FY2013 Revenue Overview

The Town has four- (4) sources of Revenue: Property Tax; State Aid; Local Receipts; and Available Funds. The following chart depicts the percentage of each funding source.

Property Taxes

Property taxes are the largest, single revenue source for the Town. Property taxes are levied on real property (land and buildings) and personal property (equipment) used by non-manufacturing business firms. In accordance with State Law, the Board of Assessors revalues all taxable real property at fair market value every three- (3) years. FY2012 was our last triennial revaluation year. In addition, the Town conducts annual interim adjustments in order to reflect the changes in market conditions. A full revaluation will be conducted in FY2015. Under the provisions of Proposition 2 ½, property taxes, in the aggregate, may not exceed 2 ½ % of their “full and fair cash value.” This limit is known as the “levy ceiling.” Annual levy increases may not exceed 2 ½% more than the previous year’s levy plus the taxes added from any new properties- New Growth- added to the tax rolls. Any Proposition 2 ½ override and/ or debt exclusion amounts voted are added to the levy limit.

	FY2012 Approved	FY2013 Projected	Dollar Increase over Prior Year	Percent Increase
Revenue				
Property Tax				
Prior Year Levy Limit	\$ 17,017,602	\$ 17,891,153		
2 1/2% Increase	\$ 425,440	\$ 447,279		
New Growth	\$ 448,111	\$ 350,000		
Unused Levy Capacity	\$ -	\$ -		
Override				
Debt Exclusions	\$977,795	\$948,563		
total:	\$ 18,868,948	\$ 19,636,995	\$ 768,047	4.07%

For FY2013, the Town’s Property Tax revenues are projected to increase by \$768,047, or 4.07%. Of interest is the New Growth estimate of \$350,000. This estimate has been increased as a result of the Emerald Place project, which has been under construction since the end of FY10, with significant progress made in FY2012. The estimate of \$350,000 roughly equates to an increase in total valuation of approximately \$20,750,000. This is broken down as follows.

<u>Project</u>	<u>Projected Value</u>	<u>Property Tax Revenue</u>
Emerald Place	\$15,750,000	\$265,073
General Growth	<u>\$ 5,000,000</u>	<u>\$ 84,150</u>
	\$20,750,000	\$349,223

The decrease in debt exclusions is a result of a decrease in the amount of tax revenue needed to be raised to pay debt service approved outside of the Proposition 2 ½ limit.

State Aid

State Aid is the Town’s second largest revenue source, and is commonly referred to as Cherry Sheet Aid. It is the amount of funding each community receives from the Commonwealth to help fund Education and General Government Services. Based upon House 1, the Governor’s FY2013 Budget Proposal, Lunenburg will receive a total of \$6,445,748 in aid, which is a increase of \$509,358. The bulk of this increase comes in the form of increased Chapter 70 funding, due to an increase in Foundation Enrollment of 52 students.

While the Governor’s Budget, once again, counts on new tax revenue which will only come with legislative approval, this new revenue will be tied largely to state programs, not local aid.

\$61.5 million will come from eliminating the exemption on candy and soda sales from the sales tax to preserve funding for public health programs. This amount will be dedicated to the Commonwealth Health and Preservation Fund to preserve public health and preventative care services, except for roughly \$10 million which will be made available to the School Building Authority and the Commonwealth Transportation Fund.

\$22 million from expanding the bottle bill. These revenues would be dedicated largely to recycling and water and sewer rate relief. These proposals will help protect key priorities and provide a more stable and sustainable funding base in the long-term.

Local Aid, other the Chapter 70 School Funding will be level funded, while Chapter 70 funding will be increased by \$145M, which is the highest level of funding in history. However, only 145 school districts out of 345 will received additional funding. Fortunately, Lunenburg is one of those districts to received increased funding due to an increase in Foundation Enrollment of 52 students.

Below is a chart comparing FY2013 House 1 State Aid to prior fiscal years. As you can see, State Aid for FY2013 is below what was received in FY2009, by close to \$100,000, net of Quinn Bill funding, or about 1.5%. In fact, although not shown on the chart below, FY2012 State Aid is roughly equivalent to what was received in FY2007- \$5,913,294.

Governor's House 1 Proposal

Of particular concern is that once again, no additional funding is proposed for Unrestricted General Government Aid [UGGA], also known as Lottery Aid, even though Lottery revenues are projected to grow by at least \$20M in FY2013. The Governor's budget bill does include language (in outside section 17) that would distribute as early as next October up to \$65 million in any year-end fiscal 2012 surplus. Unfortunately, because this payment of approximately \$65,000 isn't guaranteed, it can not be used as a revenue source in the Town's FY2013 Preliminary Budget. It is important to note, that since FY2009, Lottery Aid has been cut approximately 37%, or about \$485,000.

Local Receipts

Local Receipts are those fees, fines, licenses, permits and excise taxes that are collected at the local level. These revenues are generally referred to as elastic revenues as they are highly susceptible to fluctuations in the economy. We have been very fortunate in that our mainstay, Motor Vehicle Excise, has remained fairly healthy throughout this poor economy. Our first commitment for Calendar Year 2012, totaled \$942,761, and increase of \$48,287, or 5.4% over the first commitment of Calendar Year 2011. As a result, I have increased the estimated for Motor Vehicle Excise for FY2013 by 4.0%.

	FY2009 Actual	FY2010 Budget	FY2011 Approved	FY2012 Approved	FY2013 Projected	Dollar Increase over Prior Year	Percent Increase
Local Receipts							
Motor Vehicle Excise	\$ 1,240,518	\$ 1,130,500	\$ 1,158,763	\$ 1,255,523	\$ 1,305,744	\$ 50,221	4.00%

Miscellaneous, Supplemental State Aid				\$ 64,673	\$ -	\$ (64,673)	-100.00%
Miscellaneous Non- Recurring	\$ 36,894	\$ 31,243	\$ 75,000	\$ -	\$ -	\$ -	-
total:	\$ 2,167,839	\$ 2,215,343	\$ 2,363,606	\$ 2,503,796	\$ 2,431,389	\$ (72,407)	-2.89%

The overall projection for Local Receipts is a decrease of \$72,407, or 2.89% . This estimate includes a 2.5% increase for most items, except for Investment Income and Miscellaneous Receipts. As was mentioned in the FY2011 Close Out Report, the Town continues to have fewer idle funds to invest year over year and investment rates for legal investments are very low. The estimate for FY2012 was revised to a much lower level during the setting of the Tax Rate. The estimate for FY2013 has been increased slightly.

The estimate for the Local Option Meals Tax has been increased to \$65,000 to reflect what has been collected in past years. The estimate for the Medicare Part D Reimbursement has been lowered to reflect what is typically collected in a one year period. The estimate for FY2012 is atypical as it represents more than one year's worth of reimbursements. Additionally, the amount included for Supplemental Tax has been lowered to \$25,000 to reflect the estimate of Supplemental Tax to be billed on the remaining Emerald Place units. According to State Law, if a Certificate of Occupancy is issued for a property after June 30, but before December 31, a Supplemental Tax bill can be issued. At this time, it is anticipated that Certificate of Occupancy for units at the Emerald Place development, totaling approximately \$3.5M in value, will be issued within this time frame.

Available Funds

Available Funds is really a "catch all" category. Many Available Funds are one-time revenues, which cause a wide variance from the total amount available from one year to the next. Other sources of Available Funds are transfers from Enterprise Funds or Betterment Accounts to fund charges within the General Fund.

This budget does not anticipate using borrowing as a source of funding for the Capital Improvement Plan, as was used last year. A total of \$25,294 in Unexpended Capital Articles funding will be used to support this year's CIP.

The following is a list of what is expected to be available to help fund the FY2013 Budget.

	FY2009	FY2010	FY2011	FY2012	FY2013	Dollar Increase	Percent

FY2013 Expenditure Budget Overview

The Town's expenditures are divided into functional categories which become the legal budget appropriated at Town Meeting. These functional categories include: General Government; Central Purchasing; Police; Fire; Other Protection; Department of Public Works; Solid Waste; Health & Sanitation; Council on Aging; Veterans Services; Public Schools; Library; Debt Service; Unclassified; and Retirement Assessment. Other expenditures in the budget include Non-Appropriated costs, such as Cherry Sheet Charges, Cherry Sheet Offsets and funds for the Overlay Account. The final budgeting category, though not part of the actual budget vote (budget warrant article) are the remaining Town Meeting warrant articles that have a financial impact. The following is a summary of proposed expenditures for FY2013.

	Expended FY2009	Appropriated FY2010	Recommend. FY2011	Appropriated FY2012	Dept Request FY2013	TM Recom. FY2013	Dollar Increase over Prior Year	Percent Increase

Overall, Lunenburg's FY2011 Budget for Operating Expenses is projected to increase by \$893,495 or 3.12% over FY2012, offset by a decrease in Other [Warrant Article] Spending of \$82,996, for a total overall increase in spending of \$810,529, or 2.78%. The largest increases in Operating Expenses are in Unclassified- Employee Benefits (+\$166,822 or or 6.58%); [+ \$158,542 or 5.71%]; and Retirement Assessment [+ \$87,218 or 14.59%. The increase in spending for the School Department, of \$586,714 or 3.94%, is merely

last year's appropriation plus the increase in Chapter 70, far less than the amount of funding needed to provide Level Service within the schools. These increases are offset by very significant decreases in General Government [-\$82,312 or 6.70%]; and for the first time, decreases in both the Library [-\$34,644 or 10%] and the Council on Aging [-\$11,844 or 10%]. All of these proposed cuts will significantly impact the organization and dramatically affect the services provided by all affected departments, which will be discussed further below.

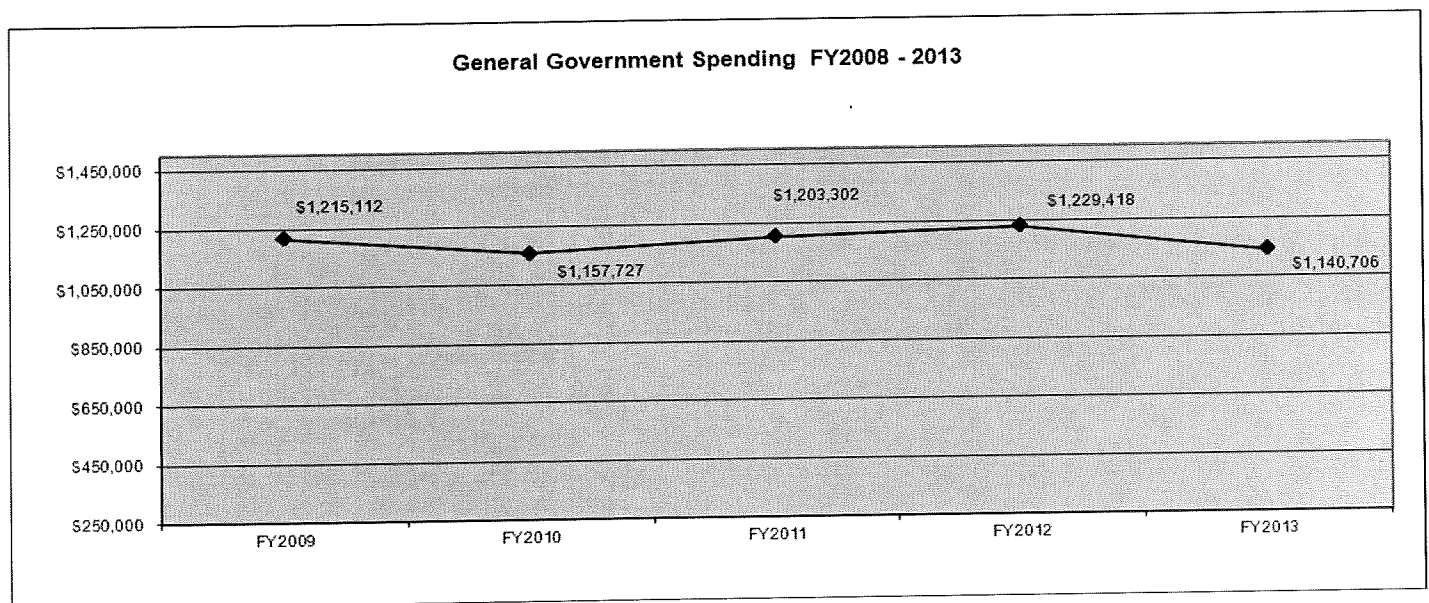

Funding has been included either within departments or within the Salary Reserve Account to fund all wage and salary contractual obligations. This proposal calls for the layoff of 2 or 3 employees within General Government, depending upon the outcome of a more detailed workflow analysis; the reduction in schedule of the Administrative and Land Use offices from a 5 day schedule, to a 4 day schedule; a decrease in funding for the Library which will require a decrease in hours and place our Library State Aid in jeopardy; and a decrease in Council on Aging spending, which will also necessitate a cut in services to some of our most needy residents.

None of these proposed cuts are easy, but they are very necessary given our funding constraints, and are needed realign the organization, to make sure an adequate level of funding supports mandatory services. In the following sections, I will detail my preliminary spending recommendations.

General Government

The General Government category includes the Administrative, Financial and Planning Offices of the town. Total spending in this category is recommended at \$1,147,106 which is a decrease of \$82,312 or 6.7% under FY2012. The main objective in preparing a recommendation for General Government was to identify the minimum level of expenditure needed to carry out the objectives of each of these departments. This measure, though far from ideal, is required due to the need to realign the organization to make sure that we are able to fully fund mandatory and non-discretionary items.

The following chart shows overall General Government spending over a 5-Year Period. The proposed level of funding for FY2013 is the lowest level in 5 years, and is actually nearly equivalent to the expenditure in FY2006.

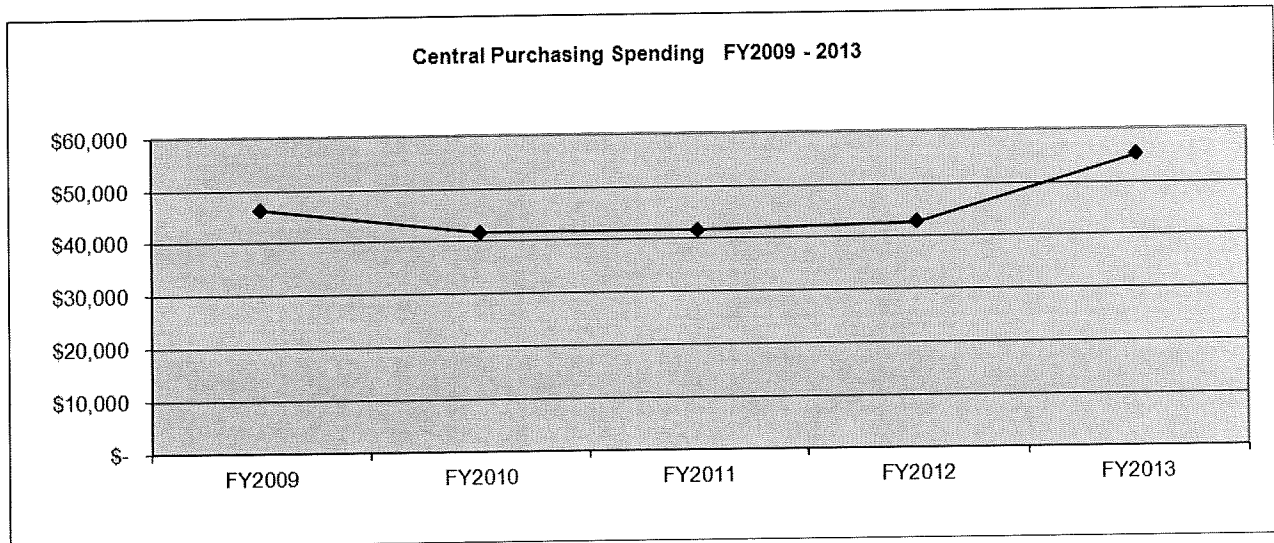

In order to meet this reduced level of spending, all Administrative and Land Use Offices, including the Building Department and Board of Health, which are funded in different sections of the budget, will be reduced to a 4-day per week schedule, likely Monday – Thursday, to maximize some additional savings by have both Town Hall and Ritter Memorial Buildings closed on Friday. This will be inconvenient to some wishing to conduct business, but there will be a great effort placed upon maximizing the amount of business which can be transacted electronically. In addition to the reduction in hours, staffing levels will be reduced by 1 FTE in the Board of Selectmen/ Town Manager's Office; by 0.65 FTE in the Technology Department; and 2 part-time positions in the Land Use Offices, totaling 1.55 FTE's will be combined and reduced to 0.9 FTE's.

Funding has been included in all departments to cover contractual salary increases.

Central Purchasing

Central Purchasing is the cost center used to track costs that are not easily allocated among departments, such as telephone charges and equipment maintenance. In FY2013, the preliminary recommendation is for a total of \$55,250, which is an increase of \$12,500 over the prior fiscal year appropriation. This line item has been traditionally underfunded. This increase is to reflect that actual expenses charged to this group and reflects increased utility costs, where appropriate.

The following chart shows overall Central Purchasing spending over a 5-Year Period.

Police Department

The Lunenburg Police Department is comprised of a Chief of Police, Lieutenant, three- (3) Sergeants, a Detective, seven- (7) Patrol Officers, a Traffic Officer, a Public Safety Coordinator and thirteen- (13) Reserve Police Officers. The Police Department operates twenty-four- (24) hours per day, seven- (7) days per week, year round with a civilian dispatch/ communications center shared with and under the direction of the Fire Department.

The Police Chief holds office hours Monday through Friday and is responsible for the command and services of the entire department. The Public Safety Coordinator is responsible for payroll, all accounting and record keeping, general office management and assists with police duties as a reserve police officer.

The Lieutenant is the department's court liaison officer and public information officer as well as the administrative officer to the Police Chief. The Lieutenant is the commanding officer during the Chief's absence.

All shifts are staffed by either a Sergeant and one- (1) patrol officer or two- (2) patrol officers. The traffic officer works a split shift of two- (2) consecutive, day shifts and two- (2) consecutive night shifts and is responsible for all traffic related calls for service and proactive traffic enforcement during those shifts. An additional officer was added in FY2012. This officer also works a split shift to provide additional coverage during the busiest shifts.

The Detective is responsible for evidence, crime scene management and photography, follow-up investigations generated by patrol, and serious criminal activity. The Reserve Officer are utilized as part-time staff to fill in shift assignments and extra detail work assignments not accepted and covered by full-time staff.

The department maintains a six- (6) cell lock up detainment area for arrestees not released from custody.

While we were able to increase the staffing level within the department in FY2012, it is the belief of both the Chief and the Town Manager, that the department continues to be understaffed given the growing population and complexity of issues. For many years, the Chief has provided anecdotal state and national data on the number of Officers per 1,000 in population in peer communities to support his argument. The average number of Officers per 1,000 in population in the Commonwealth is 2.1. Communities our size or smaller average 1.8, while Lunenburg only employs 1.39. A recent survey of area departments reveals that, given recent cutbacks, the number of officers per 1,000 in population in area communities is approximately 1.6, as shown in the chart below.

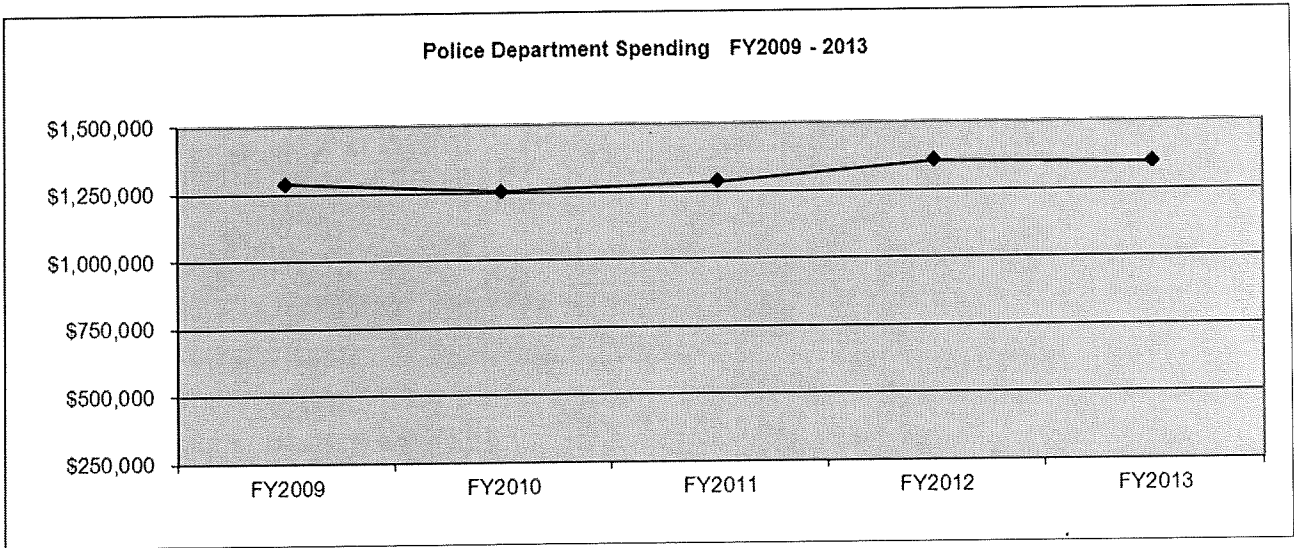

Town/City	# Of FT Officers	Population	# of Officers per 1,000 pop.
Ayer	17	7,427	2.29
Ashby	6	3,074	1.95
Westminster	13	7,277	1.79
Fitchburg	69	40,318	1.71
Leominster	68	40,759	1.67
Ashburnham	10	6,081	1.64

Townsend	14	8,926	1.57
Lancaster	12	8,055	1.49
Pepperell	17	11,497	1.48
Athol	17	11,584	1.47
Groton	15	10,646	1.41
Lunenburg	14	10,086	1.39
Winchendon	14	10,300	1.36
Shirley	9	7,211	1.25
Average:			1.61

We have tried, on a number of occasions to obtain funding for additional Officers through the COPS Fast and/ or Universal COPS Hiring Grants. While we feel that our case is quite compelling, we have not been awarded grant funding, as the vast majority of those funds have been targeted to urban areas and/ or to rehiring in communities that had been forced to cut staff.

The Financial Forecast calls for hiring one officer per year for the next 5 years in order to meet current and future needs. Given the constraint of this budget, it is impossible to make any headway in this area. Additionally, other needs will go unmet, such as adequate funding for Community Policing efforts, as well as for Specialized Investigations, both of which were previously funded through grants which no longer exist.

Total spending in this category is recommended at \$1,346,364, which is a decrease of \$10,375. or 0.79%, over the FY2012 appropriation.

The following chart shows Police spending over a 5- Year Period.

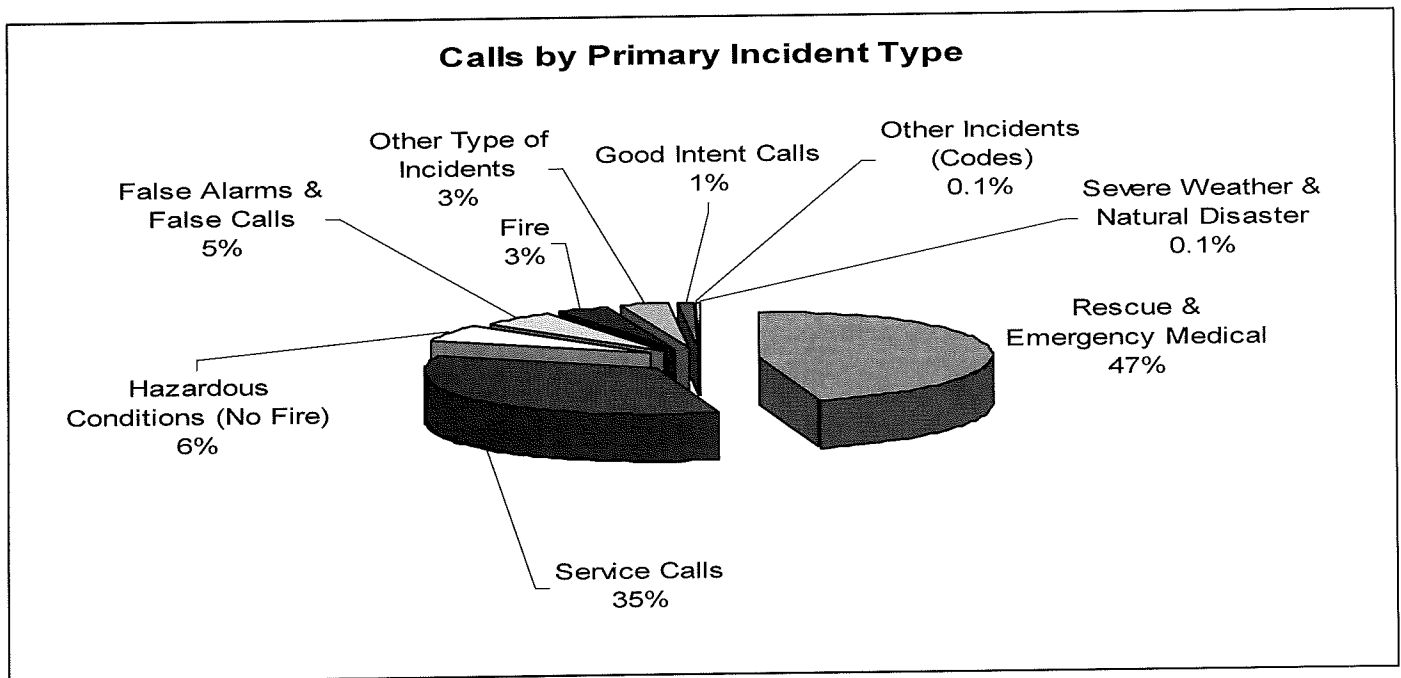

Fire Department

This category of spending covers the Fire Department, Dispatch, and both Hydrant and Radio Maintenance expenses. The Department provides Fire, Rescue and Emergency Medical Services at the BLS (Basic Life Support) level services for the entire Town. Additionally, the department provides many preventative services, fire code inspections, training and specialized response such as trench and water rescue.

The department operates twenty-four- (24) hours per day, seven- (7) days per week, year round, with a full-time staff of five- (5) and forty-one (41) Call Personnel, either Firefighter, EMT or Firefighter-EMT. The full-time staff cover the weekday shifts while the reserve firefighters cover the evening and weekend shifts. Of particular concern is the fact that outside of Monday through Friday, 6:00 a.m. – 6:00 p.m., the station is “unmanned,” with the exception of holiday weekends. This means that any calls that come in overnight or on the weekend are responded to by on-call personnel, which are likely outside of the station. This can cause what would typically be a 6 – 10 minute response time during the weekday, to turn into a 20 minute response over the weekend. Based upon the call volume, this is unacceptable. Unfortunately, our current financial state doesn’t provide us the opportunity to provide additional staffing.

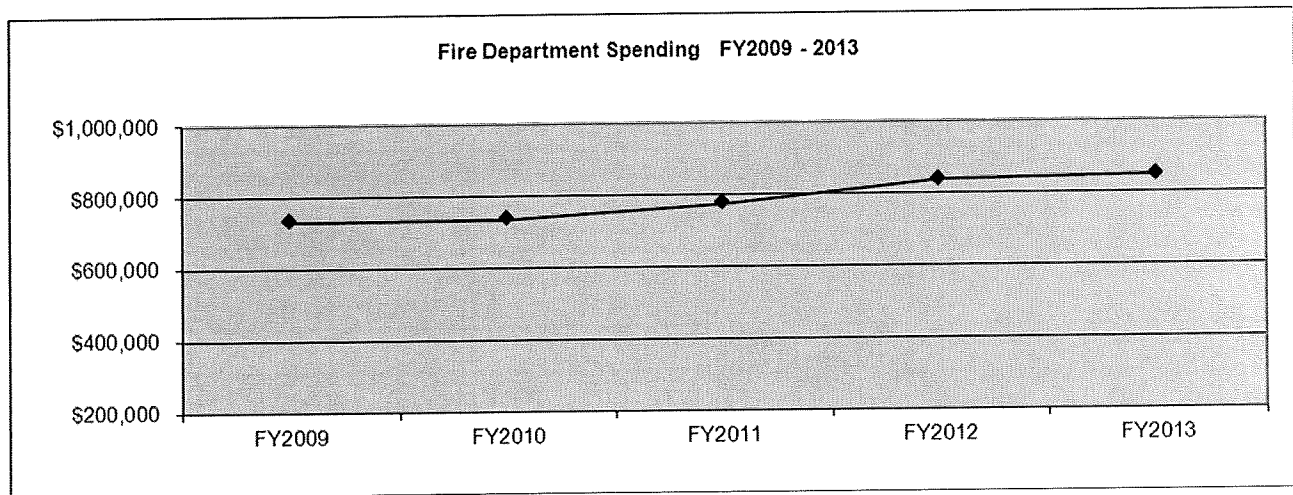

The following chart details Fire Department calls by Primary Incident Type.

As you will recall, in the Fall of 2011, the Town entered into an Intermunicipal Agreement with the Towns of Harvard and Lancaster, and with Devens to form a Regional Emergency Dispatch District. We are moving forward with this effort and expect to transition Emergency Dispatch over to the District on July 1, 2013.

Total spending for this category is \$847,722, which represents an increase of \$9,660 or 1.15% over FY2012. This recommendation provides for the same level of service currently provided for in FY2012. The bulk of the increase is to cover a new fee to be paid to our contract Emergency Medical Director for oversight of our Ambulance Operations. The Collective Bargaining Agreement with the IAFF/ PFFM Firefighters Union expired June 30, 2011. Negotiations are underway and funding for a settlement has been set aside in the Salary Reserve Account.

The following chart shows Fire spending over a 5- Year Period.

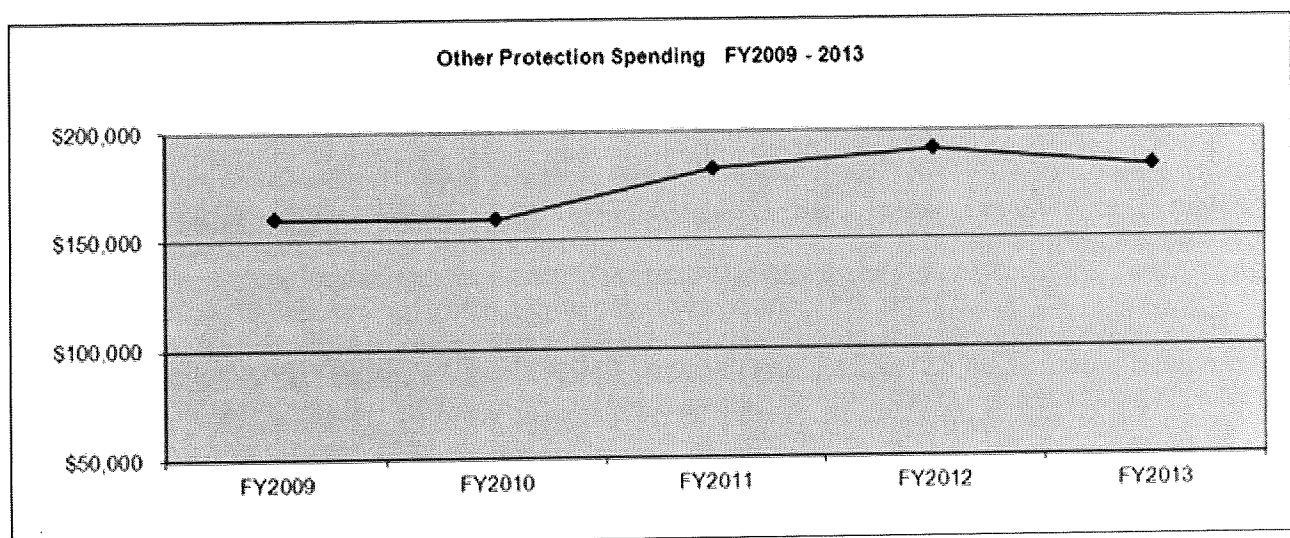

Other Protection

The Other Protection category includes funding for Building Inspection, Gas, Plumbing and Wiring Inspection, as well as for the Inspector of Weights & Measures, Municipal Hearings Officer, Civil Defense and the Animal Control Officer.

The primary duties of the Inspections Departments are to conduct Code Inspections and make Zoning determinations in accordance with State Law and Town Bylaws. Building Permit Applications are first reviewed to insure that all of the proper information and requirements from the applicant are complete. In addition, the plans for the building and the site are reviewed for Code and Zoning Compliance. Provided that the application and the site plan are in compliance, a fee is assessed with the associated work to be completed and a building permit is issued. After the work has begun, the necessary inspections relative to the work are conducted by the Inspector associated with the work performed. The Board of Health Agent, Wiring Inspector, Plumbing Inspector, Fire Department and the Building Inspector are the primary inspectors for most permits.

The volume of work in Inspectional Services has held steady the past few years due to the Emerald Place (240 unit) development. While the first phase of Tri-Town Landing (66 of 204unit) has been completed, it appears that phase 2 may begin in FY2013. The total recommending spending for this category is \$183,279, which represents an decrease of \$7.804 or 4.08%. This decrease is largely the result of the reduction in schedule from 5-days per week to 4-days per week for the Building Department.

The following chart shows Other Protection spending over a 5- Year Period.

Public Works

The category of Public Works encompasses the Departments of Highway, Vehicle Maintenance, Traffic & Signs, Public Buildings & Grounds, Cemetery and Parks. The Departmental objectives include:

- Establish a management presence to permit and review construction projects in concert with other boards and commissions and to coordinate and monitor construction activity.
- Establish a better record keeping of plans and as-builts for all department activities.
- Increase training to enhance the safety and abilities of all department employees.
- Develop an inventory of town assets under the umbrella of the department and prioritize needed improvements to improve efficiency and effectiveness.
- Increase computer usage in all division for budgeting, cost accounting and planning.
- Continue to coordinate administrative directives with the activities of all public service departments and organization with the department to improve service levels.

The Highway Division provides for the maintenance of approximately 200 lane miles of paved roadways, repairing potholes, patching, and overseeing large subcontracted paving operations. Associated with roadway maintenance are street signs, traffic line painting, shoulder reconstruction, and street sweeping. Highway staff manages and supports the storm water system installing and/ or rehabbing drainage, systems and structures and the cleaning of over 1500 catch basins. The department has taken the lead in the successful compliance with EPA and DEP mandated regulations for Storm Water Management.

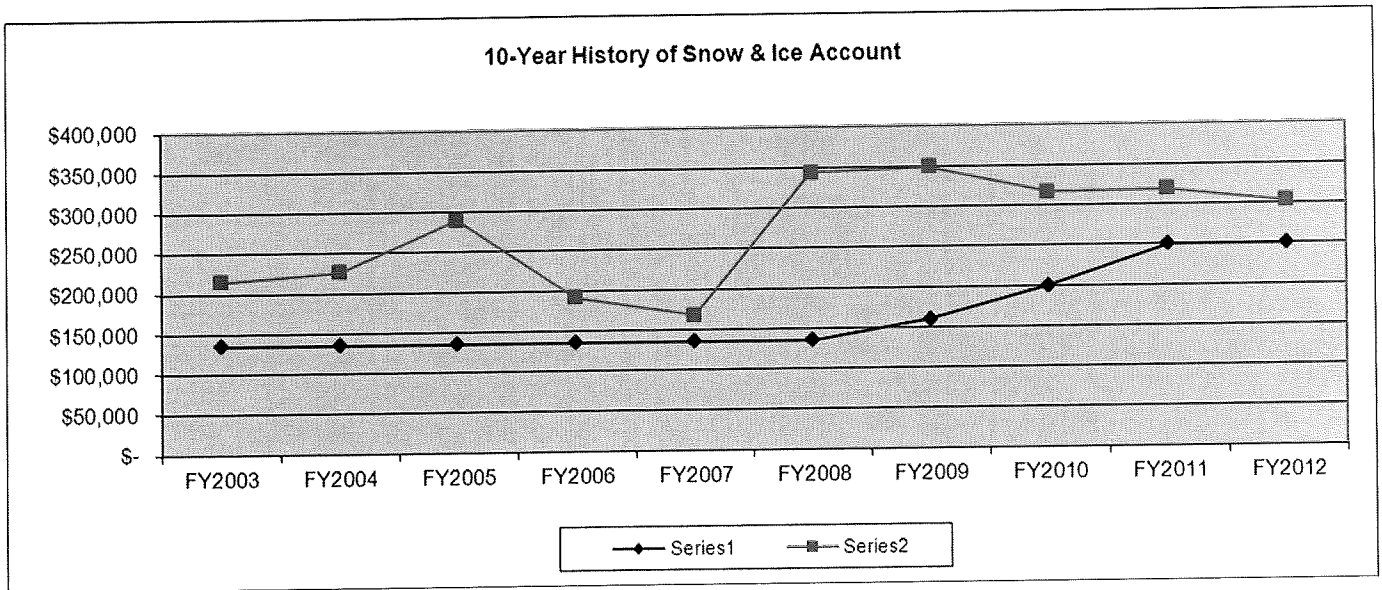

The Public Buildings & Grounds Division is responsible for the maintenance and upkeep of the following municipal facilities: DPW Garage, Park Building, Cemetery Building, Ritter Building, Old Primary School, Public Safety Complex, Town Hall, Eagle House, Library, Teen Center, Jones House, as well as the Town Common, Town Beach and all athletic fields and playgrounds excluding School properties. The division is managed by a Facilities Director, with the assistance of a janitor responsible for Town Hall, Eagle House and the DPW Garage and contract janitorial services for all other buildings. The HVAC systems at the Library, Public Safety Complex and Town Hall are maintained by a contract service. The age of many of the buildings being maintained creates a tremendous amount of work.

Both the Parks and Cemetery Divisions are overseen by a Board of Commissioners. The Cemetery Division has a staff of 1 FTE. The Parks Division maintains their properties through mowing contracts and seasonal personnel.

Total spending for the Department of Public Works is recommended at \$1,434,066, which represents an increase of \$4,366, or a 0.31% over the current fiscal year. The Department has been underfunded for a number of years. In FY2004, the Department had a total staffing of 15 FTE's, that number has been reduced over time to 10.5 FTE's, due to retirements, attrition and layoffs. No further reductions can be made without completely dismanteling the department, rendering it impossible to complete even a minimal number of tasks.

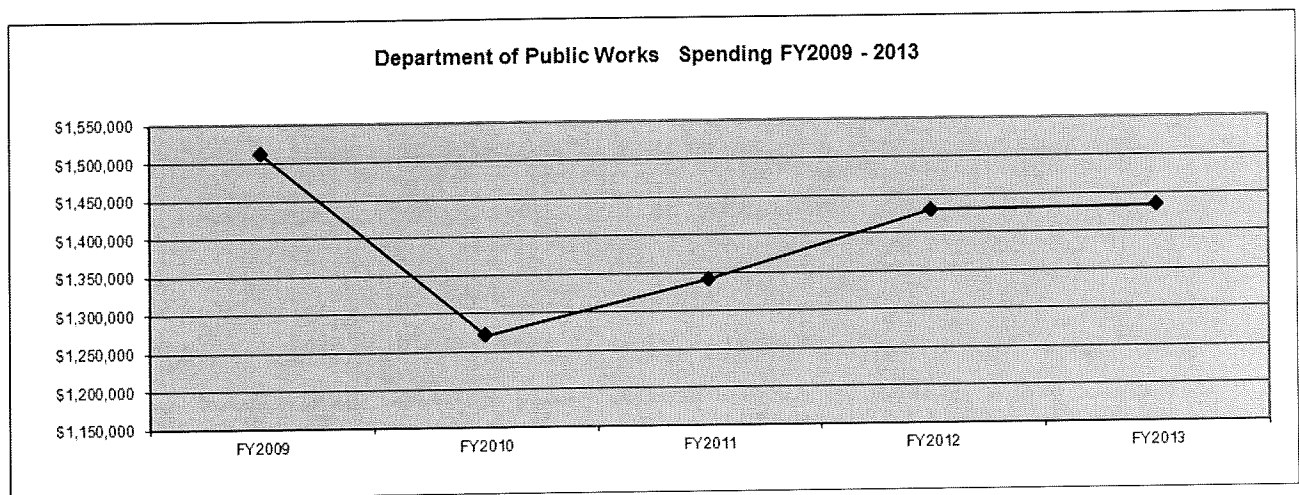

Additionally, no funding has been included within the budget for road maintenance, other than a small amount for pothole repair, even though the need has been clearly documented in the Town's Comprehensive Pavement Management Plan, which is included in the Appendix.

The chart below shows the 10-year history of the Snow & Ice Account. The average expenditure over 10 years is \$272,036, while the average expenditure over 5 years is \$326,313. One major contributor to the increase in expenditure is the large increase in Salt- 44%- in the past 5 years, and Sand- 25%- in the past 5 years. Additionally, the Town only began purchasing Sand in FY2007.

I have chosen to continue to recommend a Snow & Ice Budget of \$250,525.. Although this does leave us with some level of exposure, it is far more realistic than what the Town was budgeting just a few years ago. In the future, it makes sense to set aside \$275,000 – 300,000 for Snow & Ice Expenditures.

The following chart shows Department of Public Works spending over a 5- Year Period.

Solid Waste

The Town currently operates a highly successful and award winning Pay As You Throw (PAYT) program. A total of 3,200 households out of a total of 3,800 currently participate. It is assumed that the remaining 600 households utilize a private service. All households in town are eligible to make use of the recycling component of the program.

In past years, the program has been funded by both an Operating Budget appropriation and a per bag fee. Due to fiscal constraints, the FY2008 appropriation came from the Enterprise Fund's Retained Earnings. The FY2009 the General Fund appropriation was set at \$80,000, which was believed to be the cost of the recycling component. A new contract was negotiated and it was estimated that the true cost of the recycling component is about \$100,000, therefore, the requested appropriation for FY2010 was been increased to \$100,000. Another review of available data was made and I brought a request to Special Town Meeting increase the General Fund appropriation in the current fiscal year to \$165,000, which represents half of the monthly cost of the program. Although that request

was approved, there was a strong message sent that additional review of this program needs to take place. An additional review was made and it was determined, that based upon the limited data, the General Fund appropriation should be \$125,000. That amount was included in the FY2011 budget.

A new 10-year contract was negotiated with a new vendor, Casella Waste Services, Inc. This contract went into effect on July 1, 2011. This new contract provides significant savings over the prior contract, both for Recycling and Solid Waste Disposal. The General Fund will continue to only cover the cost of the Recycling Program, which is open to all households for no additional fee, as well as for Solid Waste Disposal and Recycling at all municipal buildings. Funding is also provided for the Town's participation assessment for the Devens Household Hazardous Waste program, which provides an opportunity for residents to dispose of this waste 20 times per year. The recommended appropriation for these costs is \$148,092.

Health & Sanitation

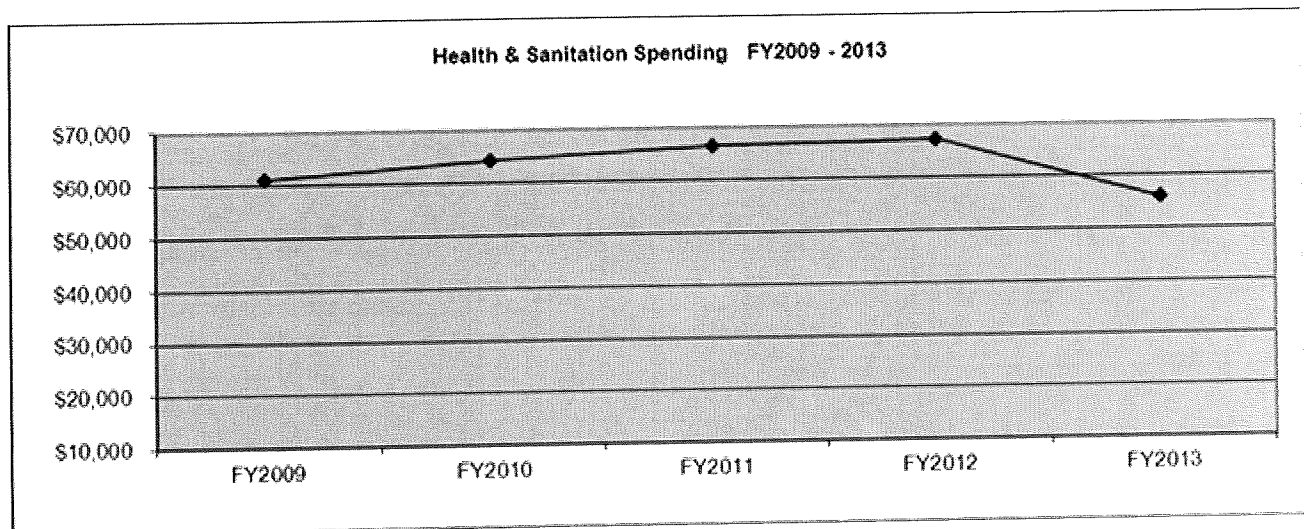

The Mission of the Board of Health is to develop and maintain innovative programs to safeguard and improve the general health of the citizens of the Town. Responsibilities include developing and promoting disease prevention and wellness programs as well as improving health education and environmental awareness. The Board of Health is also responsible for interpreting and enforcing the provisions of the State Public Health Code, State Sanitary Code, State and Local Environmental Codes. Services and duties of the department include:

- Setting up agendas, appointments and preparing necessary paperwork for meetings and hearings; preparing meeting minutes; follow up
- Handling nuisance complaints
- Water Quality testing; annual inspections; well testing; and IA system testing
- Housing Violations
- Reviewing plans and coordinating with other boards to make sure Board of Health interests are properly considered; drafting deed restrictions when necessary
- Animal Control Issues
- Emergency Preparedness Planning
- Providing community nursing through Nashoba Nursing

Departmental staff has traditionally included one –(1) part-time Administrative Assistant, a contract Health Agent, and a contract Nurse. The department is under the general direction of the Board of Health. Due to the severe budget issues faced this year, the recommendation is that this position be combined with another part-time position.

The total recommended spending for FY2013 is \$55,788, which represents an decrease of \$11,342, or 16.9%.

The following chart shows Board of Health spending over a 5- Year Period.

Council on Aging

The mission of the Lunenburg Council on Aging is to advocate for improved quality of life for all senior citizens through supportive services, programs and education. The Council on Aging was established under M.G.L. Chapter 40, Section 8B, in 1967 to include setting of local policy for the administration of elder programs and services and to develop, coordinate and conduct such activities which advocate for elders.

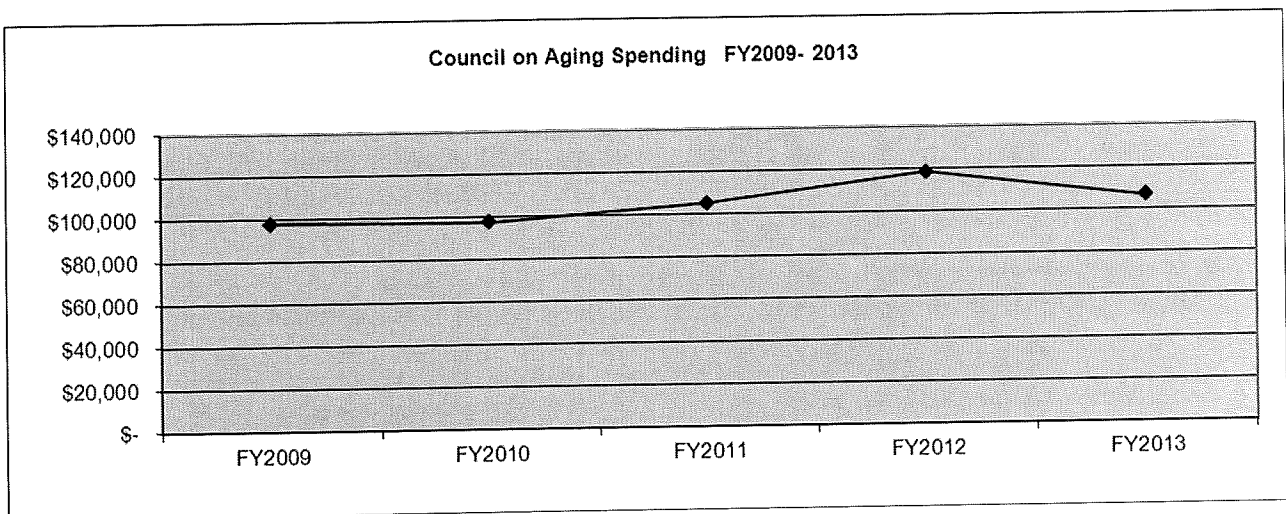

The Council on Aging operates the Senior Center through the Director, who plans and administers the budget, executes those programs, services and activities which enhance independence and improve quality of life. The Council on Aging is responsible for the oversight and upkeep of the Senior Center working in conjunction with other Town Departments.

It is also the mission of the Council on Aging to assist elders to remain in their homes and in their community for as long as possible. The Director, along with other staff members, supports elders and their families with referrals to proper agencies in order to find needed services.

Departmental Goals include: advocacy for the elder population; increased community visibility; preparing for changing needs of elders; collaborating with other Town Departments or groups to develop programs beneficial to elders; interacting with Lunenburg Public Schools to promote inter-generational opportunities; creating opportunities for older adults to explore new experiences and to foster their skills and abilities; and to develop a budget which adequately reflects the need for programs and services available.

Throughout these last several difficult budget years, the Town has made a conscious effort to provide an adequate level of funding to both the Council on Aging and Library in recognition of the service provided to the community. Both of these departments provide a high level of service to the community, and in many respects are called to an even higher level when the economy is bad. Unfortunately, the Town is no longer able to provide the same level of funding to either of these departments, and as such, both are recommended to be cut 10%. For the Council on Aging, that means a reduction of \$11,844. While it has yet to be determined how the cut will translate into service reduction, there is no mistaking that there will be a significant reduction, both in the number of hours the center can be open and in the services which can be provided. It is very unfortunate that we have come to this point, but after years and years of cuts, nothing more can be taken from other operations.

The following chart shows Council on Aging spending over a 5-year period.

The recommended level of spending in this category is \$106,616, which provides an decrease of \$11,844, or 10%.

Veterans Administration

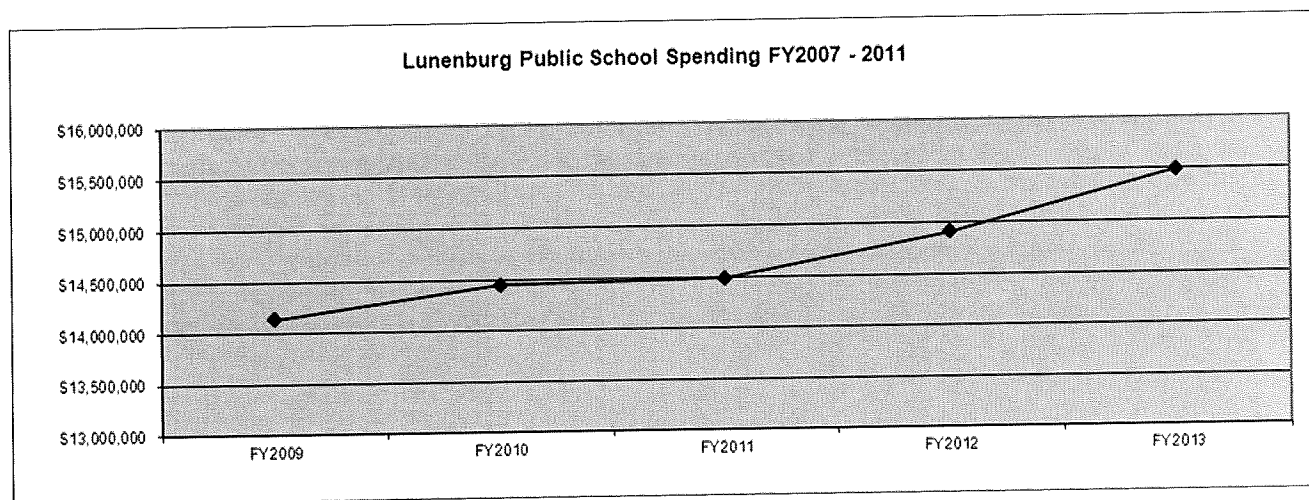

The mission of the Veterans Administration Office is to provide financial and medical aid assistance to needy veterans and/ or dependants in accordance with M.G.L. Chapter 115, CMR 108 and through the Commonwealth of Massachusetts' Department of Veterans Services. The state will reimburse the Town 75% of the expense of authorized assistance provided to veterans in Lunenburg. It is also the mission of the department to assist veterans who may not be eligible under Chapter 115 by working with them to get proper alternate sources of help through the U.S. Veterans Administration, Social Security or SSI.

The recommended level of spending for Veterans Administration for FY2013 is \$10,360, which is a level-funded recommendation. The need for an additional appropriation may arise if others qualify for benefits during the course of the year.

Lunenburg Public Schools

I am recommending an appropriation of \$15,495,534 for Lunenburg Public Schools for FY2013. This represents a 3.94% increase over the current year appropriation of \$14,908,820, or an increase of \$586,714. The increase represents 100% of the Chapter 70 increase allowed for in the Governor's Budget. This recommendation falls far short of the Level Service Budget request of \$16,626,574 presented by the Superintendent. Additional information supporting the Superintendent's Budget Request is included in the Appendix to this document.

Below is a chart showing Lunenburg Public School's spending over the last 5 years.

Monty Tech Assessment

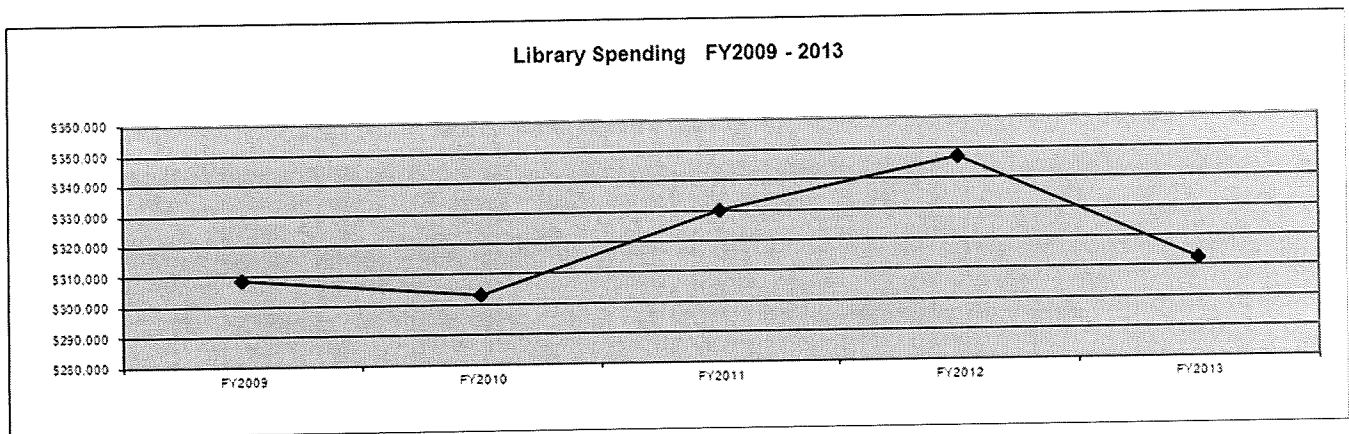

At the present time, the Town has been provided an unofficial estimated assessment to the Montachusett Regional Technical School. The official assessment is expected to be received in March. The minimum contribution is based upon actual enrollment from the 2011 – 12 School Year, which is for 69 student, up from 65 students in the prior school year. A placeholder amount of \$681,708, which represents an 8.35% increase over the FY2012 appropriation, is being held.

Library

Lunenburg Public Library is an inspiring destination providing all who enter literature, popular materials, educational resources and current technology in a welcoming, accessible environment. Our mission is to continue to provide access to information people can use in their daily lives. The Library, which is a very popular destination for all ages, becomes even more popular during difficult economic times. People turn more toward the Library's resources-traditional books, audio books, magazines, newspapers, music dvd's, movies, etc.- when their own resources won't allow the purchase of the same.

As mentioned above, throughout these last several difficult budget years, the Town has made a conscious effort to provide an adequate level of funding to both the Council on Aging and Library in recognition of the service provided to the community, certainly not everything that each has asked for, but enough to provide a solid level of service. Both of these departments provide a high level of service to the community, and in many respects are called to an even higher level when the economy is bad. Unfortunately, the Town is no longer able to provide the same level of funding to either of these departments, and as such, both are recommended to be cut 10%. For the Library, that means a reduction of \$34,644. While it has yet to be determined how the cut will translate into service reduction, there is no mistaking that there will be a significant reduction, both in the number of hours the Library can be open and in the services and new materials that can be provided. It is very unfortunate that we have come to this point, but after years and years of cuts, nothing more can be taken from other operations. A cut of this magnitude will require that the Library apply for a waiver of Minimum Spending Requirement. I am hopeful that one would be granted since we have not had the need to seek one in the recent past, as the State granted a "blanket waiver" in FY2010 to all communities due to the state of the economy. If one is not granted, the Town would potentially lose State Library Aid, which would be a loss of an additional \$12,078.

The following chart shows Library spending over a 5- Year Period.

The recommended level of spending for the Library for FY2013 is \$312,312, which represents an decrease of \$34,644, or 10% over current year spending. This level of spending is less than the State Mandatory Minimum to receive State Aid, which is \$347,912 for FY2013, or \$35,600 more than what has been recommended.

Debt Service

Debt financing is the primary means of financing large capital projects in Lunenburg. The use of debt allows the Town to afford the construction of large scale capital assets in a systematic and planned manner.

The mission of the Town as regards to debt management has several components.

- To achieve the best possible true interest cost associated with the debt.
- To maintain an amount of debt to be issued and retired each year that results in the impact on the tax rate that is fairly consistent year to year.
- To maintain the highest credit rating possible.
- To keep the average weighted maturities of outstanding debt as low as possible so as to hold down the amount of debt service that is allocated to interest costs and to allow for the issuance of new debt as the need arises.

This budget provides for the repayment of principal and interest on the Town's long-term General Fund debt. The Town issues debt pursuant to votes of Town Meeting to provide funding for major projects, in accordance with Massachusetts General Law, Chapter 44, Sections 7 and 8. The maximum amount of debt for each project is authorized by Town Meeting, and then the Town Treasurer issues the bond after working with the Town Manager and the Town's Financial Advisor to design and structure the bond, and with the approval of the board of Selectmen.

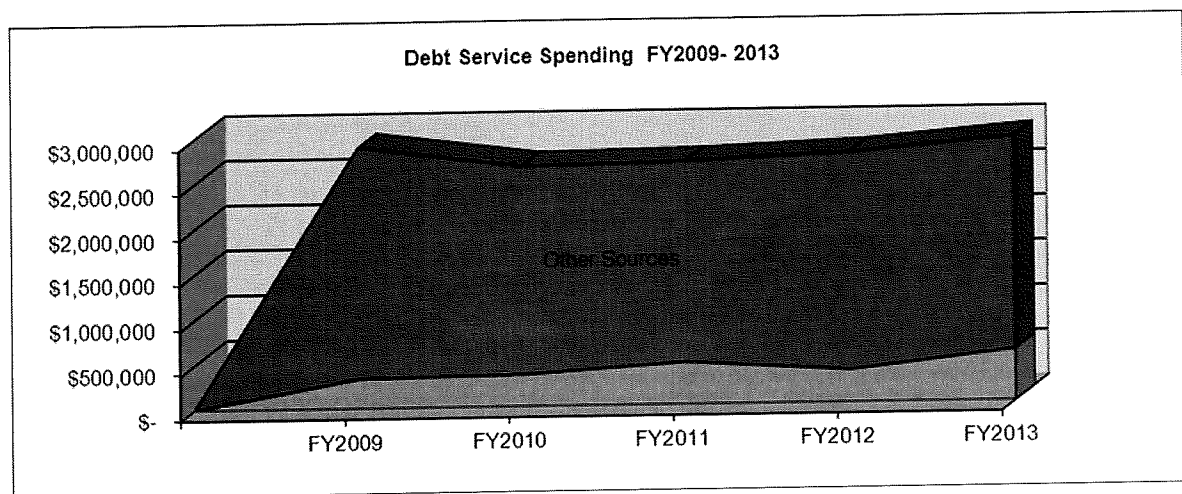

The General Debt Limit of a city or town consists of a Normal Debt Limit and a Double Debt Limit. The Normal Debt Limit is five-(5) percent of the valuation of taxable property as last equalized by the State Department of Revenue. According to the most recent statistics, the Town of Lunenburg's EQV for 2006 was \$1,344,943,200. The Normal Debt Limit (of 5% EQV) is therefore, \$67,247,160. As of June 30, 2011, the Town's permanent outstanding debt was \$27,097,991.

A city or town can authorize debt up to this amount without State approval. It can authorize debt up to twice this amount (the Double Debt Limit) with the approval of the state Municipal Oversight Board, which is composed of the State Treasurer, the State Auditor, the Attorney General and the Director of Accounts.

There are many categories of General Obligation debt which are exempt from and do not count against the General Debt Limit. Among others, these exempt categories include revenue anticipation notes, grant anticipation notes, emergency loans, loans exempted by special laws, certain school bonds, sewer bonds, solid waste disposal facility bonds, and economic development bonds supported by tax increment financing. As of June 30, 2011, the Town had \$4,863,325 in long-term bonds outside the debt limit for Landfill and Sewer Construction projects.

All debt obligations carry a bond rating. In FY2010, the Town's bond rating was increased two notches, from "A" to "AA-." This increase means that future bond issues will carry lower interest rates, saving the Town money.

Debt obligations are funded by a number of sources, including: Water and Sewer Betterments, Septic Receipts, and tax dollars, raised both within and outside of the Proposition 2 ½ limit. Below is a graph showing Debt Service Spending. The amount identified as General Fund, is the amount of debt service spending that is funded through tax dollars raised within Proposition 2 ½.

The total Debt Service Budget for FY2013 is \$2,934,410, of which, \$570,558 will come from the General Fund. This is up from FY2012 due to the anticipated permanent financing of the DPW Facility, \$110,000 from the FY2011 CIP, and \$405,000 from the FY2012 CIP, in FY2013. An amount of \$10,000 has also been included to fund the carrying costs on the \$1M for the School Feasibility Study & Preliminary Design.

Unclassified

The Unclassified category is a catch all for costs associated for specials services or for costs at a unallocated elsewhere in the budget, the largest of which are employee benefits costs (for non-School employees), Liability Insurances and Reserve Funds.

The Town currently purchases Health Insurance for all active and retired employees through the Massachusetts Inter-local Insurance Association (MIIA). By purchasing insurance through this cooperative, we are able to receive the benefit of being a part of the largest municipal joint purchasing group. As a result of our membership in MIIA and due to the fact that we have had very favorable Claims Experience over the past several years, the Town has seen fairly low rate renewals, despite the fact that the medical inflation rate still hovers around 10% annually. Though we have yet to receive our FY2013 renewal, we have been advised by MIIA to plan for an increase of about 5.4%, because our Claims Experience in this most recent period has been fairly favorable.

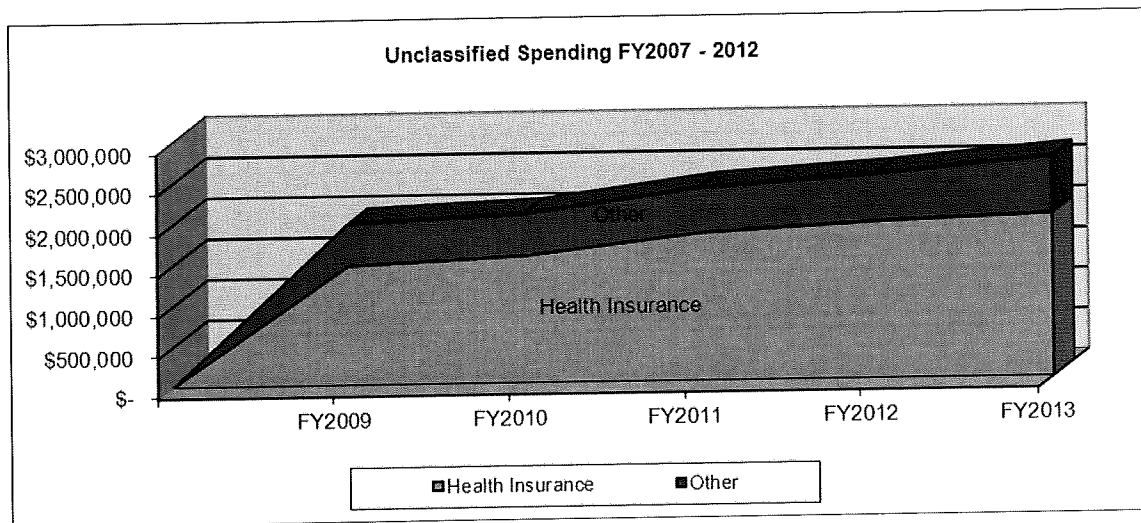

We did receive a renewal of a 0% increase for both Worker's Compensation and General Liability Insurances. Of particular concern is our Police & Fire IOD [Injured-on-Duty] policy. We only received one bid for this policy in FY2012, which was in the amount of \$74,319, which was close to three times what we have paid in previous years. I have anticipated a 5% increase in premium for

FY2013, but I will not be able to seek bids until April 2012. Since we have not had any new claims to date this FY, I am hopeful any increase will not exceed the estimate.

The General Reserve Account, or Finance Committee Reserve Account, has been funded at \$50,000.

An amount of \$81,960 has been included in a Salary Reserve Account. Of this amount, \$42,102 is in anticipation of contract settlements. The remaining \$39,858 is to fund Retirement Buyback Benefits to be paid out during the year. This is the first time an amount has been budgeted for payment of these benefits.

The following chart shows Unclassified spending over a 5- Year Period.

Retirement Assessment

The Worcester Regional Retirement System annually provides each member Town an assessment based upon anticipated retirement benefits to be paid out. The Town's FY2013 assessment has been certified at \$684,989, which represents an increase of \$87,218 or 14.59%. The assessment is due in two installments, July 1 and January 1. This final assessment amount reflects a discount of approximately 2%, or \$13,178, for early payment, 100% on July 1. The Town would have to earn just about 8% interest on these funds to make it worth our while to not take advantage of this option.

The reason for the substantial increase in annual assessment is that WRRS is transitioning from a Salary Allocation Method of determining assessments to an Actuarial Method. Under the Salary Allocation Method, WRRS computed each member unit's annual assessment by allocating the total System appropriation to the member units based on the proportion of that member unit's total salary to WRRS's total salary. Going forward, each member unit's assessment will be based upon an actuarial valuation. To mitigate wide fluctuations in the annual assessment from FY2012 to FY2013, WRRS decided to phase-in the use of the actuarial method. For FY2013 and FY2014, the annual assessments will be based on a portion of the Salary Allocation Method [66.67%] and a portion of the Actuarial Method [33.33%]. Beginning in FY2015, annual assessments will be fully based upon the Actuarial Method.

Non-Appropriated Expenditures

Cherry Sheet Charges & Underestimates are certain charges that are levied on the Town by State Law and are not subject to Town Meeting appropriation. The principal items are Mosquito Control District, MBTA Assessment and Regional Transit. Other charges are for the Air Pollution Control District (Ch. 111), Special Education (Ch. 71B), and the RMV Non-Renewal Surcharge (Ch.90; Ch. 60A).

Cherry Sheet Offsets are amounts that are included on the Budget Summary to now reflect only two state revenue programs that are to be spent without being part of the appropriated budget. These small grants programs are for the public library and the school lunch program. We show these as “offsets” in the Non-Appropriated Expenditures category because the revenue for them is included in the total Cherry Sheet Revenues, and must be used for direct expenditures to support the grant program.

Cherry Sheet Assessments are for tuition payments for Lunenburg students attending school outside of the district, either at a public school in another town or at a charter school.

Capital Plan

The Capital Planning Committee has concluded their review of all Capital Requests and has submitted a final report and recommendation. The full report can be found in the Appendix to this document. Their recommendation is for a total spending plan of \$1,304,387 as follows.

Priority 1		
DPW Roadway Maintenance	\$800,000	Total expense \$1.2M partially funded, Chapter 90
Priority 1A		
1. Technology	\$ 75,517	Annual Replacement Plan
2. School	\$107,920	Passios Roof Re-seaming
3. School	\$ 30,750	THMS Gym Roof Snow Guards
4. DPW, Facilities	\$ 18,000	Ritter Building, Front Section of Roof
5. Fire	\$ 35,000	Repair Engine 4
6. DPW	\$ 35,000	4 x 4 Pickup Truck with plow
7. DPW	\$ 40,000	1 Ton Pickup Truck with plow
8. School	\$ 33,000	Pickup Truck with plow
9. Police	\$ 12,000	6 Tasers
10. School	\$ 64,500	Mobile Media Carts
11. Council on Aging	\$ 12,800	Refrigerator, Oven & Steam Table
Priority 2		
1. Library	\$ 15,900	Paint and Repair front of Building
2. School	\$ 24,000	THMS, Repair Drop Ceiling

The CPC does note that while Roadway Maintenance is the number one priority, that it can't be included in the Annual Plan unless another source of funding is identified.

I have recommended that all Priority 1A projects be included in the FY2013 Budget.

Conclusion

At this time, and based upon the information currently available, I believe this to be the fairest, most equitable distribution of funding for FY2013. This proposal fully funds all contractual obligations and realigns and downsizes the organization in recognition of the fact that without additional revenue, we cannot sustain the level of service that we currently provide. A great effort was made to carefully review and analyze every line item and in doing so, savings and efficiencies were achieved.

I would like to take this opportunity to thank each and every department head who has patiently worked with me throughout this process. It's been a difficult few months and many questions were asked, but in the end, I believe we have prepared a reasonable and fair budget given the current climate.

/kas
