Mental Health	60
Attempted/Threat of Suicide	30
Mental Health Evaluations	27
Firearms Licensing	255
License to Carry	215
Firearms Identification Card	11
Over 70 (age) FID/LTC	29

License to Sell/Ammunition/Gunsmith
Machine Gun License

N/A
N/A

As result of the above calls our officers generated a total of 1,355 written reports. There were 379 reports involving Incident Based Reporting (IBR), and National Incident Based Reporting (NIBRS), which is a State and Federal Crime reporting data base. The Officers also generated an additional 774 written reports that did not fall into the IBR/NIBRS category.

According to NIBRS, reported crimes are broken down into three categories, Crimes Against Persons, Crimes Against Property, and Crimes Against Society. These are further broken down into Group A and Group B categories to closely match the Uniform Crime Reporting (UCR) program. The Lunenburg Police Department regularly reports IBR information to the State, which in turn reports the information to the Federal Bureau of Investigation.

In 2023, there has been a 3% decrease in Group A, Crimes Against Persons, with Simple Assaults and Intimidation (witness/victim) accounting for the majority of the incidents with 40 out of 60 total reported incidents. We have observed an increase in Simple Assaults and Intimidation cases with a 19% and 7% increase, respectively.

In 2023, there has been a 14% increase in Group A, Crimes Against Property. The area we have observed an increase is related to shoplifting, accounting for a majority of the incidents with 59 out of 161 total reported incidents. There has also been an increase in Fraud type of cases, accounting for the second largest increase with 45 incidents.

In 2023, there has been a 41% increase in Group A, Crimes Against Society. The largest increase has been in drug/narcotic violations, which is directly related to having the Detective proactively investigating drug/narcotic related cases.

Training:

Training continues to be a priority for the Department. We now have In-house instructors for specialized areas including Firearm, Less Than Lethal, Defensive Tactics, Active Shooter, and Resiliency (Officer Well Being). The Department's in-house trainers look for ingenuitive ways to complement our annual in-service training.

In addition, several officers have attended specialized training in various areas of Policing as a part of professional development. Trainings include Crisis Intervention Team, Critical Incident Management System, Servant Officer and Intentional Leadership Programs.

The Department also provides training designed for our non-sworn members, such as Police Executive Assistant Conference, and Massachusetts Certified Public Purchasing Official.

Use of Force:

The Department conducts an annual analysis of Use of Force incidents, as well as review(s) of the incidents as they occur. In 2023, officers were involved in eight (8) use of force incidents, which is a reduction in incidents compared to 2022. In each Use of Force incident de-escalation tactics, including the use of verbal tactics, were first utilized prior to any Use of Force application. Officers continue to strive to de-escalate confrontations prior to any application of Use of Force.

One officer was injured prior to the Use of Force. There was one minor injury reported to an individual during the application of Use of Force.

Motor Vehicle Pursuits:

The Department conducts an annual analysis of Motor Vehicle Pursuits, as well as review(s) of pursuits as they occur. In 2023, officers were involved in three (3) motor vehicle pursuits, which is a reduction in incidents as compared to 2022. There were no accidents, and no injuries to the public, officers or suspect(s) involved in the pursuits that were reported.

Nashoba Valley Regional Dispatch District:

The Nashoba Valley Regional Dispatch District (NVRDD) is a Regional Emergency Communications Center located in Devens, MA. NVRDD serves as the 911 public safety answering point and dispatch center for Police, Fire and EMS for the communities of Lunenburg, Berlin, Bolton, Boxborough, Haverd, Lancaster, Devens, and Department of Defense at Devens. NVRDD serves a total population of just over 35,000 residents and thousands more visitors to the orchards, farms, businesses, and attractions within its six communities.

*Partial Year

In 2023, NVRDD handled over 76,982 phone calls coming in on 911 and business lines. NVRDD also coordinated the response to over 81,121 calls for service. NVRDD's staff are highly skilled in call-handling and dispatching, and are all able to perform both functions simultaneously. These first of the first-responders provide a vital and seamless link between the community and their local police, fire, and emergency medical services. While the focus is on handling emergencies, their staff also serves the public and our responders by providing other administrative and non-emergency dispatch tasks. NVRDD staffs the communications center with multiple dispatchers and supervisors each shift to handle calls and requests.

Conclusion:

I would like to thank the Citizens of Lunenburg for their continued support. Without collaboration with our Community we would not be successful. We look forward to the New Year, and to continue to bring the very best in policing to our Community.

The Department would like to wish Karen Brochu the best of luck on her retirement. We would also like to thank her for her service to our Community and all of the assistance she has provided us over the years. We wish you the best of luck, and to a long, healthy and happy retirement.

I would also like to thank the women and men of the Lunenburg Police Department for their dedication to the Community, and the work that they perform on a daily basis. The personnel of the Department play a vital role in making Lunenburg a great place to live, work and visit for all.

Thank you,

Chief Thomas L. Gammel
Chief Thomas L. Gammel

PLANNING

CAPTIAL PLANNING REPORT

Fiscal Year 2024 Capital Plan

The Capital Planning Committee met several times during the fall and early winter months to consider capital requests that were submitted by department heads. Following extensive dialogue with department heads and revisions to some requests, the committee considered 28 requests and ultimately voted to rank 27 items for consideration by the Town Manager, Select Board, and Finance Committee.

On January 28th, the Town Manager presented her preliminary Capital Plan. Her recommendation included the first six items recommended by the Capital Planning Committee, totaling \$1,360,500.

On February 13th, the Capital Planning Committee met to consider the Town Manager's preliminary capital plan and some differences in her ranking of projects. No action was taken, however at the time there were two outstanding issues to be addressed before a final capital plan recommendation could be submitted for the warrant.

The first was a request for American Rescue Plan Act (ARPA) funds to purchase three vehicles (an ambulance and two 6-wheel dump/spreader/plow trucks). On February 21st, the Select Board committed \$986,000 of ARPA funds for these projects. This action accelerated ordering the vehicles by several months (demand for these items and supply chain issues have resulted in extended delays) and eliminated a need to tap the Special Purpose Stabilization Account to fund these items.

The second issue was the availability of free cash, which the Town Manager had reserved to fund the overlay account, relating to the high number of property tax abatement requests. On March 28th, the Town Manager presented a revised recommendation that eliminated the \$986,000 from the Special Purpose Stabilization Account, added \$467,268.98 from free cash, added \$356,789 from tax revenues, and reduced the amount from unexpended capital by \$2,758.98 to her recommendation for the FY24 Capital Plan to fund six additional projects. The Town Manager's new recommendation also removed two items from the priority list (TCP Ansul Inspection and Public Safety Building Downspouts) after consultation and further assessment by the Facilities Director. The following outlines the Town Manager's final Capital Plan Recommendation with associated Capital Planning Committee rankings and scoring derived from the UMass Collins Center for Public Management. There are 12 items, totaling \$2,025,010.00. As referenced above, \$986,000 of that total does not require an Annual Town Meeting appropriation or approval.

Capital Planning Committee Members:

Tom Alonzo, Chair, Select Board Representative
David Passios, Vice-Chair, Finance Committee Representative
Peter Beardmore, Clerk, School Committee Representative
Matthew Brenner, Planning Board Representative
George Martin, Member At Large

PLANNING BOARD

Nine (9) ANR Plans (land division plans not requiring approval under the Subdivision Control Law, but still requiring Board endorsement) were approved.

Lunenburg's Stormwater Bylaw requires Board review and approval for any development/redevelopment project that disturbs one acre or more of land. This Bylaw safeguards the public health, safety, welfare and the environment by minimizing adverse impacts of contaminated stormwater both off-site and downstream. These updates are more likely to affect large commercial projects and multi-family dwellings; not the average homeowner wanting to put in a shed, garden, pool, etc. The Board approved stormwater permits for the following.

- Development of 5 lots on Holman Street and Northfield Rd
- Construction of 367,000 sq ft warehouse on Fitchburg/Lunenburg land
- Construction of a single-family home on Reservoir Rd
- Construction of a single-family home on Highland St
- Construction of a contractor yard, personal improvement building, and office building on Massachusetts Ave

Lunenburg has four designated Scenic Roads; Lancaster Avenue, Flat Hill Road, Northfield Road, and Leominster Road. Over the past year you may have noticed building lots, such as some of those mentioned in the paragraph above, being created on some of these roads. As these are Scenic Roads, any repair, maintenance, re-construction, or paving work in the Town's right-of-way cannot involve the cutting or removal of trees or the tearing down or destruction of stone walls without consent of the Planning Board.

The Board submitted four articles for November 2022 special town meeting.

- Two of the articles, which passed, updated the zoning bylaw to reflect the current zoning;
- Two articles were submitted on behalf of the Water District to update the Watershed Protection Map. DEP requested additional changes to the proposed bylaw which Board members were not comfortable with; therefore, the Board chose to pass over the Water District articles.

The Land Use Director worked on a new draft for 2023 annual town meeting. The two Water District articles were submitted for May 2023 town meeting, but did not pass.

A third article was also submitted for 2023 annual town meeting which added clarification to the permitting process for non-medical marijuana establishments. That article passed.

An application was received for construction of a 367,000 square foot warehouse and distribution building at 260 Falulah Road. The majority of the building was located on Airport Road/Crawford Street in Fitchburg, but a portion extended into Lunenburg.

Approval was given for the construction of a 372,000 square foot warehouse and distribution building off Leominster-Shirley Road near the Shirley town line. As a result of this approval, improvements were made to Leominster-Shirley Road with the addition of an eastbound left-turn lane into the project and the widening of the road to the north (towards Reservoir Road) on the project side of the street.

The Planning Board requested and was approved for Capital Plan Funding to begin an update of the 2002 Master Plan. The process began with selecting outside consultants for Master Planning Services. OverUnder, RKG Associates Inc. and Innes Associates joined forces to create an experienced and dynamic team to take on the task of updating the Master Plan. They have experience in economic planning and real estate consultancy. They have a strong understanding and guiding physical use of land and its impact of regulations on communities. They stressed their importance of public engagement to reflect the values of community which was demonstrated in conducting public surveys to hear from Lunenburg residents how they would like to influence the development of their Town in the years to come.

The Master Plan Steering Committee was formed, consisting of 15 voting members. The Master Plan Steering Committee advises on the development of the Master Plan document. The Committee also fosters openness and inclusion in the master planning process through dialogue and communication with the consulting team of OverUnder, RKG, Innes Associates, and various stakeholders in the Lunenburg Community.

Marjorie Boggio retired as Administrative Assistant for the Planning Board in the Spring of 2023. She served the Town for 26 years and was appreciated by staff and the Lunenburg Community. Annie Aubrey joined to take over responsibilities and has been keeping the office running smoothly.

Meetings resumed at Town Hall with a hybrid model; both in-person and via Zoom.

The Planning Office is located in the Ritter Memorial Building, 960 Massachusetts Avenue and can be reached at 978-582-4146 extension 5. Various forms are available online at <https://lunenburgma.gov/> on the Planning Board’s homepage. The Zoning Map, Code of the Town of Lunenburg, MA (which contains the Protective [Zoning] Bylaws), Rules and Regulations Governing the Subdivision of Land, Rules & Regulations for Site Plan Approval & Special Permits, and Permitting Guidebook are available online.

Matthew Brenner, Chair	Matthew Allison, Vice Chair	Amanda Reid, Clerk
Timothy Willsmer, Mbr.	Erik Torgersen, Mbr.	Richard Harris, Interim Land Use Director

MASTER PLANNING STEERING COMMITTEE

The Master Plan Steering Committee (MPSC) advises on the development of the Master Plan document. The committee also fosters openness and inclusion in the Master Plan process through dialogue and communication with the consulting team OverUnder, RKG, Innes Associates, and various stakeholders in the Lunenburg Community. The Master Plan will develop a physical and digital document for the Town of Lunenburg that optimally reflects and supports the community's priorities and goals. A comprehensive plan takes a long range view of the Town's land use, housing, open spaces, natural and cultural resources, public facilities, economic development, and transportation—and tries to shape the direction of the Town for the next five to fifteen years. The Town completed its last comprehensive plan in 2002, more than twenty years ago. The Lunenburg Planning Board initiated this new comprehensive plan process, Plan Lunenburg, to explore and define the Town's shared vision and create an updated framework for future Town goals and policies. In 2023, PlanLunenburg.org was developed to be the host site of Lunenburg's Master Plan process. Two Public Meetings were conducted as well as surveys in between. The MPSC worked closely with OverUnder to coordinate venues, distribute surveys, and encourage community involvement. The MPSC, OverUnder, RKG, Innes Associates, along with the energetic involvement of residents of Lunenburg, have successfully kept the process on track with each phase originally outlined: Phase 1 in May 2023 focusing on discovery, Phase 2 in February 2024 focusing on testing and recommending, and Phase 3 in August 2024 leading to a report. All throughout each phase, the MPSC actively seeks the engagement of the residents of Lunenburg so that their voices can be heard in the Master Plan process.

Report from OverUnder:

It has been a year since a notice to proceed (March 27, 2023) was issued to the Master Plan consultant team (OverUnder, RKG Associates, and Innes Associates). In that time, we've held three public meetings. Public meeting #1 was held at Town Hall on June 15, with 10 attendees. The second public meeting was held at Smokestack Roasters on November 2, 2023 with 30 participants. The third meeting took place at the Adult Activity Center on February 2, 2024 in two sessions, with a total of 35 participants. The team also attended two events on Homecoming weekend in October 2023 (Shrieks & Krieks and Homecoming), during which we solicited feedback and passed out information regarding the website and solicited feedback from the community while answering questions about the master planning process. The Master Plan Steering Committee was established in the fall of 2023, and has held five meetings, with the sixth planned for April 5. In the past year, the following tasks have been accomplished:

- development of a community engagement plan,
- planning process branding, · publishing of the planlunenburg.org website,
- construction of large scale (5' x 8') model of the Town,
- completion of the existing conditions report, and
- two surveys completed (survey #1: 163 respondents, survey #2: 457 respondents)

Ad Hoc Open Space Advisory Committee to the Planning Board

FY 2023 Annual Report

The Open Space Committee's efforts in FY'23 principally focused on gaining a better understanding of the Town of Lunenburg's portfolio of vacant, undeveloped, "general municipal" lands, and assessing which of those properties may be repurposed more specifically to meet needs identified in the Town's Open Space and Recreation Plan.

The Open Space Committee also reviewed several Chapter 61 withdrawal notifications this past year as part of the town's defined multi-board.

The Open Space Committee investigated two parcels on Lake Shirley held by the Town and reviewed them for possible lake access (cartop kayak and canoe launch) for Lunenburg residents. The Open Space Committee made a recommendation that the two parcels (51 Parmenter Road Assessor Parcel 136-0006 and 0 Shirley Reservoir Lake Assessor Parcel 137-0012) be given to the Care and Control of the Parks Commission, subject to Town Meeting Approval.

Respectfully submitted,
Michael Toohill, Chair

Town of Lunenburg Zoning Board of Appeals

The Zoning Board of Appeals heard several petitions during calendar year 2023. There were several applicants seeking special permits and special permits for dimensional variations. The Zoning Board meetings are held on the second and fourth Wednesdays of the month at Town Hall at 7:00PM on an “as needed” basis or ZOOM as an alternative.

On August 18, 2022 a 40B Comprehensive Permit was filed for property located at 318, 319 & 400 Howard Street, for a project known as Pond View Commons owned by The Homes at Aro Estates, LLC., the decision process is currently ongoing.

The proposal is to construct three multifamily residential buildings under the Massachusetts Comprehensive Permit Statute, Massachusetts General Law’s c.40B, ss.20-23.

The applicant Pond View Commons, LLC seeks to create 200 apartment units within three multifamily residential buildings.

The Zoning Board consists of the following members: Alfred Gravelle, Chairman, James Besarkarski, Vice-Chairman, Members: Hans Wentrup, David Blatt, Patrick Callahan and Anthony Nicastro, Donald Gurney and Steve Dubois, Associate members. Lisa Normandin serves as the Administrative Assistant to the Zoning Board.

The functions of your Zoning Board of Appeals as required by statutes are as follows:

1. To hear and decide applications for Variances from Town’s Protective By-Laws as authorized in the By-laws.
2. To hear and decide applications for Special Permits as authorized in the Town’s Protective By-laws.
3. To hear and decide appeals in accordance with Chapter 40A, Section 8 of the Massachusetts General Laws, as amended, from any person aggrieved by reason of his or her inability to obtain a permit or enforcement action from the Administrative Officer or Board in the Town, the Regional Planning Agency, abutting City or Town or other Administrative Official.
4. To act upon application for comprehensive permits in accordance with Massachusetts General Laws, Chapter 40B. The Zoning Board of Appeals reviews requests for comprehensive permits submitted to the Board under Chapter 40B by developers who wish to create affordable housing. These requests can, by law, circumvent local zoning ordinances.

The office of the Zoning Board of Appeals is located in the Ritter Memorial Building, 960 Massachusetts Avenue, Lunenburg. Business hours are 8:00 AM to 4:00 PM Monday and Wednesday and 8:00 AM to 6:00 PM Tuesday and Thursday, closed Friday. If you need any assistance from the Zoning Board of Appeals please contact us at 978-582-4146 X 421 during regular business hours. Zoning Board applications are available in the office and online at www.Lunenburgonline.gov.

Lunenburg Public Schools

Town Report 2023

Superintendent's Message

I am fortunate to have enjoyed six years working in partnership with the Lunenburg School Committee. Together we have remained focused on serving the best interests of the students. I am appreciative for the support of the Town Manager, Select Board and Finance Committee in our work to meet the educational needs of the children of Lunenburg.

The district has remained focused on execution of the Strategy for Continuous Improvement, which is aligned with our Mission and Vision:

The Mission of the Lunenburg Public Schools is to provide all students with the skills, confidence, and passion for life-long learning so that they may find their own paths to successful careers, active citizenship, and rewarding lives.

The Lunenburg Public Schools is committed to becoming a leader in education by focusing on its values of attending to the personal well-being of its students, providing high-quality curricula and student-centered instruction for deeper learning at all levels, and promoting the development of attributes and skills necessary for continuous learning for all.

Since the School Committee approved the Strategy for Continuous Improvement in November 2019, we have worked with intent to achieve our vision, putting the necessary infrastructure to support the well-being and academic achievement of all students in place. The Strategy is a living document reviewed by the District Leadership Team each August. In August 2023, the Strategy objectives were consolidated from four original objectives to a singular objective for the next two to three years. The Strategy is now centered on **Cultivating Climate & Culture**.

Cultivating Climate & Culture: To create a culture that values data use and fosters continuous learning in a climate that is safe, caring, inclusive and reflective of our core values.

Over the last five years, we adhered to our Strategy action plans. Guided by those action plans and our 5-Year Staffing Plan, we pursued and secured funding from grants to supplement our local budget in order to execute the Strategy. As a result, the district was able to:

- Add a Director of Teaching & Learning; Title I Coordinator; Literacy, Math, and Co-Teaching Coaches
- Increase district behavioral health staffing from six (6) guidance counselors and one (1) social worker to six (6) guidance counselors and five (5) social workers
- Adopt a standards-aligned, rigorous on-grade-level curriculum in ELA/Literacy K-8, math K-5 and pilot math curriculum 6-8 for adoption in 2024-2025
- Adopt a districtwide Tier 1 SEL curriculum
- Implement district benchmark assessments in literacy and math
- Add assessment tools to gather data in order to determine need for intervention
- Create an intervention model for academics and behavioral health
- Create a referral process for intervention
- Increase common planning time

Superintendent's Message

Now, with staff, curriculum and best practices in place, we are seeing improved student outcomes. We must continue to strengthen differentiation in instruction to meet the needs of all learners at all levels.

The district continues working to build a more inclusive culture in our schools. We have participated in several recruitment fairs to promote Lunenburg Public Schools employment opportunities to a more diverse pool of applicants. We have also established a Culture & Climate Council comprised of parents/guardians, staff and high school student representatives. This Council is currently working to articulate the roles of the student, parent/guardian, and educator in the education of each student. We believe articulating the roles and responsibilities in the relationship will ultimately foster more family engagement in the education of our students.

The School Committee has also maintained a focus on the aging Turkey Hill Elementary School. The building presents challenges and limitations for our teachers in terms of delivery of instruction in the modern era to elementary school-aged students. Our challenges include limited electrical outlets in classrooms and lack of energy efficiency, which is particularly evident with very warm or very cold weather conditions. The building has aging systems and system failures is a concern. It is important for the administration, School Committee, and other town boards and committees to continue to engage in discussion regarding the future of Turkey Hill Elementary School.

Over the last five years, we have utilized all available resources and worked with intent to impact student achievement and overall well-being in the post-COVID years and beyond. We have remained true to the Strategy for Continuous Improvement. There are now materials, structures, procedures, and expectations in place; however, if we expect to see continued improvement in student achievement, proper staffing levels are necessary. This will be one of our greatest challenges in the next few years as the additional grant funding sources wane.

"Determination is the product of three elements: a **GOAL**, a **COMMITMENT**, and a **FOCUS**. You have to have something to strive for. Then you've got to be committed. You've got to believe in your goal." ~ Dr. Alan Zimmerman

I want to express my gratitude to the Lunenburg School Committee for trusting me to take their priorities and hopes for the district and turn vision into action to bring that vision to life. I must acknowledge and thank our dedicated staff for their professionalism, flexibility, and hard work. Their commitment and efforts are making the learning experience for our students more equitable, meaningful, and impactful. Collectively, we set goals, committed to those goals and remained focused on those goals to provide a quality education for the children of Lunenburg.

Finally, each year I conclude my report with the announcement of the Superintendent's Award. I am pleased to announce Brionna Bowser as the recipient of the 2024 Superintendent's Award. Brionna's academic accomplishments include serving as National Honor Society President and receiving Academic Excellence Awards in Math, Spanish, Art, English and U.S. History. She was also an Academic All-Star Award recipient in Soccer. Brionna has a passion for soccer both as a player and as a coaching assistant for the youth league. She also volunteers her time at the food pantry, Kylee's Kare Kits, and her church. The accomplishment she is most proud of is attaining her lifeguard certification. Brionna believes in being present in the moment and when asked for a quote that best describes her she offered "Enjoy your life today, because yesterday has gone and tomorrow may never come." — Alan Coren

Respectfully Submitted,
Dr. Kate Burnham, Superintendent

School Facilities Department

It is my pleasure as your new Facilities and Grounds Director to provide you with an update on the Facilities and Grounds Department. My focus will be to maintain the day-to-day operations as well as streamline the services to be more efficient and productive while trying to reduce costs.

As I come into Lunenburg with 30 days on the job, I will be faced with several major Capital Improvement Projects going into 2024. Below you will find a status update on the Capital Projects that have been approved and funded.

School Truck w/Plow – The new School Truck has been delayed due to COVID-19. COVID put a huge backlog on the production of vehicles. I am anticipating that we will receive the new truck this summer.

LMHS Turf Field Feasibility Study (Phase 1) – This Capital Approved project for \$50,000 will allow Lunenburg Public Schools to engage with a Civil Engineering Study to outline the drainage problems on and around the perimeter of the existing turf field. This will also include drainage issues leading to the failure of the small block retaining wall and walkway as well as the Bin-block retaining wall supporting the press box. This project has gone out to bid and currently awaiting bid responses.

THES Exterior Door Upgrades/Replacements – This Capital Approved project of \$160,000 will allow Lunenburg Public Schools to solicit bids for a newly created vestibule for the front entrance of Turkey Hill Elementary School which will provide an extra layer of security for the front entrance. This project will include replacing selected exterior doors and hardware around the perimeter of the school. I am currently working on the Invitation to Bid documents and will be sent out to bid soon.

THES Security Upgrades – This Capital Approved Project of \$131,000 will allow Lunenburg Public Schools to solicit bid to upgrade our Door Access Controls and Security key pads. I am currently working on the Invitation to Bid documents and will be sent out to bid soon.

THES Fire Alarm System Upgrade – This approved project of \$287,000 will allow Lunenburg Public Schools to solicit bids to upgrade existing and/or install additional smoke detectors, pull stations and Horn/Strobes throughout the building based on building codes and regulations. I am currently working on the Invitation to Bid documents and will be sent out to bid soon.

District Window Safety Film – This approved project of \$130,000 will allow the School District to solicit bids to install Safety Film on all exterior doors and large windows on the first floor of the buildings. This will allow an addition layer of safety where seconds count. I am currently working on the Invitation to Bid documents and will be sent out to bid soon.

Primary School A/C Mini-Splits – This Capital Approved project of \$232,800 will allow Lunenburg Public Schools to solicit bids for newly installed Air Conditioning Mini-Split throughout the Primary School. I am currently working on the Invitation to Bid documents and will be sent out to bid soon.

Primary School Security Upgrades – This Capital Approved project of \$83,500 will allow Lunenburg Public Schools to solicit bid to upgrade our Door Access Controls and Security key pads. I am currently working on the Invitation to Bid documents and will be sent out to bid soon.

Respectfully submitted,
Eric Hevy
Director of Facilities and Grounds

Town Report 2023

Lunenburg Public Schools IT Review

The Lunenburg Public Schools Information Technology (IT) Department played a critical role in addressing the technology needs both inside and outside of the classroom. The Department also focused heavily on improving the district's cybersecurity posture. The following projects were completed as part of an emphasis on network security:

1. Network Upgrade: Hardware that was no longer able to receive security updates was replaced in all buildings.
2. Segmentation: The district's network was separated from the town's network. As a result, both district and town are less vulnerable to security threats.
3. Consultation: A full penetration test and vulnerability report was performed by an outside vendor and delivered to the district. The results provided useful data points and recommendations for further improvement.

Solutions supporting student safety were also addressed this year. SaferWatch was made accessible to staff throughout the district. This program can be installed on smart phones or PCs and acts as a distress button for emergencies. In addition, the Department also implemented GoGuardian to keep students safer on the web.

Technology continued to be a prevalent tool in the classroom. To support the growing need for devices, the district leveraged ECF (Emergency Connectivity Fund) to purchase new end-user devices for staff at Lunenburg Primary School. Grades 6 and 9 also received new Chromebooks.

The IT Department continued to manage and respond to all help desk requests with an extra focus on following best practices, student technology usage and excellent customer service. The team will continue to direct efforts towards improving end-user experience and protecting the district's technology environment from potential cyber threats in the new year.

**Respectfully Submitted,
Information Technology**

Special Services Department

Town Report – FY23 (data taken from 2022-2023 school year)

From the March 1, 2023 report (SIMS Report 5-Enrollment Statistics – District Summary), there are 228 students with disabilities receiving special education or related services in Lunenburg (last year there were 211). This represents 14.6% of our total student population of 1,560 students (it was 13.2% last year). The state average from the 2022-23 Selected Populations Report (data was last updated on Dec. 1, 2022) (<https://profiles.doe.mass.edu/statereport/selectedpopulations.aspx>) is 19.4%. From the March 1, 2023 report (SIMS Report 7-SPED Enrollment Statistics – District Summary), the total number of students receiving services outside the district was 7 (last year was 8). Of the 8 students, 3 are placed in Collaborative Placements, 3 are in Day Placements and 1 are in Residential Placements. Our Advanced Community Experience Program (ACE), which serves students ages 18-22 years old, had 4 students enrolled last year. Additionally, from the March 1, 2022 report, 155 students identified with a disability received accommodations via 504 plans in Lunenburg (last year was 130). For the 2023 school year, our Accountability Overall Classification was “not requiring assistance or intervention”. The reason for this classification was “Substantial Progress Towards Targets (57%)”. Participation rates in MCAS this year were as follows: High Needs = 100%, Low Income = 100%, EL and Former EL = n/a%, and Students w/disabilities = 100%. This data can be found at the DESE website:

<http://profiles.doe.mass.edu/accountability/report/district.aspx?linkid=30&orgcode=01620000&orgtypecode=5&>

Other data collected throughout the year is also important to consider when looking at the whole Special Services Department. DESE requires us to collect data for certain Indicators they are targeting each year. For our Indicators, the following information is available below and also can be found at: http://profiles.doe.mass.edu/gis/sped_map.aspx?orgcode=01620000&

Indicator 1 – Graduation Rate. For the 2021-2022 school year, the state target for Students with IEPs was 77.33% (was 76.33% last year). Lunenburg's rate was 66.7% (was 55.6% last year) and the overall state rate was 82.1% (was 80.4% last year) for Students with IEPs.

Indicator 2 – Dropout Rate. For the 2021-2022 school year, the state target for Students with IEPs was 13.47% (was 13.97% last year). Lunenburg rate for Students with IEPs was 11.1% (it was 0.0% last year) and the overall state rate was 11.4% (was 10.4% last year).

Indicator 3C – Proficiency Rate for Students with IEPs on MCAS. 2021-2022 was a benchmark year so there is no state target for the Proficiency Rate for Students with IEPs on MCAS in English/Language Arts and in Mathematics.

The 2021 district-level data on the performance of all students with IEPs on MCAS, including Next-Generation MCAS, Legacy MCAS and the MCAS-Alt, is available at:

<http://profiles.doe.mass.edu/mcas/subgroups2.aspx?linkid=25&orgcode=01620000&fycode=2021&orgtypecode=5>

http://profiles.doe.mass.edu/mcas/achievement_alt_level.aspx?linkid=116&orgcode=01620000&fycode=2021&orgtypecode=5

Indicator 4 – Suspension (more than 10 days)/Expulsion for Students with IEPs. For Lunenburg, our rate was 0.0% (last year it was 0.0%). The state rate was .1%. Additionally, Indicator 4B records significant discrepancies with the Suspension/Expulsion rates by race or ethnicity. In 2022, Lunenburg was not found to have any significant discrepancies due to these factors.

Indicator 5 - Educational Environments for Students Aged 6-21 with IEPs. For 2021-2022, the state's rates are as follows: for Full Inclusion of students = 66.9%, Partial Inclusion = 13.3%, Substantially Separate Placements = 13.6%, and for Separate Schools/ Residential Facilities/Homebound/Hospitals = 6.2%. In Lunenburg, our percentages are as follows: Full Inclusion = 69.7%, Partial = 7.6%, Substantially Separate = 14.2% and Separate schools, Residential, etc = 8.5%.

Indicator 6 – Educational Environments for Students Aged 3-5 with IEPs. The 2021-2022 state rates showed the percent of students receiving a majority of their special education and related services in a Full Inclusion early childhood program was 50.4%, in a Partial Inclusion Program was 16.1%, a Substantially Separate Placement (special education class, separate school, or residential facility) was 19.9%, and students not attending an early childhood program but receiving only a related service (e.g. speech, OT, PT) was 13.4%. In Lunenburg, our early childhood Full Inclusion rate was 25%, our Partial Inclusion rate was 18.8%, Substantially Separate rate was 56.3%, and Related Services was 0%.

Indicator 7 – Early Childhood Outcomes. Districts participate in Indicator 7 data collection as part of a 4 year cycle in which they report exit data on children for whom they have collected entry level data; exit may occur at any time during the subsequent three year period as the children leave the preschool program. Lunenburg's 2021-2022 cohort reporting year results are suppressed for districts reporting 10 or fewer students.

Indicator 8 – Parent Involvement. This indicator measures the % of parents with a child receiving special education who report that school facilitated parent involvement as a means of improving services and results for students with IEPs. For 2021-2022 the state target was 89%. Lunenburg's rate was 7.3% and the state's rate was 10.7% (from information collected in the Spring of 2022).

Indicator 9 & 10 - Both of these Indicators deal with Disproportionality in Special Education and in Special Education Categories. In Lunenburg, the state determined that there was no disproportionality found in either case.

Indicator 11 – Initial Evaluation Timelines. This indicator measures the % of children with parental consent to evaluate, who were evaluated within the State established timeline (2017-2018). Data is reported for all initial evaluations initiated in October, November, and December of the reporting year. Lunenburg was rated 90% in compliance and the state average for this Indicator was 100%.

Indicator 12 – Early Childhood Transition. This indicator measures the % of children referred by Part C, found eligible for special education services, and who have an IEP developed and implemented by their third birthdays. The state target for this indicator is 100% and Lunenburg is noted as "Suppressed"(last school year reviewed was 2017-18). Data is suppressed if the number of students referred by Part C and found eligible for special education services is fewer than 10.

Indicator 13 – Secondary Transition. In all years, the state target for Secondary Transition is 100%. This indicator measures the % of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition service's needs. Lunenburg was last reviewed in this area in 2017-2018 and was 83.3% in compliance.

Indicator 14 – Post-School Outcomes for Students with IEPs. This indicator measures the % of students with IEPs who exited high school during the 2021-2022 school year and self-reported post-school engagement in education or employment one year after leaving high school. Engagement is defined through three measurements:

Measurement A: Enrolled in higher education within one year of leaving high school.

Measurement B: Enrolled in higher education or competitively employed within one year of leaving high school.

Measurement C: Enrolled in higher education, or in some other postsecondary education or training program; or competitively employed, or in some other employment within one year of leaving high school.

Measurements are cumulative with Measurement C reflecting the total number of exiters engaged in a post-secondary activity one year after leaving high school. For the 2021-2022 school year, state targets for the three measurements of Post-School Outcomes are Measurement A: 50.2%; Measurement B: 79.6%; and Measurement C: 87.30%. Lunenburg rates are as follows (from reporting year 2021-2022): Measurement A = 50%, Measurement B = 75%, and Measurement C = 75%.

The Parent Advisory Council Supporting All Learners (PACSAL) continues to be an active support group for parents, teachers and administration. All parents and community members can join the group, which currently consists of parents of students receiving Title I services and parents of students with disabilities. Meetings are currently being held quarterly, 6pm, via Zoom. The executive board is made up of a Chairperson: Nichole Camelo. For more information, go to: <https://sites.google.com/a/lunenburgschools.net/lps/departments/special-services/pacsal?authuser=0> In addition to the district PACSAL, Lunenburg also participates in a Regional SEPAC group. Information from this group is on Facebook at “Regional SEPAC – Central MA”

The Lunenburg Public Schools continues to provide a variety of special needs services to meet the varying needs of our students in the least restrictive environment. We have an experienced, hard working staff that works together with parents to provide these varied services. Our parents are equal partners in our efforts to develop challenging and focused educational programs for children. We remain committed to the Lunenburg Public Schools mission, “The mission of the Lunenburg Public Schools is to provide all students with the skills, confidence, and passion for life-long learning so that they may find their own paths to successful careers, active citizenship, and rewarding lives.” We are proud of our staff, students, and families and their collaboration and dedication to meet the needs of all students.

For additional information, please visit our website at: <https://sites.google.com/a/lunenburgschools.net/lps/departments/special-services>, or contact Julianna Hanscom, Director of Special Services, Special Services Office, 1025 Massachusetts Ave, (978) 582-4100, ext. 5223.

Respectfully Submitted,
Julianna Hanscom, Director of Special Services

Teaching & Learning Models and PD Update Town Report 2023

Teaching and learning is the crux of our school system. We have been working diligently as a district to provide high-quality materials and instruction to students, provide targeted interventions and challenges to our learners to support the learning process.

Using high-quality curriculum materials which are standards-aligned, inclusive, rigorous, and engaging is a priority for the state of Massachusetts and for our district. We are in our second year of implementation for our new English language arts and math curriculums, Into Reading and Into Math, at grades K-5. Teachers have been making adjustments and refinements to practice, having taught all of the modules at least once. We are also in our first year of implementation for Amplify, our new middle school language arts curriculum, and we are in the process of evaluating and selecting a high-quality math program for our middle school as well.

Structured common planning time for teachers in grade level continues for grades K-8. Our district literacy coaches meet with teachers during common planning time to support curriculum development and help foster student growth. High school department heads structure department meeting time to facilitate the necessary curriculum work needed to move each department forward and improve learning for students.

The Lunenburg Public School District is participating in the Multi-Tiered Systems of Support (MTSS) Literacy Academy, the Inclusive Practices Academy (based on the Universal Design for Learning), and the Social Emotional and Behavioral Academy (SEB) through the Department of Elementary and Secondary Education (DESE). All three academies provide coaching sessions and technical assistance in and assist our district with creating action plans.

Lunenburg Public Schools uses multiple assessments to evaluate student achievement and growth and to be able to provide supports and targeted interventions. Students in grades K-8 completed the fall and winter iReady diagnostic assessment in both reading and math, and teachers are participating in data cycles to analyze data, plan for targeted support, and adjust instruction. Personalized learning platforms through iReady provide differentiated instruction, systematic practice, and scaffolded feedback in both reading and math.

We are also using DIBELS (*Dynamic Indicators of Basic Literacy Skills*) along with i-Ready to determine how students are performing on the critical skills necessary for reading: phonemic awareness, phonics, fluency, vocabulary, and comprehension. In math, we use the Forefront Universal Screener for Number Sense.

Lunenburg Primary and Turkey Hill have implemented a multi-tiered support system (MTSS) that provides each school with a lead interventionist and two tutors to support students who are struggling to meet grade-level expectations in reading and math. In order to meet the needs of all students, a team of educators work with our literacy and math specialist to analyze multiple data points so that targeted interventions for support and/or enrichment can be provided. Student progress is carefully monitored and adjustments are made as necessary.

For professional development, we have been working with Dr. Kalise Wornum, owner of KW diversity. Dr. Wornum has provided district staff with multiple sessions on cultural competence, and we have received much positive feedback around the impact of this work. We have also been working to improve inclusion and safety for our LGBTQ students. Students in our Gender and Sexuality Alliance (GSA) club at LHS worked with district staff during our November PD day to present and answer questions, and we recently had Landon Callahan from DESE's Safe Schools for LGBTQ Students present to our faculty from grades 6-12.

We have continued with our After School Program at Turkey Hill Elementary School, Lunenburg Middle School, and Lunenburg High School. The program provides targeted support in literacy and math in addition to academic support for students' current classes and with executive functioning skills.

We continue to review and pursue grant opportunities which are presented by the Department of Elementary and Secondary Education and have received the Student Opportunity Act - Evidence-Based Practice Grant, the Arts and Cultural Vitality Index Grant, the Deeper Learning Grant, and the Accelerating Literacy Grant for FY24.

In September of 2023 Massachusetts legislative leaders announced that universal free school meals would be permanent for K-12 students in Massachusetts regardless of household income. Ensuring all students have access to the nutrition they need during the school day. As one of the few states continuing this transformative program, Massachusetts is leading the way in addressing child nutrition, child hunger, and taking a more holistic approach to student needs. As a direct result of universal free meals the Lunenburg school lunch program participation has grown substantially.

Lunenburg School Lunch Program continues to participate in Harvest of the month promoting a different Massachusetts-produced food each month in our cafeterias. This year we partnered with Fairview Orchards a small family farm located in Groton, Massachusetts. A third generation run business, which began in 1945. The family's mission is to bring local fresh fruit to schools in our community and surrounding areas. The students and staff have enjoyed the delicious apples from Fairview Orchards.

We welcome some new employee's to our team Brenda Mahar and Kathy Dunlop.

LUNENBURG PRIMARY SCHOOL Town Report 2023

The Lunenburg Primary School is a student focused, early childhood, learning community serving students enrolled in preschool through grade 2. Student ages range from three to eight years of age. Our community is composed of students, families, instructional and support staff. Our focus is on the academic, social emotional growth, and development of the whole child.

The October 1, 2023 student enrollment reported to the Department of Elementary and Secondary Education was 394 students. With 48 preschool students, 107 kindergarten students, 116 first grade students and 123 second grade students. Class sizes range in 5 kindergarten classes from 19-23 students, from 18-22 students in five grade one classes, and from 20-23 in six grade two classes.

Our professional development has centered on inclusive practices and continuing to refine our instruction using the HMH Into Reading and Into Math curriculums. Common Planning Time continues to be a priority for our building schedule and the reallocation of existing support staff to address student needs based on student performance data. We have been able to access consultants as well district curriculum coordinators so that teachers have an opportunity as a whole grade level to develop and provide evidence based instruction, common learning experiences, student data analysis and share effective teaching strategies to support student academic growth.

Our staff works to maintain a school culture which is positive, inclusive, and supportive. We continue to implement the Responsive Classroom model in all of our classrooms. We have increased our use of Positive Behavioral Interventions and Supports (PBIS). Which is

an evidence-based three-tiered framework for improving and integrating all of the data, systems, and practices affecting student outcomes every day. We have added monthly themes for students and staff to discuss and complete an activity about. Working with our SRO and his emotional support canine, Hank, we recognize students monthly with Hank's Helper awards. The awards are presented to students who exemplify the qualities of being a helper and consistently showing kindness and respect to themselves, their building, and to the people in their school community. During these assemblies we also select students to have Snack with the Principal, a way to connect with small groups of students about their school experiences. We continue to use Trails to Wellness, which is a whole-school/district-wide approach to teaching social emotional learning. It is designed to help students recognize, understand, describe, communicate and regulate their emotions and provide them with the tools they need to create and maintain positive social interaction with their peers.

The Primary School is a Title One school and we have continued our tiered instructional system to ensure that all students have the services they need to be successful. Common assessments are completed in the fall, winter, and spring for all children in grades K-2 in the areas of reading, writing, and math. These common assessments serve to monitor the effectiveness of teacher instruction and the progress of students. Struggling students are identified based on assessment data for access to our current Multi Tiered Support System (MTSS) in Reading, Math, Speech, Occupational and Physical Therapy. The MTSS model is also used to provide social emotional support for students that are referred to our building Behavioral Health Support Team.

The Primary School Council meets each month to discuss school related concerns. Serving as an advisory group to the principal, the council is charged with reviewing the school building budget and developing the school improvement plan.

Members of the Council for the 2023-2024 school year are:

Principal: Chad Adams

Assistant Principal: Gina Kutarnia

Teachers: Kirsten Snape, Kara Slattery, Nicole Bienvenu, Tara Bastien, Jillian Lundstrom

Parents: Gretchen Moscon, Shaunna Baril, Laura Kelly Ruth Isaac

School Committee Rep: Brian Lehtinen

We are truly grateful for the opportunity to work with our highly dedicated district wide colleagues and a caring community in order to provide the best possible educational opportunities for our youngest students.

For more information about the work that we do at the Lunenburg Primary School please visit our website:

Turkey Hill Elementary School Town Report 2023

Turkey Hill Elementary School is an elementary school serving students in third grade through fifth grade. In the fall of 2023, Turkey Hill Elementary School welcomed 369 enrolled students. There are five sections of grade 3 and grade 4, with a total of 113 students and 109 students respectively. There are six sections of grades 5 with 147 students. Our unified arts areas include physical education, art, music, library, STEM, and SEL (social emotional learning). We are also served by a full time assistant principal, full time nurse, a psychologist, a full time adjustment counselor/social worker, guidance counselor, and 23 full time teachers. Other support personnel who work across the district include a co-teaching coach, a math coach, a Director of Teaching and Learning, two EL teachers, a speech and language pathologist, BCBA, OT, and PT. In addition, we have two interventionist tutors providing targeted support for small groups of students.

Staff continually work on the development of the whole child by supporting students' development and growth in the areas of social emotional learning, literacy, math, social studies and science. We are able to meet student needs with the support of the district curriculum of teaching and learning and the two coaches which enables teachers to have the opportunity to meet at grade levels to develop and provide evidence based instruction, common learning experiences, student data analysis and share effective teaching strategies to support student academic growth. Students continue to have benchmark assessments three times throughout the school year (beginning, middle and end of year) that are used to help us celebrate students' academic growth and effort. The data provided by these assessments also helps refine our focus for interventions.

This fall our fifth grade students had their annual trip to Nature's classroom. It was a successful week with good weather, community building, and the creation of fond memories of a unique time together, thanks to the combined efforts of our entire fifth grade staff.

We held an in-person open house in early September. It was a well-attended event and for many parents their first opportunity to be physically present in our building. It was accompanied by a book fair facilitated by our new librarian, Mrs. Mack. Parent conferences in October offered both in person and virtual options and appointments were fully booked within a few days.

Other highlights from the fall season included the Girls on The Run program, a research based program designed to help girls understand themselves better, value their relationships and teamwork, and recognize how they can shape the world to be a better place! Over 30 girls participated, with the assistance of many parents and volunteers, headed by Amber Gothie and assistant coaches Kathy Jones and Principal Squier.

We held our annual Penny Wars fundraiser, it was a huge success and the money raised will be put toward the development of our outdoor classroom. As always, our PTO assisted in the weeklong collection, headed by parent Alex Lind; we could not be successful without their efforts. We were able to bring back a fifth grade band and all students will be performing in an upcoming spring concert under the direction of our new music teacher, Mr. Anthony Balester.

Turkey Hill also held its annual Turkey Trot in November. This year due to the weather we had to pivot and held the race indoors with a portion outside.

Our PBIS committee has led the staff in the effective implementation of both PBIS and restorative justice at Turkey Hill. Positive Behavioral Intervention Supports (PBIS) involves using evidence-based prevention and intervention practices to support academic, social, emotional and behavioral competence of all students. This year our students voted on a mascot name "Tom Turkey" and rotation stations were held in January to reinforce the expected behaviors in school. Our students are caught "SOARing" which stands for Be Safe, Own it, Act Responsibly, & Be Respectful. Restorative justice focuses on mediation and agreement rather than punishment. It's about accepting responsibility for harm and making restitution. Our focus has shifted from a penalty to "how can we make it right?" Students have been remarkably engaged in offering apologies, cleaning up, and making appropriate amends.

The Turkey Hill School Council meets each month to discuss school related concerns. Serving as an advisory group to the principal, the council is charged with reviewing the school building budget and developing the school improvement plan.

Members of the Council for the 2023-2024 school year are:

Principal: Carla Squier

Assistant Principal: John Palumbo

Teachers: Quinn Cavaco, Rhonda Connery, Julie Ferdella

Parents: Gretchen Moscon, Matthew Brenner, Meryeme Benharoune

School Committee Rep: Laura Brzozoski

Our school's success relies upon the combined and collaborative efforts of our wonderful staff, parents, and community members. We continue to seek out opportunities to engage and effectively communicate with our families. I am honored to be chosen as your principal.

For more information about the work that we do at the Turkey Hill Elementary School please visit our website:

Lunenburg Middle School Town Report 2023

Lunenburg Middle School provides a rigorous academic curriculum as well as strong programs that support students' social and emotional growth. These programs ensure that each child becomes a self-motivated, creative, lifelong learner in a safe, stimulating environment that encourages diversity and open honest communication. The dedicated and accomplished staff of professionals within the school embraces the philosophy of educating the whole child academically, socially, and emotionally. This philosophy is a means by which all students become positive community members that possess the skills to be successful in high school and beyond.

Lunenburg Middle School is a co-located middle - high school serving grades six through eight. Our effective, student centered middle school embraces interdisciplinary teams of teachers that enable teachers to work with smaller groups of students. Smaller groups of students allow teachers to learn and engage students in their preferred learning style, making them more confident and successful.

Our effective middle school model is student centered and provides opportunities to explore a variety of different interests and talents through special areas and enrichment classes and extracurricular activities. One of our goals is for students to discover something they are passionate about and want to continue exploring as they move through high school and beyond. We will continue to seek out opportunities for students that foster critical thinking and problem solving skills that prepare them for high school and beyond or where their passion may lead them to.

Our grade eight team of teachers continue to implement a schedule that mirrors the high school schedule. Our philosophy is to ease the difficult transition from middle school to the first year of high school by developing student's independent skills they will require to be successful in high school. Grade eight teachers function as one inclusive team where students take classes with a variety of different teachers as they would in a high school setting. This differs from our two interdisciplinary team of teachers that have been a successful model in grades six and seven.

LMS continues to utilize the *i-Ready* learning platform to provide an additional learning component in addition to classroom instruction. i-Ready is being implemented during our intervention blocks and provides teachers with individualized learning paths based upon the students individual learning needs. Parents will be provided fall, winter and spring benchmark assessment reports created by I ready so they too can monitor student progress.

Lunenburg Middle School has benefited from a top notch guidance support team. Two guidance counselors, a school social worker coupled with our shared school psychologist has been able to provide a level of social emotional support to our students and their families that we have not been accustomed to. Data supports the need for these positions as during the pandemic, the number of students experiencing anxiety and depression has significantly increased nationwide and in our own community. Our guidance team has been able to meet the needs of our students while preparing them to be available for academic learning.

2023 Spring MCAS Score

	% Meeting or Exceeding	% State Meeting or Exceeding
Grade 6 ELA	40	42
Grade 6 Math	58	41
Grade 7 ELA	46	40
Grade 7 Math	49	38
Grade 8 ELA	56	44
Grade 8 Math	41	38
Grade 8 Sci/Tech/Eng	54	41

2023 Spring MCAS testing at LMS shows the percentage of students who scored in the “meeting or Exceeding” category and then the column next to it shows our scores in comparison with the state scores in schools who service similar grade levels. As you can see, LMS scores are above the state percentage in six out of the seven areas tested. In grade 6 Mathematics, our scores are over 17 points higher than the state average, an impressive number. Lunenburg Middle School continues to be a high performing school when compared to other schools in the state that service similar grade levels.

Athletics and clubs

LMS successfully participated in middle school Field Hockey and Boys and Girls Cross Country and this winter we will continue with middle school basketball. The opportunities middle school sports provides students to participate, learn and become part of an effective team atmosphere is immeasurable.

Science Olympiad, Drama Club, Yearbook Club and middle school Student Government return as favorite activities for students to engage in. Student Government continues to provide opportunities for students to engage in age appropriate extracurricular activities like dances, spirit weeks and movie nights.

Lunenburg Middle School continues to provide high quality educational services and supports that ensure student success and promote a passion for lifelong learning. The key components to our success continue to be our talented faculty committed to making a positive impact on students, our parents and community who support our teaching and learning, and most of all, our students who inspire us through their commitment to learning. Together we continue to make a difference in the lives of students.

Lunenburg High School Town Report 2023

Lunenburg High School and its faculty continue to focus on rigorous curriculum, high standards and opportunities for students, both academic and extracurricular, so that every student feels supported and included in our community. LHS faculty strives to reflect on their teaching practices, to learn and to change in order to best serve all of our students.

2023-2024 School year

Lunenburg High School returned this August with a renewed philosophy of support for our school community. We have assembled an outstanding, talented faculty with a shared vision of supporting students academically, socially and emotionally as they tackle a rigorous and challenging curriculum. With our renewed sense of support, students are able to acquire the skills necessary to earn a high school diploma as well as be successful in post-secondary education as well as in the work force.

One pillar of support that has proven to be successful for students is the LHS Intervention Teacher. This teaching position provides direct instruction to students who were identified by their teachers as needing additional support to be successful in the classroom. Students report to the Interventionist during their study skills block and receive assistance to the specific class or classes they are struggling in. The data show the students participating in the intervention classroom show substantial improvement in the completion of classwork and in their overall grades.

We have reorganized our Algebra classes to ensure all students are successful. With the addition of a classroom teacher we were able to reduce class sizes in Algebra II and allow teachers to provide more personalized, individualized instruction while working with smaller groups of students in a traditionally academically demanding course. This has been an effective strategy as you can see through our results in the MCAS table below.

The addition of faculty and courses at Lunenburg High School have allowed students a more varied options for course selection, provided individualized and programmatic support and structure for students to be successful.

MCAS RESULTS

Lunenburg High School - Spring 2023 MCAS Results (Grade 10)

Subject Test	Exceeding Expectations /	State Average (EE/ME)
ELA	62%	58%
Math	65%	50%
Science	52%	47%

The results indicate the LHS percentage scores for meeting and exceeding expectations are high, higher than the state average and in mathematics, over 15 percentage points higher than the state average when compared to schools who serve students in similar grade levels. Investing in a sixth math teacher that reduced class sizes and provided students with additional individual classroom support was a successful strategy. The percentage of grade 10 students scoring in the meeting and exceeding expectations category in mathematics is the highest percentage in the district.

We were also very pleased to learn that 30 students at Lunenburg High School received the state's John and Abigail Adams Scholarship this year. The scholarship is available to students whose MCAS performance puts them at the top 25 percent of their district. To be eligible, students must either score Advanced on one exam and Proficient on the other, or Advanced on both the English and Math exams. That is approximately 30 % of grade 10 students receiving the award.

HOMEcoming, ATHLETICS AND EXTRACURRICULAR ACTIVITIES

Homecoming weekend was a wonderful and well attended by students, families and alumni. We were lucky we were able to reschedule the event and get such nice weather. The parade was a huge success with the collection of candy the biggest hit with the children in town. Many community members noticed the care and time that were placed into the floats at each grade level. The Blue Knights played well and were victorious in the football game and we always enjoy watching the LHMS Marching Band perform.

Lunenburg High School Athletic Accomplishments

The athletics department has had a great fall season. Girls soccer, boys soccer, and field hockey all won their league titles. Our cheer team competed in the Wachusett Invitational competition and took home a 2nd place trophy, their first such accomplishment since 2008. Golf placed 3rd overall in the league match. Cross Country competed in the Mid-Wach championship meet prior to all of the homecoming festivities. Football finished their season with a 4-7 record. Girls soccer and field hockey took their seasons all the way to the Sweet 16, while boys soccer made it to the Elite 8! What an accomplishment by all three teams.

Our middle school field hockey and cross country teams have also had great seasons. The Cross Country team competed in the Central Mass Championship and had some individual accomplishments. Our middle school students have grown a tremendous amount over the course of their respective seasons, and we look forward to watching these young athletes for years to come.

Winter:

Our winter teams have started their season, and we already have some fantastic highlights.

- Boys & Girls indoor track have four race days under their belt. Some highlights include: Carli Stanford setting the school record in the 300m with a time of 41.63; 4X400 girls relay team of Rylan Arnold, Emma King, Olivia Coronella, & Carli Stanford set a meet record at the MSTCA Speed Classic with a time of 4:18; Lauren Long won the girls 2 mile at the MSTCA Winter Festival
- Our Boys Hockey team is 6-0-1, and has shown an explosive offense that highlights a mix of veteran's as well as some dynamic younger players. The team is coming off of a Mark Bushnoe tournament championship. This was Lunenburg's first Bushnoe tournament win in five years.
- Our Boys & Girls Basketball teams both competed in the championship game of the inaugural Bud Tackett Memorial Tournament, a tournament that benefits local students while honoring the life of formal official Bud Tackett.
- Girls Basketball currently sits at 2-3, having already matched their win total of last year. Girls basketball won the championship in the Bud Tackett tournament.
- Boys Basketball is 3-2, and is showing signs of steady improvement. We look forward to seeing them compete in upcoming games. They just beat North Middlesex in a buzzer beater thriller.
- Our middle school basketball teams are off and running as well. The first games of their season were home in Memorial Gymnasium.
- Our ski team has a few practices under their belt, but are waiting for the weather to cooperate to start competing.

Lunenburg has two players competing with Leominster girls hockey team as part of our co-op. They have started the season 3-1.

CURRICULUM

Teachers and administrators continue to refine, revise and create curriculum that is aligned to the state frameworks and is rigorous and challenging. This year's focus is to work in vertical content area teams to ensure a smooth transition for students as they advance grade by grade. This process also ensures that students will have and build upon the educational skills that they will need to be successful in future grades. Scope and sequence maps have been created in order to assist in this grade level curriculum mapping.

Lunenburg High School continues to provide a high quality education that ensures student success and promotes a passion for life-long learning. The key components to our success continue to be our talented faculty, our parents and our community members who support our teaching and learning. Most of all, our students who inspire us through their commitment to learning. Together we continue to make the difference in the lives of students.

ANNUAL REPORT 2023

Montachusett Regional Vocational Technical School District
1050 Westminster Street
Fitchburg, MA 01420
www.montytech.net

Letter *from* Leadership

As a first-year Superintendent, I could not have asked for a better, more productive 2022-2023 school year. While I have been a part of this extraordinary educational community for ten years, the perspective from which I am now able to view our work, our accomplishments, and certainly our student achievements, has shifted and given me new purpose. I am honored and humbled to lead Montachusett Regional Vocational Technical School District, and am proud to share a few highlights in the following report.

Workforce training continues to be a priority at the local, state and federal levels, with additional funding meant to incentivize schools like Monty Tech to get creative, and develop new training programs for high school students and adult learners seeking a career change. Monty Tech School of Continuing Education has expanded outreach to market all-new, no-cost vocational training programs to unemployed or underemployed individuals. Having received more than \$1.6M in workforce training funds from Commonwealth Corporation to support this effort, the School of Continuing Education now offers free vocational training programs in Carpentry, CNC Operation, Culinary Arts, Electrical, HVAC Repair, Plumbing, and Welding. These programs are designed to provide participants with opportunities to earn valuable industry-recognized credentials, hands-on learning experiences, and job placement services upon program completion. At press, 42 adult learners have successfully completed their programs, been placed in jobs that align with their newfound skillset, and have been successfully employed for more than 3 months. This is an effort we continue to be so proud of.

While we have enjoyed expanding access to our instructional spaces, training equipment, and technology to serve our evening students, we remain committed to seeking competitive grant funding that will allow us to improve and update instructional spaces so that our high school students stay ahead of the curve in their training and career aspirations. With more than 230 students participating in the popular co-op program, working and learning from experienced tradesmen and women in our area, our commitment to align our training programs to serve the needs of our region's workforce has never been more important. In 2022-2023, we heard from a local metal fabrication employer who asked us to consider adding a specific certification to our curriculum, so our graduates would be better prepared to enter the workforce without a delay or need for additional training. So without hesitation, our instructors added the necessary lessons, and embedded an OSHA 10 Construction certification into the program. We heard from a local restaurant owner who asked if we could expand our training to include more sous vide preparation and improved knife skills to the students' training regimen. That request was honored immediately, and a student is currently working with that restaurant owner, demonstrating his improved skillset. We know that training students on new and improved equipment, while adapting and modifying our curriculum to address immediate workforce needs will, in the end, serve our students best – our ultimate goal. Monty Tech is steadfast in its commitment to providing a highly-skilled workforce to its industry partners throughout our region.

Finally, and perhaps the most transformative accomplishment in 2022-2023, is an innovation that does not serve the immediate Monty Tech school community, but rather will benefit high school students enrolled in Fitchburg, Gardner and Narragansett Regional School Districts. While we have significantly expanded and updated our training programs, there are still so many young people without access, who would benefit from meaningful career and technical education. To that end, we researched, applied for, and received a \$1.9M grant that will allow us to develop an all-new vocational training space, designed to serve high school students during the day, and even more adult learners in the evening. Dubbed the Montachusett Vocational Partnership (MVP) Academy, this new training space will open its doors to more than 80 students in Fall 2024. We are honored to lead this trailblazing partnership, and expect it to become a model other vocational schools will emulate in the coming years.

Thank you for your continued support of Monty Tech – a school that I am so honored to lead.

Respectfully submitted,

Thomas R. Browne, Superintendent-Director

Our School Community

Montachusett Regional Vocational Technical School is a four-year career and technical high school serving the member towns of:

Ashburnham
Ashby
Athol
Barre
Fitchburg
Gardner
Harvard
Holden
Hubbardston

Lunenburg
Petersham
Phillipston
Princeton
Royalston
Sterling
Templeton
Westminster
Winchendon

On June 1, 2023, student enrollment at Monty Tech included 1,394 students in grades nine through twelve, representing each of the district's eighteen sending communities. Each class of students is comprised of a relatively equal balance of male and female students, and each is prepared to explore an interest in one of the school's twenty-one rigorous vocational-technical programs. While the school currently offers only five non-traditional programs for male students, and twelve non-traditional programs for female students, we are proud to have a student population that is well-balanced by gender and a variety of academic interests and achievements.

2022-2023 Enrollment by Town

Financial Report

In an effort to develop a cost-effective budget for the fiscal year 2022-2023, a great deal of effort was put forth by the School Committee, administration, and staff. The final fiscal year 2022-2023 Educational Plan totaled \$30,796,896 which represents a 7.6% increase over the 2021-2022 Educational Plan which is driven largely in part by the 7.6% increase in the District's required minimum spending established by the Department of Elementary and Secondary Education. The District's FY23 budget only exceeds the minimum spending required by Massachusetts General Law Chapter 70 by \$60,000 or 0.20%.

To supplement the local budget, school officials pursue grant funding to provide valuable educational and social services to the diverse student population. For fiscal year 2023, state and federal grant sources provided the school with \$3,552,996. Programs funded by these grants include: Elementary and Secondary Schools Emergency Relief Funds, Improving Teacher Quality, Special Education Services and Program Improvement, Title I Support, Perkins Occupational Education, Vocational Capital Equipment Initiatives, Life Sciences, Student Support and Academic Enrichment and Marine Corp Junior Reserve Officer Training.

The District will participate in an annual financial audit, conducted by the accounting firm of Melanson, Heath and Co. from Greenfield, Massachusetts. School officials anticipate a good report.

Expenses for the 2022-2023 school year include:

Attending *Monty* Tech

As vocational schools across the Commonwealth grow in popularity, and the value of vocational training becomes more evident, we have seen a steady increase in the number of students applying for admission to Monty Tech.

With seats available limited only by our building capacity, and a deep understanding of the increasing demand, school leaders continue to work with

area school and business leaders to develop and expand programs to address this concern. Whether these new programs are offered in the evening through the School of Continuing Education, or even during the traditional school day, our goal is to expand access so that students who hope to enter the workforce may do so with a set of valuable skills and industry-recognized credentials that will make them more employable, and better equipped to grow and learn in the occupation of their choosing.

While Monty Tech continues to ensure that students are job ready immediately after graduation, not all students who graduate from Monty Tech choose to enter the workforce upon completion. In fact, several of the school's vocational training programs prepare students for advanced education and training in high-wage, high-skill careers in engineering, allied health, business, education and computer sciences, field that demand a bachelor's and even master's degree. As such, it is imperative that the school also prepare those students for college level coursework.

CLASS OF 2023 POST GRADUATE PLANS

Students who attend Monty Tech must successfully complete all of the same academic requirements that students in comprehensive high schools complete, but at Monty Tech, students are only in academic classes every other week. Many students may find adjusting to this week on – week off schedule challenging, but it is this same schedule that provides Monty Tech students with time to explore and learn in a chosen vocational program at a deeper level. Whether running the school's on-site, full-service restaurant, operating the School Store, building a home for Habitat for Humanity, or performing community services across our sending communities, Monty Tech students are developing technical skills, while also learning critical time management and study skills. We are confident that whether our graduates choose to pursue college or career pathways, they are prepared for what lies ahead.

Academics

While students attending Monty Tech benefit from project-based, hands-on learning often associated with a vocational-technical high school experience, they must also complete all of the same academic requirements that their peers in comprehensive districts accomplish. At Monty Tech, we believe a well-rounded high school

experience includes rigorous and meaningful academic lessons. We are proud of our students' accomplishments in the classroom, as well as in their vocational shops.

During the Spring of 2023, 10th grade students took the Next Generation MCAS in English Language Arts, Mathematics, and Biology. Select 9th graders also sat for the Next Generation MCAS Biology exam. Students performed well across all subject areas, with remarkable passing rates of 98% in English Language Arts, 98% in Mathematics, and 98% in Biology.

Monty Tech's academic programs continue to evolve to prepare graduates for diverse and challenging college and career pathways, and are widely known to effectively prepare students at all levels to reach their goals. A focus in recent years has been the incorporation of new and updated materials and coursework to expand STEM opportunities for students. In FY23, Monty Tech was awarded a Massachusetts Life Science Center grant, developed in collaboration with our post-secondary partners at Fitchburg State University. Using the \$110,000 award, Monty Tech instructors worked collaboratively to align course expectations with FSU's Anatomy & Physiology class, laying a foundation for a first-ever articulation agreement with FSU. Additionally, students who successfully complete the course will earn 4 college credits at FSU, saving them time and as much as \$1,900 as they consider pursuing STEM college pathways. This grant has also provided funds to help modernize another science lab classroom to meet 21st Century lab requirements.

	2019	2020	2021	2022	2023
Total AP Students	113	106	142	120	184
Number of Exams	148	146	189	162	244
AP Students with Scores 3+	69	75	61	82	104
% of Total AP Students with Scores 3+	61.06%	70.75%	42.96%	68.33%	56.52%

In May of 2023, our students participated in Advanced Placement (AP) exams and student performance showed outstanding results. A record number of students (184) participated in AP Exams, taking 244 AP Exams collectively. 104 of these students were eligible to receive college credit with qualifying scores of 3+. Although the percentage of qualifying scores at 57% is lower than last year's percentage, the total number of students earning qualifying scores is the highest we've seen in 5 years. With regard to specific exams, AP Chemistry had the highest number of test takers in 5 years with 88% of students receiving a qualifying score (14 total). AP English Language and Composition had 72 test takers (an increase of 32 since 2022) and the highest number of exams since 2019. Finally, we had 17 AP Scholars - an AP Scholar earns a qualifying score on at least 3 AP exams.

To support the expansion of AP course offerings, Monty Tech added AP Seminar as an elective course for juniors. Notably, 94% of students who took the AP Seminar exam in 2023 earned qualifying scores (18 students) - outstanding results for the first year of implementation! Monty Tech continues to provide the following AP opportunities for students:

AP English Literature & Composition
AP Language & Composition
AP Calculus, AP Statistics

AP Environmental Science
AP Chemistry
AP Seminar

Vocational Training

Preparing students for high-skill, high-wage careers requires technical proficiency, an ability to break down complex lessons into “bite sized” concepts, and a lot of patience. Our team of vocational instructors are not only skilled tradesmen and women, they are patient, collaborative and talented teachers, responsible for training the next generation’s workforce. Their commitment to student achievement, community service, and advanced technical knowledge and skills is unmatched, and we are so grateful that they have chosen this profession, sharing their expertise with our students. 2022-2023 was a busy year across the District, with students working and learning in shops, on off-campus construction sites, and with area business leaders, refining their skills. We are proud to highlight some notable accomplishments.

Advanced Manufacturing: Advanced Manufacturing students now work and learn in a state-of-the-art machine shop, and may earn a number of industry-recognized credentials to demonstrate their technical capacity. All 15 Junior students completed NC3 Precision Measurement Instruments (PMI) training and earned 6 stackable credentials in measurement. The program’s 6 Seniors earned an additional 6 credentials in Advanced Measuring Instrument (AMI), demonstrating expertise in advanced measuring skills. All 14 Sophomores passed MACWIC level 1, while all Freshman students successfully completed safety training, earning an OSHA 10-hour general industry certification. Six Seniors and eleven Juniors earned co-op placements, working and learning in area machine shops. (Total student enrollment: 52)

Auto Body Collision Repair Technology: Monty Tech Auto Body students earned valuable industry credentials in the 2022-2023 School year. Students earned the OSHA 10 hour general industry card, EPA 6H spray certification, and MACS Air Conditioning Certificates. Seniors completed I-Car Pro Level One in Refinishing and in Non-Structural Repair. Two Seniors earned co-op placements, and were reported to be valuable contributors in local repairs shops. At the SkillsUSA District Competition, Sophomore students won 1st, 2nd & 3rd in collision repair, and one advanced to the state competitions, taking home a bronze medal. The program’s training equipment was upgraded, with the replacement of the frame measuring system, now allowing students to learn on the latest technology, which will lead to more career opportunities. (Total student enrollment: 65)

Automotive Technology: Ten Seniors in Automotive Technology earned their NC3/Snap On Apollo D8 Scan Tool Certification, and all Juniors earned the NC3/Snap on 525F Digital Multimeter certification. The Sophomores received the NC3 Shopkey Pro Service & Repair Information Level 2, while the program’s Freshmen earned the OSHA 10 Safety Certification & the NC3 Shopkey Pro Service & Repair Information Level 1 certification. These industry-recognized credentials will demonstrate the students’ level of competency within the automotive industry for years to come. Eight Seniors and six Juniors earned co-op placements. The program serviced, repaired, and diagnosed four hundred vehicles throughout the year, with work including basic maintenance, inspections, alignments, brakes, exhaust, tires, and advanced electric diagnosis. (Total student enrollment: 66)

Business Technology: Monty Tech's Business Technology program continues to benefit from the financial literacy initiative. All Juniors and Seniors earned a financial literacy certificate from the MassMutual Foundation FutureSmart program. Instructors, in collaboration with their post-secondary colleagues, continue to refine and develop new articulation agreements. The latest agreement with Mount Wachusett Community College will provide qualified students with college credits at no cost to the student. Students are eligible to receive 9 credits in the college's Business Administration Career program and 12 credits in the Administrative Assistant Certification program. Students were exposed to rebranding, marketing and retail experiences, as the school store underwent a complete renovation. Students were trained in the effective use of a new and streamlined point of sales system, and the daily/weekly/monthly financial report features associated with store sales. The Greenhouse opened in May, and Business Technology students handled all financial transactions professionally. Four of the program's students placed in the Technical Computer Applications competition for SkillsUSA, two students placed in the Customer Service competition, and one placed in the Employment Application competition – all advanced to compete at the District and State levels. Five Seniors & seven Juniors earned co-op placements during the 2022-2023 school year. (Total student enrollment: 58)

Cabinetmaking: Monty Tech Cabinetmaking students are called upon for a number of projects small and large, across the campus and beyond. During the 2022-2023 school year, students completed projects that included: designing and installing a custom kitchen in the Ritter Memorial building for the Town of Lunenburg, cutting and assembling 120 trophies for MWCC's Arts Department, and fabricating maple benches for the locker rooms at Winchendon's Clark Memorial YMCA. Along with the community projects, students built new downdraft tables and custom cabinetry for the school's Dental Assisting program, storage cabinets and countertops for the Business Office, custom display cases and service counters for the Monty Tech School Store, and also built and installed new handicapped accessible cabinetry and storage for the Early Childhood program and Child Care Center. Five Seniors and nine Juniors earned co-op placements, representing the program so well. Sophomores and Freshmen completed important safety training exercises, earning OSHA Construction 10-hour and OSHA Careersafe 10-hour certifications, respectively. (Total student enrollment: 66)

CAD/Drafting & Design: In 2022-2023, five Monty Tech CAD/Drafting & Design Senior students and six Juniors earned co-op placements. Students achieved a number of valuable industry-recognized certifications including AutoCAD, Inventor, Revit, and Solidworks Part 1 & 2. Freshmen students completed safety training, and earned valuable OSHA CareerSafe credentials. The shop completed a variety of signs, banners, and posters for the school and non-profit organizations including: MVP Academy renovation layout work, Lunenburg Senior Center kitchen layout, and cabinetry planning for the improved Early Childhood Education training space. (Total student enrollment: 65)

Cosmetology: The Monty Tech Cosmetology program is one of the only programs that students may leave and directly enter the industry, fully-licensed and ready for a career. The state-approved program is rigorous and provides students with countless opportunities to refine their cosmetology skills on clientele who understand and appreciate the learning environment. During the 2022-2023 school year, the Senior class collectively earned 25 trade-specific certifications in advanced nails, hair cutting and coloring techniques from BehindtheChair.com, Pravana.com, CND.com and Barbacide.com. Instructors signed articulation agreements with Mount Wachusett Community College, Quinsigamond Community College, and Keene State College, resulting in three college credits in Business at MWCC and QCC and nine general elective credits at Keene

State. All students participated in Beauty School Battles at Franklin County Technical School in Turners Falls, MA. One Freshman received 1st place in formal style, one Junior placed 2nd place for textured hair style, and two Seniors placed in fantasy hair style and formal nails. Seniors and Juniors also participated in Mental Health Day, providing spa services to teachers/staff/students to raise funds for awareness. Finally, all 12 Seniors earned their cosmetology licenses – a wonderful testament to the program’s talented students and instructors! (Total student enrollment: 80)

Culinary Arts: Monty Tech Culinary Arts students and instructors operate a full-service restaurant and bakery, serving 70-90 patrons daily. The FY23 school year began with a Welcome Back/New Teachers reception, where students prepared and served hors d'oeuvres and mini pastries for 60 guests. Students were asked to prepare a luncheon for Principals and Counselors Day for 30 school leaders in October, and were asked to prepare dinner for both of the school's Program Advisory meetings, serving more than 380 at each event. Baking students prepared 200 apple pies for the Lunenburg Lions club, catered an offsite Christmas buffet luncheon for 107 people at the Westminster Senior Center for the Ryan Patrick Jones Foundation, and continued to donate leftover baked goods to Our Father's House in Fitchburg. Students prepared and served delicious meals/treats for onsite MAVA Directors meetings and lunch for a statewide Masonry competition, as well as for National Honor Society events and our own high school graduation ceremony. Throughout the year, the busy restaurant hosted several groups that included: Gardner AARP, Towns of Phillipston, Ashby, Barre, Templeton, and Rindge, NH, and Fitchburg State University. Two students earned co-op placements, and all students sat for the ServSafe Manager exam, earning valuable industry-recognized credentials. (Total student enrollment: 71)

Dental Assisting: Monty Tech Dental Assisting instructors have emphasized the need for students to earn valuable industry-recognized credentials, as a means to demonstrate technical skill and proficiency. As a result, all students work and prepare for Dental Assisting National Board (DANB) certification exams. In 2022-2023, 93% of students passed the DANB Radiology exam. This outstanding pass rate is a true testament to the high quality instruction in the Monty Tech Dental Assisting program, and something the school continues to be so proud of. A total of nine Seniors and 3 Juniors earned co-op placements, while the remaining Juniors and Seniors earned experience in affiliation/externship experiences in area dental clinics and offices. All Seniors and Sophomores earned American Red Cross for Basic Life Support CPR/AED certifications. Demonstrating a commitment to community service, the program enjoyed collaborating with local dental practitioners through the Community Health Connections Caring for Kids Program. While qualified Monty Tech students received free dental cleaning, radiographs, and sealants, Dental Assisting students assisted "chairside" in these procedures. (Total student enrollment: 58)

Early Childhood Education: Seven Seniors and one Junior in the school's popular Early Childhood Education program earned co-op placements, gaining valuable experience working with young children in local childcare centers. Three Seniors and four Juniors also gained experience on externships. All Sophomore and Senior students completed First Aid/CPR training and earned this valuable certification. Eight Seniors also earned the Child Development Associate National certification. Instructors are proud to report that all 12 Seniors applied for the MA Department of Early Education and Care Teacher certification, while Juniors planned a mock baby shower, donating diapers, wipes and clothing to the Montachusett Opportunity Council to benefit families in our region. The Monty Tech Child Care Center continues to provide all students enrolled in the Early Childhood Education program with meaningful hands-on learning opportunities, giving them a glimpse into the day-to-day job functions of early education and care teachers. (Total student enrollment: 48)

Electrical: Throughout 2022-2023, students and instructors in the Monty Tech Electrical program wired numerous machines, equipment, computers, cameras and lights throughout the school. Fifteen Seniors and fifteen Juniors earned co-op placements, which allowed them to gain important on-the-job skills and additional training in the industry. Instructors collaborated with trade partners to obtain critical support for a Lab Modernization Grant application, which was submitted and approved in the amount of \$1.8M. These funds will allow the school to replicate the excellent training happening in our Electrical program, expanding access to students from Fitchburg, Gardner and Narragansett schools. With guidance from program instructors, students performed all wiring services at the Habitat for Humanity house building project in Fitchburg, while others were asked to wire the Lunenburg Town Hall break room. Instructors are pleased to report the program continues to be a highly sought-after experiences, with 24 Freshmen students choosing Electrical as their top choice! All 24 successfully completed the 10-hour OSHA training and certification. (Total student enrollment: 95)

Engineering Technology: The Engineering Technology program at Monty Tech is a rigorous program, infused with a nationally certified curriculum provided by Project Lead the Way, and countless hands-on learning opportunities that provide students with opportunities to demonstrate creativity, make connections with prior learning, and earn college credits. Instructors continue to add creative “benchwork” or hands-on activities to supplement the curriculum, so that students can put their theoretical learning into practice. The program’s automation, 3D printing lab area and the Amatrol software continue to support all areas of the Engineering Frameworks. Seven Seniors and four Juniors earned co-op placements, while all 16 Freshmen completed the OSHA 10-hour General Industry training and certification program. (Total student enrollment: 61)

Graphic Communications: Throughout the 2022-2023 school year, students in the Graphic Communications program produced numerous projects for our district cities and towns, and a variety of non-profit organizations within the district. Students worked diligently to complete four middle school yearbooks for schools in our sending district. Students also completed a tourist map for the town of Sterling and printed Oakmont’s Graduation Programs. Two Seniors earned co-op placements, which allowed them to continue their on-the-job training in a real-world work setting. Graphics students consistently perform well at SkillsUSA competitions, and this year was no exception. The program is proud of its Gold Medal winners in the State Pin Design and National T-shirt Design contests. (Total student enrollment: 85)

Health Occupations: The Health Occupations program continues to be one of the more competitive programs here at Monty Tech, providing a rigorous education grounded in current medical knowledge and practice, balanced by hands-on learning opportunities in the on-site Sim Lab and through the use of state-of-the-art Anatomage technology. We continue to improve the instructional spaces, technology and equipment for student training purposes. 19 Seniors were partnered with area clinics, through the co-op program, where they continued to learn and flourish in their chosen field, while back on campus, students focused on achieving important industry-recognized credentials. 25 students passed their Certified Medical Assistant exam to become nationally certified medical assistants. All students passed their Nurse Aide Exam, and 6 students passed the Home Health Aide exam. All Sophomores obtained their CPR, First Aid, and Alzheimer’s Association certifications, while all Freshmen completed safety training and earned an OSHA certification. Two students received silver medals at the SkillsUSA State competition (in Basic Healthcare and Nursing Assisting), and another received a bronze medal in Nurse Assisting. Finally, five Seniors received their Phlebotomy Technician certification, a valuable industry-recognized credential. (Total student enrollment: 107)

House Carpentry: The Monty Tech House Carpentry program completed a number of projects, large and small during this 2022-2023 school year. Juniors and Seniors were proud to work on a single family residence for Habitat for Humanity in Fitchburg, where they completed all framing, roofing and exterior trim details, and installed all exterior doors and windows. Students worked with instructors to complete exterior renovations to a barn for the Town of Hubbardston Highway Department, a full kitchen renovation for the Town of Lunenburg, exterior weatherization for the Town of Barre Fire Station, and covered a bus stop unit for the City of Fitchburg (MART). Prioritizing community service, House Carpentry students supported local charitable organizations with donations of our Adirondack chairs built by Freshmen students in the program. Eighteen Sophomores received their OSHA safety credentials. 15 Juniors and 11 Seniors received their Hot Works Certification, while six Seniors and three Juniors were working and learning side-by-side with area carpenters and construction professionals through the popular co-op program. (Total student enrollment: 62)

HVAC & Property Maintenance: 2022-2023 was the first year that a Monty Tech student competed in the Facilitron, Leadership in Facilities Management competition for the SkillsUSA competition, and remarkably, the student was awarded a gold medal and advanced to the state competition. Six Seniors and four Juniors earned co-op placements in area businesses, and one top student received a PHCC Award as the Outstanding HVAC student, receiving more than \$400 in tools. 11 Juniors earned the EPA Universal License to work with HVAC Refrigerants, while the program's Sophomore and Freshmen students earned important OSHA safety credentials. Students and instructors also assisted in the construction of a Habitat for Humanity house in Fitchburg, applying energy auditing and building envelope concepts learned using the new energy audit trainer and equipment that was purchased with a recent grant award. This equipment and the students' new skillset allowed students to complete a comprehensive energy audit for the Town of Lunenburg Municipal Building, as well. (Total student enrollment: 58)

Information Technology: The Information Technology program continues to offer students opportunities to earn a wide range of industry-recognized certifications that affirm the technical skill proficiency needed for entry-level careers in networking and information technology. In 2022-2023, all Freshmen completed the OSHA 10-hour General Industry training, while Sophomore students earned Test-out PC Pro, Cisco IT Essentials, and Cisco Introduction to Networking credentials. Juniors and Seniors participated in the CyberStart America Cybersecurity competition, which resulted in one Senior and five Juniors qualifying for scholarships. Two Juniors and one Senior passed the CompTIA A+ Exams. Four students earned co-op placements, applying their technical skills in area businesses. In total, approximately 100 hours of technical support were completed at the program's Help Desk, where students worked on hardware and software troubleshooting on desktops, laptops, printers, and mobile devices. (Total student enrollment: 36)

Masonry: The talents of Monty Tech Masonry students are on display throughout district communities, as projects that were completed during the 2022-2023 school year include: concrete sidewalk repairs at Fitchburg High School and brick repairs at Fitchburg South Street School. Students placed and finished a concrete slab in Phillipston for an Eagle Scout project, and completed brick repairs at the Ritter Building in Lunenburg. The Monty Tech campus also benefitted from the work of our talented Masonry students, who constructed a block wall in the boys' locker room, replaced the paver floor in the Greenhouse, and installed concrete pads for the new ticket booth and ROTC storage pods. Sophomores received valuable safety training and earned the 10-hour OSHA Construction certification, while Freshmen completed the 10-hour General Industry certification. Seven Seniors earned co-op placements, and continued to refine their skills working with business partners through the school's co-op program. (Total student enrollment: 48)

Plumbing: The 2022-2023 school year began with Plumbing students rough plumbing at the single family house building project for the Habitat for Humanity Program. Students and instructors also installed a new kitchen sink, utility sink and a kick-space heater at the Lunenburg Town Hall break room. On campus, numerous plumbing issues including leaks, drain cleaning, water heater repair and replacement, water cooler replacements, faucet replacements, and gas leaks were addressed in a timely and professional manner by the students. Juniors successfully completed their HotWorks safety training and earned that important credential. Freshmen also completed the 10-hour OSHA General Industry safety training, while Sophomore students completed the 10-hour OSHA Construction safety training and certification. Ten Seniors and two Juniors earned co-op placements, which allowed them to continue to grow in the trade, working with plumbing professionals in the area. Sophomores and Seniors were trained in Viega PEX/copper press, earning another valuable certification. One Senior earned the Plumbing All Star Award given by the Plumbing, Heating, and Cooling Contractors Association of Massachusetts, and was given a scholarship for his continuing education. Another talented student was awarded the Central Mass Plumbing & Gas Inspectors Association Scholarship, which will assist in his continuing education. (Total student enrollment: 68)

Veterinary Science: For the 2022-2023 school year, the Monty Tech Veterinary Clinic completed 1,200 appointments, of which 222 were grooming services. 750 pets from 260 underserved families in our sending districts were provided high quality veterinary care. All Juniors earned the CVA (Certified Veterinary Assistant) certification, with a 100% pass rate on this important national exam. All Freshmen completed OSHA 10-hour Healthcare training and certification. Three Juniors were able to attend the USDA AgDiscovery Camp, which is a free summer outreach program to help teenagers explore careers in agricultural sciences, learning from university professors and USDA experts and gaining hands-on experience. Finally, ten Seniors and four juniors earned co-op placements, working in local clinics, shelters and animal hospitals, applying the skills gained in this popular vocational training program. (Total student enrollment: 80)

Welding/Metal Fabrication: The Welding/Metal Fabrication program completed more than 30 community service projects in the 2022-2023 school year, including the fabrication and installation of metal shoes for trail maps at Coggs Hall Park in Fitchburg, fabricating stainless steel legs for the locker benches at the YMCA in Winchendon, and creating a metal archway for the entrance at the Music Pavilion in Winchendon. In-house projects included repairing the school plow for the school's maintenance team and repairing the floor in the warehouse. Students fabricated and installed hanging metal racks for the Plumbing Department to help organize their storage unit and cylinder mounts for their propylene tank, as well as more than 10' of floor covers for the hydraulic system in Auto Technology. Four students participated in the Notch Pipe Welding Challenge, and two Seniors were asked to collaborate on a project with WPI Engineering students at the New England Regional Competition. The program is proud to offer students at all levels opportunities to earn industry-recognized credentials. In 2023, Freshmen completed OSHA 10-hour General Industry training and certification requirements, Juniors completed the Hot Works Certification, and all students completed the OSHA 10-hour Construction Certification. All Juniors also earned the AWS D1.1 FCAW 1G Limited Certification while Seniors earned the AWD D1.1 SMAW 3G Limited Certification. A total of 15 students (4 Juniors and 11 Seniors) earned co-op placements. (Total student enrollment: 64)

Cooperative Education

The Monty Tech Cooperative Education Program is an extension of the student's technical education that combines classroom instruction with on-the-job-training. The popular Co-op Program provides students with an opportunity to further develop academic, technical and employability skills in an industry-related work environment. All students are eligible to participate in the Co-op Program, provided they satisfy state and school grade, attendance and performance requirements, and all Co-op students must have completed the OSHA recognized Career Safe online health and safety course prior to being placed in a work environment..

The Cooperative Education Program is beneficial for both student and employer. For the student, it is a chance to gain on-the-job training that improves both their technical proficiency and employability skills, and making industry connections enhances post-graduate employment opportunities. The Co-op Program also allows students to earn while they learn, which has allowed many students to learn valuable life skills, financial literacy skills, and gain a deeper understanding of the importance of career advancement and self-advocacy.

Employer benefits include addressing workforce needs in an efficient manner. Co-op students provide a pool of trained talent, ready to assume temporary, part-time or even full-time opportunities, thus reducing employer training costs. Co-op work hours may also be tailored to suit the needs of partnering employers.

In 2022-2023, the school saw a return to the workplace, and significant increases in the number of students placed in this valuable training program. With approximately 100 area employers participating in Cooperative Education, providing valuable experience to 236 students by the end of the 2022-2023 school year, school officials remain grateful for their continued support, and look forward to future collaborations. .

Student *Support* Services

Monty Tech's Department of Student Support Services has prioritized the district's effort to educate the whole child, ensuring the young adults we serve have access to support in academic and vocational programming, as well as services related to social and emotional wellness. We have focused support around the growing concerns and struggles with age appropriate interactions, use of social media and need for meaningful connections. Creating safe and supported opportunities, we have embraced themes and models that challenge our students to reflect, grow, and learn in all areas of their experiences. The department continues its important mission to break the stigma of mental health, shifting our perspective to find balance and mental wellness. This unified approach, support, and collaboration helps our student body display resilience, grow individually and meet success.

At Monty Tech, we strive to implement thoughtful tiered services that promote a feeling of comfort for students when accessing this support. In addition to the department's current school-based counseling services, Monty Tech and LUK, Inc. collaborated throughout 2022-2023 with the Department of Public Health to provide services to at-risk students and their families. The district also partnered with LUK to create a direct pipeline for telehealth referrals and increased access to counseling support, beyond the traditional school day. Programs such as the Hope Matters, a peer to peer mental wellness and suicide prevention program, Project AMP, a program to prevent substance abuse among youth, and Students Taking A New Direction (STAND), a program to support students displaying at-risk behaviors, have all been implemented successfully. In 2022-2023, Monty Tech also joined forces with CareSolace, an organization committed to matching individuals with mental health and/or substance abuse counselors. CareSolace Coordinators address the growing need to locate support and match individuals with therapists saving students and families hours of time, phone calls, waitlists and frustration. CareSolace supports the matching process and follows up with individuals to ensure each connection was a success. Most importantly, CareSolace Match Services are FREE to our students, family, staff and community. <https://caresolace.com/site/montytech>

The Department of Student Support Services has taken the necessary measures to ensure Social Emotional Learning (SEL) is in the forefront of conversations when supporting students. Courses and activities designed to promote mindfulness, understanding, and social emotional wellness are part of the many course offerings within our school. Yoga and Meditative Art, Visual Arts, Directed Studies with Social Emotional Learning lessons are all part of the efforts being implemented to ensure we address the needs of all students and support their individual growth and development.

During the 2022-2023 school year, Montachusett Regional Vocational Technical School District provided specialized services to approximately three hundred students – measuring progress of over two hundred students on Individual Education Plans (IEPs) and approximately one hundred students adhering to individualized Section 504 plans. While the Student Support Services Department encompasses special education, the department provides support that is available to all Monty Tech students, who have access to direct tutoring both before and after school. School counselors are available to assist students with vocational placement and post-secondary planning, and are equipped with the skills to engage students in workshops and groups that support the development of social resilience and finding balance, for those experiencing struggles.

The Student Support Services department includes a full-time nursing staff that continues to respond to CDC advisories and noted trends, administers medications, performs state-mandated health screening exams, and

provides, when necessary, health information to the special education team for a student's IEP meetings. The department benefits from a full-time school social worker that participates in departmental meetings and assists students who have needs concerning finances, family issues, homelessness, maternity, health issues, proper food and clothing, and military status deployments. The school is also fortunate to have on staff a full-time psychologist, who evaluates all students referred for an initial evaluation or who may require a three-year re-evaluation. In addition, we have a full-time speech language pathologist, available to assist students with disabilities, assess these students and consult with teachers. Finally, our students also have access to the services of a full-time adjustment counselor and part-time school psychologist. All of these individuals are available for scheduled counseling sessions, mental health emergency treatment, medical/mental health re-entry and transition support services, as well as crisis intervention.

Technology @ Monty Tech

Technology and learning go hand-in-hand at Monty Tech, and 2022-2023 was no exception. Monty Tech's talented Technology Department led the transition to a new Student Information System – PowerSchool. The new system, coupled with the school's previous adoption of Performance Matters and Google Classroom has led to increased communications between school and home. For teachers, student outcomes are easier to track and analyze, while noted accomplishments and areas of concern can be brought to the attention of parents/guardians quite easily through these new technologies. The Director of Technology, School Principal, and Director of Academic Programs traveled to Nashville, TN to participate in training so that they could provide in-house support and important solutions, strategies, and techniques to the Monty Tech faculty and staff who would be new to this comprehensive new educational tool.

The Technology Department was also called upon to work with the Dean's Office in an effort to mitigate vaping issues. Verkada vape sensors were installed, notifying the Deans and security personnel in the event a sensor is activated. Student safety efforts are ongoing and remain a priority for the technology team, who also installed a comprehensive guest registration system, which uses the guest's state issued ID to run a preliminary background check on any guest entering the school before he/she may be admitted. Interactive learning displays, all new computers in vocational areas, new fiber lines, and an upgraded phone system rounded out the team's 2022-2023 efforts, resulting in a more efficient, more secure working and learning environment for all.

Finally, Department personnel was expanded to include a second Educational Technologist to the team. The two technologists provide valuable, personalized instruction to both academic and vocational teachers, as they expand their instructional delivery models and rely on available technology to provide and deliver important school-to-home communications.

Service Learning

The Monty Tech Marine Corps Junior Reserve Officer Training Corps (MCJROTC), is a leadership program based on the foundations of instilling the values of citizenship, service, personal responsibility, and a sense of accomplishment. The program provides students with countless opportunities to serve as ambassadors in their communities, through the routine demonstration of student leadership development, volunteerism, perseverance, and dedication.

During the 2022 - 2023 school year, Monty Tech MCJROTC Cadets participated in more than 2,000 hours of community service and volunteerism. Cadets began the busy school year supporting two separate running events - the Fitchburg Veterans 5K and the Rock n Roll 5K at the Wachusett Brewery-providing assistance with vehicle parking, run route coordination, and vendor support. Another community event that was a highlight for our students was the Annual Blacksmith Festival held in Fitchburg, MA. Monty Tech cadets assisted competitors and vendors, and while doing so, learned a great deal about community volunteerism and the craft of blacksmithing as a fine art.

Cadets were able to sponsor and participate in a Veterans Day and Marine Corps Birthday Celebration. This event included a full USMC Birthday ceremony, marching in the USMC birthday cake cutting ceremony, and recognition of the guest of honor, Mr. Matt LaRose.

As in years past, Cadets were actively involved with assisting the Salvation Army, and proudly collected more than \$98,000 in donations throughout the 2023 holiday season. Their efforts greatly contributed to the much needed support of those less fortunate throughout the Monty Tech district. Cadets were also invited to participate in the Gardner Centennial Parade celebrating its 100th year as a city, and were asked to provide crowd and traffic control along various places of the parade route.

Assisting with color guards, presenting the Nation's Colors and the Marine Corps Battle Colors, is a particular honor and highlight for our young cadets. In 2022-2023, these special events were numerous, with as many as fifteen color guards to include all of the Monty Tech home football games, Fitchburg State graduate and undergraduate ceremonies, local civic ceremonies, as well as numerous veteran ceremonies in and around veteran holidays.

Finally, more than 150 Monty Tech cadets made their way to Fall River to experience Battleship Row. During this visit, cadets were able to walk on and around the USS Massachusetts and the maritime museum. Visits to local historic attractions are one of the many reasons cadets pursue this leadership program. In the Summer of 2023, 70 additional cadets travelled to Prince William Forest Campground located in Triangle, VA for a weeklong leadership trip that included team building skills, physical fitness, and visits to local area attractions. Additionally, 15 cadets attended three separate leadership trips where they learned basic aviation, Cyber/Stem awareness, and advanced leadership techniques. These week-long leadership trips took place in Boswell, PA and Fork Union, VA.

Evening Programs

In recent years, Monty Tech's popular School of Continuing Education, has been the recipient of more than \$1.5M in funding from Commonwealth Corporation, to provide unemployed or underemployed individuals with no-cost training and job placement services in the region's most critical industries/occupations. These grant-funded training opportunities are an example of the collaboration between the MassHire Workforce Investment Board, the Executive Office of Labor and Workforce Development, and generous sponsorship from Commonwealth Corporation, making it possible for Monty Tech to offer meaningful job readiness training in occupations with high demand and self-sustaining wages.

In 2022-2023, school leaders were pleased to offer 200 hour training programs in culinary, electrical, CNC operation, and welding, at no cost to qualified participants. These FY23 training cohorts resulted in 33 individuals having secured full-time employment in their chosen occupations. In addition to these grant-funded opportunities, the School of Continuing Education, continues to offer the area's most affordable and comprehensive cosmetology training program, effectively preparing participants to sit for the Massachusetts State Board examinations. In FY23, four cosmetology students graduated from the program, and all have passed the licensing exam.

Recognizing a need to support social emotional wellness of our non-traditional students, many of whom would be returning to a classroom after many years of not participating in academic endeavors, program staff initiated a creative and beneficial monthly "Mental Health Breaktime," providing with food and community resources for enrolled students. This was a well-attended addition to the evening program, and is expected to become a regularly scheduled event in the coming years.

Finally, Monty Tech held its annual public job fair on May 4, 2023. The event was extremely well-attended, with more than sixty (60) area employers visiting on-site with both day and evening students seeking job opportunities. The strength of any Monty Tech training program is dependent upon mutually beneficial relationships between the school and our business partners. Serving more than 1,400 community members annually, the School of Continuing Education is proud to offer meaningful training to a non-traditional student population, while working to develop new and important relationships with business partners in need of a talented candidate pool.

The Montachusett Regional Vocational Technical School Practical Nursing Program strives to create and provide a high-quality educational experience to each individual student seeking to establish a successful career in nursing. 2023 marked the Practical Nursing Programs silver anniversary. Since its inception, the Montachusett Regional Vocational Technical School Practical Nursing Program has graduated more than 700 nursing professionals.

Our program stresses the importance of developing the clinical judgement and skills needed to function safely, effectively, and productively in an ever changing technical and diverse society. By providing our students with an exceptional nursing education, we graduate outstanding healthcare professionals with the ability to make a difference for our local communities and beyond.

Nurses at all levels play a vital role in providing care and compassion to patients in need. Monty Tech Practical Nursing Program graduates continue to seek admission to the "LPN to BSN (Bachelor of Science in Nursing)

Bridge” with Fitchburg State University (FSU). This opportunity provides a seamless pathway for our graduates to enhance their clinical skills, deepen their theoretical knowledge, and embrace leadership roles in the nursing profession.

The graduating class of 2023 volunteered for the United Way Days of Caring. The student nurses engaged in various community activities including painting playgrounds and community buildings, as well as neighborhood and garden clean-ups. The collaboration between student nurses and United Way exemplifies the spirit of altruism and the pursuit of practical knowledge in service to society. It's a reciprocal relationship enriching both the students' learning experiences and the communities served.

On June 22, 2023, a class of 30 students graduated ready to enter the nursing profession. The class of 2023 has achieved a 90% pass rate on the NCLEX-PN exam (National Council Licensure Examination for Practical Nurses). The 2023 program graduates are currently employed working in various health care settings, such as long-term care, sub-acute care, acute care, acute rehabilitation care, mental health/substance abuse facilities, physicians' offices, correctional medicine, pediatric extended care, and school nursing.

Looking Ahead

Monty Tech is known for its innovation and creative programs that prepare young people for high skill and high wage job opportunities. While we are so proud of our annual accomplishments, school leaders maintain an eye to the future – always seeking improvement. School leaders are confident that our efforts to develop and maintain a responsible local budget, coupled with our pursuit of competitive grant funding will ensure our training programs stay current and aligned with industry standards. Our relationships with area business leaders, community service agencies and post-secondary partners will improve student outcomes, whether our graduates choose college or career pathways upon graduation. Our endeavors, as the region's leading workforce training provider, to increase access to valuable training opportunities remain a top priority. A few of the more notable initiatives that we expect to have a positive impact on our school and students in the coming years include:

New partnerships to increase access to vocational programs: In FY23, Monty Tech proudly entered into a partnership with Fitchburg Public Schools, Gardner Public Schools, and Narragansett Regional School District, in an effort to provide students in those districts with meaningful vocational training opportunities. Monty Tech found and secured a vacant property close to campus, and was awarded a record-setting \$1.88M grant to renovate and equip the facility, turning it into a state-of-the-art training center for carpentry, electrical and plumbing occupations. Students and instructors are tasked with building out the new training spaces throughout the 2023-2024 school year, so that doors can open to the Montachusett Vocational Partnership (MVP) Academy in September 2024. School leaders will continue to promote the innovative partnership and modified “After Dark” schedule, as a model program that, if funded properly, could satisfy concerns for lack of access to vocational programming across the Commonwealth. Monty Tech officials look forward to

communicating with local and state leaders, advocating for increased funding for such endeavors, and building upon this exceptional partnership that is expected to serve as many as 125 students when all programs are in operation.

Grant funding to improve and expand training programs: In FY23, Monty Tech applied for its ninth Skills Capital Grant, in the amount of \$500,000. The school's Development Coordinator worked closely with Culinary Arts instructors to craft a comprehensive proposal that, if funded, will bring much needed improvements to the program. School leaders will be able to purchase commercial kitchen equipment that is updated, more efficient, and reflects the same equipment used in our partner's kitchens, and to purchase a food truck, which will allow instructors to develop all-new curricula in street food, quick service and community service opportunities. All equipment will be used to improve the existing day program, and to establish all-new, 100-hour evening training programs for adult learners. School officials look forward to award notification in 2023-2024 school year, with enhancements to the program beginning Fall 2024.

Monty Tech Leadership

The district continues to benefit from a talented leadership team whose varied educational backgrounds, professional experiences, and areas of expertise contribute to the success of the school. Working collaboratively, and under the direction of the Superintendent, the team has transformed the school into one of the most sought-after high schools in North Central Massachusetts.

Thomas R. Browne, Superintendent-Director

Dayana Carlson, Principal

Tammy Crockett, Business Manager

Kim Curry, Co-Operative Education Coordinator

Taryn DiVito, Data Analysis and Accountability Coordinator

Christina Favreau, Director of Academic Programs

AT THE RECOMMENDATION OF THE REGISTRY OF VITAL RECORDS AND US DEPARTMENT OF STATE AND FOR THE SAFETY AND SECURITY OF THE RESIDENTS OF TOWN, NAMES OF INDIVIDUALS HAVE BEEN ELIMINATED AND INSTEAD THE NUMBER OF OCCURENCES OF EACH BIRTH, MARRIAGE AND DEATH ARE TOTALLED FOR THE YEAR.

DURING 2023 THE TOWN CLERK RECORDED THE FOLLOWING:

BIRTH –112

DEATHS –105

MARRIAGES –24

2022 TOWN MEETING EXCERPTS

Annual Town Meeting – May 6, 2023

The Moderator called the meeting to order at 9:02 AM declaring a quorum, announced that the warrant was properly served, then led the assembly in the Pledge of Allegiance. Moderator went over the ground rules of the meeting, then made announcement about vacancies on various committees and thanked the Finance Committee, Finance Director, etc. for their efforts. Then the retiring accountant, Karen Brochu, was recognized for her years of service to the town. The Moderator then had the meeting test the keypads (clickers) for recording the vote taken on each article. Robert Bowen was made the Deputy Moderator and the Moderator explained the Consent Calendar. And Articles 1, 2, 10, 15, 16, 17, 18, 19, 20 were VOTED by Voice Vote (Unanimous but one) and articles 3, 11, and 12 were held.

ARTICLE 1. To see if the Town will vote to hear and/or accept the regular written reports of the Town Officers and Committees; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: No Direct Financial Impact 5-0

SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT** (to Pass Over having already accepted the regular written reports of the Town Officers and Committees).

ARTICLE 2. To see if the Town will vote to authorize revolving funds for various departments, boards, committees, agencies or officers pursuant to Massachusetts General Law Chapter 44, Section 53E ½ for the fiscal year beginning July 1, 2023 to be expended in accordance with Chapter 138 of the Town's General Bylaws; or take any other action relative thereto. (Submitted by the Town Manager)

FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0

SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT** to re-authorize the revolving funds for certain town departments, boards, committees, agencies or officers for the spending limits as follows:

<i>Revolving Fund</i>	<i>FY24 Spending Limit</i>
Ambulance Billing	\$100,000
Timber Rights	\$10,000
School Custodial Special Details	\$13,000
Green Thumb	\$5,000
Library Revolving	\$12,000
Council on Aging/MART Revolving	\$45,000
<u>Stormwater Task Force</u>	\$5,000
Electrical, Gas, Plumbing Inspector Revolving	\$46,000
Technology Revolving	\$30,000

ARTICLE 3. To see if the Town will vote to raise and appropriate, or transfer from available funds, a sum of money for payment of prior year expenses; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Deferred 5-0
SELECT BOARD RECOMMENDATION: Deferred 4-0 VOTED (99 YES, 4 NO) to transfer the sum of \$4,000 from Free Cash for payment of prior year expenses.

ARTICLE 4. To see if the Town will vote to transfer from available funds, all sums of money necessary to amend the amounts voted for the Town's FY 2023 Budget, under Article 8 of the May 7, 2022 Annual Town Meeting and Article 1 of the November 15, 2022 Special Town Meeting; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0
SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 VOTED (100 YES, 6 NO) to transfer from line #5/Workers Compensation the sum of \$25,377.77; transfer from #29/Technology Department the sum of \$14,229.73; transfer from line #13/Reserve Fund the sum of \$75,000; transfer from line #40/Police Lockup the sum of \$33,184.96; transfer from line #41/Injury Leave sum of \$4,000; transfer from line #46/Radio Watch the sum of \$15,853.80; transfer from line #75/Veterans Benefits the sum of \$30,922.80; and transfer to line #73/Recycling Program the sum of \$38,000.46; transfer to line #6/Health Insurance the sum of \$63,576.68; transfer to line #70/Snow Removal the sum of \$96,991.92; all to amend the amounts voted under Article 8 of the May 7, 2022 Annual Town Meeting and Article 1 of the November 15, 2022 Special Town Meeting.

ARTICLE 5. To see if the Town will vote to transfer from available funds, a sum of money to the Overlay Account for all anticipated costs associated with FY 2023 abatements; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 4-0-1
SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 VOTED (98 YES, 12NO) to transfer from Free Cash the sum of \$1,500,000 to the Overlay Account for all anticipated costs associated with FY 2023 abatements.

ARTICLE 6. To see if the Town will vote to raise and appropriate, borrow, or transfer from available funds a sum of money for the FY 2024 Capital Plan, as appearing in the Capital Planning Committee Report; or take any other action relative thereto. (Submitted by the Town Manager)

FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0

SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 VOTED (103YES, 6 NO) to raise and appropriate the sum of \$556,789.09; transfer from Free Cash the sum of \$467,268.98; transfer from Article 14 of the 5/2/15 Annual Town Meeting the sum of \$8,800.26; transfer from Article 14 of the 5/7/16 Annual Town Meeting the sum of \$5,117.67; transfer from Article 6 of the 5/4/19 Annual Town Meeting the sum of \$1,034; for a total appropriation of \$1,039,010 to fund the FY24 Capital Plan, as follows:

ARTICLE 8. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money to fund the first year of the FY 24-FY 26 Collective Bargaining Agreement dated July 1, 2023 – June 30, 2026 with the Lunenburg Professional Firefighters, PFFM Local 5369; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Approval SELECT BOARD RECOMMENDATION: Approval 4-0

VOTED (98 YES, 3 NO) to transfer from Article 7 of the 5/6/23 Annual Town Meeting, line #13A/Salary Reserve the sum of \$26,022.69 to fund the first year of the FY24-FY26 Collective Bargaining Agreement dated July 1, 2023 – June 30, 2026 with the Lunenburg Professional Firefighters, PFFM Local 5369 Union.

ARTICLE 9. To see if the Town will vote to replace the current Salary Schedule in the Code of Lunenburg, Chapter 70, Section 70-8.A, entitled “Salary Administration Plan”, Schedule A, with a FY 2024 Salary Schedule as recommended by the Personnel Committee, which authorizes wage increase for Fiscal Year 2024, for permanent employees not covered by a collective bargaining unit agreement or individual contract, and further transfer a sum of money from the FY2024 Salary Reserve Fund to fund the wage increase for Salary Administration Plan employees. (Submitted by Personnel Committee) \$38,095.13. FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED (86 YES, 7 NO) to replace the current Salary Schedule in Chapter 70, Section 70-8.A, the Salary Administration Plan of the General Bylaws, with a FY 2024 Salary Schedule as recommended by the Personnel Committee as printed in the Annual Town Meeting Warrant Booklet, which authorizes wage increases for Fiscal Year 2024, for permanent employees not covered by a collective bargaining unit agreement or individual contract, and further to transfer from Article 7 of the May 6, 2023 Annual Town Meeting, line #13A/Salary Reserve, the sum of \$38,095.13 to fund the wage increases for Salary Administration Plan employees.**

ARTICLE 10. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money to the Stabilization Fund; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT to transfer from Free Cash the sum of \$100,000 to the Stabilization Fund.**

ARTICLE 11. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money to the Special Purpose Stabilization Fund; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED (63 YES, 26 NO) to transfer from Free Cash the sum of \$250,000 to the Special Purpose Stabilization fund.**

ARTICLE 12. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money into the OPEB Trust Fund that was created at the November 10, 2010 Special Town Meeting; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0

VOTED (69 YES, 19 NO) to transfer from Free Cash the sum of \$282,855, and transfer from Sewer Enterprise Retained Earnings the sum of \$1,000.00 to the OPEB Trust Fund established at the November 30, 2010 Special Town Meeting.

ARTICLE 13. To see if the Town will vote, pursuant to the provisions of G.L. c.40, §5B, to create a new special purpose stabilization fund, to be known as the Opioid Settlement Stabilization Fund, which may be expended for all of the purposes allowed by law, including those outlined in applicable opioid-litigation settlement documents, a document prepared by the Substance Abuse Bureau of the Commonwealth's Office of Health and Human Services Department, found at <https://www.mass.gov/doc/massachusetts-abatement-terms/download> entitled "Abatement Strategies", and consistent with any state guidelines or regulations further clarifying allowable uses of opioid litigation settlement funds; and further, to adopt the last paragraph of said §5B and dedicate to such fund, without further appropriation, 100% of the opioid litigation settlement funds received by the Town; and further, to transfer from available funds a sum of money equal to that received or to be received by the Town from opioid litigation settlements resulting from the Town's participation in the national Opioid Multi-District Litigation into said Opioid Settlement Stabilization Fund; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED (80 YES, 11 NO), pursuant to the provisions of G.L. c.40, Section 5B, to create a new special purpose stabilization fund, to be known as the Opioid Settlement Stabilization Fund, for dedication, without further appropriation, of 100% of opioid litigation settlement funds received by the Town, which may be expended for Opioid Use Disorder (OUD) treatment, support programs for people with OUD in treatment and recovery, connects to care for people with or at risk of developing OUD, harm reduction efforts to prevent overdose deaths or other opioid-related harms, support of diversion and deflection programs and strategies for criminal-justice-involved persons with OUD, support of pregnant or parenting women and their families, including babies with neonatal abstinence syndrome, and preventing misuse of opioids and implementing prevention education; and further, to transfer the sum of \$84,740.25 from Free Cash, representing opioid litigation settlements received in FY23, into said Opioid Settlement Stabilization Fund.**

ARTICLE 14. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money to operate the Sewer Enterprise Fund for FY 2024; or take any other action relative thereto. (Submitted by the Sewer Business Manager) FINANCE COMMITTEE RECOMMENDATION: Approval 5-0 SELECT BOARD RECOMMENDATION: Approval 4-0 **VOTED (72 YES, 8 NO) to appropriate from Sewer Enterprise revenues the sum of \$89,891.85; transfer from the Inflow/Infiltration Stabilization Fund the sum of \$9,900.00; transfer from the Sewer Capital Reserve Stabilization Fund the sum of \$35,000.00; transfer from the Sewer Reserve Capacity Stabilization Fund the sum of \$20,962.40; and appropriate from Sewer Enterprise retained earnings the sum of \$382,096.70 for a total appropriation of \$1,339,850.95 to operate the Sewer Enterprise Fund for FY24; and further that \$746,368.15 be included in appropriations from the general fund for indirect costs and be allocated to the Sewer enterprise Fund.**

ARTICLE 15. To see if the Town will vote to transfer from available funds, a sum of money into the Sewer Capital Reserve Stabilization Fund; or take any other action relative thereto. (Submitted by the Sewer Business Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT to transfer from Sewer Enterprise Retained Earnings the sum of \$36,621.37 into the Sewer Capital Reserve Stabilization Fund.**

ARTICLE 16. To see if the Town will vote to raise and appropriate or transfer from available funds a sum of money to operate the Solid Waste Disposal Program Enterprise Fund for FY 2024; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT to appropriate from Solid Waste Disposal Enterprise Revenues the sum of \$302,000 to operate the Solid Waste Disposal Program for FY24.**

ARTICLE 17. To see if the Town will vote to raise and appropriate or transfer from available funds a sum of money to operate the Water Enterprise Fund for FY 2024; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT to appropriate from Water Enterprise Revenues the sum of \$25,000 to operate the Water Department for FY24.**

ARTICLE 18. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money to fund the FY 2024 Public Educational Government (PEG) Access Enterprise operating and capital budgets; or take any other action relative thereto. (Submitted by the PAC Committee) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT to appropriate from PEG Access and Cable Related revenues the sum of \$163,261.00 to fund the operating and capital budgets of the PEG Access and Cable Related Enterprise Fund for FY24; and further that \$47,503.00 be included in appropriations from the general fund for indirect costs and be allocated to the PEG Access and Cable Related Enterprise Fund.**

ARTICLE 19. To see if the Town will vote to appropriate the sum of \$10,000 from the Sale of Cemetery Lots account to be used for the care, improvement, and embellishment of the Town Cemeteries; or take any other action relative thereto. (Submitted by the Cemetery Commission) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT to appropriate the sum of \$10,000 from the Sale of Cemetery Lots account to be used for the care and improvement and embellishment of the Town Cemeteries.**

ARTICLE 20. To see if the Town will vote to raise and appropriate, borrow, or transfer from available funds, a sum of \$25,000 for consultant services to complete a survey program to inventory historic homes within the Town; or take any other action relative thereto. (Submitted by the Historical Commission) FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED UNANIMOUS CONSENT to transfer from Free Cash the sum of \$25,000 for consultant services to complete a survey program to inventory historic homes within the Town.**

ARTICLE 21. To see if the Town will vote to authorize the Select Board, on behalf of the Town, to petition the General Court for the enactment of special legislation substantially as provided below, provided that the General Court, with advance approval by the Select Board, which is hereby authorized, may reasonably vary the form and substance of the requested legislation within the scope of the general public objectives of the petition:

AN ACT AUTHORIZING THE TOWN OF LUNENBURG TO ESTABLISH A MEANS TESTED SENIOR CITIZEN PROPERTY TAX EXEMPTION.

SECTION 1. With respect to each qualifying parcel of real property classified as class one, residential in the town of Lunenburg, there shall be an exemption from the property tax in an amount to be set annually by the board of assessors as provided in section 3. The exemption shall be applied to the domicile of the taxpayer only. For the purposes of this act, "parcel" shall mean a unit of real property as defined by the board of assessors under the deed for the property and shall include a condominium unit. The exemption provided for herein shall be in addition to any other exemptions allowed under the General Laws.

SECTION 2. The board of assessors of the town of Lunenburg may deny an application for exemption if the board finds that an applicant has excessive assets that place the applicant outside of the intended recipients of the senior citizen tax exemption created by this act. Real property shall qualify for the exemption under section 1 if all of the following criteria are met:

1. The qualifying real property is owned and occupied by an Applicant who has applied for and been granted the State's Senior Circuit Breaker Tax Credit;
2. Each Applicant named in an application who has attained the eligibility age of 70 years for an elderly exemption in Lunenburg under M.G.L. Chapter 59, Section 5, Clause 41(C) must have applied for and been granted this exemption;
3. Each Applicant named in an application has attained the age of 65 years by the close of the calendar year immediately preceding the year of application;
4. The Applicant has owned and occupied a home in the Town of Lunenburg, as his or her primary residence, for at least 15 consecutive years pre-dating and including the date of application;
5. The Applicant has demonstrated to the satisfaction of the Lunenburg Board of Assessors that (s) he, and each co-applicant, owns no other significant assets such as, by way of nonlimiting example, a second home, a trust fund, securities, equities, and bonds.
6. The amount of relief granted to each Applicant under this program shall not exceed 100 percent of the Circuit Breaker Tax Credit for which the Applicant qualified in the previous year.

SECTION 3. The board of assessors of the town of Lunenburg shall annually set the exemption amount provided for in section 1 relative; provided, however, that the amount of the exemption shall not exceed the amount of the circuit breaker income tax credit pursuant to subsection (k) of section 6 of chapter 62 of the General Laws for which the applicant qualified in the previous year. The total amount exempted by this act shall be allocated proportionally within the tax levy on all **residential** taxpayers and shall not exceed 1 percent of the town-wide real property tax levy. To the extent that the total value of exemption requests timely received by the board of assessors exceeds 1 percent of the levy, the exemption amount for which each applicant has otherwise established eligibility shall be proportionally reduced by multiplying the established eligibility amount by a quotient equal to 1 percent of the levy divided by the total town-wide dollar value of exemption requests for which Applicants in the aggregate would be eligible in the absence of the cap represented by 1 percent of the levy.

SECTION 4. A person who seeks to qualify for the exemption under section 1 shall, before the deadline established by the board of assessors of the town of Lunenburg, file an application, on a form to be adopted by the board of assessors, with the supporting documentation of the applicant's income and assets as described in the application. An applicant must submit an application, and demonstrate eligibility, for each year for which the applicant seeks the exemption.

SECTION 5. No exemption shall be granted under this act until the department of revenue certifies a residential tax rate for the applicable tax year where the total exemption amount is raised by a burden shift within the residential tax levy.

SECTION 6. This act may be revoked by an affirmative vote of a majority of town meeting voters at any annual or special town meeting. Any such revocation shall take effect 30 days after an affirmative vote of town meeting. or take any other action relative thereto. (Submitted by the Town Manager)

FINANCE COMMITTEE RECOMMENDATION: Recommend Approval 4-1

SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED (77 YES, 11 NO) [with amendment (passing 74 to 9) to eliminate "residential" in the 2nd sentence of Section 3] to authorize the Board of Selectmen, on behalf of the Town, to petition the General Court for the enactment of special legislation substantially as printed in the Annual Town Meeting Booklet to authorize the Town of Lunenburg to establish a means tested senior citizen property tax exemption.**

ARTICLE 22. To see if the Town will vote to amend the Code of Lunenburg, to modify §250-4.1, which is a Section of the Protective Bylaw entitled “Permitted and prohibited uses,” by adding a new §250-4.1K(20), entitled “Self-Storage,” and inserting the same into the accompanying “Use Table,” all as shown below; or any other action relative thereto.

4.1K	COMMERCIAL	RA	RB	O	LB/R	C	OP/I	R	VC	SS	TT	W	4.1K(20) Self-
4.1K(20)	Self-Storage	-	-	-	-	SP-ZB	SP-ZB	-	-	-	-	-	

Storage: A building or group of buildings of a controlled- access and/or fenced compound that contains compartmentalized and controlled-access stalls or lockers, for the storage of customers’ goods or wares. FINANCE COMMITTEE RECOMMENDATION: No Direct Financial Impact 5-0 SELECT BOARD RECOMMENDATION: Recommend Approval 4-0 **VOTED (66 YES, 8 NO – 50 needed for 2/3rds majority) to amend the Code of Lunenburg, Section 250-4.1, which is a Section of the Protective Bylaw entitled Permitted and Prohibited Uses”, by adding a new section 250-4.1 K(20) entitled “Self-Storage,” and inserting the same into the accompanying “Use Tables”.**

Meeting Adjourned at 12:08 P.M.

Excerpts: SPECIAL TOWN MEETING November 14, 2023

The meeting was called to order at 7:01PM in the Middle/High School Auditorium. The Moderator declared that we had a quorum present and that the warrant was properly served. We then pledged allegiance to the Flag; we were reminded of committee vacancies and the need for volunteers and finally we tested the electronic devices to be used for voting. The Moderator explained the Consent Calendar and moved same: that Town Meeting advance for consideration Articles 2, 7, and 8 and that it take action on said Articles without debate: **VOTED (DECLARED CARRIED BY 9/10ths) on a voice vote.**

ARTICLE 1. To see if the Town will vote to raise and appropriate, borrow, or transfer from available funds, all sums of money necessary to amend the amounts voted for the Town’s FY 2024 Budget, under Article 7 of the May 6, 2023 Town Meeting; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE & SELECT BOARD: Recommend Approval. **VOTED (126 YES, 13 NO 93 needed for 2/3rds majority) to raise and appropriate the sum of \$319,000 as follows: to line #13/Reserve Fund, the sum of \$200,000; to line#13A Salary Reserve, the sum of \$99,000; to line #31/Town Clerk Salary, the sum of \$20,000; for a total increase of \$319,000 in the amount raised and appropriated under Article 7 of the May 6, 2023 Annual Town Meeting**

ARTICLE 2. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money for payment of prior year expenses; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Approval SELECT BOARD RECOMMENDATION: Deferred **VOTED (9/10ths DECLARED) to raise and appropriate the sum of \$1,423.52 for payment of prior year expenses.**

ARTICLE 3. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money to fund the first year of the FY 24, FY 25, and FY 26 Lunenburg Municipal Employees Collective Bargaining Agreement dated July 1, 2023 – June 30, 2026 with AFSCME, Council 93; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE & SELECT BOARD RECOMMENDATION: Approval **VOTED (132 YES, 11 NO) to transfer from Article 7 of the May 6, 2023 Annual Town Meeting, line #13A/Salary Reserve, the sum of \$58,431.03 to fund the first year of the FY 24, FY 25, and FY 26 Lunenburg Municipal Employees Collective Bargaining Agreement dated July 1, 2023 – June 30, 2026 with AFSCME, Council 93.**

ARTICLE 4. To see if the Town will vote to transfer a sum of money from the Special Purpose Stabilization Fund to pay for a new ambulance to replace Rescue 1 and two new dump trucks to replace two decommissioned dump trucks; or take any other action relative thereto. (Submitted by the Town Manager) FINANCE COMMITTEE RECOMMENDATION: Not Recommended SELECT BOARD RECOMMEND APPROVAL . (Motion was for \$986,000). **ARTICLE 4 WAS DEFEATED (29 YES, 92 NO)**

ARTICLE 5. To see if the Town will vote to transfer \$80,000 from the Opioid Settlement Stabilization Fund to be used to fund the Police Department's Mental Health Co-Response program, contingent upon the Town of Lancaster's approval of 50% of the program cost; or take any other action relative thereto. (Submitted by the Police Chief) FINANCE COMMITTEE & SELECT BOARD RECOMMENDATION Approval **VOTED (125 YES, 2 NO 85 needed for 2/3rds majority) to transfer the sum of \$80,000 from the Opioid Settlement Stabilization Fund to be used to fund the Police Department's Mental Health Co-Response program, contingent upon the Town of Lancaster's approval and reimbursement of 50% of the program cost; and to re-appropriate such reimbursed amount(s) to the aforesaid Opioid Stabilization Fund for its established purposes.**

ARTICLE 6. To see if the Town will vote to transfer \$232,800 from the FY23 Capital Plan, as voted under Article 6 of the May 7, 2022 Annual Town Meeting, to the Lunenburg School District for the purpose of installing ductless split climate control systems at the Lunenburg Primary School; or take any other action relative thereto. (Submitted by the Lunenburg School Department) FINANCE COMMITTEE & SELECT BOARD RECOMMENDATION: Approval **VOTED (104 YES, 16 NO) to transfer the sum of \$232,800 from the FY23 Capital Plan, as voted under Article 6 of the May 7, 2022 Annual Town Meeting, to the Lunenburg School District for the purpose of installing ductless split climate control systems at the Lunenburg Primary School.**

ARTICLE 7. To see if the Town will vote to transfer from available funds \$1,851.30 into the Sewer Reserve Capacity Stabilization Fund; or take any other action relative thereto. (Submitted by the Sewer Commission) FINANCE COMMITTEE & SELECT BOARD RECOMMENDATION: Approval **VOTED UNANIMOUS (but one) CONSENT to transfer the sum of \$1,851.30 from Sewer Enterprise Retained Earnings to the Sewer Reserve Capacity Stabilization Fund.**

ARTICLE 8. To see if the Town will vote to transfer from available funds \$5,340.00 into the Sewer Inflow/Infiltration Stabilization Fund; or take any other action relative thereto. (Submitted by the Sewer Commission) FINANCE COMMITTEE & SELECT BOARD RECOMMENDATION: Approval **VOTED UNANIMOUS (but one) CONSENT to transfer the sum of \$5,340.00 from Sewer Enterprise Retained Earnings to the Sewer Inflow/Infiltration Stabilization Fund.**

ARTICLE 9. To see if the Town will vote to amend the Code of Lunenburg, Section 250-4.9, which is a Section of the Protective Bylaw entitled "Water Supply Protection District," by deleting the same in its entirety and by substituting therefor a new Section 250-4.9, as follows:

250-4.9 WATER SUPPLY PROTECTION DISTRICT

1. PURPOSE OF DISTRICT

The purpose of this Water Supply Protection District is to:

- promote the health, safety, and general welfare of the community by ensuring an adequate quality and quantity of drinking water for the Town of Lunenburg.
- preserve and protect existing and potential sources of drinking water;
- conserve natural resources in the Town of Lunenburg; and
- prevent temporary and permanent contamination of the environment.

SCOPE OF AUTHORITY

The Water Supply Protection District is an overlay district superimposed on the zoning districts. This overlay district shall apply to all new construction, reconstruction, or expansion of existing buildings and new or expanded uses. Applicable activities and uses in a portion of one of the underlying zoning districts that fall within the Water Supply Protection District must additionally comply with the requirements of this bylaw. Uses prohibited in the underlying zoning districts shall not be permitted in the Water Supply Protection District.

DEFINITIONS

Automobile Graveyard: An establishment that is maintained, used, or operated for storing, keeping, buying, or selling wrecked, scrapped, ruined, or motor vehicle parts as defined in MGL c.140B, s.1.

Aquifer: A geologic formation composed of rock, sand or gravel that contains significant amounts of potentially recoverable water.

CMR: Code of Massachusetts Regulations.

Commercial Fertilizer: Any substance containing one or more recognized plant nutrients which is used for its plant nutrient content and which is designed for use, or claimed to have value in promoting plant growth, except unmanipulated animal and vegetable manures, marl, lime, limestone, wood ashes, and gypsum, and other products exempted by state regulations.

Discharge: The accidental or intentional disposal, deposit, injection, dumping, spilling, leaking, pouring, or placing of toxic or hazardous material or hazardous waste upon or into any land or water such that it may enter the surface or ground waters.

Dry Well: A subsurface pit with open-jointed lining or holes through which storm-water drainage from roofs, basement floors, foundations or other areas seep into the surrounding soil.

Water Supply Protection District: The land area consisting of aquifers, Zone II recharge areas, and Zone III areas, all as approved by MassDEP and identified on a map and adopted pursuant to this bylaw.

Hazardous Material: Any substance in any form which because of its quantity, concentration, or its chemical, corrosive, flammable, reactive, toxic, infectious or radioactive characteristics, either separately or in combination with one or more substances, constitutes a present or potential threat to human health, safety, welfare, or to the environment, when improperly stored, treated, transported, disposed of, used, or otherwise managed. Hazardous material includes, without limitation, synthetic organic chemicals, petroleum products, heavy metals, radioactive or infectious materials, and all substances defined as toxic or hazardous under MGL c. 21E. This term shall not include hazardous waste or oil.

Historical High Groundwater Table Elevation: A groundwater elevation determined from monitoring wells and historical water table fluctuation data compiled by the United States Geological Survey.

Hazardous Waste: A substance or combination of substances, which because of quantity, concentration, or physical, chemical or infectious characteristics may cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible illness or pose a substantial present or potential hazard to human health, safety, or welfare or to the environment when improperly treated, stored, transported, used or disposed of, or otherwise managed. This term shall include all substances identified as hazardous pursuant to the Hazardous Waste Regulations, 310 CMR 30.000.

Impervious Surface: Material or structure on, above, or below the ground that does not allow precipitation or surface water runoff to penetrate into the soil.

Interim Wellhead Protection Area (IWPA): The MassDEP designated protection radius around a public water well that lacks a Zone II.

Junkyard: An establishment that is maintained, operated, or used for storing, keeping, buying, or selling junk, or for the maintenance or operation of an automobile graveyard, as defined in MGL c.140B, s.1.

Landfill: A facility established in accordance with a valid site assignment for the purposes of disposing solid waste into or on the land, pursuant to the Solid Waste Regulations, 310 CMR 19.006.

MassDEP: Massachusetts Department of Environmental Protection.

MGL: Massachusetts General Law.

Petroleum Product: Includes, but not limited to, fuel oil; gasoline; diesel; kerosene; aviation jet fuel; aviation gasoline; lubricating oils; oily sludge; oil refuse; oil mixed with other wastes; crude oils; or other liquid hydrocarbons regardless of specific gravity. Petroleum product shall not include liquefied petroleum gas including, but not limited to, liquefied natural gas, propane or butane.

Non-Sanitary Wastewater: Wastewater discharges from industrial and commercial facilities containing wastes from any activity other than collection of sanitary sewage including, but not limited to, activities specified in 310 CMR 15.004(6).

Open Dump: A facility operated or maintained in violation of the Resource Conservation and Recovery Act 42 U.S.C. 4004(a)(b), or state regulations and criteria for solid waste disposal.

Recharge Areas: Land areas, such as a Zone II or an Interim Wellhead Protection Area, where precipitation and surface water infiltrates into the ground to replenish groundwater and aquifers used for public drinking water supplies.

Septage: The liquid, solid, and semi-solid contents of privies, chemical toilets, cesspools, holding tanks, or other sewage waste receptacles. This term shall not include any material that is a hazardous waste, as defined by 310 CMR 30.000.

Sludge: The solid, semi-solid, and liquid residue that results from a process of wastewater treatment or drinking water treatment including wastewater residuals. This term shall not include grit, screening, or grease and oil which are removed at the headworks of a facility.

Treatment Works: Any and all devices, processes and properties, real or personal, used in the collection, pumping, transmission, storage, treatment, disposal, recycling, reclamation, or reuse of waterborne pollutants, but not including any works receiving a hazardous waste from off the site of the works for the purpose of treatment, storage, or disposal.

Utility Works: Regulated activities providing for public services, including roads, water, sewer, electricity, gas, telephone, transportation and their associated maintenance activities. This term shall include the installation of detention and retention basins for the purpose of controlling storm water.

Very Small Quantity Generator: Any public or private entity, other than residential, which produces less than 27 gallons (100 kilograms) a month of hazardous waste or waste oil, but not including any acutely hazardous waste as defined in 310 CMR 30.136.

Waste Oil Retention Facility: A waste oil collection facility for automobile service stations, retail outlets, and marinas which is sheltered and has adequate protection to contain a spill, seepage, or discharge of petroleum waste products in accordance with MGL c.21. s.52A. .

Zone II: The delineated recharge area to a public drinking water well as approved by MassDEP and defined under the Massachusetts Drinking Water Regulations 310 CMR 22.00.

Zone III: An area beyond a Zone II recharge area, as approved by MassDEP and defined under the Massachusetts Drinking Water Regulations 310 CMR 22.00.

ESTABLISHMENT AND DELINEATION OF WATER SUPPLY PROTECTION DISTRICT

For the purposes of this bylaw, there are hereby established within the Town of Lunenburg certain water supply protection areas consisting of aquifers or recharge areas (Zone II) and certain protected areas beyond those Zone II areas (Zone III). These areas are delineated on a map entitled *Lunenburg Water District Aquifer Protection Zones* dated July 2021 which is hereby made part of the Water Supply Protection District Bylaw and is on file in the office of the Town Clerk.

DISTRICT BOUNDARY DISPUTES

If the location of the Water Supply Protection District in relation to a particular parcel is in doubt, resolution of the boundary dispute shall be through a Special Permit application to the Special Permit Granting Authority. Any application for a special permit for this purpose shall be accompanied by adequate documentation.

Burden of proof shall be upon the land owner to demonstrate that the location of the Water Supply Protection District with respect to a particular parcel(s) of land is uncertain. At the request of the land owner, the Town may engage a professional engineer, hydrologist, geologist, or soil scientist to determine more accurately the boundaries of the Water Supply Protection District with respect to a particular parcel(s) of land, and may charge the owner for the cost of the investigation. Changes to the Water Supply Protection District require town meeting approval. Changes to the Zone II boundary requires approval from the MassDEP.

Where the Zone II boundary line of the Water Supply Protection District divides a lot or parcel, the requirements established by this bylaw shall apply to the land 20 feet beyond the Zone II boundary.

PERMITTED USES

The following uses are permitted within the Water Supply Protection District, provided that all necessary permits, orders, or approvals required by local, state, or federal law are also obtained:

- conservation of soil, water, plants, and wildlife;
- outdoor recreation, nature study, boating, fishing, and hunting where otherwise legally permitted;
- foot, bicycle and/or horse paths, and bridges;
- normal operation and maintenance of existing water bodies and dams, splash boards, and other water control, supply and conservation devices;
- maintenance, repair, and enlargement of any existing structure, subject to Section 7 and Section 8 of this bylaw;
- residential development, subject to Sections 7 and 8 of this bylaw;
- farming, gardening, nursery, conservation, forestry, harvesting, and grazing, subject to Section 7 and Section 8 of this bylaw;
- construction, maintenance, repair, and enlargement of drinking water supply related facilities such as, but not limited to, wells, pipelines, aqueducts, and tunnels; and
- any use permitted in the underlying zoning by-right or by special permit, except for those uses specifically prohibited in Sections 7 and 8 of this bylaw.

PROHIBITED USES

The following land uses and activities are prohibited in Zone II unless designed in accordance with the specified performance standards:

- landfills and open dumps;
- automobile graveyards and junkyards;
- landfills receiving only wastewater residuals and/or septage, including those approved by MassDEP pursuant to MGL c. 21 s.26 through s.53, MGL c.111 s.17, and MGL c.83 s.6 and s.7;
- facilities that generate, treat, store, or dispose of hazardous waste that are subject to MGL c.21C and 310 CMR 30.000, except for:
 - very small quantity generators as defined under 310 CMR 30.000;
 - household hazardous waste centers and events under 310 CMR 30.390;
 - waste oil retention facilities required by MGL c. 21, s.52A; and
 - water remediation treatment works approved by MassDEP for the treatment of contaminated waters.
- petroleum, fuel oil, and heating oil bulk stations and terminals including, but not limited to, those listed under North American Industry Classification System (NAICS) Codes 424710 and 454311, except for liquefied petroleum gas.
- storage of liquid hazardous materials and/or liquid petroleum products unless such storage is above ground level and on an impervious surface and either:
 - in container(s) or above ground tank(s) within a building; or
 - outdoors in covered container(s) or above ground tank(s) in an area that has a containment system designed and operated to hold either; 10% of the total possible storage capacity of all containers or 110% of the largest container's storage capacity, whichever is greater.

however, these storage requirements shall not apply to the replacement of existing tanks or systems for the keeping, dispensing or storing of gasoline provided the replacement is performed in a manner consistent with state and local requirements;

- storage of sludge and septage, unless such storage is in compliance with 310 CMR 32.30 and 310 CMR 32.31;
- storage of deicing chemicals, with the exception of small quantities stored in containers and ready for application, unless such storage, is within a structure designed to prevent the generation and escape of contaminated runoff or leachate
- storage of animal manure, with the exception of small quantities stored in containers and ready for application, unless contained within a structure designed to prevent the generation and escape of contaminated runoff or leachate;
- storage of commercial fertilizers, with the exception of small quantities stored in containers and ready for application, unless such storage is within a structure designed to prevent the generation and escape of contaminated runoff or leachate;
- stockpiling and disposal of snow and ice containing deicing chemicals brought in from outside the Water Supply Protection District;

- earth removal, consisting of the removal of soil, loam, sand, gravel, or any other earth material to within 4 feet of historical high Water Supply as determined from monitoring wells and historical water table fluctuation data compiled by the United States Geological Survey, except for excavations for building foundations, roads, utility works or wetland restoration work conducted in accordance with a valid Order of Condition issued pursuant to MGL c. 131, s.40; and
- treatment or disposal works subject to 314 CMR 5.00, for non-sanitary wastewater, including those activities listed under 310 CMR 15.004(6), except for:
 1. treatment works approved by MassDEP designed for the treatment of contaminated ground or surface water and operating in compliance with 314 CMR 5.05(3) or 5.05(13); and
 2. publicly owned treatment works.

USES AND ACTIVITIES REQUIRING A SPECIAL PERMIT

In Zone II the following uses and activities are permitted only upon the issuance of a Special Permit by the Special Permit Granting Authority (SPGA) under such conditions as they may require:

1. enlargement or alteration of existing uses that do not conform to the Water Supply Protection District;
2. except as prohibited under Section 7 of this bylaw, activities that involve the handling of toxic or hazardous materials in quantities greater than those associated with normal household use and which are permitted in the underlying zoning district;
3. rendering impervious any lot or parcel more than 15% or 2,500 square feet, whichever is greater; unless artificial recharge, that will not degrade water quality, is provided using methods demonstrated to be capable of removing contaminants from storm water and which are consistent with methods described in MassDEP's Stormwater Handbook, Vol. I, II and III, as amended.
4. In Zone III, the aforementioned uses and activities are permitted only upon the issuance of Site Plan Approval by the Planning Board under such conditions as they may reasonably require. Site Plan Approval will be granted, with the input of the Building Commissioner, Board of Health, Conservation Commission, and Department of Public Works, that the intent of the Bylaw, as well as its specific criteria, are met. The submitted Site Plan Approval application will comply with the requirements of Section 9.5 of this Bylaw. If there are material changes to the categories of potentially hazardous materials to be used or stored on the premises in quantities greater than those associated with normal household use after Site Plan Approval is granted, the owner/operator will file updated information on those categories of hazardous materials with the Fire Department, Board of Health, and the Planning Board.

PROCEDURES FOR ISSUANCE OF SPECIAL PERMIT

The Special Permit Granting Authority (SPGA) under this bylaw shall be the Planning Board.

1. A special permit shall be granted if the SPGA determines, with advisement from the Lunenburg Water District, Building Commissioner, Conservation Commission, Department of Public Works, and Board of Health, that the intent of this bylaw, as well as its specific criteria, are met. The SPGA shall not grant a special permit under this section unless the petitioner's application materials include, in the SPGA's opinion, sufficiently detailed, definite, and credible information to support positive findings in relation to the standards given in this section.
2. The SPGA shall document the basis for any departures from the recommendations of the other municipal boards, departments or commissions in its decision.

3. The SPGA may grant the required special permit upon finding that the proposed use meets the following standards, those specified in Section 7 of this bylaw, and any regulations or guidelines adopted by the SPGA. The proposed use must:

in no way, during construction or thereafter, materially adversely affect the quality or quantity of the water supplies protected by the Water Supply Protection District; and

be designed to avoid substantial disturbance of the soils, topography, drainage, vegetation, and other water-related natural characteristics of the site to be developed, except as depicted on an approved site plan.

4. The SPGA may adopt controls to govern design features of projects. Such controls shall be consistent with the Town's subdivision regulations, Site Plan Approval, and Stormwater Bylaws.

5. The applicant shall file 10 copies of a site plan and attachments. The site plan shall be drawn at a proper scale as determined by the SPGA and be stamped by a professional engineer. All additional submittals shall be prepared by qualified professionals. The site plan and all supporting materials must meet the requirements outlined in the Planning Board Rules & Regulations for Site Plan Approval and Special Permit and at a minimum include the following information where pertinent:

- a complete list of the categories of chemicals, pesticides, herbicides, fertilizers, fuels, and other potentially hazardous materials to be used or stored on the premises in quantities greater than those associated with normal household use; and
- for activities using or storing hazardous materials or wastes, a management plan shall be prepared and filed with the Fire Chief and the Board of Health. The plan will be consistent with the requirements of Section 7 and shall include:
- provisions to protect against the discharge of hazardous materials or wastes to the environment due to spillage, accidental damage, corrosion, leakage, or vandalism, including spill containment and clean-up procedures;
- provisions for indoor, secured storage of hazardous materials or wastes with impervious floor surfaces;
- evidence of compliance with the Massachusetts Hazardous Waste Regulations 310 CMR 30.000; and
- proposed down-gradient location(s) for groundwater monitoring well(s), should the SPGA deem the activity a potential groundwater threat.

6. The SPGA shall hold a hearing, in conformity with the provision of MGL c.40A s. 9, within 65 days after the filing of the application. Notice of the public hearing shall be given by publication and posting and by first-class mailings to "parties of interest" as defined in MGL c.40A s.11. The decision of the SPGA and any extension, modification, or renewal thereof shall be filed with the SPGA and Town Clerk within 90 days following the closing of the public hearing. Failure of the SPGA to act within 90 days shall be deemed as a granting of the permit.

7. If there are material changes to the categories of potentially hazardous materials to be used or stored on the premises in quantities greater than those associated with normal household use after the Special Permit has been granted, the owner/operator will file updated information on those categories of hazardous materials with the Fire Department, the Board of Health, and the Planning Board.

ENFORCEMENT

Written notice of any violations of this bylaw shall be given by the Building Commissioner

to the responsible person as soon as possible after detection of a violation or a continuing violation. Notice to the assessed owner of the property shall be deemed notice to the responsible person. Such notice shall specify the requirement or restriction violated and the nature of the violation, and may also identify the actions necessary to remove or remedy the violations and preventive measures required for avoiding future violations and a schedule of compliance.

A copy of such notice shall be submitted to the Land Use Director, Building Commissioner, Conservation Commission, Department of Public Works, and Board of Health. The cost of containment, clean-up, or other action of compliance shall be borne by the owner/operator of the premises.

The Building Commissioner may use any portion of Section 250-8.2 of these Zoning Bylaws to assist in the enforcement of the requirements of this Bylaw.

SEVERABILITY

If any provision of this bylaw is held invalid by a court of competent jurisdiction, the remainder of the bylaw shall not be affected thereby. The invalidity of any section or sections or parts of any section or sections of this bylaw shall not affect the validity of the remainder of this bylaw.

and, further, by adopting same boundaries of the Water Supply Protection District as presently shown on the Town's official zoning map; or take any other action relative thereto. (Submitted by the Planning Board) FINANCE COMMITTEE RECOMMENDATION: No Direct Financial Impact SELECT BOARD RECOMMENDATION: Deferred **ARTICLE 9 WAS PASSED OVER (80 YES, 29 NO)**

ARTICLE 10 To see if the Town will vote to hear an interim report from the Municipal Building Design Committee; or take any other action relative thereto. (Submitted by the Municipal Building Design Committee)

FINANCE COMMITTEE RECOMMENDATION: No Direct Financial Impact SELECT BOARD RECOMMENDATION: Recommend Approval **ARTICLE 10 WAS PASSED OVER (UNANIMOUS VOICE VOTE)**

ARTICLE 11. To see if the Town will vote to raise and appropriate, borrow, or transfer from available funds, a sum of money for repairs to a portion of the TC Passios Building roof, located at 1025 Massachusetts Avenue; or take any other action relative thereto. (Submitted by the Town Manager)

FINANCE COMMITTEE & SELECT BOARD RECOMMENDATION: Approval **VOTED (81 YES, 11 NO) to transfer the sum of \$300,000 from the FY23 Capital Plan, as voted under Article 6 of the May 7, 2022 Annual Town Meeting, to fund repairs to a portion of the TC Passios Building roof, located at 1025 Massachusetts Avenue.**

ARTICLE 12. To see if the Town will vote: (i) to reauthorize raising and appropriating of the sum of \$184,000 for final engineering and design services for certain recreation and open space areas at the property known as Marshall Park, located at 100 Chestnut Street, as shown on Assessor's Map 060, Lot 018, as previously voted under Article 4 of the November 15, 2022 Special Town Meeting warrant, which would be in addition to the sum of \$1,000,000 being already committed by the Select Board from available American Rescue Plan Act (ARPA) funds for associated improvements to said Marshall Park, specifically including the construction of a playground, multi-sport courts and pavilion, for a total amount of \$1,184,000 committed to the aforesaid project, representing one hundred percent of the total cost thereof; (ii) to dedicate the aforementioned 100 Chestnut Street property to active recreation purposes pursuant to G.L. c. 45, § 3, consistent with said property's present restriction to park and playground purposes forever per the deed to the Town dated March 18, 1913 and recorded with the Worcester Northern District Registry of Deeds at Book 291, Page 497;

and (iii) to authorize the Parks Commission and/or the Select Board, on behalf of the Town, to apply for and accept any and all grants deemed necessary under the Urban Self-Help Act, 301 CMR 5.00, *et seq.*, as reimbursement for project costs and expenses, and to enter into all agreements and execute any and all instruments as may be necessary on behalf of the Town to effectuate the same; or take any other action relative thereto. (Submitted by the Park Commission) FINANCE COMMITTEE & SELECT BOARD RECOMMENDATION: Approval **VOTED (90 YES, 4 NO 63 needed for 2/3rds majority)** to: (i) to reauthorize raising and appropriating of the sum of \$184,000 for final engineering and design services for certain recreation and open space areas at the property known as Marshall Park, located at 100 Chestnut Street, as shown on Assessor's Map 060, Lot 018, as previously voted under Article 4 of the November 15, 2022 Special Town Meeting warrant, which would be in addition to the sum of \$1,000,000 being already committed by the Select Board from available American Rescue Plan Act (ARPA) funds for associated improvements to said Marshall Park, specifically including the construction of a playground, multi-sport courts and pavilion, for a total amount of \$1,184,000 committed to the aforesaid project, representing one hundred percent of the total cost thereof; (ii) to dedicate the aforementioned 100 Chestnut Street property to active recreation purposes pursuant to G.L. c. 45, § 3, consistent with said property's present restriction to park and playground purposes forever per the deed to the Town dated March 18, 1913 and recorded with the Worcester Northern District Registry of Deeds at Book 291, Page 497; and (iii) to authorize the Parks Commission and/or the Select Board, on behalf of the Town, to apply for and accept any and all grants deemed necessary under the Urban Self-Help Act, 301 CMR 5.00, *et seq.*, as reimbursement for project costs and expenses, and to enter into all agreements and execute any and all instruments as may be necessary on behalf of the Town to effectuate the same.

ARTICLE 13. To see if the Town will vote to amend the Code of Lunenburg, Chapter 250, being the Protective Bylaw, also entitled "Zoning," by:

amending the definition of "Farm" in Article II, entitled "Definitions," Section 2.1, entitled "Terms defined; word usage," as follows, with additions underlined and deletions stricken-through:

"Farm

A parcel of land of ~~five acres or more~~ at least five acres or two acres qualified under MGL c. 40A, § 3, used primarily for gain in the commercial raising or production of agricultural products, livestock, poultry, dairy products, viticulture, horticulture and floriculture. It includes necessary farm structures and the storage of equipment used."

amending the provisions of Article IV, entitled "Use Regulations," Section 4.1, entitled "Permitted and prohibited uses," Subsection C(2), as follows, with additions underlined and deletions stricken-through:

- "C. Nothing in this bylaw shall prohibit, regulate or restrict the use of land or structures in any district for the following uses:
- (2) Agriculture, horticulture, floriculture and viticulture as their primary purpose, provided that such uses shall be limited to parcels of land containing at least five acres or at least two acres qualified under MGL c. 40A, § 3."and

amending the provisions of Article V, entitled "Dimensional Regulations," Section 5.1, entitled "Lot area," Subsection B(5), as follows, with additions underlined and deletions stricken-through:

"B.

- (5) In case of a farm exempted from the provisions of the zoning by statute, the minimum lot area, width and frontage requirements shall be in addition to the five acres as or two qualified acres required under MGL c. 40A, § 3 ~~and MGL c. 61A.~~"

or take any other action relative thereto. (Submitted by the Agricultural Commission) FINANCE COMMITTEE RECOMMENDATION: No Direct Financial Impact SELECT BOARD & PLANNING BOARD RECOMMENDATION: Approval. **VOTED (81 YES, 2 NO 56 needed for 2/3rds majority)** to amend the Code of Lunenburg, Chapter 250, being the Protective Bylaw, also entitled "Zoning".

ARTICLE 14. To see if the Town will vote to amend the Code of Lunenburg, Section 250-6.4, which is a Section of the Protective Bylaw entitled “Driveways and entrances,” Subsection C, entitled “Off-street parking design standards; general parking and loading provisions,” by deleting further Subsection (5)(k) thereof in its entirety and by and substituting therefor the following new further Subsection 7:

(7) Common Driveways

A common driveway is an access drive to be used for vehicular access to two or more primary dwellings or places of business. No person will develop or construct a driveway serving two or more lots or properties without first obtaining a Special Permit from the Planning Board in accordance with this Section 250-6.4C(7).

The Planning Board may issue a Special Permit to allow a common driveway upon finding that the driveway will:

Promote efficient traffic flow,

Reduce traffic hazards from numerous individual driveways,

In the judgment of the Planning Board, such an arrangement will be more advantageous to the neighborhood than individual driveways,

Consolidate access to lots across/near wetland resources, and

Provide sufficient access to emergency vehicles and responders.

(b) Special Permit Requirements

The driveway will be located entirely within the lots being served.

A common driveway will be considered satisfactory only if:

It has been constructed in accordance with the provisions of the Special Permit

There is a recorded access easement outlining the right of access and including clear provision for maintenance and snow removal; running with the land.

A common driveway will not be used to provide lot frontage required by this Bylaw or by the Subdivision Control Law.

Where the access to structures or uses provided by the driveway is substantially different from that which would be provided through the required lot frontages, the Special Permit will not be issued unless the Planning Board finds that the proposed shared driveway and its location are in the public interest.

Each lot that shares a common driveway will meet the minimum dimensional requirements for the Zoning District in which it is located as outlined in this Bylaw. Specifically, each lot will have the required amount of frontage located on the street which connects to the common driveway.

The Planning Board will submit a copy of the Special Permit and approved plans to the Building Commissioner. No building permit will be issued until receipt of the Special Permit and plan.

No occupancy permit shall be issued for any uses or structures utilizing the common driveway until evidence of recording of the required utility, access and maintenance easement has been filed with the Building Commissioner and Planning Board.

(c) Design Criteria

i. Residential

Minimum pavement width 18 feet

Minimum easement width 24 feet

Max grade 10%

Curb Cut no closer than 100 feet from centerline on intersection

Max number of lots 4

Max length 1200 feet

ii. Commercial

Minimum pavement width 24 feet

Minimum easement width 40 feet

Max grade 10%

Curb Cut no closer than 100 feet from centerline on intersection

Max number of lots 6 with public water available, 4 without public water available

Max length 1800 feet with public water available, 1200 feet without public water available

iii. No grade will exceed 2% within 75 feet of the street right -of-way lines.

iv. All common driveways will be rounded at street intersection or cutback to provide a curb radius of not less than 30 feet.

v. The address of all buildings accessed off the common driveway shall be posted on a sign at the entrance of the driveway that is visible for residents, employees, visitors, and public safety

vi. The common driveway will be constructed of materials resistant to erosion and frost heaving and sufficient to support an axle load of 34,000 pounds under all weather conditions. The common driveway will be paved with a 3 inch minimum thickness layer of bituminous concrete.

vii. Turnouts will be provided along the common driveways at intervals of 300 feet. The turnouts will be 8 feet wide and 25 feet long.

viii. All shared driveways will be provided with a provisions for drainage sufficient to prevent deterioration of the driveway and to prevent any erosion, flooding, or other problems on any property beyond that of the owners of the driveway including the street which it intersects.

All curves will be designed with a twenty-five foot minimum inside turning radius.

The common driveway shall be clear of vegetation and overhead obstructions allowing for a vertical clearance of not less than 13ft, 6in.

The SPGA will require that utilities (if any) to the lots be located directly adjacent to or within the common driveway.

Each branch of the common driveway will be designed such that a twenty-one-foot wheelbase fire truck or other emergency vehicle can safely enter and exit the branch.

A common driveway must originate on approved frontage and must observe a twenty-five-foot setback from the side line between the lot of origin and a lot not served by the common driveway.

Entrance to driveway shall have a sign indicating the addresses located on the common driveway, to include a diagram map showing their locations. Additionally, each branch of the Common Driveway will have a sign at the intersection with the main driveway noting the address of the property.

or take any other action relative thereto. (Submitted by the Planning Board) FINANCE COMMITTEE RECOMMENDATION: No Direct Financial Impact SELECT BOARD & PLANNING BOARD RECOMMENDATION: Approval. **VOTED (60 YES, 14 NO 50 needed for 2/3rds majority) to amend the Code of Lunenburg, Section 250-6.4, which is a Section of the Protective Bylaw entitled "Driveways and entrances," Subsection C, entitled "Off-street parking design standards; general parking and loading provisions," by deleting further Subsection (5)(k) thereof in its entirety and by and substituting therefor a new further Subsection 7.**

ARTICLE 15. To see if the Town will vote to amend the Code of Lunenburg, Sections 250-4.5 and 250-4.6, which are Sections of the Protective Bylaw entitled “Commercial District” and “Office Park/Industrial District,” respectively, by adding thereto new Sections 250-4.5A(6) and 250-4.6A(4), respectively, both as follows:

Solar Parking Canopy: a special application of a ground-mounted solar energy system that is installed on top of a functional parking surface that maintains the function of the area beneath the canopy.

A Solar Parking Canopy may be allowed by Special Permit from the Planning Board in the Commercial and Office/Industrial Park Districts. In approving a Special Permit the Planning Board must find the following:

Equipment associated with the solar canopy system is adequately screened from the parking area and neighboring properties. Required screening must be met using natural planted materials in conjunction with a secure fence.

Security lighting for parking areas is in place and adequate.

The installation of the solar canopy system does not reduce the number of parking spaces below the minimum required for the uses present or intended.

A minimum of five percent (5%) of parking spaces in the parking lot will have universal charging facilities for EVs. Brand specific charging facilities are allowed only when they are in addition to the minimum number of universal chargers. A minimum of ten percent (10%) of each type of EV charging spaces must be accessible and comply with the Massachusetts Architectural Access Board Regulations (521 CMR).

The maximum height for solar canopies is twenty feet (20’).

Solar canopies and all appurtenant structures to a solar canopy system shall meet the requirements of the Zoning Bylaw concerning setbacks and other dimensional requirements.

All appurtenant structures, including but not limited to equipment shelters, storage facilities, transformers, and substations, must be architecturally compatible with each other and the existing building(s) on-site.

The installation of the racking system for the solar canopy system considers and provides provisions for changes in grade and how drainage is addressed to prevent flooding and icing below the canopy system.

The applicant will provide a form of surety, either through an escrow account, bond or otherwise, to cover the cost of removal in the event the Town must remove the installation and remediate the landscape, in an amount and form determined to be reasonable by the development plan review authority, but in no event to exceed more than 125% of the cost of removal and compliance with the additional requirements set forth herein, as determined by the project proponent. Such surety will not be required for municipally or state-owned facilities. The project owner/operator shall submit a fully inclusive estimate of the costs associated with removal, prepared by a qualified engineer. The amount shall include a mechanism for calculating increased removal cost due to inflation. or take any other action relative thereto. (Submitted by the Planning Board) **FINANCE COMMITTEE RECOMMENDATION: No Direct Financial Impact SELECT BOARD & PLANNING BOARD RECOMMENDATION: Approval. VOTED (62 YES, 6 NO 45 needed for 2/3rds majority) to amend the Code of Lunenburg, Sections 250-4.5 and 250-4.6, which are Sections of the Protective Bylaw entitled “Commercial District” and “Office Park/Industrial District,” respectively, by adding thereto new Sections 250-4.5A(6) and 250-4.6A(4), respectively, as printed in the Special Town Meeting Warrant Booklet with the following further amendment: adding a new sentence to the end of Subsection (e), stating “In granting the special permit, the Planning Board may approve a higher height where the Board determines such height is needed for emergency vehicle or snow removal services for the subject site.”**

ARTICLE 16. To see if the Town will vote to amend the Code of Lunenburg, Section 250-4.13, which is a Section of the Protective Bylaw entitled “Solar energy systems,” Subsection B, entitled “Definitions,” by modifying the definition of “Large-Scale Ground-Mounted Photovoltaic Installation” as shown below, with additions underlined and deletions stricken-through, or take any other action relative thereto. (Submitted by the Planning Board)

LARGE-SCALE GROUND-MOUNTED PHOTOVOLTAIC INSTALLATION

A solar photovoltaic system that is structurally mounted on the ground and has a nameplate capacity of 10 kW or greater, specifically excluding a Solar Parking Canopy as defined in Section 250-4.5A(6) and 250-4.6A(4).

FINANCE COMMITTEE RECOMMENDATION: No Direct Financial Impact SELECT BOARD & PLANNING BOARD RECOMMENDATION: Approval. **VOTED (56 YES, 5 NO 41 needed for 2/3rds majority) to amend the Code of Lunenburg, Section 250-4.13, which is a Section of the Protective Bylaw entitled “Solar energy systems,” Subsection B, entitled “Definitions,” by modifying the definition of “Large-Scale Ground-Mounted Photovoltaic Installation”.**

Special Town Meeting adjourned at 11:08 pm.
