

Public Access Cable PAC

FY27 Budget Presentation

Jo Toale, Manager, March 5, 2026

Department Overview

Key Services

PAC Provides:

- Coverage of 20 board/committee meetings
- Recording of Town events, presentations and concerts
- Broadcast of several LHS home sport games
- Maintains social media, including YouTube Channel videos
- Produces original local programming in studio
- Responds to special requests from Town Departments; informational sessions and announcements

Organizational Structure

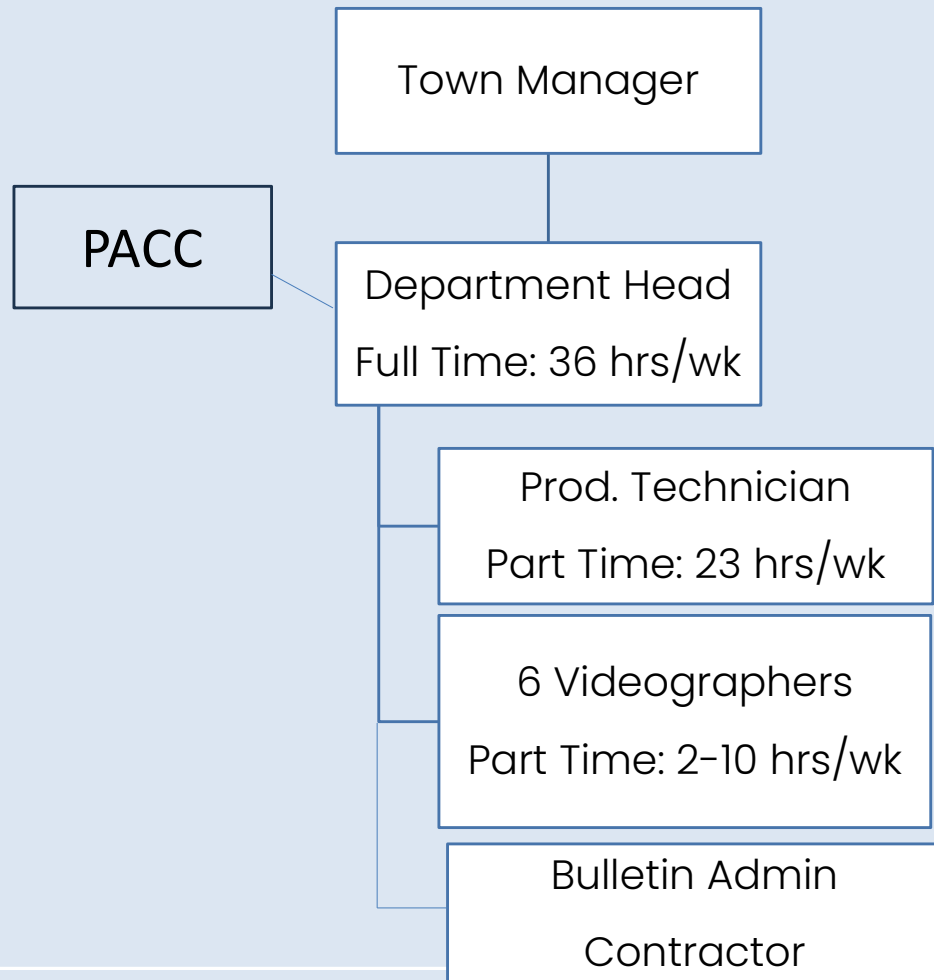

Staffing Overview

PAC Town Department Head reports to the Town Manager and supports the Public Access Cable Committee (PACC).

Under the Department Head is the Production Technician, 6 videographers and the Bulletin Administrator.

The Production Technician manages equipment maintenance and tracking, studio production and administration, and support and training of videographers.

The Bulletin Administrator is a contracted position, managing bulletin requests and postings on all channels.

FY27 Summary & Recap

PAC has experienced a decline in revenue from Comcast over the past two years and has had an increase in hours providing services to the town. Special government presentations, informational sessions, and meetings are on the rise causing a spike in videographer and production hours. Due to this growing number of recording requests, resources are stretched thin with few options. PAC has reached a crossroad, where it has become important to make immediate and necessary decisions to ensure its future.

Moving forward, considering the decline in revenue, PAC will need to seek alternative revenue sources including Town resources, or a reduction in personnel and/or their hours. A lower headcount will result in a shift in priorities away from content produced locally for the Public and Education channels. Therefore, there would be no coverage of popular concerts, sports, events and presentations. The Government channel would attempt to remain at a level service, whether staff is cut or the Town assists in funding PAC, as all available resources would be used for government meetings.

Funding assistance from the Town would help us maintain level services on all channels, Public, Educational and Government (PEG). In addition, unfunded media channels such as YouTube and Facebook could continue to be available. Having the Town supplement the budget would mitigate the shortfall in Comcast revenue and essentially give the Town a stake in PAC's overall health. PAC could therefore continue to provide local programming to keep the community entertained, informed and updated. Without the Town's participation in contributing funds, PAC's mission and current service levels may not be fully realized.

THANK YOU!
