INTRODUCTION

As part of the FY 2023 budget, Facilities and Grounds and Parks was removed from the umbrella of the Department of Public Works and a new department was created. This new department is headed by the newly created Facilities Director position, includes a Facilities Superintendent, Facilities Custodian, a part-time Recreation Director (just hired), seasonal Beach Director, and seasonal lifeguards.

All of these facilities and grounds require regular maintenance and there are a multitude of large capital projects that need to be managed on a regular basis.

RESPONSIBILITIES

This department is responsible for the upkeep and maintenance of our eleven town buildings (Town Hall, Ritter Memorial, Library, Teen Center, Eagle House, Public Safety Building, DPW Building, Town Beach house, TC Passios, Brooks, and old Primary School), grounds (town commons), parks (Marshall Park, McNally Field, Fitzgerald Field, Wallis Park, and Veterans Park), and town beach.

The TC Passios and Brooks buildings are occupied primarily by the School Department and most regular maintenance is performed by their custodial staff and regular expenses are paid out of the TCP/Brooks House Receipts Reserved Account.

All of these facilities and grounds require regular maintenance and there are a multitude of large capital projects that need to be managed on a regular basis.

BUDGET CHANGES FOR FY24

TARGET REQUESTS INCLUDE:

- A \$15,000 increase in the Facilities Contracted Services account due to additional smaller projects under the \$20,000 threshold for capital.
- A new line item under the Parks and Recreation budget for salaries related to programming totaling \$5,000.
- An increase of \$8,500 under the Parks and Recreation Contracted Services line to address an increase in smaller projects and insufficient funding.

DEPARTMENT CHANGES:

Since parts of the new Facilities and Grounds budget were previously under the Department of Public Works budget (Parks and Recreation) and certain costs under the Facilities and Grounds are being moved to the Department of Public Works in FY24, both budgets will look either artificially inflated or reduced. Compared to FY23, the Facilities and Grounds budget increased \$84,079 or 9.37%.

PROJECT UPDATES

PRIMARY SCHOOL DEMOLITION

Primary School Demolition Bids were received on February 16th and the bid has been awarded to the low bidder Costello Dismantling.

Project will commence once the contractual documents executed & schedule to begin demolition. Once contracts sign, contractor has 75 days to complete.

Pricing came in under budget by quite a bit.

RITTER IMPRO

Drawing revisions to begin shortly, then we can begin bidding, permitting and going through the various boards (historical, conservation etc..)

BEACH HOUSE REPAIRS

Structural work replacing the front wall has been completed.

Still have some minor repairs to the interior and exterior of the building to wrap up before the season starts.

MARSHALL PARK

Survey work has been completed.

Facilities & Parks Chair meeting with civil engineer & landscape architect to review next steps in taking conceptual design and turning it into construction documents.

TOWN HALL

Town Hall – Exterior Renovations

Bids for this work came in way higher than capital appropriation.

Only received a single bid. Facilities to look for additional bidders

Or

Look to adjust some of the scope.

POWELL FIELD

Vandalism Repairs

Over the winter, someone was able to get a truck onto the outfield of Powell Field and did extensive damage to the outfield.

The Powell Family graciously donated labor and materials to repair the damage done to the field.
