FINANCIAL TERMS

CAPITAL IMPROVEMENT PROGRAM- A blueprint for planning a community's capital expenditures that comprises an annual capital budget and a five-year capital program. It coordinates community planning, fiscal capacity and physical development.

CHERRY SHEET/STATE AID – Revenue allocated by the Commonwealth to cities, towns, and regional school districts. Estimates of local aid are transmitted to cities, towns, and districts annually by the “Cherry Sheets”. Most Cherry Sheet aid programs are considered general fund revenues and may be spent for any purpose, subject to appropriation.

DEBT EXCLUSION- An action taken by a community through a referendum vote to raise the funds necessary to pay debt service costs for a particular project from the property tax levy but outside of the limits under Proposition 2 ½. By approving a debt exclusion, a community calculates its annual levy limit under Proposition 2 ½, then adds the excluded debt service cost. The amount is added to the levy limit for the life of the debt only and may increase the levy above the levy ceiling.

EXCESS LEVY CAPACITY- The difference between the levy limit and the amount of real and personal property taxes actually levied in a given year. Annually, the Selectmen must be informed of excess levy capacity at the Tax Rate Hearing and this is submitted to DLS when setting the tax rate.

FREE CASH – Remaining, unrestricted funds from operations of the previous fiscal year including unexpended free cash from the previous year, actual receipts in excess of revenue estimates shown on the tax recapitulation sheet, and unspent amounts in budget line-items. Unpaid property taxes and certain deficits reduce the amount that can be certified as free cash. The calculation of free cash is based on the balance sheet as of June 30, which is submitted by the Town Accountant. Free Cash is not available for appropriation until certified by the Director of Accounts.

LOCAL RECEIPTS- Locally generated revenues, other than real and personal property taxes. Examples include motor vehicle excise, investment income, meals tax, fees, rentals, and charges. Annual estimates of local receipts are shown on the tax rate recapitulation sheet.

OVERLAY – (Allowance for Abatements and Exemptions) An account established annually to fund anticipated property tax abatements, exemptions and uncollected taxes in that year. It need not be funded by the normal appropriation process, but rather is raised on the tax rate recapitulation sheet.

RESERVE FUND - This fund is used by the Finance Committee to provide for extraordinary or unforeseen expenditures. The total amount appropriated in any one year may not exceed 5% of the tax levy. No direct drafts against this fund can be made, but transfers from the fund can be authorized by the Finance Committee.

RETAINED EARNINGS- An equity account reflecting the accumulated earnings of an enterprise fund, which may be used to fund capital improvements, reimburse the general fund for prior year subsidies, reduce user charges, or provide for enterprise revenue deficits (operating losses).

STABILIZATION FUND – A fund designed to accumulate amounts for capital and other future spending purposes, although it may be appropriated for any lawful purpose. Communities may establish one or more stabilization funds for different purposes and may appropriate any amounts into them. A two-thirds vote of town meeting is required to establish, amend the purpose of, or appropriate money from a stabilization fund. A majority vote of town meeting is required to appropriate money into a stabilization fund.

DEFINITIONS OF RECOMMENDATIONS UNDER EACH ARTICLE

RECOMMEND APPROVAL: The board voted to recommend passage by Town Meeting.

NOT RECOMMENDED: The board voted to not recommend passage by Town Meeting.

NO RECOMMENDATION: The board voted to make no specific recommendation to Town Meeting.

NO DIRECT FINANCIAL IMPACT: The Finance Committee votes this article does not have a financial impact.

DEFERRED: A recommendation will be announced by this board when the article is considered at Town Meeting.

FINANCE COMMITTEE REPORT

Fiscal Year 2023

Annual Town Meeting is an important event for community members to come together and vote on warrant articles that directly impact how we manage our town. Amongst these articles is the FY23 budget, capital plan, authorizations for various enterprise and revolving funds, and appropriations relating to stabilization funds and reserves. Throughout the year the Town Manager and department heads carefully review expenses and have thoughtful conversations about how to best serve and manage the town. While developing the budget they considered funding, contracts, and mandates, as well as what the community wants and needs to thrive. The Town Manager formulated a recommended budget, which she presented to the Finance Committee on February 17th. Over six subsequent Finance Committee meetings, department heads presented overviews and plans relating to their budgets and capital requests. A Public Hearing was held on March 31st, as required by the Town Charter, and the Finance Committee voted on recommendations pertaining to financially relevant articles.

Armed with all the information gathered during this process, the Finance Committee recommends approval of the Town Manager's omnibus budget, as outlined in this warrant.

Overall, our financial condition is good. Revenues are stable, aided by strong collections, increases in state aid, new growth, and a variety of federal and state grants that the town has secured. On the expense side, while not meeting every need outlined by the department heads, this budget does begin to address several emerging and previously unmet needs. The total in requested expenditures is \$49,953,531.76. While we are pleased with our current fiscal standing, we do face challenges ahead; especially with regard to a number of our municipal buildings, which we outline in more detail below.

Notably, our certified free cash this year is \$2,666,962, which is substantially higher than in previous years, a temporary benefit resulting from appropriations that were not fully expended in FY21 as a result of COVID-related restrictions and impacts. Town fiscal policy directs portions of free cash to accounts such as stabilization, the OPEB allocation (a fund to pay for future retiree benefits), and the capital plan.

Accordingly, this year's recommended capital plan (funded by free cash, tax revenues, and unspent capital appropriations from previous years) is \$2,162,849. It is an unprecedented investment of available funds (without incurring any additional debt) into the capital infrastructure that supports our town. As of the printing of this warrant, the Finance Committee is seeking to answer a few specific questions pertaining to the capital plan. We will have a recommendation on the capital plan, Article 6, at Town Meeting on May 7.

Other notable items:

- For FY23, the proposed appropriation for education is \$23,397,371, 56.2%% of the Town's total budget, and a 3.78% increase over last year. This includes our Monty Tech assessment at \$1,054,376, which is a 20.4% increase for FY23, mainly due to an increase in enrollment from 83 to 94 students. Additionally, the town budget includes \$1,207,421 in School Retiree Health Insurance. Fortunately, this year the town benefited from an \$898,610 increase in Chapter 70 aid, which more than offsets the \$673,617 increase in the Lunenburg School District budget.

While our Chapter 70 increase was welcome news, the increase was partly a result of formula changes that recognized more low-income students at a higher tier of funding. Our vulnerable populations are of top concern for all of our department leaders.

An area of concern for the Finance Committee are several personnel positions that the School District is funding through ESSER 2 and ESSER 3 federal grants. These grants, totaling \$1,939,868 will expire in FY24. Many of these positions are addressing acute health, academic, and social/emotional needs that have arisen from COVID-19. Over the next two years the School Committee will need to determine what positions we need to maintain, and how to fund them.,

- This year's budget supports an increase of \$53,443 for the library budget to support the addition of two part-time personnel and additional expenses. This increase will enable the library to extend its operating hours to include opening on Fridays.
- This year's budget continues to support long-term staffing and investment programs that we committed to in previous years, including an additional full-time firefighter and police officer. We are again increasing road pavement management funding by \$50,000. We are also contributing \$450,000 to the special-purpose stabilization fund, which should give us the option to pay cash for ambulance and fire truck replacements in coming years, as opposed to borrowing or using free cash.
- This year's budget includes a 4.71% increase in IT spending, for a total of \$316,022.89. In addition, the Lunenburg School District has budgeted \$330,514 for technology-related administration and educational expenses. In late FY21, the town began the process of transferring the function of IT strategy and leadership to a private firm, which works in close consultation with town and school department leadership. Following a comprehensive review, an upgrade of networking and cloud services has commenced, which will continue into FY23. Additionally, the town is instituting rotational upgrades of computers and peripherals throughout our operations. The town website will also get regular upgrades. These programs are drastically improving the quality and reliability of our IT infrastructure and improving our security posture. The Finance Committee was pleased with the 'out-of-the-box' thinking and interdepartmental cooperation. We have encouraged all departments to find similar synergies and opportunities for collaboration and cost sharing.
- As we have highlighted in previous years, Lunenburg's debt ratio has been identified by an independent credit-rating agency as the sole reason that we are unable to achieve the highest-available bond rating. The good news is that our total debt and our debt service are declining. Our Excludable Debt Service to Levy Ratio is 9.18%, nearly 2% below the 11% cap. Our Net Regular Debt Service to Levy Ratio is 1.22% in FY 23, well-below the 4% cap in our fiscal policy. Our debt service will continue to decline over the next two years as bonds for the Public Safety Building, Primary School, and Library come off the debt schedule. However, this bit of good news could be temporary. There are several projects currently under discussion, which if acted upon and funded by borrowing, could exceed our debt limits in coming years. The Municipal Building Design Committee will likely have recommendations in coming months pertaining to Town Hall, Ritter, and the TC Passios building. The Select Board is considering re-development of the old Primary School property at 30 School Street. The Parks Commission is formulating a master plan for Marshall Park and is investigating issues with the Town Beach building. And the Lunenburg School District anticipates a renovation or replacement of Turkey Hill Elementary School within the next ten years.

- The warrant includes two articles that, if approved as presented, will make progress in addressing the old Primary School property at 30 School Street. Article 6, the capital plan, appropriates \$371,000 for hazardous materials abatement. Article 19 appropriates \$450,000 for the demolition of the building and engineering plans for the property's redevelopment into a municipal park.
- During FY22, the town received \$3,507,971 from the federal government resulting from The American Rescue Plan Act (ARPA). These funds are not accounted for in the FY23 budget. Recent guidance from the U.S. Treasury gives municipal executives (in our case the Select Board) fairly wide latitude for appropriating these funds. The Select Board will soon be gathering opinions and ideas pertaining to how we should use these funds. Potentially, some of this money could be used to offset costs relating to some of the projects mentioned above.

Lunenburg's overall good fiscal condition is the result of adherence to conservative fiscal policy recommended by the Town Manager, enacted by the Select Board, and enabled by Town Meeting appropriations. There is no doubt that we will face new challenges in the coming years. In addition to some of the concerns outlined above, inflation is a looming headwind that will likely drive-up labor, capital, and materials costs. We believe that the investments we are making today will give us greater flexibility and capacity to address future challenges.

The Finance Committee thanks the Town Manager, Heather Lemieux, and our Finance Director, Karen Brochu for their tireless dedication and leadership throughout the year, and especially during budget season. We also thank our department heads and all of our municipal and school employees for their exemplary service to the citizens of Lunenburg and stewardship of our town.

CAPTIAL PLANNING REPORT

Fiscal Year 2023 Capital Plan

The Capital Planning Committee began the capital planning process for Fiscal Year 2023 in September 2021. The Capital Planning documents were sent to departments in late September and the Capital Planning Committee met with the departments throughout November and December to review all the capital project requests as a group. The Capital Planning Committee prioritized 31 capital projects. One project was removed due to not receiving a cost estimate and one project has been pushed out to FY24 as more information was needed. The remaining 29 projects totaled \$3,861,049. The Committee presented the prioritized list to the Town Manager in January as required by the Town Charter and the Town Manager is recommending funding 23 of the prioritized projects totaling \$2,162,849.

Below is the FY 2023 Capital Plan being recommended for approval at the Annual Town Meeting:

ARTICLE 25. To see if the Town will vote to amend the Lunenburg Sewer Bylaw as follows:

- (i) by adding to Section 2.0, entitled “Sewer Service Area,” at the end of the second paragraph, which presently reads:

“The Sewer Service Area and Sewer Service Zones are delineated on the Sewer Service Area Map as approved by the Town Meeting. The Sewer Service Area Map may be amended from time to time by vote of Town Meeting.”

the following:

“The inclusion of a property, or portion of a property, in the Sewer Service Area may establish eligibility to connect to the sanitary sewer but shall not create an entitlement thereto. All sewer connections shall be subject to, and shall comply with, the provisions of this by-law, including but not limited to available capacity, capacity limitations and Sewer Commission approval(s), where required. Neither the boundaries of the Sewer Service Area nor the requirement that a property be located within said Sewer Service Area to be eligible to connect may be waived.”

and

- (ii) by deleting from Section 3.0, entitled “Connection Eligibility,” the third paragraph, in its entirety, which presently reads:

“Sewer connections shall be located entirely on the property they are to serve. The connection must enter the property directly from the public way in which the sewer is located. No connections shall be allowed via an easement. A sewer line must remain within the parcel that it serves.”

and substituting the following therefor:

“Sewer connections shall be located entirely on the property they are to serve. The connection must enter the property directly from the public way in which the sewer is located. No connections shall be allowed via an easement. A sewer line must remain within the parcel that it serves.

Notwithstanding the above, sewer connections may be installed in easements across adjoining properties, at the discretion of the Commission, through the issuance of a waiver under Section 10.0 of this bylaw.”

and

- (iii) by deleting from Section 4.0, entitled “Sewer Extensions,” the fourth paragraph, in its entirety, which presently reads:

“All development and construction shall be monitored in accordance with the ‘Monitoring and Inspection Procedures and Fee System of the Lunenburg Sewer Commission.’”

and

(iv) by deleting Section 9.0, entitled “Regulation Changes,” in its entirety, which presently reads:

“9.0 REGULATION CHANGES

The Sewer Commission will establish a draft of proposed changes during regular, properly posted open meetings. Once there is consensus on the proposed changes, a formal hearing will be scheduled and will take place over 2 regularly scheduled meetings. Both hearings will be televised. A notice of the hearing will be put in a local newspaper at least 5 business days prior to the hearing dates. At the discretion of the Sewer Commission, the hearing may be continued to the next consecutive open, regularly scheduled meeting. Once the hearing is closed, the final changes will be drafted and voted on. The proposed and approved changes will be posted on the Commission’s Town website.”

and substituting the following therefor:

“9.0 REGULATORY AUTHORITY

The Sewer Commission is expressly authorized to promulgate rules and regulations effectuating the purposes of this by-law; provided, however, that neither the Commission’s failure to promulgate a rule or regulation nor a legal declaration of the invalidity thereof shall act to suspend or invalidate the effect of the provisions hereof. Amendment(s) to the rules and regulations may be contemplated during regular, open meetings of the Commission. Prior to the adoption of any amendment, a public hearing shall be conducted with notice of said hearing published in a local newspaper at least five (5) business days in advance. At the discretion of the Commission, the hearing may be continued from time to time as necessary. Following adoption, the amendment(s) shall be posted on the Commission’s Town website.”

and

(v) by adding a new Section 10.0, entitled “Waivers,” as follows:

“10.0 WAIVERS

Except as otherwise stated herein, the Sewer Commission reserves the right to waive, in its sole discretion, any provision(s) of this by-law and/or the rules and regulations adopted hereunder due to emergency circumstances; as may cause undue hardship to any person or entity affected thereby; or as the Commission may deem to be in the best interests of the Town of Lunenburg and not otherwise inconsistent with the purpose and objectives hereof. Each request for a waiver shall be made in writing to the Commission and shall require an affirmative vote of approval by a majority in number of the Commission. In no event shall the Commission waive any requirement of the Massachusetts General Laws or any regulation adopted by the Commonwealth thereunder. There shall be no entitlement to a waiver; and the grant of a waiver in one instance shall not require the Commission to grant a waiver in any other.”

or take any other action relative thereto. (Submitted by Sewer Commission)

ARTICLE 26. To see if the Town will vote to amend the Code of Lunenburg, Chapter 250, a.k.a. the Protective Bylaw, Section 4.15, entitled “Non-medical marijuana establishments,” Subsection K, entitled “Special permit procedure,” by deleting Item (1) therefrom in its entirety, which presently reads:

- (1) Applicant shall submit proof of approval from the Commonwealth of Massachusetts for the proposed Marijuana Establishment by submitting copies of all required registrations, licenses and permits issued to the applicant by the state and any of its agencies for the facility as well as Host Community Agreement (HCA) with the Town and approval hereunder shall be conditioned on final approval from the Commonwealth.

and by substituting therefor the following:

- (1) An applicant shall submit a copy of its Host Community Agreement (HCA) with the Town, authorizing its development of a Marijuana Establishment on the site subject to receipt of applicable permits; as well as copies of all registrations and licenses, if any, issued to the applicant by the Commonwealth or any of its agencies for operation of a Marijuana Establishment on the site. Licensure by the Commonwealth is not a prerequisite to application submittal; provided, however, that commencement of use of or construction under a special permit is and shall be conditioned upon issuance of all requisite provisional licenses and approvals under applicable law. Final licensure of the Marijuana Establishment shall be required before commencement of operations.

or take any other action relative thereto. (Submitted by the Planning Board)

ARTICLE 30. To see if the Town will vote to adopt the following “Resolution in Support of Changing the State Flag & Seal of Massachusetts”:

Whereas the history of Massachusetts is replete with instances of conflict between the European Colonists and the Native Nations of the region, who first extended the hand of friendship to the Colonists on their shores in 1620, and helped them to survive starvation during the settlers first winters on their land;

Whereas members of the Native Nation for who the State of Massachusetts is named were ambushed and killed by Myles Standish, first commander of the Plymouth Colony, in April of 1623, barely two years after the Pilgrims arrived on their shores;

Whereas the Colonial broadsword brandished above the head of the Native man on the Massachusetts State Flag and Seal is modeled after Myles Standish’s own broadsword, borrowed for that purpose from the Pilgrim Hall in Plymouth by the illustrator Edmund Garrett in 1884;

Whereas the belt binding the Native’s cloak on the Flag and Seal is modeled after a belt worn by Metacomet, known to the English as King Philip, who was among the Wampanoag leaders who resorted to a mutually destructive war in 1675-76 in defense of Native lands against Colonial encroachment;

Whereas the proportions of the body of the Native man in the Flag and Seal were modeled from a Native skeleton kept in Winthrop, the bow modeled after a bow taken from a Native man shot and killed by a colonist in Sudbury in 1665, and his facial features taken from a photograph of an Ojibwe chief from Great Falls, Montana, considered by the illustrator to be a “fine specimen of an Indian,” though not from Massachusetts;

Whereas the history of relations between Massachusetts since Colonial times and the Native Nations who continue to live within its borders includes the forced internment of thousands of so-called “praying Indians” on Deer Island, in Boston Harbor, where they died by the hundreds of exposure in 1675, their subsequent enslavement in Boston, Bermuda, and the Caribbean Islands, the offering of 40 pounds sterling as bounty for the scalps of Native men, women and children in Massachusetts

beginning in 1686, increased to 100 pounds sterling for the scalps of Native adult males by 1722, half that amount for Native women and children;

Whereas Native Americans were legally prohibited from even stepping foot into Boston from 1675 until 2004, when that law was finally repealed;

Whereas the 400th anniversary of the landing of the colonists at Plymouth Plantation in the year 2020, afforded every citizen of the Commonwealth a chance to reflect upon this history and come to an awareness of the possibility of a better relationship between the descendants of the Colonial immigrants and the Native Nations of the Commonwealth;

Whereas Native Americans have long suffered the many abuses of racism, the appropriation of their symbols for public schools and sports teams, the loss of their ancestral lands and the encroachment of their cultural lifeways;

Whereas the area now known as the Town of Lunenburg shares a rich Native history with modern day tribal Nations, who inhabited this area long before the first colonial settlers arrived circa 1718, such as the Abenaki and the Nipmuc;

Now, therefore, BE IT RESOLVED that the Town of Lunenburg hereby adopts this resolution in support of the work of the Special Commission Relative to the Seal and Motto of the Commonwealth, established by a Resolve of the General Court in 2020 and appointed by the Governor to recommend changes to the current flag and seal of Massachusetts; and in support of a new seal and motto for the Commonwealth that may better reflect our aspirations for harmonious and respectful relations between all people who now call Massachusetts home. The town clerk shall forward a copy of this resolution to Sen. Marc Pacheco and Rep. Antonio Cabral, co-chairs of the Joint Committee on State Administration, who serve as members of the Special Commission Relative to the Seal and Motto of the Commonwealth, and to Sen. John Cronin, Rep. Michael Kushmerek and Rep. Danilo Sena, with the request they support the work of the aforementioned Special Commission. (Submitted by Citizen Petition)

Lunenburg's Renewed Effort to "Recycle Smarter":

In 2019 the Town received a grant that launched a Recycle Smart campaign to help improve the quality of the material that is sorted for recycling. This was an effort to educate people about what can and cannot be recycled as a way to increase the amount of material being recycled. By keeping trash out of recycling bins, it will help reduce waste management costs and be better for the environment.

Since education is a continuous effort and recycling properly is an important component of making sure the recycling is not contaminated, this message is a renewed effort to "recycle smarter".

Here are a few tips to help you "Recycle Smarter":

Items that **DO NOT** belong in recycling:

- Aerosol cans
- Foam packaging and Styrofoam
- Food packaging with any wax coating
- Garden Hoses/Ropes
- Glass dishes/Pyrex/Ceramics
- Hardcover books
- Hazardous Waste
- K-Cups
- Metal Cables/Electrical Cords
- Mirrors
- Office equipment
- Packaging (contained with food)
- Plastic Film/Plastic Tarps
- Plastic Grocery Bags
- Plastic Wrappers (candy, chip bags)
- Plastic/Wire Hangers
- Shredded Paper
- Stringy Materials
- Windows and light bulbs
- Wood Material and products

And please remember, **DO NOT BAG RECYCLING IN PLASTIC BAGS.**

Items that **DO** belong in recycling:

- PAPER: phone books, mail, mixed papers, office paper, envelopes, folders, newspaper & inserts, magazines, catalogs, brochures, pamphlets
- PLASTIC: plastic bottles, plastic jugs, plastic tubs
- CARDBOARD: boxboard, cereal boxes, food boxes, flattened corrugated cardboard (**2 feet x 2 feet maximum per piece**)
- METAL: Metal food and beverage containers
- GLASS: Glass bottles and glass jars

And please remember, any of these items that contained food or liquid **MUST BE CLEAN AND EMPTY**

What you can do as a Citizen

U.S. EPA | STORMWATER OUTREACH AT EPA NEW ENGLAND

STORMWATER is a leading cause of poor water quality. Rain or melted snow runs down driveways, sidewalks and streets carrying oil, dirt and other pollutants into nearby waterways. Polluted runoff, which can cause erosion and flooding, runs into waterways and degrades plants, fish, shellfish and other wildlife. In water used for recreation, the runoff can lead to illness, and people who eat contaminated fish can also become sick. Untreated stormwater can also contaminate drinking water sources.

INTRO:

Whether you live in a rural farmhouse or a 21-story apartment building, you have a role to play in reducing the amount of pollution from stormwater that runs into our rivers, lakes, streams and groundwater. The way you manage your property, your pet's waste, your garbage, or even your municipal taxes will affect the pollution from stormwater runoff. Below are some suggestions for how you, as an individual, can reduce your impact on stormwater and the environment.

TO DO YOUR PART:

Take steps in your home landscaping:

- **Rain barrels** — Rainwater can be collected from rooftops and used later on gardens. Rain barrels conserve water and reduce the amount of water that runs off your land.

- **Rain gardens** — Rain gardens planted with native plants can naturally offset the effects of stormwater runoff. Rainwater diverted to these areas from rooftops or paved areas will either be used by plants or will soak into the ground thereby recharging aquifers. Plants along roads or streams can trap stormwater pollution.

- **Lawn care** — Fertilizers and pesticides wash off gardens and pollute streams. Yard waste, such as leaves and grass clippings, can wash into storm drains, adding nutrients to streams. Avoid overwatering your lawn and use pesticides and fertilizers sparingly and organic mulch when possible. Compost or mulch yard waste so it doesn't go into storm drains or streams. Cover piles of dirt or mulch.

- **Paving surfaces** — Reduce the amount of pavement where you live. Brick walks, gravel driveways and porous concrete allow rainwater to run back into the ground to be filtered. Porous surfaces also replenish aquifers. Traditional concrete and asphalt rely on drains, pipes and other infrastructure to divert and control stormwater. The amount of non-porous surfaces is directly related to the health of rivers and lakes.

Maintain septic systems — Leaking septic systems release nutrients, bacteria and viruses into stormwater. Inspect your

system every three years and pump your tank as necessary (every three to five years). Don't dispose of household hazardous waste in sinks or toilets.

Use care with your car — If you wash your car at home, avoid using excess detergents or chemicals. Wash the car in your yard so wash water containing detergents seeps into the ground rather than into storm sewers or septic systems or use commercial car washes because they treat or recycle wastewater. Also, don't clean auto parts at home. Dumping car fluids into storm drains or on a street is like dumping them into a pond or river.

Manage pet waste — Clean up after your dog in cities and make sure waste is left far from water sources in rural areas. Flushing pet waste down the toilet is the best method. Leaving pet waste on the ground or throwing it into the storm drain increases public health risks because pet waste bacteria drains into nearby waterways.

Support your municipal program — Support local efforts to manage stormwater. Support repairs or improvements to your town or city's infrastructure. Allowing your town or city's infrastructure to erode will cost more money in the long run and create more pollution. Watch for notices about street sweeping programs.

Handle household waste carefully — Recycle or properly dispose of toxic products, including pesticides, paint, solvents and used oil. Don't pour them onto the ground or into storm drains. Use green cleaning products.

Green Grass and Clear Water

Many of us value having nice lawns and enjoy the time we spend working on them. However, some lawn care practices can create water quality problems. Plants need nutrients to grow, but excess nutrients, including the nitrogen and phosphorus found in fertilizers, can run off our properties when it rains and cause problems in local waterbodies. Too many nutrients in our water can trigger algal blooms that cloud water and rob it of oxygen.

Here are some easy practices for creating and maintaining a truly healthy lawn that looks great and is safer for the environment!

- Test your soil! Only apply fertilizer when necessary.
- Apply fertilizer sparingly and ensure proper fertilizer application rates.
- Apply fertilizers in the spring and early fall when grass is vigorously growing.
- Select fertilizers with low or no phosphorus unless a soil test indicates otherwise.
- Apply organic fertilizers if possible.
- Choose slow release fertilizers when possible.
- Try not to apply fertilizers near waterbodies.
- Don't overwater. Typically, 1-inch of water per week applied over 1 or 2 days is enough.
- Mow grass no shorter than 3" high.
- Cut grass often enough so you never remove more than 1/3 of the blade at a time.
- Leave the clippings after mowing so they can return nutrients to the soil.

Using these water-quality friendly lawn care and fertilizer recommendations is a small change that can make a big difference.
